me to live in a zero-car household in DC, which would not be possible with inferior service. Metro should use the land around the metro stations that goes for parking to instead more lucrative things like dense business, housing, and have some of the revenue go to them! Service cuts will mean more people use cars, leading to traffic and grid lock, road fatalities and waste. Disallow people from getting on bus if they don't pay. Metro I don't know why no one there can properly read the room. I rarely take Metro anymore- and it's not totally about the rates, but let's start there. It's simply stupid that Metro constantly threatens to hike rates. Just a few months ago, Metro increased late-night service, and not long before that, Metro introduced the \$2 weekend fare; now, they're threatening to undo all of that. Did no one there do the math before it was introduced? It shouldn't take a genius to have read the writing on the wall and not reduced it to \$2 in the first place: If it needs to be \$2.50 now, it could've been \$2.50 then. In my opinion, Metro likes to have constant threats to service cuts and fare hikes for the sole purpose of coercing more funding without budgeting accountability, knowing that most of the jurisdictions will eventually pony up more money. And then there's the legacy of lies. For example, when SmarTrip was introduced, we were promised 3-hour transfer windows, 1 ride debit allowance, etc, etc. None of that lasted very long. The 2-hour transfer window is especially annoying when trains and some bus routes (eg the R4) are constantly off-schedule and can easily add another hour to transit time; in 'the old asy' the drivers could address this when they knew they were late, but the SmarTrip system just throws a big middle finger. And that's another thing I don't understand: With all of this technology and GPS, etc., why doesn't the system know when it's behind and automatically deal with me having to overpay due to your operational inefficiencies? You want to invest in somethi

Did no one there do the math before it was introduced? It shouldn't take a genius to have read the writing on the wall and not reduced it to \$2 in the first place: If it needs to be \$2.50 now, it could've been \$2.50 then. In my opinion, Metro likes to have constant threats to service cuts and fare hikes for the sole purpose of coercing more funding without budgeting accountability, knowing that most of the jurisdictions will eventually pony up more money. And then there's the legacy of lies. For example, when SmarTrip was introduced, we were promised 3-hour transfer windows, 1 ride debit allowance, etc, etc. None of that lasted very long. The 2-hour transfer windows, 1 ride debit allowance, etc, etc. None of that lasted very long. The 2-hour transfer windows is specially anoying when trains and some bus routes (eg the R4) are constantly off-schedule and can easily add another hour to transit time; in 'the old days' the drivers could address this when they knew they were late, but the SmarTrip system just throws a big middle finger. And that's another thing I don't understand: With all of this technology and GPS, etc, why doesn't the system know when it's behind and automatically deal with	Bus Service Operating Budget, Management and Spending Rail Service MetroAccess
me to live in a zero-car household in DC, which would not be possible with inferior service. Metro should use the land around the metro stations that goes for parking to instead more lucrative things like dense business, housing, and have some of the revenue go to them! Service cuts will mean more people use cars, leading to traffic and grid lock, road fatalities and waste. Disallow people from getting on bus if they don't pay. Metro Too Too totally about the rates, but let's start there. It's simply stupid that Metro constantly threatens to hike rates. Just a few months ago, Metro increased late-night service, and not long before that, Metro introduced the \$2 weekend fare; now, they're threatening to undo all of that. Did no one there do the math before it was introduced? It shouldn't take a genius to have read the writing on the wall and not reduced it to \$2 in the first place: If it needs to be \$2.50 now, it could've been \$2.50 then. In my opinion, Metro likes to have constant threats to service cuts and fare hikes for the sole purpose of coercing more funding without budgeting accountability, knowing that most of the jurisdictions will eventually pony up more money. And then there's the legacy of lies. For example, when SmarTrip was introduced, we were promised 3-hour transfer windows, 1 ride debit allowance, etc., etc. None of that lasted very long. The 2-hour transfer windows is especially annoying when trains and some bus routes (eg the R4) are constantly off-schedule and can easily add another hour to transit time; in 'the old days' the drivers could address this when they knew they were late, but the SmarTrip system just throws a big middle finger. And that's another thing I don't understand: With all of this technology and GPS, etc., why doesn't the system know when it's behind and automatically deal with me having to overpay due to your operational inefficiencies? You want to invest in something that 'II support? Invest in that. Not in rap like the purple line. Perhaps increase individual trip fares by more than the passes, to incentivize and reward regular use. Also, given the rise in hybrid work, offer pass options that are worth it for those commuting 2-3 days a week, rather than the existing passes that only cater to the old world of everyone going in 5 days. Also raise the weekend prices back up, \$2 is too much of a steal. Please avoid making any big changes to Metro Access. price increase with in reason is fine. Many people riding Metro Access find change very difficult and if training services are not available might be unmanageable Please charge the drivers of cars more money to travel in the city. This will increase people riding public

Comment	Category
Please do not close the Franconia Springfield station, the station is becoming increasingly popular.	Category
There are rumors that this station may close in the future	Rail Service
Please do not close the Grosvenor/Strathmore metro station, as that is the station closest to my home.	
I would not be happy with fare increases or the reduced frequency of trains, but I would probably still	
use Metro even if these things occurred because I value the convenience of taking the Metrorail into Washington, DC, over driving and parking in the city.	Rue Carrier
Please do not cut hours of operation. The creation of 24/7 bus service this year was a great step	Bus Service
forward and one I hope to see coming soon to metro rail!	Bus Service
Please do not cut service unless effect on ridership is minimal to avoid service death spiral. In some	
cases, increasing frequency could boost revenues and ridership (as evidenced by busses in suburban	
Toronto), so please investigate. Please also raise revenue by aggressively selling/leasing land around	
matrix stations, including building on top of bus bays (e.g. Brookland station). Please also reclaim revenue/improve customer experience through fare and rule enforcement - in some cities (e.g.	
Philadelphia), smoking has become rampant - please ensure this does not happen here. Thank you!	Bus Service
Please do not decrease bus service in the Northeast and Southeast quadrants. It is extremely hard to	
navigate from those quadrants to elsewhere without dependable, consistent bus service, especially the	
D4, D8, 96 and 80 lines.	Bus Service
Please do NOT drop both the 63 and 64 routes between federal triangle and Georgia Avenue. This is an important route. You can decrease mid-day service and keep one of the two lines. Thank you.	Bus Service
Please do not eleminate L8. IT IS THE ONE TO TAKE ME TO WORK.	Bus Service
PLEASE DO NOT ELIMINATE OR REDUCE THE D6 ROUTE FROM STADIUM ARMORY TO METRO CENTER.	
THIS IS A VITAL DOWNTOWN TO RESIDENTIAL CONNECTION USED BY CAPITOL HILL AND HILL EAST	
RESIDENTS TO ACCESS DOWNTOWN JOBS AND SHOPPING.	Bus Service
please do not eliminate the cross-town 96 bus or eliminate Sat/Sun service on N2, N4, N6 - these are	Bus Service
vital!! Please do not eliminate the E2 on weekdays! This is how my sons get to school. I would rather pay a	Bus Service
reduced student rate (rather than have Kids Ride Free) but keep the bus line running.	Bus Service
Please do not eliminate the G8 weekend service! It is the best way for folks in the Brookland area to	
access nightlife in Shaw on the weekends. In fact, especially if the line is shortened to eliminate access	
to Metro Center/Mcpherson, I imagine a primary use of this line would be to access	
nightlife/restaurants/etc. It is also most appealing as a bus line on the weekends because you don?t have to deal with the Rhode Island Ave traffic (I tend to only take it in non rush hours because of this	
traffic)	Bus Service
Please do not eliminate the H6 bus. The other buses on that route (B8 and B9) were already eliminated	
in the last round of cuts. It is the only bus line that serves the Langdon Community. It provides direct	
access to the metro and schools for many families and employees. The next closest bus routes near this	
neighborhood are up steep hills that some of our neighbors who have disabilities will struggle to	
access. This bus line connects the Woodridge/Langdon/Brookland communities, and allows these neighbors to access the restaurants and businesses along 12th Street in Brookland without burdening	
the neighborhood with more cars. In addition, this bus line provides access for these neighbors to the	
Brookland farmers market, the closest local farmers market, on Saturdays. This bus line is often busy	
and should not be eliminated.	Bus Service
Please DO NOT eliminate the River Road T2 bus route or reduce hours. I rely entirely on this bus route	
to get to Rockville as well as other areas on route.	Bus Service
PLEASE DO NOT GET RID OF THE 96 PLEASEEEEEEEE PLS PLS Please do not get rid of the J12 bus route. I depend on that bus route to take me to school, work,	Miscellaneous
grocery store etc almost every day and it is closest to my neighborhood where it does not require me to	
walk down the street when it is unsafe at night or very early in my morning while dark. I have been	
robbed at gunpoint TWICE due to having to walk further away to/from my house. Also, A12 is the most	
dependable bus service I know and reducing it?s hours and frequency would be detrimental to me as I	
use it to save money not having to take the train to new Carrollton station which, I also use to take	
another bus to Bowie state university which in turn saves me a tremendous amount of money with the little money I do earn at the moment. Thank you.	Bus Service
Please do not let the system close any earlier than it already does, there are so many people in this city	
who do not work from 9-5 on weekdays. I usually get off work at midnight and just barely make the last	
train and there are so many other people like me. More people would use the train late at night if it	
were an option.	Rail Service
Please do NOT lower frequency of silver line trains. Since silver line opened to Dulles, it is	
uncomfortably packed during rush hour everyday. Please do not reduce service. I cannot afford for the price to increase and this is my only mode of	Bus Service
transportation	Service Levels
Please do not remove the 42/43 service on weekends or end metro rail hours at 10pm.	Rail Service
Please don?t cancel the D6 (or 96). We use them to get to work, as well as many kids use them to get	
to school.	Bus Service
Please don?t cut the M4, or any of the other bus lines that are used to transport students to Deal and Jackson-Reed	Bus Service
Please don?t cut the T2. It?s my only bus option to get to Giant.	Bus service Bus Service
Please don't make public transit less available or affordable. Neither will encourage ridership. Making	
public transportation cheaper and more reliable is the only thing that can encourage more riders and	
fewer cars.	Miscellaneous

most of the US. Please don?t remove the routes T2 and L8 especially the T2 I am a student and I have no other way to	Bus Service
get to school!!	Bus Service
Please don?t take out Hyattsville Crossing	Miscellaneous
Please don't cancel the D6. It's the only metrobus I use!	Bus Service
Please don't close so many stations and lines, I don't want a death spiral :((Rail Service
Please don't completely cut bus lines. Reducing time between trips would be better. Please don't close	
any Metro stations. I think completing cutting service would impact low income neighborhoods. For the bus line I use to commute (17M/17B), if the route is cut, I'll have no option but to buy a car and	
stop using Metro altogether. The more cuts you make the less people will use Metro.	Bus Service
Please don't cut the service of the D6 bus. It's the only public transportation connection in my	
neighborhood. The metro station is not within walking distance.	Bus Service
Please don't cut, reduce or jeopardize the N2, N6 or 33 bus lines. I take them to doctor appointments,	
museums, shopping, etc. The two stops closest to me were eliminated recently when bike lines were installed on New Mexico Avenue NW (N2 and N6 at Lowell and at 42rd Streets). Residents got no notice	
installed on New Mexico Avenue NW (N2 and N6 at Lowell and at 43rd Streets). Residents got no notice the stops would be taken away. I now have a farther walk either uphill to Macomb (a difficult climb for	
health reasons) or a longer walk downhill to Cathedral Ave. and New Mexico. I also use the 33 bus	
many times. If you eliminate the N6 on Saturdays, that would cut me off from getting places on	
weekends, since the N2 doesn't operate on weekends. Please don't do that. Thank you for your	Bus Service

Comment Please don't decrease servie on Metrorail and Metrobus to such an extent that people will prefer cars	
Please don't decrease servie on Metrorail and Metrohus to such an extent that people will prefer cars	Category
to public transport. For example, by taking out the 96 and D6, you are cutting off Capitol hill from the	
red line for people who are not right near an orange line metro station.	Bus Service
Please don't increase the fares especially of metrorails. If you increase atleast provide student	Fares/Fees/Parking
Please don't put more cars on our roads. Find a way to keep the buses going. they are a lifeline for so	Rus Sanisa
many	Bus Service Miscellaneous
Please don't raise the faire	Miscellaneous Rail Service
please don't reduce or eliminate stops on green and red line	
Please find a way to keep metro?s service intact Please get funding from literally any other source, like the privatized health industry or something	Rail Service Capital Budget
Please increase the operations efficiency over fare increase or service cut.	Bus Service
Please just leave the metro the way it is. There has been no problems so farincreasing the fare and	Bus service
changing bus routes is silly and unnecessary.	Bus Service
Please keep me service to Fy. Washington, MD. I can't afford Lyft and Uber every day. If anything,	Bus service
please consider increasing service because the bus stops so early. And consider adding weekend	Bus Service
Please keep the 96 and d6 bus routes they are heavily used by DCPS and DC charter students to get to	
and from school. DCPS has no school buses - these routes are critical for our kids to get to school	Bus Service
Please keep the 96 bus route. It?s critical for the workforce, women?s shelter, and jail. Also, an added

critical access to the greenways by the river for outdoor recreation.	Bus Service
Please keep the G2!!!! My chariot! My trusty steed! Bus of my heart, bus of my dreams.	Bus Service
Please keep the T2 route!!!	Bus Service
Please keep the trains running often and late nights. Thank you or you?all	Rail Service
please no fair increases, it's already pretty pricey as it is on the daily. as a daily traveler to ashburn the	
metro fairs hurt my pockets as is	Rail Service
Please pay for service by reducing fare evasion. It's not fair to increase rates for the minority of law	
abiding patrons while most people don't pay. We're tired of government support for criminals. This city	
government is absolute trash	Fare Evasion/Safety/Crime
PLEASE PLEASE do not make changes to the D6 bus, on which many children and adults rely on a daily	
basis. It's a fantastic route that goes from Capitol Hill through many neighborhoods and areas where	
people work, visit, or otherwise travel.	Bus Service
Please please make either the 31 or 33 an express bus - it takes forever to get downtown!	Bus Service
Please start a campaign to call on congress to change the Metro charter and allow it to carry a budget	
deficit so we don't have to deal with this nonsense	Operating Budget, Management and Spending
Please stop all of the free riders! I see people jumping over the entrance gates every day.	Miscellaneous
Please think about extending the Yellow Line to Fort Totten, instead of ending at Mt. Vernon	Miscellaneous
Please, do everything you can to stop this. I love metro and I cannot have the fares increase OR service	
decrease.	Fares/Fees/Parking
Please, please do not cut the D6. I take it to work daily and we take it downtown on the weekends all	
the time. That bus is full every time. It?s a link for everyone in hill east/RFK that would be sorely	
missed. Half the time I take the bus the fare swiper machine is broken. I and everyone else on the bus	
would gladly pay but there?s no way to do so. Now the proposal is to take away our service when	
we?ve been supporting metro and wanting to pay for our rides! Please find other solutions besides	
cutting off the only way working folks and kids can get to work and school.	Bus Service
Pls don't remove R12	Bus Service
pls keep clarendon	Miscellaneous
Please do not increase the price, or remove routes	Bus Service
Because buses are not passing at the time that passed the arrival at work before Prioritize keeping routes to low-income areas. Discourage use of cars in the city.	Bus Service Bus Service
Public transit should be accessible, physically and financially.	Operating Budget, Management and Spending
Public transportation is critically important infrastructure and a key environmental justice issue. To

