NARRATIVE

On December 12, 2001, the Board of Directors approved the initiation of a procurement to contract with a primary and secondary temporary employment agency to place temporary personnel within the Authority. The current contract ends June 30, 2006. On March 17, 2006, the Board of Directors approved the initiation of a procurement to contract with a primary and secondary temporary employment agency to place temporary personnel within the Authority. Temporary personnel are routinely requested by the Authority departments to support special projects and departmental staffing shortages as the result of employee absences due to: short/long disability, leave of absence and vacations. When requested by departments, the Office of Human Resource Management and Services will obtain temporary personnel from temporary employment agencies to fill vacancies as described above.

The requests are for secretaries, word processors, clerk typists, data entry clerks and some specialized titles such as buyers, accountants and attorneys. In order to have the appropriate temporary staff readily available when requested, it is recommended that the Authority engage the services of primary and secondary temporary agencies. A competitively negotiated bid is best suited for this program because of the necessity to evaluate proposals in such areas as past performance, company experience, characteristics of the temporary employee pool (database etc.) and experience of the project managers assigned by the employment agencies to handle this account.

Alternative: Discontinue temporary staffing support for the Authority.
