CAPITAL FINANCES

• Revenues

Revenues received to date for the FY 2009 capital budget total \$462 million. The fourth quarter State and Local Contributions were received, totaling \$159 million. Short-term debt balance is \$30 million (\$50 million was issued and \$20 million was paid toward the balance). Note, the Federal grants are \$15 million higher than anticipated in the FY 2009 approved budget. Thus, to balance the budget, Debt Issuance was reduced.

Costs

The current approved capital budget for FY 2009 is \$617 million. Note, the FY 2009 approved budget was increased by \$89 million due to the annual roll-over of unexpended budget. Capital spending through June is as follows: \$537 million has been obligated, and \$391 million has been expended. The appendix includes budget and spending data for each capital project.

Capital Revenues			FY	2009

• Projects

MetroAccess Van Procurement

All 90 vehicles of the \$5.0 million MetroAccess capital allocation were placed into revenue service by June 30, 2009

Funding for twenty (20) additional vehicles under an extension to the Virginia state contract has been drawn from the approved FY 2009 capital budget that includes provisions for replacement and expansion vehicles in accordance with the recently adopted MetroAccess Fleet Plan. Deliveries began in late July due to production delays. Fifteen vehicles have been delivered as of August 31, with the remaining five are expected by September 3, 2009.

Funding for eighty (80) vehicles has been allocated under the American Recovery and Reinvestment Act of 2009 (ARRA). Contracts were awarded July 16, 2009. Vehicle production has commenced, with deliveries anticipated to begin mid-December 2009 and continue through January 2010.

Bus Procurement

Through June, Metrobus has received 68 buses in its procurement of <u>203 diesel-electric hybrid buses</u>, which is 22 buses behind schedule. This \$125 million procurement with New Flyer of America, Inc. includes 161 42-foot buses, 22 62-foot articulated buses, and 20 37-foot buses. New Flyer maintains that all 203 buses will be delivered by October 4, 2009.

Passenger Facilities

Testing has been completed on precast concrete paver tiles at the Takoma Metrorail station on the Red Line, to replace the original quarry tile surface adopted during the original construction of the rail system. Because of the importance of maintaining the unique "look" of Metrorail stations, the new tile features the same terra cotta color and hexagonal shapes with a longer square paver.

Testing has shown that the new precast concrete paver tiles are the safest and most economical solution for Metrorail station floors and platforms. The tiles have proven to be more durable, which will result in lower maintenance costs. They are also not as slick when wet.

These new tiles will be installed at other stations as part of the ongoing platform rehabilitation program. The new tiles will be used in the construction of all future Metrorail stations.

During May, major repairs were completed on three <u>station escalators</u> in the Metrorail system: Columbia Heights (unit 3), Farragut West (unit 1), and Wheaton (unit 2). Major repairs began at two stations: Pentagon (unit 8) and Smithsonian (unit 1), and continued at two stations: Congress Heights (unit 4) and Smithsonian (unit 2). Rehabilitation and modernization of three station escalators began in May at Friendship Heights (unit 8), Gallery Place-Chinatown (unit 15), and Medical Center (unit 5), and continued on three other units: Ballston-MU (unit 8), Court House (unit 4), and Crystal City (unit 3). Additionally, rehabilitation and modernization of five station escalators were completed at Archives (unit 4), Clarendon (unit 8), Friendship Heights (unit 1), Gallery Place-Chinatown (unit 7), and Georgia Avenue-Petworth (unit 1).

Metrorail <u>station enhancements</u> were completed at the Archives, Braddock Road, Cheverly, Federal Triangle, Georgia Avenue, New Carrollton, and New York Avenue stations in June. Station enhancements included repair of paver tiles, painting of exterior metal work, repairing graphics, re-bronzing of escalators, elevators and hand rails, repair of track bed light grates, painting of textured ceilings, and painting of ancillary rooms. In addition, station enhancements were ongoing at the Eisenhower Avenue Metrorail station, as well as at the Franconia-Springfield and Huntington Parking Garages.

Track Maintenance

Switch replacement work was completed entering the Brentwood Yard. Track fasteners were replaced and tunnel repairs were made on the Red Line between Van Ness-UDC and Dupont Circle Metrorail stations. Cracked rails were replaced near the West Hyattsville and Grosvenor-Strathmore Metrorail stations on the Green and Red Lines. Track was replaced between Ft. Totten and Prince George's Plaza Metrorail stations. Bridge maintenance was conducted on the aerial structure outside the Stadium-Armory Metrorail station on the Orange Line. Rail tracks were tamped to ensure durability on the Blue and Yellow Lines between Braddock Road and Van Dorn Street (Blue Line) and Huntington (Yellow Line) Metrorail stations. Cross-ties were replaced on the Orange Line between the Vienna/Fairfax-GMU and West Falls Church-VT/UVA Metrorail stations.

OUTSTANDING DEBT

Metro's outstanding debt as of June 30, 2009 is \$512.1 million, as shown in the table below.

The Series 1993 and 2003A bonds were issued to fund the Rail Construction program. These bonds are being repaid by semi-annual debt service payments from the jurisdictions. This \$27.5 million annual debt service expense is reported as part of the operating budget and is always included on subsidy allocation tables.

The Series 2003B bonds were issued to increase funding for capital rehabilitation and maintenance of elevators and escalators. The debt service expense is being paid from passenger fare revenue. The FY05 fare increase set aside \$6 million per year in revenue to fund the debt service expense. These amounts are reported as part of the capital budget.

The Series 2009A and 2009B bonds were issued to (i) pay off all of the \$314.5 million in outstanding principal and interest due for Commercial Paper, and (ii) finance the capital cost components of the Metro Matters Program. The annual debt service expense will be paid by the jurisdictions that opted into the bond issuance. The \$21.2 million annual debt service expense is reported as part of the capital budget and will be included on the subsidy allocation tables.

	June 30, 200)9	
Debt Type	Outstanding	Annual	Maturity
(dollars in million)	Principal	Debt Service	Date
Bond Series 1993	\$22.2	\$11.8	FY2011
Bond Series 2003	\$87.7	\$15.6	FY2015
Subtotal	\$109.9	\$27.5	
Bond Series 2003B	\$11.1	\$5.9	FY 2011
Bond Series 2009A	\$242.7	\$18.7	FY2033
Bond Series 2009B	\$55.0	\$2.5	FY2035
Subtotal	\$297.7	\$21.2	
Internal Borrowing	\$93.4	n/a	Multiple
Wachovia LOC	\$0.0	Varies	May-10
Subtotal	\$93.4		-
Grand Total	\$512.1		

The Commercial Paper Program was retired during June 2009 with proceeds of the Series 2009A bond issuance and a portion of the jurisdiction opt out receipts. A \$100 million line of credit (LOC) from Wachovia further supports Metro Matters. In addition, during the month of July, the Wachovia LOC was increased to \$125 million and we entered into a \$125 million line of credit with Bank of America. Additionally, there is internal borrowing to meet the cash flow needs of capital expenses.

Definitions

Budget: The current fiscal year's total planned cash payout.

Obligated: The portion of the current fiscal year's budget for payment against awarded contracts, plus the respective labor cost.

Expended: The actual cash payout that has occurred to date in the current fiscal year.

Unexpended: The difference between the planned cash payout and the actual cash payout that has occurred to date in the current fiscal year.