I notice there are significant number of free riders that would just jump out of turnstile entry and exit - this should be controlled better - probably with a higher barrier to capture more paid public transportation. For metro bus, I notice frequent out of order payment machine - another reasons payment is not recorded properly. What a shame that we are going to be without that service Do not lower the subway functions R1 R2 and C8 are the only bus by where I live, so will be sooo bad if they cut them. So please consider people like me staying around here and not driving it be bad for us because that's how I go to work, go my doctor's visits and my groceries. Thanks R2 Bad weekend services Raise parking at metro stations higher than 20% Raise the minimum wage because this increased on our fare will affect low income families. Raising prices is an unfortunate reality of this inflationary environment. For lower income folks, it's	Bus Service Service Levels Miscellaneous Bus Service Bus Service Fares/Fees/Parking Fares/Fees/Parking
public transportation as much as possible. This includes expanding (not reducing) service as well as motivating citizens to choose public transit as opposed to private cars. The costs of not investing in public transportation will be huge - in terms of people's health as well as the stability of our climate. Our nation's capital needs to be a shining example of great, accessible public transportation - drastic service cuts and station closures are simply not the way to go. Metro and its regional partners/funders need to work together to fully fund Metro. There are numerous places this money could come from; astronomically high police budgets could be reduced, higher taxes on private vehicles or on gasoline could be implemented, etc. Please prioritize the current and future health and well-being of DC residents by preserving and expanding Metro service. Public transportation should be reliable with good frequency to attract public transportation. For metro bus, I notice frequent out of order payment machine - another reasons payment is not recorded properly. What a shame that we are going to be without that service Do not lower the subway functions R1 R2 and C8 are the only bus by where I live, so will be sooo bad if they cut them. Comment Category Riders already face many buses that don't show up as scheduled. A 20-minute wait becomes 40 minutes, 30 becomes 60, etc. By reducing service, you risk losing riders. Many riders don't feel safe riding either Metro rail or bus at night or in isolated spots during the day due to concern about street crimes. From a practical point of view, why cut routes when more workers are returning to the office? The city needs to put better lighting on the streets. What will the fares be? What about workers like health care (hospital), security guards, cleaning staff, and other workers are returning to the office? The city needs to put better lighting on the streets. What will the fares be? What about workers like health care (hospital), security guards, cleaning staff, and other workers who must work very early or late hours? What is the city doing to improve security in stretches of unoccupied office buildings that workers must pass on dark streets to reach their destination? Metro has announced closures we face this summer for rail service; immediately, it should announce the bus routes that will substitute, the protes, and frequency. Silver, Spring statin closing 3-4 months? What's the plan? When buses move about our city streets, they keep areas from being deserted. Fewer buses mean more deserted and dafrk streets. Please don't cut services. WMATA needs to hold meetings to see whether riders have some logical solutions to routes and the location of stops. Rush hour and Metrorail car cleanliness are tops in my book. Bumping my \$4.00 to nearly \$8 isn?t Safety First] Set*** Metrono, really, S**** Metrol! They threaten this 'nuclear option' EVERY year: drastic reductions, drastic, drastic, drastic, crastic. Everything inexorably framed as drastic. So I've taken it to its logical extreme and supported EVERY cut and EVERY reduction that the sophists in Metro's 'How Can We Postion This Trojan Hors' To Try'I'N Justify Every Budgie	
minutes, 30 becomes 60, etc. By reducing service, you risk losing riders. Many riders don't feel safe riding either Metro rail or bus at night or in isolated spots during the day due to concern about street crime. If you cut service, you leave riders waiting longer and increasing vulnerability as target for crimes. From a practical point of view, why cut routes when more workers are returning to the office? The city needs to put better lighting on the streets. What will the fares be? What about workers like health care (hospital), security guards, cleaning staff, and other workers who must work very early or late hours? Service cuts are counter productive and lead to a ?doom loop.? Obviously, there needs to be a balance and fares can?t stay the same forever, but as much effort as possible needs to be focused on keeping	
and rares can't stay the same forever, but as much errort as possible needs to be focused on keeping service frequent. Bus Service	
Service uses will dramatically effect the entire DMV community that uses Metro and make the daily	
Jero de cuis vin d'annaucarjene cui e entre come commune vine des vieco ano index en ca dany lives of people who rely on Metro?s service very difficult. Please de lo not decrease train frequency as	
many trains are crowded at certain hours and this will also increase risk for covid-19 among other many trains are crowded at certain hours and this will also increase risk for covid-19 among other Bus Service	
Service cuts will drastically disrupt the use of the metro and metro bus. Cutting off the two only bus	
routes available to me (22A and 22F) which are consistently busy at rush hour times is not the answer. Bus Service	
Service cuts would be a severe burden on people?s ability to get around the area for anything other	
than commuting to work. My decision to use transit is largely driven by my confidence in being able to	
get a bus or a train without waiting too long. I would prefer fare rises by far - so long as low-income	
riders still retain access to lower fares. Bus Service	
Service cuts would be disastrous for the system, which is finally operating at basic functionality after	
years of issues. Metro frequencies of 10+ minutes do not constitute rapid mass transit, and would	
significantly impact ridership and competitiveness vis-a-vis cars. Bus route cuts, in particular crosstown	
routes which make up for a lack of crosstown metrorail service, would drive more and more	
Washingtonians into rideshare and personal vehicles. Blus Service	
Service decreases would lead to larger infrastructure problems Fare Evasion/Safety/Crime Fare Ev	
Service on the Blue line is already less frequent than other lines. Fares already went up. Focus on providing safe frequent service not the potbelly in your HQ or fancy signage. Fares/Fees/Parking

MacArthur high school. The 30s line as well is used by students attending Hardy. Changes in service will	
affect my sons ability to take the bus to school next school year. If you eliminate the N6 route on the	
weekends, than many apartment and condo buildings in whole neighborhoods will not have access to	
bus service at all on the weekends. They cannot walk the half mile to a mile to buses on Massachusetts	
avenue or Wisconsin Avenue. The m4 is the only way some can travel to Sibley Hospital from the Tenley	
town metro station. These are all vital routes in our community and removing them makes it harder for	
those most in need of using the routes the elderly, students, and those with disabilities from being able	
to get where they need to go safely. Bus Service	
public transports are very late Bus Service	
So many comments 1) Crime and safety. If we don't feel safe, then we won't use WMATA. The agency	
has to END all fare evasion. Why must we subsidize criminal activity and have to pay higher fares?	
Those who commit crimes in the metro system are most likely not paying a fare to do soAlso, there need to he undercover security natrolling stations, bus, natforms, riding the trains, and narking	
needs to be undercover security patrolling stations, bus platforms, riding the trains, and parking garages at all times of the day. On my last train ride, there was a gentleman on the train with a 9	
garages at an turnes of the day. On my last train note, there was a generation on the train with a 9 month old cane Corso puppy (a giant of a dog) that was leaning against my leg as I sat down. I	
Information care corso puppy (a giant or a dug) nat was realing against my reg as sat down. I definitely feel less safe now that people are bringing all sizes of person object intains. This was not a	
Service/emotional support animal (he told me so). We had two dogs and would never ride with them	
on the train and unleashed like this owner. 2) Bus arrival times need to be more accurate and good	
spacing is important. Two H8s shouldn't be right behind each other with one running mostly empty. 3)	
Didn't see this question in survey, but I remember one about using fewer rail cars per train to keep	
costs down especially during non rush hours. I'd be okay with this. I'm also okay with running fewer	
buses at low demand times to save money. 4) When considering new 'greener' technology, also	
consider associated costs like tire wear (and road damage) due to heavier buses with large battery	
packs, as well as the need to regularly recharge these buses throughout the day and the battery	
degradation during weather extremes. Making severe cuts or enacting huge fare increases will be a	
death knell for WMATA. Please if you NEVER do anything else, please improve undercover surveillance	
for crime in and around stations. UNDERCOVER is the key word here. Service Levels	
Some MetroAccess riders have few options other than MetroAccess. Paying more for this service is a mean-metho existing or a neared to exiting consider the service of the	
reasonable solution as opposed to cutting service. MetroAccess Some of these proposals cut of vulnerable parts of the city, where the economic impact on a limited	
Some of these proposals cut of valuerable parts of the city, where the economic impact on a immute of people can be huge. There needs to be more buses that are direct routes downtown – eg	
Turning or people can be ruge. There needs to be rule buses that are unext routes downtown – eg T14, T18, 86, 83 – one of those should go downtown.	
Start by getting people to pay now, I ride the bus I notice that almost nobody pays for the ride. And	
driver new rays anything. So I sometimes don't pay Bus Service Bus Service	
Start enforcing fares instead of letting people jump over while station employees watch & do nothing. Fares/Fees/Parking	
Still saity the bus isn?t free. Stop wasting money on fare evasion deterrence be we all know that?s not	
where the majority of your money is coming from Bus Service	
Still too many people evading fares in the system. Even the new gates aren?t working as well as they	-
should. Stricter enforcement, higher fines. Fares/Fees/Parking	
stop being so bad with money and make gate jumpers pay their fare Fares/Fees/Parking	
Stop changing the gates and just lower the price of the metro and dc residents will actually pay for it.	
People jump the gates because it is too expensive, not because they hate the metro. Fare Evasion/Safety/Crime

Commont	Catazani
Comment Stop fare jumping and enforce fare rules for all riders. I see fare jumping literally every time I use a bus	Category
or train.	Bus Service
Stop raising the price and keep trains clean and keep trains running consistently	Rail Service
Strongly opposed to any weekday reductions to the S2. As it is, the S2 busses are occasionally full and	
unable to pick up additional passengers during peak rush hours. Decreasing service would further increase uncertainty as to whether the bus will pick up passengers, making it useless for commuters.	Due Comise
Substantially reducing the viability of taking metrorail and metrobus will push people to change their	Bus Service
behavior and risks permanently lowering WMATA ridership, sending WMATA into a death spiral. I hope	
that WMATA is able to secure the funding so that these cuts are not necessary, but if cuts are necessary	
I strongly hope that WMATA prioritizes reliability of service over extending the reach of WMATA	
services (so, reliable service for fewer hours rather than less frequent service over longer hours).	Bus Service
T2 is a vital public transportation route for areas of the city to reach high-paying jobs in the suburbs	Bus Service
Thank you for all the hard work to manage the budget and gather public input! As someone who cares deeply about transit and has actively used the Metro system for >15 years, even I found many of these	
questions very confusing. You'll get more-useful public input by providing more context and better	
questions. Do I agree with the \$2.6m budget? I have literally no idea, that's the only thing you told me	
about it! It's deeply depressing to see the proposed cuts to the L2, 42, and 43. We're still lamenting the	
loss of the L1; to further tear apart these channels is going to deeply reduce transit use for people along	
this corridor. (Also if the L1 isn't coming back, can you please remove the Metrobus-specific parking	
restriction signs along Connecticut?) I hope to see less investment in fancy bus stop islands and the like	
while we navigate this shortfall, so that we can maintain service frequency and ridership volume Good luck!!	Operating Budget, Management and Spending
Thank you for allowing the pubic to provide input and for working diligently to present the facts and	
options for all riders. The information is digestible and allowing us to provide input down to how public	
funding should be divided is particularly important. May the democratic process win. This is a shortfall	
impacting WMATA, your loyal riders, regional stakeholders and the businesses who depend on steady	
traffic and tourism for their livelihoods.	Bus Service
Thank you for the chance to give a feedback on the metro operation. I would like to mention that I use	
metro weekdays from Shady Grove do Dupont and DuPont to Shady Grove station. There are so many people using metro without paying for it, just jumping through the gates in front of station managers	
and police that simply do not care. It is very disappointing that you think about increasing costs up to	
25% for people who actually pay for using metro, and do exactly nothing to charge many people using	
but not paying. Hope you can and will address that big problem as well.	Miscellaneous
Thank you for the opportunity to complete this survey, however I don't think it was crafted well.	
BEFORE I'd support nearly any proposal in here, I want to see 100% fare enforcement, especially on the	
Metro. For many years I have seen scores of Metro riders skip paying. Often I am literally the ONLY	
PERSON paying the Metro fare - EVEN WHEN THERE ARE SECURITY and POLICE OFFICERS where the	
offenses are happening. THIS LACK OF ENFORCEMENT HAS TO STOP - THE NEW GATES/BARRIERS ARE	
NOT FULL-PROOF. Until fare evasion is enforced, it is unfair to the rest of Metro/WMATA riders to have services reduced and or completely ended. The survey needs improvement - for instance, there is no	
information provided to know where Metro/WAMTA needs more or less money for instance for	
improvements (so I just did 10% arbitrarily for each of the 10 categories).	Service Levels
Thanks for seeking public input on these issues. the central issues that would affect me are reduced rail	
service. Increased fares do not affect me because I receive a transit subsidy from work. I want to	
encourage Metro to continue its committment to the timeline for an all-electric bus fleet. This goal	
should not be abandoned. The 24-hour Metrobus service has been a blessing. It makes a huge difference that I can get home from	Bus Service
work at night without paying upwards of ten dollars for a ride share.	Bus Service
The 74 bus line is the only bus line that services buzzard point, which houses DC CENTRAL KITCHEN. We	
have over 300 employees working for the kitchen, along with students, volunteers, and visitors that use	
the bus regularly. Eliminating the 74 bus will be a huge inconvenience for all of the above individuals.	
Please reconsider eliminating this route. People rely on this Metrobus service to get them to and from	
work. Thank you.	Bus Service
The Authority moves this city. My coworkers & I work hard & deserve pay increases, better security, better equipment & better facilities.	Fare Evasion/Safety/Crime
the bus services already my busses never show up on time and the bus stops are abysmally bad	Bus Service
The Buses are not running by any schedule already. We need to get better updates on timing for buses.	
We need all our buses.	Bus Service
The changes who make it impossible to get to work and a major Fair increase to 7\$ dollars everyday	
who force me to stop using the metro bus.	Bus Service
The d6 The D6 and 96 routes are the two that run closest to my home, and both are lifelines for getting to	Miscellaneous
destinations downtown. The D6 in particular - whether it is designated as such or not - is de facto a	
school bus route that transports hundred of Capitol Hill students to schools located along the route	
(BASIS DC, for instance) or to points like Union Station where they transfer to the Red line or another	
bus for the final leg to school (Latin, for instance). Cutting these bus routes would have a hugely

The frequency and ease of the metrorail system is a significant factor in deciding to take the metrorail service.	Bus Service Bus Service Bus Service Bus Service Rail Service Bus Service Bus Service Guesting Budget, Management and Spending Fares/Fees/Parking

