

Draft Visionary Network

The Visionary Network -- the draft future bus network that better meets our region's needs - was developed using public input, analysis of the existing bus system, data about where and how people travel, and planned and existing socio-economic characteristics of the community. This draft network, built in coordination with our jurisdictional partners, connects the region, improves the customer and operator experience, and builds equity across the region.

The Bus Network the Region Needs

More service all day/all week

Expanded Frequent Service Network

Increased crosstown and cross-county connections

Connect key destinations, including transit hubs, with direct, frequent routes

Extending service beyond jurisdictional borders