Comment	Category
The heck with the stingy politicians. I am sorry you are in this situation. Could you crack down on the	
fare evaders? It is so maddening to see them jump the gates, especially when I am aware of your	Converting Durdnet Management and Constitute
budget shortfall! The jurisdictions that metro serves need to put more money into metro in MD, VA, and DC. There	Operating Budget, Management and Spending
should be a permanent budget from all jurisdictions, yet again.	Operating Budget, Management and Spending
The Metro is a vital service that must be provided to the public no matter the cost. It supports low	
income groups who cannot pay for a car, car insurance, and parking. It takes vehicles off the road,	
decreasing congestion and lowering carbon emissions. People would take the metro more frequently if	
it was clean, safe, and well maintained. The Metro staff can and should learn from how other countries	
have implemented public transit resources with success. Contact staff members in public transit	
departments abroad. Call universities and ask them to put you in touch. Anything. It is vital that public	
transit resources continue to operate without delay. It is the future of this county. As the economic	
divide increases, more and more people will need to rely on public transit by economic necessity to get to their jobs or to school. Without reliable transport, people will fail to support themselves and	
maintain their responsibilities.	Fares/Fees/Parking
The metro shutting down at 10PM is going to severely affect nightlife and concerts, specifically. People	
are going to be less likely to attend these and bring their money into the DMV area, specifically into DC.	
It is also unfortunate that majority of people rely on the metro system to commute to work and get	
around the DMV area, and any cuts on metro rail services are going to affect that too. Many people	
who work at the NIH ride the red line in addition to other lines daily.	Rail Service
The Metro's T2 bus services a very large part of Maryland providing mass transit for neighborhoods that	
are increasingly densifying. Any reduction in its service will cause severe inconvenience and also push a	
lot of vehicles onto already crowded streets. The more Metro cuts service, the fewer people feel they can use it to efficiently go where they need to.	Bus Service
The fewer riders Metro has, the more services have to be cut. EACH JURISDICTION NEEDS TO FUND	
METRO ADEQUATELY TO STRENGTHEN THE SYSTEM!!!!	Rail Service
The more you cut lines, increase waits, and increase prices, the less people will use metro. It will impact	
our most vulnerable residents the most. Service workers need to get to work at off hours and on	
weekends. They cannot afford ride shares or taxis. Accessible public transport is a bedrock of our	
society. You need to figure it out without screwing over riders with higher fares and less access.	Fares/Fees/Parking
The progress in establishing safe and reliable service should not be lost through service cuts. Raise fares	
if necessary, and force DC to pay a higher share because DC laws against fare evasion are neither as	
strict nor as strictly enforced as those in MD and VA. And keep on the late night service that is a lifeline	
to the late night workforce and those who take the early bus to work.	Bus Service
The proposal to eliminate the G2 and completely gut the G8?s service are completely absurd. As a resident of Bloomingdale who works in the Dupont Circle area and takes regular trips both to	
Georgetown and Foggy Bottom, I rely heavily on both the G2 and G8 to conduct my regular activities.	
In the absence of the G2 route and with service cuts on the G8, my quality of life would decrease	
drastically.	Bus Service
The proposals are horrible, but I can live with them as long as metrorail rush hour service and the H6	
bus line are not cut.	Bus Service
The proposed bus cuts eliminate east-west bus service from Capitol Hill and Downton/upper NW. The	
proposed use of metro as an alternative is NOT the same as the excellent bus service we currently have,	
and will likely lead to people driving more and increasing congestion. I am strongly opposed to the bus	
line elimination proposals.	Bus Service
The proposed cuts impact most of the East-West bus routes. There are no viable alternative routes to	
many of the proposed cuts. In addition to commuters and essential workers, many families are also reliant on bus service for school transport.	Bus Service
The reality is metro is largely unnecessary to the vast majority of dmv residents after the invention of	bus service
uber and e bikes and scooters. If you look at the ridership data metrorail peaked in the mid 2000s and	
has been declining ever since. Almost everyone here uses a vehicle and there is no amount of money	
that will get them to switch, not even if it is free. I ride metro bus and rail and the bus is honestly the	
better choice. The rail is only useful for federal commuters and hardly any of them come to work	
anymore. I frequently ride empty trains on weekends and even midday. Emphasize the bus and	
decrease the service on rail. It is time to right size the metro system for the demand we actually have	
and not the demand we wish existed. Supplement with buses as necessary, although frankly many	
buses even run empty.	Bus Service
The reality is that both fare cuts and service increases do not address the underlying issue ? public transit is not considered as legitimate as car travel. Does the city ever have to justify spending money	
on re-paving roads? Then why can?t the same be true for maintaining and expanding public	Operating Budget, Management and Spending
The S2 is one of the worst services all the 70 they never on time ?? I've been using those bus since the	
20090 am not feeling good about those lines I ride every day making me late for where I have to go,	Bus Service
The service cuts in maryland are unacceptable I use majority of the lines proposed and won?t be able	
to get to appointments grocery stores and metro stations comfortably. The fare evasion needs to stop i	
feel like if everyone paid their fair share the system wouldn?t be in flux and the budget wouldn?t be as	
bad of shape that it is. Customer service with the operators could be better possibly with sensitivity	
training but i understand they deal with a lot of different people and things in general.	Operating Budget, Management and Spending
The system needs to cut down on fare skipping to increase revenue rather than cutting services and increasing fares. Particularly on Metro Access.	MetroAccess
The T2 and 74 cuts would be devastating for me and my family. I rely on the T2 AND the 74 to get to	1010000000
and from work. To slash these essential lines is unconscionable. Buzzard Point is booming and you are	
considering eliminating the bus that serves that neighborhood before thousands of new residential	
units and dozens of businesses come online in the next 18 months? Meanwhile, significant new	
developments in Bethesda will be served by the T2, including more mixed income housing and retailers	
with hourly employeesand you want to cut that too? All this is made even more disappointing	
because Metro's service and reliability has NEVER been better than it has in the past year. I have been a	
dedicated Metro customer for 2 decades and the past year of top quality service has made it possible	
for me to provide for my family with quality, fairly priced transit. It is hard to pay each and every day	
when I watch dozens of people skipping the gates, but I think it is vital we all stand up for Metro. Please do not punish loyal riders with these cuts.	
The T2 route between Friendship Heights and Rockville provides a vital link between these two	Bus Service
important areas, and is the only public transportation option along this route. It would be a big loss to	
the community to cut this service.	Bus Service
The timing is bad. Spring and summer will greatly expand events happening, especially at night. Yes I	
haven't used many buses extra, but I need warm weather and outdoor events. Then I will travel a lot!	Bus Service
The utility of public transit is almost exclusively in reliability, so reducing service will only lead to	
decreased future budgets. Don?t be dumb; maintain service, even if it means slight fare increases. Also,	
monetize more such as via more ads (in station and in trains/buses), increased parking fares, expansion	
of Metro store offerings, etc.	Operating Budget, Management and Spending
The wait time for buses is already too long and metro rail is already too expensive.	Bus Service

With these proposals I will most likely be forced to move out of the city and find a new job. This is absolutely ridiculous. How are you cutting service and raising prices to public transit in 2024?? Public transit is one of the reasons this city shines. The more you take away affordable public transit, the more DC will silp away and die. And in the face of a climate crisis? You?re going to bring more gas- guzzling cars into the city and make it less livable. This is actually pathetic, maybe try making your metro system safer first and cleaner. I take it everyday and it?s gross to see what people get away with. Now you want to increase the price? For what? People get hurt every day on YOUR METRO. I want it the cold, rain, snow and get the worst service, the worst drivers with the worst attrudues. New York seems better than this. This is devastating. Please do not increase wait times and just get rid of the bus completely This is embarrassing. This is metarrassing. This is metarrassing. This MetroDus proposal really does a disservice to Adams Morgan. I use the L2 to get to upper NW Washington, the 42/43 on weekends to get downtow and to the Kennedy Center, and the S2 all days of the week including weekends. This proposal would really decimate public transit in Adams Morgan, particularly on weekends, which is when my household often uses Metrobus the most. This proposal is awfull Metro should focus on fare evasion, both for students and regular riders which is a problem not being enforced. For students, finge should have increasing fines for consecutive offenses up to \$500. The second example is for 3 fines: the st fine is \$100, the 2nd is \$250, the 3rd (and every other offense afterward) is \$5	These suggestions would eliminate and change my daily commute to work. I would have to leave earlier and take a longer route to work. As someone who has relied on metro for years. It is disappointing to co ti he to see our public transportation continue to fall apart. I used to work and get home at 11pm, and I know many others still worn late night shifts like that as well. Taking away people's ability to more affordable travel when Maryland Virginia And DC government need to understand that public transportation is essential . Is disappointing . They need to have longer transfers on the card and also on the trains They should just leave it how it is	Bus Service Rail Service
appears to be limited to no retooling of the outlock for who might be our new main users are and why <pre>capital Budget</pre> they are using rail services. I take it everyday and nit? gross to see what people get away with. Now you want to increase the price? For what?	Bus Service Rail Service Miscellaneous Capital Budget
This Metrobus proposal really does a disservice to Adams Morgan. I use the L2 to get to upper NW Washington, the 42/43 on weekends to get downtown and to the Kennedy Center, and the S2 all days of the week including weekends. This proposal would really decimate public transit in Adams Morgan, particularly on weekends, which is when my household often uses Metrobus the most. Bus Service This proposal is awfull Metro should focus on fare evasion, both for students and regular riders which is a problem not being enforced. For students, fines should range from \$10-25 per offense, with all unpaid fines doubling at the end of the school year. For regular riders, fare evasion fines should have increasing fines for consecutive offenses up to \$500. The first example is for 4 fines: the 1st fine is \$250, the 3rd (and every other offense afterward) is \$500. Restore airport routes with daily service: SA, 13Y, B30 Instead of eliminating routes, Metro should consider combining some routes into one route. For example, the E2 and K2 routes could be	These suggestions would eliminate and change my daily commute to work. I would have to leave earlier and take a longer route to work . As someone who has relied on metro for years. It is disappointing to co ti he to see our public transportation continue to fall apart. I used to work and get home at 11pm, and I know many others still worn late night shifts like that as well. Taking away people's ability to more affordable travel when Maryland Virginia And DC government need to understand that public transportation is essential . Is disappointing . They need to have longer transfers on the card and also on the trains They should just leave it how it is This is a cyclical issue. Increasing cost or cutting service to Metro (specifically metro rail) will result in less ridership. resulting in a larger need for outside funding. In a post pandemic world, we have less commuters for work downtown, we have large employment sectors leaving the city (Capitals/Wizards & Downtown office work). but no system for engaging with those who still need services here. There appears to be limited to no retooling of the outlook for who might be our new main users are and why they are using rail services. With these proposals I will most likely be forced to move out of the city and find a new job. This is absolutely ridiculous. How are you cutting service and raising prices to public transit, the more DC will slip away and die. And in the face of a climate crisis? You?re going to bring more gas-guzzling cars into the city and make it less livable. This is actually pathetic, maybe try making your metro system safer first and cleaner. I take it everyday and firs gross to see what people get away with. Now you want to increase the price? For what? People get hurt every day on YOUR METRO. I want it the cold, rain, snow and get the worst service, the	Bus Service Rail Service Miscellaneous Capital Budget Service Levels
Washington, the 42/43 on weekends to get downtown and to the Kennedy Center, and the 52 all days of the week including weekends. This proposal would really decimate public transit in Adams Morgan, particularly on weekends, which is when my household often uses Metrobus the most. This proposal is awfull Metro should focus on fare evasion, both for students and regular riders which is a problem not being enforced. They need to have longer transfers on the card and also on the trains They should just leave it how it is This is a cyclical issue. Increasing cost or cutting service to Metro (specifically metro rail) will result in less ridership. resulting in a larger need for outside funding. In a post pandemic world, we have less commuters for work downtown, we have large employment sectors leaving the city (Capitals/Wizards & Downtown office work). but no system for engaging with those who still need services here. There appears to be limited to no retooling of the outlook for who might be our new main users are and why they are using rail services. With these proposals I will most likely be forced to move out of the city and find a new job. This is absolutely ridiculous. How are you cutting service and raising prices to public transit, the more DC will slip away and die. And in the face of a climate crisis? You?re going to bring more gas- guzzing cars into the city and make it less livable. This is actually pathetic, maybe try making your metro system safer first and cleaner. I take it everyday and it? gross to see what people get away with. Now you want to increase the price? For what? People get hurt every day on YOUR METRO. I want it the cold, rain, snow and get the worst service, the worst drivers with the worst attitudes. New York seems better than this. This is devastating. Please do not increase wait times and just get rid of the bus completely This is embarrassing. This	Bus Service Rail Service Capital Budget Service Levels Bus Service
bigger problem and Metro will lose more customers with these cuts. This is no good for anyone!!! Bus Service This will be effected more people Miscellaneous	These suggestions would eliminate and change my daily commute to work. I would have to leave earlier and take a longer route to work. As someone who has relied on metro for years. It is disappointing to co ti he to see our public transportation continue to fall apart. I used to work and get home at 11pm, and I know many others still worn late night shifts like that as well. Taking away people's ability to more affordable travel when Maryland Virginia And DC government need to understand that public transportation is essential . Is disappointing . They need to have longer transfers on the card and also on the trains They should just leave it how it is This is a cyclical issue. Increasing cost or cutting service to Metro (specifically metro rail) will result in less ridership. resulting in a larger need for outside funding. Comment While Loersonally don?t want metro to change Lwould support cutting some services	Category Rail Service
While I personally don?t want metro to change I would support cutting some services While I understand that Metro does not make development decisions, given the development along	
River Road including more affordable housing, in Bethesda, it seems inappropriate to discontinue T2	
bus service serving this corridor.	Bus Service
While I understand that Metro has to plan as though they may not get any additional funding, service	
cuts to Metro would have a lasting effect on Metro's reputation of reliability and would reverberate	
throughout the entire DMV. People who commute or travel by train or bus may switch to driving or	
cycling and it would be difficult for Metro to recapture ridership. Metro currently offers world class	
transit that is reliable, frequent, and clean. Doing whatever Metro can to retain that service and that	
image is crucial. I would pay almost twice the current fare for the current service and not think twice about it, so if a compromise must be made I would prefer a 'drastic' fare hike.	Rus Sonico
With the budget effect, the Uber service vet that metro access provides for it's customers.	Bus Service Operating Budget, Management and Spending
Without a new union contract with increased worker accountability, none of this matters. Metro's	
workforce places poor performers in public-facing and safety-related positions daily. Fare revenue	
continues to drop because riders come into contact with rude, disinterested, and unprofessional	
employees on nearly every single trip. Couple this with a near total absence of visible police officers,	
and it makes Metro unattractive to all but transit-dependent riders.	Fare Evasion/Safety/Crime
WMATA / jurisdictions need to find ways to ensure the impact of fare increases and service cuts is	
equitable e.g. providing low-income residents with discounts or stipends.	Bus Service
Wmata dc/maryland/Virginia is the most expensive metro service in the entire Country, but the metro/Wmata in Dc is the most dirty metro cars that ever rode in this great nation. why would I	
support the fare increases? One more thing. Wmata in DC, Md and Va metro service is the least diverse	
on its staff, There is the MOST BEEFY brotherhood working for this public transportation system. You	
find many of this bulky guys/Gails congregated by the manager's both talking about their personal	
favors and/or last night's game and ignoring the rider's needs at the fare machines. How does Wmata	
expect me to support the fare increases? And again. The filth that we see every single day on the	
passenger's cars is to the limit. So disgasting. Clean those passenger's cars and we may help you	
out with this requests and .maybe, ride your system more often.	Fares/Fees/Parking
WMATA's budget proposal, which focuses on rate hikes, service reductions, and the need for its	
regional partners to create a dedicated revenue source for the system, is predictable and consistent with its messaging since I moved to the DC Metro area in 2009. While I understand its messaging, I also	
believe WMATA is taking a shortsighted approach. It is impossible to put metrorail service everywhere,	
but according to the U.S. Census, there are close to a half million people currently living in Southern	
Maryland, and yet, there is no metrorail service for them. Each day more than 100,000 vehicles travel	
along MD 210 and MD 5/301 in gridlock. This is reality for Southern Maryland residents, which leads to	
a lower quality of life. Not all of these people would use metrorail, but some would, and that new	
revenue source could help close budget deficit gaps. WMATA should work with the state of Maryland	
to build more metrorail in Southern Maryland. This would increase ridership, change transportation	
habits, balance economic equity, and help clean up our environment. I give the current WMATA	
leadership credit for its transparency. CEO Randy Clarke has inherited some difficult challenges, and he	
hasn't run from them. I also hope he's open to considering bold solutions like expanding metrorail into Southern Maryland, despite a current budget deficit. That strategy would transform the system into a	
valued asset for all DMV residents, and motivate more voters to advocate for a dedicated revenue plan.	Operating Budget Management and Spending
Would prefer fare increase than service cuts	Bus Service
Wouldn't mind increased fare during the weekends for more frequent Metrobus/Metrorail service.	
Please don't remove weekend services, a lot of families depend on it.	Bus Service
Wouldn't mind the increase in fares, although can you please give discount on college students and	
people that make under 45,000 USD a year	Fares/Fees/Parking
I did not remember that they raised the subway rate it affects me in my budget thanks	Operating Budget, Management and Spending
You are cutting neighborhoods off from downtown, and suggesting Metro Rail as the alternative is not realistic.	Pail Sanica
You are not thinking about the key demographic these changes hurt. Especially when it comes to the 96	Rail Service
bus. You have already removed the 97. Then you have people who get off late from work ie after	
midnight. This will drive more people away from metro and start driving again. I know I will go out of	
my way to start driving if the 96 bus route is taken away.	Bus Service
You are spending so much money on installing new turnstyles. why not just decrease (or eliminate)	
fares?	Operating Budget, Management and Spending
You collect most of the money from increased ridership. Not by increasing fares and losing ridership. If	
you have a full system that is very busy will provide plenty of money. When the cars are empty due to lack of service or ridership, the whole system suffers. Need to be available for people to use Metro and	
for the people to be safe in using Metro. Adequate security at stations and on the subway trains.	Bus Service
You must be nuts if you are thinking of cutting L2 from going to Faragut Square. And no 42/43 on	
weekends? You know that is a poor persons bus	Bus Service
You should tax wealthy people and businesses smore since poorer people rely on public transport	Bus Service
You still have issues with gangs of kids at Waterside and Staion managers often sleeping and seldom	
supporting people.	Miscellaneous
You?re top heavy! You have more managers than worker and a lot of them don?t know their jobs!	Miscellaneous
Your proposals to cut buses hurt students, the elderly and low income residents. My children in DCPS	
and DC charter school rely on buses, particularly the D6 and 32/34/36 to connect to metro to get to	
and from school and school activities. They are often carrying sports equipment or instruments which make walking 3/4-1 mile to the metro more burdensome. Students cannot just jump in a cab or call an	
Uber without an adult.	Bus Service
You're really doing Adams Morgan a disservice with the proposed bus cuts!!	Bus Service
Please protect the current 16Y bus schedule, which is along the main artery of Colombia Pike into DC. If	
there is a small fare increase to protect the current schedule, I think that would be acceptable.	Bus Service
THE BUS DRIVERS RIDE PAST THE 24 stops infront of the library everyday. Even if it?s people out there	
they still ride past.	Bus Service
my husband and I are both blind and are dependent on Metro access along with thousands of other	
elderly and disabled individuals. Metro access helps my husband get to work, helps us get to Doctor's	
visits, shopping, pharmacies, and many other errands. We are on a limited income and this service is essential for our independence and quality of life. Please do not cut funds for Metro access. Sincerely,	
Joann and Harold Wilson.	MetroAccess

Comment	Category
I support metro?s new capital budget. I do not support ANY changes that would result in decreased	
service whether that?s increased headways from 10 to 15 min or 15 to 20min, closing any stations,	
removing bus routes, or most importantly, cutting metro hours both late at night or on the weekends.	
In fact metro hours should be INCREASED. I wish metro were open earlier on weekends. It?s insane that	
metro doesn?t open until 8am on Sundays. It can take 45min-1hr to get most places meaning I cannot	
reliably take metro places on Sundays until late morning. The way to grow metro?s ridership is to	
increase services not set in down a death spiral of closing stations because of low ridership which only	
means ridership will decrease further. As for the VA issue, NOVA is the economic powerhouse of the	
state. Virginia must pay up to support workers who live there otherwise, increase the cost on VA	
residents who use metro to come from VA.	Operating Budget, Management and Spending
They are very late buses in some areas and with this cold	Bus Service
Instead of taking away, add stops for seniors that ride the buses, and some drivers need to be train all	busservee

Don?t replace cloth. Seats with polluting vinyl Improve rider safety in trains and rail stations especially	Pur Carrier
for disabled and senior riders. Nursing doors close too quickly. Electrify Mettobuses ASAP My choices for commuting into DC are either Metro or Commuter bus. I tend to avoid the Metro as the	Bus Service
service fails to enforce the rules that it has established. Those rules include failing to collect fares from	
5	
all riders. Almost every time I ride the Metro, I see people jumping the entry/exit gates and the station	
manager not addressing it. My more recent experience has introduced me to one station manager at	
Farragut West, in the early morning, that stands in front of the fare gates. I appreciate the added effort	
that he makes to reduce fare jumpers. How is it that he can do the job and none of the others in my	
experience can? There are monitor cameras at many of these locations. Why are they not being utilized	
to identify jumpers? It is said that you get what you pay for. If these people are allowed to ride for free,	
how much respect do you think they have for the service provided? How likely are they to follow the	
rules of ridership if there is not cost to ride and no enforcement of the rules? During the COVID period,	
although masks were mandated, many riders did not wear them Where was the enforcement? No	
eating or drinking on the train. Unenforced. Panhandling on the train or otherwise bothering other	
passengers, too often. I was on the Metro this morning. There was a Metro worker with an Operations	
vest on. His radio was at such a volume that you could understand the conversation from the other end	
of the train. Why should he not be required to use a headset, like the passengers are? It detracts from	
passenger comfort and shows preferential treatment. This is not something that keeps just me away	
from the Metro, but other riders as well. Maybe the Metro should put police officers in the station	
manager roles. Maybe more police officers should be riding the trains or monitoring the access gates	
and citing violators. Perhaps the financial shortfall is not just from an increase in costs, but a lack of	
efficiency in your staffing.	Operating Budget, Management and Spending
Thanks for your service metro. Love u	Rail Service
1. WMATA should work with Google so that people can use Google maps to see a bike to metro option	
when determing their travel options and time 2. WMATA on-line station maps need to be upgraded to	
clearly show where the elevators are. Without this it is very frustrating for bike riders and handicapped	
folks to figure out where to access the metro stations and if/where there's a 2nd elevator they need to	Dell Constant
use.	Rail Service
Please do not reduce the G8 bus service. This is a really helpful line for me and my family!	Bus Service
Please do not reduce the G8 service! This is a very helpful line for me and my family!	Bus Service
Metro Access is a wonderful service. I use it to travel to medical appointments, adult day center, library	
and church. It is easy to schedule. It runs 7 days a week. The staff are caring and good drivers.	MetroAccess

Cut the service if need be but until crime /poor behavior is under control the \$\$ should be held back Virginia service is not as bad but Maryland and D.C. are out of CONTROLI I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vitar route for many individuals, businesses and families to access to pemployers in Montgomery County, the top-paying county in the State of Maryland. The T2 Metrobus for the many rides public transportation to parts of Potomac and Bethesda, where many jobs offer distinct and comprehensive benefits. My colleagues at Congressional Country Club risk losing access to the many riders who require this service. Please consider all efforts to protect the full T2 Metrobus for the many riders who require this service to get to work. Thank you for your time and consideration. I am writing to you today to express how vital the T2 Metrobus for the many riders who require this genyce to get to work. Thank you for your time and consideration.	Fares/Fees/Parking Fare Evasion/Safety/Crime Bus Service Bus Service Bus Service
Enforce fares. A great place to start. Fare evasion is rapid on the Metro Rail system. There is no enforcement at the rail Stations. People who use Metro Rail know that there is no consequence for not paying, so evasion is out of control. I see it everyday, especially at NoMa Gallaudet Station. Cancel all govt-run bus routes and subsidize private bus lines who meet service commitments, tracked by GPS with real time route status for users. I oppose the restructuring of the E4 bus line to run on Military Road instead of on McKinley Road as presently is. WMATA already deprived this neighborhood of the E6 bus line. If WMATA moves the E4 bus to Military Road you will be depriving an entire neighborhood of working professionals and young students from access to public transportation. We would have no way of transporting anywhere. Please leave the E4 bus on its current route (McKinley Road) as is. Thank you. Until Metro can control the CRIME problems in their Metro and on the bus I will not ride. Cut the service if need be but until crime /poor behavior is under control the \$\$ should be held back Virginia service is not as bad but Maryland and D.C. are out of CONTROLI I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vita route for many individuals, businesses and families to access to pemployers in Montgomery County, the top-paying county in the State of Maryland. I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital	
route for many individuals, businesses and families to access top employers in Montgomery County,	
the top-paying county in the State of Maryland. The T2 Metrobus is the only reliable public transportation to parts of Potomac and Bethesda, where many jobs offer distinct and comprehensive	
benefits. My colleagues at Congressional Country Club risk losing access to these great jobs if WMATA	
cuts service. Please consider all efforts to protect full T2 Metrobus for the many riders who require this	
service to get to work. Thank you for your time and consideration. Genaro Cruz 301 -318-8324	
Gmcruz72@Outlook.Com	Bus Service
I am writing to express my deep concern regarding the proposed public transportation service cuts	
within the WMATA system to Prince George?s? County. As a resident of the central part of the county	
and regular user of WMATA services, I strongly oppose any reductions to our public transit network.	
Public transportation is an essential lifeline for countless individuals in our community, providing access	
to employment, education, healthcare, and essential services. Any cuts to bus routes, train frequencies,	
or other services would disproportionately impact low-income communities, seniors, individuals with	
disabilities, and essential workers who rely on public transit to meet their daily needs. Reduced service	
levels would not only inconvenience passengers but also exacerbate traffic congestion, environmental pollution, and economic inequality. It is imperative that WMATA continues to prioritize the	
accessibility, affordability, and reliability of public transportation for all residents across the	
Washington metropolitan area. As a responsible steward of public transportation, WMATA has a duty	
to uphold its commitment to serving the needs of the diverse population it serves. I implore you to	
prioritize the well-being and mobility of riders by preserving and enhancing our public transit services.	
Thank you for your attention to this urgent matter. I trust that WMATA will take into account the	
concerns of residents and passengers as it makes decisions regarding the future of our transit system.	Bus Service
I seeing X9 and X2 Same schedule running all day long almost empty same time. Cut X9 service	
between 10am - 3pm not necessary. only passengers needs morning and Evening commute. Thanks.	Bus Service
Metro Board, I am writing to express my deep concern regarding the proposed public transportation	
service cuts within the WMATA system. As a resident and regular user of WMATA services, I strongly	
oppose any reductions to our public transit network. Public transportation is an essential lifeline for	
countless individuals in our community, providing access to employment, education, healthcare, and	
essential services. Any cuts to bus routes, train frequencies, or other services would disproportionately impact low-income communities, seniors, individuals with disabilities, and essential workers who rely	
on public transit to meet their daily needs. Reduced service levels would not only inconvenience	
passengers but also exacerbate traffic congestion, environmental pollution, and economic inequality,	
especially as DC made the federal government employees come back into the office more. It is	
imperative that WMATA continues to prioritize the accessibility, affordability, and reliability of public	
transportation for all residents across the Washington metropolitan area. As a responsible steward of	
public transportation, WMATA has a duty to uphold its commitment to serving the needs of the diverse	
population it serves. I implore you to prioritize the well-being and mobility of riders by preserving and	
enhancing our public transit services. Thank you for your attention to this urgent matter. I trust that	
WMATA will take into account the concerns of residents and passengers as it makes decisions regarding	
the future of our transit system. Sincerely, Teena Curry PG county resident	Bus Service
I work at Congressional Country club and many of my coworkers rely on the bus stop that drops off	
right in front of the club on River Road. If you take away the means of transportation for all my	
coworkers who rely on this route, it would make their lives extremely hard.	Bus Service
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2	
Metrobus for the many riders who require this service to get to work, school, and other activities.	
Thank you for your time and consideration.	Bus Service
I am writing to emphasize how important the T2 Metrobus route is to those who live and work in the	
West Bethesda and Potomac community. The T2 Metrobus is the only reliable public transportation to	
this part of the County, which is critical for the County?s economy. This bus service is a crucial support	
and it would be devastating to lose it. There is no other alternative mode of public transportation.	
Please consider all efforts to protect full T2 Metrobus for the many riders who require this service to	
get to work, school, and other activities. Thank you for your time and consideration.	Bus Service
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital

efforts to protect full T2 Metrobus for the many riders who require this service to get to work, school,	
and other activities. Thank you for your time and consideration.	Bus Service
Good morning, I would like to express how imperative the T2 Metrobus route is to our people of color	
and others in the community. This is a vital route for many BiPAC individuals, businesses and families to	
go to work. The T2 Metrobus is the only affordable public transportation to this part of the County. This	
bus service is a crucial support for our area. Please consider all efforts to protect full T2 Metrobus for	
the many riders who require this service to get to work, school, and other activities. It is discriminatory	
to make people pay for and UBER to get around the county that takes away their ability to afford day to day necessities.	Bus Service
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. My housekeeper, and many other	
employees use this as the only way to get to work. If our taxes cannot help support those that work	
hard, have salaries that do not allow them the benefits of a car, (although if they are forced to buy cars	
guess that will be great for the roads and adversely impact emissions and be another source of	
environmental damage. Please consider all efforts to protect full T2 Metrobus for the many riders who	
require this service to get to work, school, and other activities. If the bus is too large for the current	
pasengers, then provide a smaller vehicle. That this vital transportation service is even being considered	
to be removed in presumably a wealthy county such as ours is absurd. We pay a huge tax to the county	
and demand good services. If these essential service cuts are being considered here, I think we are	
going down a very dark path and my husband and I most certainly will move to a location where services are better managed and our employees can get to work without having to invest in a car and	
services are better managed and our employees can get to work without having to invest in a car and fuel. Frankly this is the most asinine suggestion I have heard in a while.	Bus Service
,, and is the most asimic suggestion may include in a Wille.

Comment	Category
I am dismayed to hear that the T2 metrobus route might be discontinued. The T2 runs just 3 blocks	
from my house, and over the years I have often used it myself. The T2 is especially important because,	
over much of its route, it is the only form of public transportation that is available. As such, the T2 is	
critical to the employment opportunities and well being of numerous individuals, schools,	
organizations and small businesses (including both those located in DC and in Maryland). The	
elimination of the T2 route would be particularly unfortunate, as the resulting hardship would fall most	
heavily on persons of limited meansmany of whom use it to commute to and from the D.C who	
would thereby effectively lose access to a significant portion of our locale. Among other things, many of	
these persons would lose access to their current jobs, as well as other employment opportunities along	
the T2 Route. Accordingly, I think losing the T2 would be devastating loss to many of its regular riders,	
as well as to communities along the route. I strongly oppose closing the T2 route, therefore. Sincerely,	
Thomas Lauerman Bethesda, Md. 20816 Thomas	Bus Service
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vita	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Especially the stop at Congressional Country	
Club. In addition to students who attend schools in the district but live in Maryland. My sons regularly	
took the Metro from Gonzaga College High School (Union Station stop) to Rockville station then took	
the t2 to our street. Other friends had their kids take the T2 to get home for St Johns College Hogh	
School in DC. Please consider all efforts to protect full T2 Metrobus for the many riders who require this	
service to get to work, school, and other activities. Thank you for your time and consideration.	Bus Service
I have used the T2 bus line since 1968. The line provides connections to both the Metro's Red Line	
stations in Rockville and Friendship Heights. It is the only public transportation serving the families,	
workers and businesses along River Road and Falls Road. Major sections of Falls and River Roads do not	
have sidewalks making walking or riding a bike dangerous on these roadways. The T-2 bus is the only	
option for workers who don't have cars to get to jobs. The loss of the line will seriously impact workers	
and their employers and will impact economic activity along the T-2 line. The T-2 line has supported	
this area for over 50 years. Hopefully, the line will continue for another 50 years.	Bus Service
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vita	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2	
Metrobus for the many riders who require this service to get to work, school, and other activities.

Good afternoon. As residents of Bethesda and users of the T2Metrobus, I am writing today to remind	
you of how vital that route is to our community. The roads that it travels are not usable by foot, and	
riding a bike on them is very scary and life-threateningtherefore we rely on the bus. It is also a needed	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2	
Metrobus for the many riders who require this service to get to work, school, and other activities. Thank you for your time and consideration.	Bus Service
I am writing to express my deep concern regarding the proposed public transportation service cuts	Bus service
within the WMATA system. As a resident and regular user of WMATA services, I strongly oppose any	
reductions to our public transit network. Public transportation is an essential lifeline for countless	
individuals in our community, providing access to employment, education, healthcare, and essential	
services. Any cuts to bus routes, train frequencies, or other services would disproportionately impact	
low-income communities, seniors, individuals with disabilities, and essential workers who rely on public	
transit to meet their daily needs. Reduced service levels would not only inconvenience passengers but	
also exacerbate traffic congestion, environmental pollution, and economic inequality. It is imperative	
that WMATA continues to prioritize the accessibility, affordability, and reliability of public	
transportation for all residents across the Washington metropolitan area. As a responsible steward of	
public transportation, WMATA has a duty to uphold its commitment to serving the needs of the diverse population it serves. I implore you to prioritize the well-being and mobility of riders by preserving and	
enhancing our public transit services. Thank you for your attention to this urgent matter. I trust that	
WMATA will take into account the concerns of residents and passengers as it makes decisions regarding	
the future of our transit system.	Bus Service
I am writing to you today to implore you to maintain the T2 Metrobus service. This is a vital route for	
many individuals, businesses and families to access Potomac and Bethesda. People who cannot afford	
to buy a car and to pay car insurance, etc. and who cannot afford increasingly expensive Uber rides,	
depend on the T2 bus to get to work. People with disabilities who cannot drive depend in the T2 route	
too. The T2 Metrobus is the only reliable public transportation to/from this part of the County; the	
route is critical for our economy. Please consider all efforts to protect the full T2 Metrobus schedule for	Due Consiste
the many riders who need this service to get to and from work. Dear Sir or Madam: I am writing to you today to express how vital the T2 Metrobus route is to our	Bus Service

I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2	
Metrobus for the many riders who require this service to get to work, school, and other activities.	
Thank you for your time and consideration. 2. If you are yourself a Metro rider, please take the survey	
found here so that WMATA knows just how much you rely on this public amenity. We cannot stress	
enough how valuable this resource is for the Club community, both Members and employees. If the	
route is eliminated, it would mean that WMATA and the State of Maryland have taken away a tool that	
we use to recruit and retain top talent to provide hospitality to you each and every day.	Service Levels
Dear WMATA, For many employees, school age children and aged adults, the T2 bus provides a vital	
link to work, school, the metro system at Friendship Heights, doctors? offices, Rockville, public libraries,	
Montgomery County and Maryland government offices and grocery shopping. Without the T2, which	
has been in service within my personal memory since at least 1962, many of these folks would have no	
way to attend or get to these necessary places. I have taken the T2 bus myself in several of those	
capacities ; my mother used the T2 bus into her 90s to get to the metro, grocery and doctors? appointments when she had given up driving for safety reasons and did not want to burden me with	
transporting her because I worked full time and had a family.; I personally know employees who will	
not be able to get to work with out the T2 I have taken the T2 bus to school, to work and to the metro	
myself at times in my life. I know that there are individuals who literally, have no other way. I urge you	
to seriously reconsider the hardship you will cause so many. The congestion on River Road grows every	
day. Eliminating the T2 will only increase that congestion.	Bus Service

Hello Metro Management, Our family has lived in Potomac near the T2 metro bus line for over 30 years. We've taken this bus and so have our friends and co-workers. It's a VERY VALUABLE Metro bus	
line. Furthermore, near us at the corner of Newbridge Drive and River Road there is a new Assisted	
Living Facility about to be constructed on the old site of the Plant Nursery Petals and Plants. There	
will be hundreds of workers at this new assisted living facility many of whom will undoubtedly want	
to take the T2 Bus Service up River Road toward Potomac Village or down River Rd to Friendship	
Heights where there is the Red Line Metro. Please do NOT leave them with NO PUBLIC	
TRANSPORTATION. These workers need 'affordable' transportation to get to their jobs. That is why I am	
writing to you today to express how vital the T2 Metrobus route is to our community. An important	
route for many individuals to access Potomac and Bethesda. The T2 Metrobus is the only reliable public	
transportation to this part of the County, which is critical for the County?s economy. This bus service is	
a crucial support for our area. Please consider all efforts to protect full T2 Metrobus for the many riders	
who require this service to get to work, school, and other activities. Thank you for your time and	Rus Samira
consideration. Best regards, Barbara Bulla Brown	Bus Service

Keep the T2 route it is vital for Montgomery county citizens and businesses alike. Please remove the z6	
route as it causes problems in Olney but keep the t2	Bus Service
I am writing to say I do not support the T2 being cancelled	Bus Service
Stop the jumpers!!! I ride the Metro daily and see many riders jump over the low level terminal gates or	
walk thru the emergency gate and NO ONE says anything. Not one word! I also see the same on	
weekends. You are losing a lot of money and now we must pay to subsidize the jumpers with higher	
fares!!! Also, the new terminal gates at Pentagon City are worthless as the jumpers simply walk thru the	
emergency gate and no one says any thing. In fact, one weekend at Pentagon City, I observed a lady	
entered by walking thru the emergency gate and the Station Manager greeted her!!! Really! Hello to a	
fair evader! What a joke! Good day, it came to my attention that the T2 service along River Road to Rockville is to be cancelled.	Fares/Fees/Parking
My son, who has special needs, is dependent on this service. He has been trained to take this route and	
has been using it extensively lately. It is vital for his well being and to assert his independence. I urge

This is a vital route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus is the only reliable public transportation to this part of the County? which is critical for the County?s economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2 Metrobus for the many riders who require this service to get to		
almost 4 years and use the D2 to commute to work and other appointments. Cutting the D2 and similarly reducing service on the already-packed 33 and 36 routes would force a number of residents to drive or use rideshares to commute to work. I find it appalling that WMATA, an agency?s whose mission is to reduce car traffic thinks it is tenable to cut the D1 route and then cut the D2 route several weeks later. Metro-Unfortunately, the metro system is old and needs constant, expensive upkeep. I suggest that this service be maintained; however, I believe paying metro train drivers and metro bus drivers over \$100,000 a year is ridiculous and contributes to the never-ending funding deficit of metro. Until this problem is resolved, metro will never be in the black and will always be in the red. I suggest the following that could help alleviate the budget shortfall. First, convert the 'no fare' Metro	
Access ID cards to half fare. This will negatively impact me as a Metro Access customer, but it would	
help with the deficit. I also suggest charging Metro Access customers a minimal fare, perhaps \$5, for	
Abilities Ride trips, and revising the Metro Access fare structure for trips in Metro Access vehicles.	
Instead of a maximum fare of \$4, I would suggest a minimum fare of \$5 and a maximum fare of \$8	
depending on the distance traveled. Lastly, I believe that it is difficult to measure the impact of fare	
evasion until you stop it. While in the long-term, I favor gates that make fare evasion more difficult, this	
is an expense Metro does not have money for right now. A simpler and more cost effective astep would	
be to arm station managers with tasers and permit them to incapacitate individuals who engage in fare	
evasion so that transit police can arrest and incarcerate them until a substantial fine, which Metro	
would collect, is paid.	Operating Budget, Management and Spending
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital

I write this to express how vital the route of Metrobus T2 is for our community. This route is vital for	basservee
many individuals, businesses and families for whom they may have access to main employers in	
Montgomery County, which is one of the highest salary counties in the state of Maryland. The	
Metrobus T2 is the only form of public transportation that is safe in the areas of Potomac and	
Bethesda, where many works offer distinguished and comprehensive benefits. My co -workers in	
Congressional Country Club run the risk of losing access to these works if Wmata cuts the service.	
Please are asked to consider any effort in order to protect the T2 Metrobus in their enterity for all users	Pue Carrier
who need this service to reach their workplaces. Thanks for your time and consideration. THANK YOU!!	Bus Service
I very much support WMATA & public transportation on the whole, and I appreciate what you're doing	
to enlist community members' feedback. That said, I'd like to urge WMATA (and any WMATA	
employees) to tell your elected representatives to STOP SENDING SO MUCH MONEY TO MILITARY	
OPERATIONS OVERSEAS (particularly Israel & Ukraine)! There are billions of dollars there that result in	
other countries & places getting bombed, pay Ukrainian farmers, pay for Israelis' healthcare, etc.	
instead of funding the very real needs of the United States. If money could be diverted from pointless	
military operations into DMV public transit, that would be ideal. And the more people speaking up	Miscellaneous
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital

to get to work, school, and other activities. Thank you for your time and consideration.	Bus Service
Dear Washington Metropolitan Area Transit Authority, I'm reaching out to emphasize the importance	
of the T2 Metrobus route for our community. This route is essential for individuals, businesses, and	
families accessing Potomac and Bethesda, serving as the sole reliable public transportation in this area	
critical to the County's economy. Please ensure the preservation of the full T2 Metrobus service to	
support the many riders relying on it for work, school, and other activities. Some have no other means	
of getting to their jobs. Thank you for your time and consideration. Sheila Liljenguist	Bus Service
I first would like to thank metro for operating in difficult weather conditions. My opinion in the budget	bus sei vice
cut is for them to go about it differently. Cancel certain lines that run multiple buses on the same route	
but with that reduction there shiuld be an shortwr wait time for the next bus. If you increase the rail	
fare customers expect less delays. We need reliable time frames for these trains. Also at station such as	
metro center and lefant trans should come 5min apart so that commutors dont miss there transition	
train.	Operating Budget, Management and Spending
You should get rid of fare charges and spending so much Money on police and WMATA would save so	operating baaget, Management and Spending
much money without having to cut essential services. What makes the metro area so great is having	
good access to the metro, not infrequent or expensive access to the metro. The best thing they can do	
is get rid of the metro police and use that money to help with the budget. Look at other cities that have	Operating Rudget Management and Spending
free transit, the dmv should have access to it too!!	Operating Budget, Management and Spending
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. It has been an integral part of	
transportation from the outer Maryland suburbs to the Friendship Metro area at the DC line for as long	
as I can remember in my 65 years of living here. Please consider all efforts to protect full T2 Metrobus	
for the many riders who require this service to get to work, school, and other activities. Thank you for	
your time and consideration.	Bus Service
I live off the T2 route in Bethesda, rumor has it that the service maybe discontinued. Please instead	
consider downsizing to a smaller bus, never have I seen the bus with more than a dozen passengers.	
Thanks	Bus Service
Please do not cut bus service. I need buses for work. I especially rely on the 96. Please don?t cut the 96	
bus.	Bus Service
II have been using metro access since 1998. I would like to propose that perhaps the service be offered	
with a sliding scale based on income. It has always bothered me that I could afford to pay something	
different than someone who has no job and no income. I appreciate the service and would consider	
paying more to help metro with their budget issues. I know this is probably just a drop in the bucket, ut	
it is a startl. As a patron, I would love to betterr understand what is more cost efficient, the Ability ride	
program or using the van. I expect to be totally blind due to a retinal disease within the next year or so.	
I can't tell you how invaluable the service is. It actually allows me to give back to my community.

Resident, District of Columbia February 26, 2024 I am a resident of the District of Columbia and I am a	
person with a disability. My testimony is to implore the Metro Board of Directors to fully fund Metro	
and not to reduce the service area for Metro Access, which is vital to the viability of the disability	
community. Metro Access allows a person with a disability and/or a senior citizen to have the same	
opportunities available to any person who has no limiting disability. This includes the ability to travel to	
and from a workplace in support of their own financial viability. Metro Access is critical to some who	
need lifesaving dialysis, cancer treatments or other medical services. It also enables persons with	
disabilities to get to and from church, to be engaged in community and volunteer activities, to venture	
to social gatherings with family and friends, to transport groceries, etcetera and to be a participant in	
the lifeblood of the community. As a person with a disability, Metro Access has enabled me to fully	
thrive in service to my community. I am active in my church, I have served in the foster grandparent	
program mentoring youngsters, I can get to and from medical appointments, I am active in service	
projects with my sorority, I am a volunteer with the AARP Senior Medicare Patrol program training seniors to spot Medicare billing fraud and abuse, and I participate in a plethora of other activities. I also	
have served as a voice for the disability community for several years on a Metro committee. None of	
this would be possible without Metro and most of it would not be possible without Metro Access.	
While I appreciate that the budget pressures may require reduced spending and/or increased revenue, I	
am asking that it not be done at the expense of Metro Access customers. These customers often have	
no other access to transportation services. I understand there is consideration to cut fixed route bus	
and rail services, but this also could adversely impact Metro Access customers whose service area is	
determined by current fixed routes. The savings by cutting metro access is quite minimal in relation to	
the devastating impact it would have on Merto Access customers. There is no rationale to reducing the	
service area. Does it make sense that a person who currently gets picked up from their home,	
transported to their job or a medical appointment and back home would suddenly be forced to	
navigate the added expense, difficult and time-consuming task of adding in travel to and from a new	
pick-up point because their home is suddenly outside the service area? This is beyond senseless; it is	
cruel. Persons with disabilities have enjoyed these services but budget cuts now threaten to pull the rug	
out from under them. I invite each of you to close your eyes for a moment and imagine if this was the	Operating Budget, Management and Spending
Please do not eliminate the M4. It is vital transportation for a majority of Deal Middle School and	
Wilson High School students. The M4 runs in front of my house during the week and is very busy. We	
have many adults who rely on it for work too.	Bus Service
They shouldn?t the bus is very beneficial to us	Bus Service
Because Route 402 and 401 are no longer happening	Bus Service
When they take the bus strike	Bus Service
Metro should lower fares	Fares/Fees/Parking
I am a regular rider on the L2 bus from Chevy Chase to I St NW. It allows me to tranfer to other bus	
routes on K st and at I St NW that go across town. Eliminating the route from Woodley Park to I St would be a hardship for myself and many regular riders on this line. I urge you to reconsider your plan	
to eliminate this portion of the route.	Bus Service
My name is Curtis Richards. I am a 65 significantly visually impaired resident in the Cathedral Heights	bus service
neighborhood. I do not drive and am totally dependent on public transportation, including the N buses	
to get back and forth from downtown. The Cathedral Corridor is full of people like me, senior citizens	
with limited vision and mobility. Please find alternative means of making budget reductions other than	
taking our much needed bus service away! Thank you for your serious consideration.	Operating Budget, Management and Spending

Why did Metro Access stop serving Loudoun County other than Dulles Airport and Ashburn Station?	
Was it because there was no Metro Access garage in Loudoun County?	MetroAccess
Metro's new route changes will negatively affect the workforce at my place of business in a significant	
way. We have a large service team, many of whom are late-career and/or under served in the	
community already. Route T2 in particular is vital to our team. With all the tax revenue this county	
generates it doesn't make sense optically or practically to take away the people that need	
transportation on River Road. This change, while maybe making sense on paper, feels out of touch with serving the workforce of the community. Please reconsider this very impactful loss of service to the	
workers that serve the people that can afford to buy property in Montgomery County.	Bus Service
1?d rather the cost of people paying on buses and the underground goes up and therefore none of our	
dc Maryland bus routes would be lessened or taken away.	Bus Service

Please consider all efforts to protect full T2 Metrobus for the many riders who require this service to get to work, school, and other activities. Thank you for your time and consideration. Sincerely, DM Giarraputo Bethesda, MD Please continue to provide service to the many people who traverse River Road from Friendship Heights to the Rockville Metro Station (the T2 route). This route is used by many people who have no other way to get to jobs in Potomac Village and along River Road at the various shopping centers. In addition, it is used by people who work within the communities along River Road and Falls Road. Those of us in this area have no other benefit from the taxes we pay to subsidize Metro. Eliminating this route will further erode taxpayer support in the currently served communities. I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus is the only reliable public transportation to this part of the County, which is critical for the County?s economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2

machine was out of order, this time no one paid. This was not the first time the fare card machine was out of order or thus told to move on when trying to pay. Afor the subway, winnessed a tenange lump the gate without paying. I reported it to the guard, and he sad, pretend you didn't see it. If it happens again, ignore that on defore the exist on Metro De serious about a budget if people don't pay. Derating budget difference in reduce was and tess on my vehicle, and tress of driving through the city. The cost differential in spending less on fuel made up the cost difference. Did not affect my commute time, however my tess reduced and notable increase in meral health. WIAATA has both uniformed officers and armed contrast security guards, perhaps reducing the armed guards in favor of WMATA Metro polic officers would reduce mo costs. WMATA na relate a net lincerse in fares by actually confronting and fining fare jumpers. This is where the majority of losses occu. between New Carroton and focgs to anot concented as they do not confront them. In traveling around the country and the outficers are not concented as they do not confront them. In traveling around the country and the commuting hours, or take the Metro and cont cond them. In traveling around the world. If not WMATA Metro De contendes as they do not confront them. In traveling around the country and the sets han 20 dollary, or take the Metro and the yar and with an increase during commuting hours, or take hew Metro all on yar and yar and was not to and Auchi like the New York City fare model. If come into DC with my family of 4, locud drive in and park downtown for less than 20 dollary, or take the Metro and any 47.000 monthy parket park and with an into weight by ub the dost fare and services the sets on the park predict on the services the sets on the park park and the top are the approximate and the services the sets and the top and the actually sets in a writing to you tody to sepress how with the T2 Metrobus orus to the way prive ga		
out of order or I vas tudit on move on when trying to pay. As for the subway, i witnessed a teenager i pum be gate without paying: reported it to the gater, and he siad, pretend out dudt is teen it. It is happens sagain, ignore it, it is dangerous. So, the bottom line here is that Metro needs SSS and yet can whetherenity opposed to these propoed fare increase for Metrorali. I close to begin using Metrorali, displicit costing more than what I was paying for parking in D.C. This was mostly head on making up the difference in neduce wear and tear on my whelle, and stress of driving through the city. The cost differential inspending less on fuel made up the cost difference. Diff or affect my commute time, however my stress reduced and a notable increase in meral health. WMATA has both uniformed officers and and cotable increase in meral health. WMATA has both uniformed officers are not concerned as they do not confront them. In traveling around the constry and the world, I find WMATA herto fares to be more expensive than mores, and with an increase during commuting hous. By having one est price, whether one relates for 1 stop or end to end. Much like the world. It find with a stop dig tee on concerned as they do not confront them. In traveling around the country and the stop and the provide tee on tee officers to a prove and end stop. Stop for all country plus the 4.5p paring tee (42.5). No brainer, I will forego the Metrora II. Stop for all country plus the 4.5p paring tee (42.5). No brainer, I will forego the Metrora II. Stop for all country plus the 4.5p paring tee (42.5). No brainer, I will forego the baving up to 5300 coept back and forth somewhere so yill wave price is 500 controlling to ride the Metro concerned the way high 4.5 counting to ride the Metro concerned the way high 4.5 cound and be to a paying to to 5300 coept back and roth somewhere so yill wave price is 500 controlling to ride the Metro concerned the stop wavelf beetor, a closel of 3100 contregates that cont wenight as we		
Jump the pate without paying. I reported it to the guard, and he said, pretend you din't see it. If it happens gain, incore it, it is dangeus. So, the bottom line here is that there needs \$25 at yet continues to allow rides to ride for free. How can Metro be serious about a budget if people don't pay. Operating Budget, Management and Spending I and the series of the tron it. I hose to begin using of the difference in reduce were and tear on my whiche, and stress of different in hose to were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my whiche, and stress of difference in reduce were and tear on my work of the morning and fining fare jumpers. This is where the majority of losses occur, between New Carrolon and feegy work on contront tear. In traveling around the country and the work of that an increase during commuting hours, or hader of difference in and and the increase during commuting hours, or take the difference in and and and the and the and the and the and the and the difference in difference in and and and the anageus, and the anito and the anageus on a take difference in difference in and and and the anageus on a take difference in difference in difference in the difference in and and and the anageus on a take difference in diffe		
happens sagin, ignore it, it is dangerous. So, the bottom line here is that Metro needs SS and yet parting Budget, Management and Spending cam withemently opposed to these proposed fire increases for Metrorali. I chose to begin using parting Budget, Management and Spending iam withemently opposed to these proposed fire increases for Metrorali. I chose to begin using parting Budget, Management and Spending iam withemently opposed to these proposed fire increases for Metrorali. I chose to begin using parting Budget, Management and Spending incost differential in spending less on fuel made up the cost difference. In reduce wear and tear on my vehicle, and strass of driving through the city. parting Budget, Management and Spending officers and reduce some costs. WMATA can realize a net increase in fares by actually parting Budget, Management and Spending officers are not concered as they do not confront them. In traveling around the country and the parting Budget, Management and Spending conflict childs, bus other and considers are to nore-expensive station in the morning and weining parting Budget, Management and Spending conflict childs, bus other and the bus object and bus other and country and the parting Budget, Management and Spending conflict childs, bus other and the station makers, and the increase in drave at a difference in reduce ware and asset to the and part down thom for less the station makers, and the increase in drave at a difference in the protence state difference in the station and part AD on the part in		
continues to allow inders to ride for free. How can Metro be serious about a budget if people dam to pay. Operating Budget, Management and Spending is an whemenethy opposed to these proposed fare increases for Metronial. I chose to begin using Metronial. I chose to begin using Metronial, despite it costing more than what I was paying for parking in D.C. This was mostly based on making up the difference in reduce were and tear on my whiche, and stress of driving through the city. The cost differential in segnating is the cost difference. Did not affect my commute interview in fares by attabally conforming and a notable increase in meratin beaking. MMATA has boto misses and a notable increase in meratin beaking with an increase din fares by attabally conforning and fung fare jumpers. This is where the majority of losses occur. Letween New Carotton and Foggy botton, I can count nearly > 10 after jumpers at each station in the moring and evening. There fare impress have no fare of consequences as the station managers, employees, guads and officers are not concerned as they to not confront them. In traveling around the country and the word, I find MATA Metro fares to be more expensive than most, and with an increase during consulting hours. By having one set price, whether one rides for 1 stop or end to end. Much like the variant pay the 20 so not affect degraps. Notanice, whether one rides for 1 stop or end to end. Much like the variant pay 4.70 one way per person, or a total of 37.60 for all 4 Fare Evasion/Safety/Crime 1 feel Metro affect the stade of punishing honest community. This is a wall Fare Evasion/Safety/Crime Fare Evasion/Safety/Crime 1 feel Metro affor the many of the county wintik is critical for the Co		
I am whenently opposed to these proposed fare increases for Metrorail. I chose to begin using Metrorail, depice it costing more than what i was paying for parking in D. C. This was mostly based on making up the difference in reduce wear and tear on my which, and stress of driving through the city. The cost differences in reduces wear and tear on my which, and stress of driving through the city. The cost differences would reduce so file and set up the more digradiant set. MMATA has both uniformed officers and a med contract security guards, perhaps reducing the amed guards in favor of WMATA. Metro police differences would reduces and exclusions of the cost difference by a totally confronting and fining fare jumpers. This is where the majority of losses occur. Between New Carrolton and folgs gottom concerned as they do not confort the morning and thing fare jumpers have no faer of consequences as the station managers, employees, guards and officers are not concerned as they do not confort them. In traveling anough the evenings. These fare jumpers have no faer of consequences as the station managers, employees, guards and officers and to concerned as they do not confort them. In traveling anough and park downtown for less than 20 dollars, or take the Metrorail and park 4, 70 new ayo per present downtown for less than 20 dollar to metroral and park 4, 70 new ayo per present to be paying the 14 separities. The term and services there's no point of us continuing to ride the Metro at that point we might as well get our items and three at rife your gene to be paying up to be paying up to 20 to genes how vital the T2 Metrobus to the besing to the paying the 130 to get back and forth somewhere so yall waru us to work pay for a fare to get to work and have to pay rent to the Metro at the point gene falle forth to protect full T2 Metrobus for the many direge who they of the 20 set of t		Operating Budget Management and Spending
Netronality depite it costing more than what it was paying for parking in D.C. This was mostly based on making up the difference in reduce weran at ear on my vehicle, and tress of driving thress of driving		
making up de difference in reduce wear and tear on my vehicle, and stress of driving through the tity. The cost differential is spending teas on tele made up the cost difference. Did not affect my commute time, however my stress reduced and a notable increase in meral health. WMATA has both unformed officers and armed contract security guids, perhaps reducing the armed guards in favor of WMATA and foggy Storm, Can count near the majority of loxes occur. Detween New Cantoln and foggy Storm, Can count near security 5-10 far ig pumpers at each station in the morning and evenings. These fare jumpers have no far of consequences as the station managers, employees, guards and officers are not concerned as they do not confront them. In traveling around the country and the world, Ifnd WMATA Metro fares to be more expensive than managers, employees, guards and commuting hours, by having one explores, whether on relise 5or 1 1200 or end to end. Much like the New York City fare model. If come into DC with my family of 4, could drive in and park downtown for less than 20 dollars, or take the Metroral and park / 100 orego the Metro rail. Currently is pend 28.40 per month o Metroral If my commute, where I vas appling 18.500 monthy parking. I suggest holding fare jumpers acountable linstead of punishing honest commuters. I feel like if they up the Metro fare and services there's no point of us continuing to ride the Metror at that point we might as well get on license and drive a car if you're going to be paying up to 330 to get back and forth samewhere sy yill want us to work pay for a fare to get to work, school, and other activity: reut for many individuals, businesse and families to access Potomas and Bettesd. The 12 Metrobus is the only reliable public transportation to this part of the County, which is critical for the County? reut for many individuals, businesse and families to protect full T2 Metrobus for the many riders whore get to work, school, and other activites anywhere near us (SSO New Rood)		
The cost differential in spending less on fuel made up the cost difference. Did not affect my commute time, however my stress reduced and a notable increase in mental health. WMATA has both uniformed officers and armed contract security guards. perhaps reducing the armed guards in favo of WMATA Metro police officers would reduce soots. WMATA can realize a net increase in farse by actually confronting and fining fare jumpers. This is where the majority of losses occur. between New Caroton and Foggy Bottom, I can count nearly 5-10 fare jumpers at each station in the morning and evenings. These fare jumpers have no fare of consequences as the station manages, employees, guards and officers are not concerned as they do not confront them. In traveling around the country and the world, I find WMATA Metro fares to be more expensive than most, and with an increase during commuting hours. By having one set price, whether one rides for 1 stop or end to end. Much like the New York Cirk fare model. If I cound drive in and park downtown for less than 20 dollars, or take the Metrorail and pay 4-70 one way per person, or a total of 37.60 for all 4 round trip jubs the 4.95 parking fee (42.35), No brainer, I will forego the Metro rail. Current'ui spend 28.40 per motion Metrorail for my commute, where I was paying 15.00 monthly parking. I suggest holding fare jumpers accountable instead of punishing honest commuters. To Whom It May Concern, My Malcolm X ES community has been requesting for at least 9 years to acquire a bus route near our school to support their travel from the Alabama Ave corridor to our school	
at 15th and Mississippi Ave. S.E. It has been a struggle for them to attend their neighborhood school	
due to transportation and travel safety concerns. My community and I have met with DDOT, WMATA,	
Ward 8 Councilman Trayon White, Manager of Community Affairs and Engagement DCPS Sharona	
Robinson, Director of Planning and Analysis/Office of the Deputy Mayor of Education Jennifer Comey,	
parents, and school community to address the concerns of not having public transportation access.	
Historically, Malcolm X ES was located on Alabama Ave., where there was busing and the Congress	
Heights subway. Most of the attending students lived on the Alabama Ave. corridor. Once Malcolm X ES	
was relocated to our now location the high need and access to public transportation has not come to	
fruition. To share our new and exciting growth for our school- a full modernization of our building	
beginning in July 2024, Boundary Study (new drawing of our boundary map will include at least 100 ?	
200 more families in our neighborhood school boundary), and just recently we became a Connected	
School garnering our school more funding and resources for our programming. As you can see to show	
inclusiveness to our families, we would need a bus service to bring our families to their neighborhood	
school. We are ready to grow our enrollment and serve our communities? needs with a public bus	
service. It would be a respectful and equitable way to show Ward 8 communities that we are here for	
their educational and public service needs in our community. Sincere Regards, Principal Berry-Young	
Malcolm X Elementary School zara.berry-young@k12.dc.gov	Bus Service
To reduce expenses, Metro should, at the Greenbelt Metro station, during daylight hours, turn off the	
lights that illuminate the very large Park-N-Ride lot. For several years, even during the brightest,	
sunniest, day, these lights are on all day. The same is true for the lights that illuminate the road that	
takes cars exiting the Park-N-Ride lot to I-495. While I realize that this alone will not solve Metro's	Operating Budget Mercenenet and Cronding
budget problems, this is a very easy cost cut that will have no adverse impact on riders. I believe that the fare increases, while attempting to address the budget shortfall, would prove to be	Operating Budget, Management and Spending
catastrophic for D.C. (and the surrounding metro areas) residents who are already struggling financially,	
partly due to transportation costs. I truly believe DC has the capacity to augment the budget allocated	
to public transportation infrastructure without imposing undue financial burdens on its residents.	Operating Budget, Management and Spending
Metro should be more accessible for those who cannot afford other means of transportation. If you	
reduce the operating hours or increase the fares, you affect low-income workers that operate in	
specific industries and rely on the metro for their daily commute. These cuts will affect the most	
vulnerable metro-users which are also the ones who need it the most. Is any of the proposed cuts	
impacting the salaries of METRO managers? I doubt it.	Fares/Fees/Parking
Please no changes	Miscellaneous
Lots of seniors use the L2 line to shop at the Giant on Conn. Avenue. Also, there's are several senior	
apartment buildings along that corridor to take folks to other shops in Chevy Chase. These destinations	
are just not safe or convenient for seniors with shopping carts to access via Metrorail.	Rail Service
Eliminating both the D6 and the 96 eliminates all connectivity for most of Hill East! Metrorail isn't a	
viable alternative to get to Union Station because you have to go all the way to Metro Center and	
backtrack on the Red Line.	Rail Service
service is essential to increasing ridership and connecting the region to work, culture, arts,	
entertainment, family, medical needs, and more. Fare increases are reasonable but cutting service is	
not. additional service fees could be added to rush hour customers coming in from MD and VA as well	
as airport trips.	Fares/Fees/Parking
Consider significantly hiking fares for metro rail outside of DC. If DC is helping to fund the shortfall in the budget, DC residents should not take the brunt of the costs. In other metro rail systems, such as	
New York, it costs much more to go to the suburbs outside the city. DC residents need the service and	
should not be punished if Virginia doesn't want to pay for it.	Operating Budget, Management and Spending
Cutting off service after Stadium-Armory would be a great disservice to those east of the river and	
increase car traffic into DC too. More bike infrastructure!	Service Levels
Reducing service levels will further push customers away from the system, so I would avoid that at all	
costs. Metro needs to find more efficiencies internally rather than taking measures that push customers	
away, because the whole region suffers when transit access is reduced.	Fares/Fees/Parking
Please do all you can to prevent WMATA from decreasing the service areas for Metro Access. This	
change will affect thousands of riders. With no time to prepare for this change. And some will not be	
able to change since they have relied on this service for 20 plus years. Many lives will be affected by	MetroAccess
Please dont increase fares, we already have inflation to deal with	Fares/Fees/Parking
hopefully exceeding) PRE-COVID RIDERSHIP LEVELS. Metro is no longer JUST a public utility - it must	
now be both a utility and an amenity. People are working from home now. You need to give them a	
reason to keep coming into the city, to keep sitting down in restaurants, and to keep visiting	
monuments. Don't just make the metro functional - make it fun to ride. 1. Because buses already	
represent such a small share of the city's emissions, it is baffling to me why WMATA wants to transition	
to an all-electric fleet. The best way to reduce emissions is to get most drivers off the roads and on the	
buses and trains. Hold off on electrification until that has been accomplished 2. Fare increases are	
important to prioritize over service cuts. Maintaining and expanding service levels is important because	
it ensures there is no redundant infrastructure (buses in parking lots, railcars on standby). It's also a	
matter of inducing as much demand for metro as possible. Additionally, if you DO cut service, what	
happens if there's a demand spike you didn't predict? You won't have the necessary staff and resources	
on hand to deal with that kind of scenario if you've already cut service. 3. Please enforce fares. Fare	
dodgers are disproportionately more likely to be carrying a gun or knife, so they increase the risk of	
violent crime on the metro while also decreasing revenue. This also causes a loss in ridership, as some	
who have a convenient alternative to metro and an overinflated perception of crime rates on the tracks may stop choosing to take the metro outright. 4. PLEASE automate the door open/close process on	
your metro cars. I have never seen another commuter rail system in the United States that features	
such long waits between when the railcar stops and when the doors finally open. I wouldn't be	
surprised if wait times improve by more than 5% upon resolving this annoying issue. Sometimes 20	
seconds will pass before those doors open! 5. Your long term objective should be to automate the	
trains and retrain your conductors as onboard safety guards. This would increase operational efficiency,	
safety response times, and customer experience, and you wouldn't even have to lay people off! 6. Even	
if it's at or near the end of a line, there should never be 30+ minute wait times at outdoor stations in	
the wintertime. I've seen so many riders stuck outside without proper winter attire for extended	
periods of time in the cold months of the year. I fear some of your service cut proposals will exacerbate	
this issue. 7. BUSES: I know visualizing bus lines in an easy-to-read way is an extraordinarily difficult	
puzzle to solve, but it's so, so important. If you can lock a few people on your planning team in a room	
and tell them they can't come out until they can make the bus lines easy to understand (naming system	Bus Service
G8 is the only bus in the NE corner of DC. We have teenagers who use it on weekends. We have the	
elderly who use it to get to church. We have families with 1 or no cars. How can you cast off this lifeline	
	Bus Service
of o this neighborhood?! Strongly oppose changes to the G8 line	
of o this neighborhood?! Strongly oppose changes to the G8 line Please expand service to late nights on weekends! More people going out/coming back from late shifts/going to late shifts would very much appreciate additional service.	Capital Budget

Comment	Category
The proposals would make the network practically unusable and would have endless downstream	
effects on quality of life for all DC residents	Miscellaneous
Please don?t cut the D6 bus route!! I really hope that weekday rush hour service is not eliminated and that metrorail continues to operate	Bus Service
more frequently. The proposed service cuts would make DC a much less livable city and would lead to	
me driving to work instead of taking the metro (thereby increasing emissions and traffic).	Bus Service
It is outrageous how the metro easily increases prices to pay for their inability to stay within the	
budget. Maybe instead, they need to start using their budget more efficiently and effectively. Can the	
metro share their full budget and how they spend it?	Operating Budget, Management and Spending
Please don?t cut service for routes that kids use to got to and from school.	Bus Service
Fare evasion needs to END. Recommend hiring more police and prosecute evaders. The reduction of	
evasion will pay for the staff.	Fare Evasion/Safety/Crime
I understand that Metro is in a very difficult budget situation and I sincerely appreciate that it's	
exploring many different means of covering this deficit. However, I strongly advise against cutting the	
D6 bus route. Myself, along with many other parents and caregivers, regularly use it (several times a	
week) to access museums, libraries and more with our children. I love the bus for its ease and	
frequency of stops, and the drivers are always friendly. Riding it is really a bright spot in the day for me	
and my toddler. The D6 is very conveniently located throughout our Capitol Hill neighborhood and it's	
so much easier to navigate the bus with a stroller than it is making the trek to Eastern Market metro.	
Taking the metro adds a 17 min walk + ~5-10 extra min navigating elevators each way. I do wish there	
was a way to enforce payment once people board the bus, however. Often times, I will try to pay with	
my phone but the reader has been broken. Anecdotally, I also see many people (several people each ride) simply walk past the reader without making any effort to pay. I don't want to place drivers in an	
unsafe or confrontational position, but I am curious if there are ways to require payment so that the	
budget deficit wasn't so great.	Operating Budget, Management and Spending
Metro has finally just been getting back to having sufficient service. I would significantly rather see fare	operating addget, management and operating
increases over service reductions. Also, stop wasting money trying to catch fare evaders. I would be	
shocked if you didn't spend far more on the new fare evader turnstiles than you 'lose' through fare	
evasions.	Fare Evasion/Safety/Crime
We need buses to connect to the last metro train of the service day.	Bus Service
STOP MAKING NEW FARE GATES AND JUST RUN THE METRO AND METRO BUS!!!!!	Bus Service
Bus 42/43 weekend service is ESSENTIAL for those coming to work in the AdamsMorgan/Kalorama	
area. ESSENTIAL for those who can grocery shop only on weekends.	Bus Service
Public transportation is crucial; there should be neither service cuts nor fare increases (or fare increases	
and more low income discounts). we are pricing people out of the city and making it harder and harder	
for them to get to work. i know this isn't an option on the table but the government needs to subsidize	
these systems. the better it is, the more people will use the system. this makes me sad.	Bus Service
Keep Bus route 74	Bus Service
We need to maintain a healthy area to live in.	Miscellaneous
Those using metrorail and bus to go concerts sporting events, tourists in town, evenings out to not use	
their vehicles will be impacted for ending rail service at 10pm during the week including those in	
concierge services (hotels, office and condo bldgs) and employees working late. Raising rates or slowing	
down service times is better. Closing stations? How about opening for rush hour am and pm shifts for	
these stations M-F and closed weekends and holidays. I am sure there are those who don't mind	
working part-time.	
	Bus Service

Longer wait times would just make me order an Uber to get places, I'm fine with paying more for the train/bus if it's consistent and timely. Metrorail closing at 2am on the weekends I think is a great idea,	
train/bus if it's consistent and timely. Metrorail closing at 2am on the weekends I think is a great idea,	
In a source of a second to use the train more and the enjoy more table out and about without having [
to hurry back early to a metro stop. Bus Service	
I feel like they already tried adjusting the hours and service changes (ie Silver Spring turnaround, etc),	
and they weren?t great. It just frustrates riders more than anything. Increasing prices while your loyal	
riders continue to ride is just a slap in the face to me. My employer never increases the amount they	
give us to help pay for metro and it just makes me take more days off so that I can offset the cost	
increase. I?m not speaking of gov employees who gets hundreds of \$\$-but the other commuters like	
me who are just trying to make ends meet. Fares/Fees/Parking	
Closing metro stations and eliminating bus routes should be the absolute LAST option. The biggest strength in public transit is its reach to the greatest locations with the greatest frequency of service.	
PLEASE PLEASE do not eliminate the K9 bus routel Bus Service Bus Service	
This survey isn't really well done. It asks about whether cuts would affect my choice, but what if i have	
no choice? My house has one car and I rely on red line to get to work (Rockville). If there are turn backs,	
I can't reliably get to work. It makes my whole life harder. That's not an option other than to say 'I don't	
support.' Miscellaneous	
I feel like we?ve already tried the turnaround spots (is Silver Spring/Grvesnor), and cutting the time the	
trains run and it wasn?t successful. It just irritates people because wait times are longer. It feels like	
your loyal riders are being penalized for continuing to ride. My employer does not increase the amount	
they give us to help pay for parking/metro any time there is a price increase, which means I will take	
the train less (take more days off) to offset the cost increase. I?m speaking on behalf of us who are	
living paycheck to paycheck. Price increases just make us anxious, it doesn?t make us want to take the	
metro more, but what options do we have? Fares/Fees/Parking Please do not reduce service on the M4, N2, N4, or N6. Bus Service	
Please do not reduce service on the M4, M2, M4, or No. Bus service Bus service Bus service I and Zender depend upon bus service to move me around the city, especially upper NW and to	
aim 2 and depend upon dos while to investigate the end of the target and the down to an and to reach the Metro. Eliminating the D2, N2, N4 would greatly impact my ability to	
solver, but to medical appointments, and enjoy all that DC has to offer. There are many geople who	
depend upon these routes, and this is a very hilly part of town. I would have to walk uphill to reach	
Wisconsin Ave in all weather conditions, and while I am physicall able now, I am not getting any	
younger and this is of great concern to me. PLEASE do not cut these routes, especially D@ and N2.	
There are used by many students, seniors, people r repopulating offices downtown. I would literally be	
in tears and not know what to do if this were to occur. Thank you. Bus Service	
Get more funding from the jurisdictions. Capital Budget	
It?s really a shame these options are on the table, and I don?t envy the folks who have to make these	
decisions. Some of the changes I don't feel knowledgeable enough to comment on because they don't	
affect me personally. But I hope that this survey will be made available in multiple languages and on paper in the bus routes being proposed to be cut. I saw this survey through a transit app I use. Bus	
paper in the bost poles being proposed to be cut. I saw this solvey includes a transcript process to a solvey includes being proposed to be cut. Saw this solvey includes the process of the solution of the process of the solution of the process of the solution of the process of the process of the solution of the process of the proces of the process o	
lose their options. I ride the 86 and 83 interchangeably since they're equally walkable to where I need	
to go Service Levels	
It is a sad state of affairs when billions of federal money is politically decided to be spent for defense	
budgets and foreign countries? wars that the USA should stay out of while our own capital?s public	
transit system is suffering and neglected, making our residents suffer, further undermining the WMATA	
and contributing to more traffic congestion and less economic mobility for our citizens Operating Budget, Management and Spending	
Many of these routes are used by children to access schools in different parts of the city. Eliminating	
these routes will make school attendance and timeliness a MAIOR issue. Bus Service	
I love Metrorail service. My life would be severely negatively if service cuts were made. Bus Service	
Ada senior, I rely on frequent bus service frequently. Would rather pay higher fares than have reduced service Bus Service	
Service Disservice Disservice	
transportation system. Our region should reallocate money from building/expanding roads for cars to	
support and enhance Metro. I was recently in Paris, where the trains arrived every 2-4 minutes, and the	
trains were packed. Reliable, stress free transportation motivates ridership. Infrequent trains and buses	
make me want to hop in my car. Bus Service	
I ride commuters buses and not happy about routes cuts. Bus Service	
Catch fare evasions (gates in metro center seem to work well; get those everywhere). Better to increase	
fares, especially on the weekends, than reduce service. Many people are subsidized for riding metro, so	
the rate increases wont hurt people much. Thats one way to indirectly get the federal government to	
be contributing more. Fare Evasion/Safety/Crime I of course answered in the hypothetical where MWATA is not fully funded. I would rather WMATA be	
I of course answered in the hypothetical where MWATA is not fully funded. I would rather WMATA be fully funded by all jurisdictions, establish regular and new sources of funding to close these shortfalls	
permanently, and *expand* current service and systems. Capital Budget	
permanenty, and expansion content service and systems. Capital budget Very displaced with MD and VA Miscellaneous	
think there can be targeted service cuts that minimally impact high need populations (I?m thinking	
service workers who use bus/meteo early in the morning) while balancing the budget. Operating Budget, Management and Spending	
We need better service between SW and other parts of the city, not cuts to our service! Service Levels	
On a weekend morning ,Arlington to Brookland ,using a bus to connect to rail including a line transfer it	
takes 1hour 15 minutes ++ to get to my destination. Bus Service	
Hopefully jurisdictional payments will come through but I oppose cutting routes and reducing service	
wherever possible. I ride Metrorail and bus everywhere; it's my primary form of transportation.	
Reliability is of paramount importance. Cutting service chips away at the idea that transit will be there	
for me when I need it, making it harder for Metro to be the first place I turn to when I need to go across	
town. Bus Service I am not a frequent rider on bus or rail, but that is because it would take at least 2 transfers to get to	
Fain how a request rate of outs of tail, but that is because it would have at reast 2 transients by get of places. For short trips, I can bike, I would be willing to take a bus more often if wull times were 10 min	
process to an energy, ten many ten many ten uning ten uning the data and the many ten

If Metro raises the fees greater than what folks will pay, Metro loses. Unfortunately, it's the folks who can't afford a car and insurance that lose the most because they don't have an alternative. If it takes over an hour to get somewhere that has free parking and takes 20 min by car, Metro can't compete. If folks had to pay outrageous parking fees, that might outweigh the negative aspects of rail/bus. However, if folks carpool to share the parking fees, then Metro loses especially if Metro raises the fees too high. As a bicycle commuter, I am willing	
or less. To get people to take Metro, I think we need to change behavior and make it cool to take a bus. It must be convenient, reliable, and less costly than driving. Please don?t cut the bus line T2. I need to take it to the friendship heights metro station. There is no	
alternative bus line available. And there is no metro parking at friendship heights station. If I have to	Due Camina
make a choice between metro fare increase and bus line cut, I will choose metro fare increase. People are struggling financially as is.	Bus Service Operating Budget, Management and Spending
The DMV needs reliable, affordable, and accessible public transport	MetroAccess
Being tougher on the turn gates, recently experienced someone coming in right before the gate closed	
behind me. You have higher gates at stations that don?t need them and lower gates at stations that	
actually need higher turn gates.	Rail Service
Some people don?t have the luxury of working from home or being able to afford a car to drive into DC.	
Those people, like me, count on Metro rail and bus service to be reliable and affordable. Increasing	
service would increase ridership. Not increasing service will only deepen the budget shortfall when people choose not to ride. According to WMATA, I was in the top 1% of riders this past year. Without	
Metro, I would personally and professionally worse off. Please do not reduce Metro service.	Operating Budget, Management and Spending
The data is clear: cut service at the expense of our economy. The budget deficit is a very	
counterproductive measure.	Operating Budget, Management and Spending
The budget issue must be addressed on a long term scale and in its entirety. The city will be in chaos	
with the proposed cuts. There is no reason we should be dealing with this as a city year after year.	
People need to be able to get around. And they shouldn?t have to pay exorbitant prices to do it.	Operating Budget, Management and Spending
I depend on the d2 and 33 buses.	Bus Service
I might have missed something in the document provided at the beginning of this survey, but it could make fiscal sense for WMATA to try diversifying its sources of revenue - currently, passenger fares are	
projected to make roughly 80% of the system's revenue in 2025-6. Even if fare increases do generate	
more revenue in the short term, an economic downturn could still reduce ridership as well as increase	
riders' willingness to jump turnstiles (especially after a fare increase). At that point, riders are left with a	
system that is both more expensive at the point of use *and* is underfunded. Increasing fees for	
advertising and parking could be a start here. Companies choose the WMATA system because their ads	
will have guaranteed exposure to countless riders, and riders who live far enough from train stations	
that they need parking are likely to also have the ability to drive to work (although this could be a	
misunderstanding on my part as a non-driver). Related to the possibility of shutting down stations: If	
you do, perhaps consolidating Metro Center with Gallery Place by building a concourse between them?	
It is a bit odd that someone who wants to switch from (for instance) the Green line to the Silver line has	
to (unless they prefer the longer route to L'Enfant Plaza) wait several minutes for a 30-second train when they could have walked there - except at the moment, walking there would require paying extra	
since they would have to leave the station! Another point: As much as I ultimately believe that it should	
not cost money for anyone to travel the city they live in, I would prefer fare increases over service cuts	
if and when push comes to shove - both as a regular transit user and as someone who lives in a heavily-	
visited city. From what I've seen, tourists are more likely to purchase SmarTrip cards and use them	
during their time here than to jump turnstiles, and service cuts seem far more likely than fare increases	
to dissuade tourists from actually using the system since WMATA is known for being one of the most	
efficient metro systems in the US (especially as a way to avoid DC traffic). Perhaps relatedly: Could	
WMATA work with more employers in the DMV area to include the SmarTrip monthly pass as a	
workplace benefit (and perhaps increase prices for day/week passes)?	Service Levels
Schedule cuts will absolutely decrease ridership and make it harder to get around the city and surrounding area, but it?s important that metro stay affordable for everyone that can?t own a car	Rail Service
Gate jumpers create the impression of lawlessness and unsafe conditions. And the system seems to	
condone it all. For the rest of us, that makes you want to avoid riding metro. So it?s not just the fares	
that are lost. Morale suffers too. There should be a way for WMATA to do better than that.	Fares/Fees/Parking
It would be so much better if Metro would charge a flat rate for all rides ALL the time, day and night. A	
flat rate for students, senior citizens and working class based on their salary. That?s fair for all ridership.	Rail Service
Please don?t stop service on the D2!	Bus Service
We need more public transportation, not less! Global warming is real and we must curb emissions by	
offering free, accessible and convenient public transportation. Why are other countries getting billions of dollars from us for war and genocide and we can't even have an efficient and free public	
transportation system?	MetroAccess
I think that Metro can scam even more money from the region next year. You guys seriously can do way	
betterscam more, less service. Go America.	Rail Service
It?s a tough budget. I?ve been a Metrorider since 1995 have seen it?s up and downs. It?s still one of	
the best systems in the nation, let?s work to bring it back to something people are proud of. Metro	
needs to work harder to get the suburbanites and others who used it to commute, events, or daily trips	
not just those who need to use it. It should be a top transportation choice no matter where you come	
from. Fare evaders, crime, and trash sadden me. It used to be no one dared to eat on Metro or jump a	
gate. Now it?s a daily occurrence. Also don?t lose site of development around Metro. It?s not just about the land but building the next generation of Metro users.	Operating Budget, Management and Spending
You're a public service, not a for-profit enterprise. I don't care if you run at a deficit, and no one else	operating baaget, Management and Spending
should either. I care that you've never reinstated service following 'temporary' cuts. I care that all you	
do for the past decade is reduce the reason for people to use Metro, then you act surprised you lose	
ridership. Stop it.	Rail Service
Fully fund Metro! No service cuts. More funds for improving metro stations (why are metro stations so	
dark???, why is it nearly imposible to see what station you are at when the train is in a station???).	Bus Service
I work for the State Department and already during COVID the bus line I usually used, the S1, was cut,	
and we have been asked to return to work now. I take the 64 or S2 or green and red lines, and these	
changes would affect all of my options for getting to work even further. It already takes at least 45 minutes each way to go the 5 miles to the office and an hour and 15 minutes to go the 6 miles to pick	
up my daughter from school on the way home. Reducing service and greatly extending times would	
mean my already 2 hours of commuting would likely be at least 2 and a half hours, which is basically	
impossible with a young child.	Bus Service
Increased fees and service cuts would prompt me to drive into the city 6 days/wk instead of taking the	
train/bus combo as I do currently	Bus Service
I think it is important for the metro to be available at night. Service cuts and early closures would	
impact my reliance and use of the metro. Thanks for taking this input!	Bus Service
Cute to service and price hikes hurt poor people the most. Public transit is a public good that needs to	Societa Lovale
be funded better by govt - local, state, federal. Do not eliminate the 74 bus route! Nothing else serves Buzzard Point. The Stacks is coming this year	Service Levels
which would greatly increase the amount of people in this area. Eliminating this route would be	
irresponsible and devastating to those of us who rely on the route DAILY!	Bus Service
Metro should publicize in advance specific Metro stations that may be closed and allow public	
comment on closing those stations.	Rail Service
I'd expect that longer wait times will increase crime, so I'd stay away.	Fare Evasion/Safety/Crime
My 7th grader catches the P6 everyday to and from school. The bus stop is right outside of our home	
and let's him of right on front of his school everyday please keep the P6	Bus Service

Comment	Category
And fhe reason im with rhe service cuts is because these nasty rude bus drivers act as if they 1 own da company & its all about them.thwy are rude as some of the last busses on routes thay	
dont offer the 24/7 service well the last bus never shows but i thought they was suppose to have	
them.trackers on at all times. And 1 of em male or female got 1 more time tp get smart with my	
Grandmother and theres going to be some serious issues starting off with a lawsuit & Shes most of	
thier seniors 4 times over rude bastards and with them.service cuts sit their asses in a classroom.&	
have rhem to defind from Merriam Webster's Dictionary what Customer Service is ans means than	Bus Service
make em write it 2024 times see how they like that. Please keep the p6 bus route. It is the only bus on my street (4th street sw) and especially as a disabled	ביא אוני אוני ביא אוני ביא אוני ביא גער איז
person it makes my travel so much easier. I use it so much and it?s always crowded so I think it should	
stay in operation. Thank you.	Bus Service
I am new to the area and like the metro option, but have not had an opportunity to learn the system	
well enough to fully maximize use.	Rail Service
Don?t think it?s right that a lot of people transportation to work and important places I appreciate that WMATA is in a difficult budget situation. Thank you for gathering folks' input. I	Miscellaneous
wonder if there are additional options (other than fare increases and service cuts) that may help in a	
situation like this. Is there a way to increase ridership? Incentivize WMATA over single passenger cars?	Operating Budget, Management and Spending
I think an equitable approach should be taken towards budget cuts. The number of riders who will be	
affected by decreased rail service and increased fair pricing will be disproportionately experienced by	
low income or working class citizens in the DMV. I would suggest taking a look, as you have done, at	
demographics tabulated by the time taken on metro or metro bus. The metro bus critically links businesses and homes that connect metro rail service.	Operating Budget, Management and Spending
Rather than increase fares, ENFORCE current ones.	Fares/Fees/Parking
If you cut 17k and 17g you will lose alot of business that actually pay fees instead of sneaking on or	
hopping gates, recommend reduce hours they operate instead	Bus Service
The route that I use is the most is 1c and 1a I would not like there to be a change for those routes	Bus Service
Do not cut 17G buses. 17L and 17H were already cut. These buses are always PACKED. Your rider data is	
likely WRONG as the pay systems are often not working. FIX THE PAY SYSTEMS AND BRING BACK 17L AND 17H WHICH ARE CRITICAL NODES FOR NORTH SPRINGFIELDI :)	Bus Service
It is a damn shame that one of the best metros in the country has to cut services or raise fares out of	
most people's price range in order to run. I don't have a solution but curses on the politicians that let	
you down.	Fares/Fees/Parking
For the residents of Buzzard Point without cars, the SOLE form of transportation for us is the Route 74	
Metrobus. If you are not going to build a Metro stop in Buzzard Point anytime soon, you CANNOT eliminate Route 74. This is the only form of transportation that we rely on. Cutting this out will cause	
the Buzzard Point area, which DC is pouring money in to revitalize, to become just another crime-	
ridden neighborhood - effectively driving the ?good ones? out. This route is the way that I get to work	
and move around the city, as do many, many, many of my neighbors. ENFORCE the payment better.	
Drivers must ensure each rider pays before sitting. I have watched countless riders come onto the bus	
without paying every single day. Put in turnstiles. Make that more effective, before eliminating the	Bus Service
Before you start investigating service cuts and fare increases, you should look at the tech you have collecting fare. About 25% of the busses I get on don't have working plastic card fare readers. We also	
need more info as to WHY people evade fares and Metro needs to offer them reduced rates, education	
as to why paying is important, and some general empathy. I used to use Metro Access many years ago	
and was always disturbed to know that unplanned stops (for bathroom use) are not allowed and that	
the rider will be left behind. Drivers should not be driving for 12 hours straight. I appreciate that there's	
more security in Metro tunnels right now and hope that continues. Fare increases are way better than	
service cuts, but maybe you could find a way to ask certain people to pay more if they want. Also, it's always been my understanding that fares do not even remotely cover operating costs, so if you plan to	
increase fares, it would be good to do some outreach and show the public how you're using the extra	
fare. I currently use my disabled card, but if it seemed like my extra fare would help the system, I'd	
probably go back to regular fare.	Service Levels
They provide a bad service for example today the 109 bus did not pass at the established time I am	
waiting for 30 minutes in the cold to the next bus. And the trains also give bad service, in the holidays	Pur Canica
they stop quite a long time regardless of that one arrives late To our jobs. I depend on the 96 bus. If the 96 bus were to be eliminated, then my commute to work will be	Bus Service
significantly longer. By cutting metro and metrobus service, these facilities will no longer appear	
publicly reliable. Additionally, by cutting bus service you are disproportionately affecting the	
impoverished: the buses run through the city where the metro can?t reach and car expenses are	
insanely priced. Where are our taxes going? To maintain Georgetown? I see nothing in Columbia	
Heights. Don?t freeze wages especially during a high inflation period; don?t use capital money for operations.	Bus Service Operating Budget, Management and Spending
Service cuts that reduce redundancy (e.g turn backs at stations where transfer to another line is	operating booget, Midnagement and Spending
available, like blue/silver at Stadium Armory are okay. However, any decrease in metro frequency,	
especially in the weekdays, will make the metro unusable for commute. I currently work for the federal	
government and hence get my fare covered by my workplace, so I won?t be as impacted by fare	
increases. I think a 20% increase is fine, but no more than that. I would urge you to prioritize	
commuters who rely on the metro to get to work. Service cuts that slow service to every 10/20 minutes will make the metro prohibitively slow for many of us especially those of us that need to transfer	Rus Service
will make the metro prohibitively slow for many of us, especially those of us that need to transfer. I rely on the Metro for all of my transportation needs. While I don?t take the bus anymore, I used to	Bus Service
take it everyday as a cheaper option when I was first starting out. Cutting bus routes will	
disproportionately impact lower-income commuters. I would be willing to pay more for Metro service if	
I had to, but many people in DC could not afford higher fares. Cutting Metro service will mean more	
cars on the road, more wear and tear on the roads, more traffic, more traffic fatalities, and crankier	Bus Service
I think it?s important that you ask WHY people would not change their choices - if a route is the only way someone can get from home to work and back drastic service cuts are not going to change their	
use of the service but it can make it impossible to access a second job or daycare because of the	
differences in timing. I strongly recommend focusing increases where people have financial flexibility	
such as the parking fees.	Operating Budget, Management and Spending
Strongly oppose any morning rush hour reductions to the S2. As is, southbound busses are often full	
when arriving at Euclid between 8:15-8:50 AM. Additional reductions would increase uncertainty for	Pur Capileo
many AM commuters, forcing us to switch to other more reliable options. Safety maintenance should be a priority Decreased service and higher fares impact the lower income	Bus Service
riders most as well as increasing highway and street traffic.	Fare Evasion/Safety/Crime
It makes no sense why riders are penalized for riding at peak times and utilizing public transport; fares	
should unified not penalized for longer distance travel; one set fare like NYC If DC want to be a big city	
then tax drivers to fund the system	Fares/Fees/Parking
keep ashburn station pls Metro is essential to the DMV and DC, MD and VA governments should give it as much money it needs.	Rail Service Rail Service
increase as a second and be, with and be, with any we governments should give it as much money it needs.	

Comment	Category
Please do not eliminate the D2 bus route. Ridership has increased and the bus is always packed in the	
am on weekdays. Many people rely on this bus to get to DuPont Circle Metro as it?s the only direct bus	Due Camina
line there. It also serves as a school bus. Please tax the rich to make up for this budget shortfall. Also, if you have any executives who earn more	Bus Service
than \$1.5 million annually, please cut their pay so Metrorail can continue to operate smoothly.	Operating Budget, Management and Spending
Make 'smart' service cuts based on rider data.	Bus Service
Cutting the express lines from the suburbs into the pentagon/other areas will remove paying customers	
and greatly impact WMATA even more. every bus I am in on the way to and from work is full, they have	
not been empty. Cancel the middle of the day busses and keep commuter hours ones.	Bus Service
MetroAccess is vital to my transportation to doctor appts and to see family. I am a retired disabled	
Veteran and am very satisfied with the service it provides. The proposed max \$5 per trip is okay with	
me.	MetroAccess
If you want riders, you need consistent service, knowing that it could be 15-20 minutes before the next bus or train (I take both daily) is not an incentive to use metro, even when my commute is paid for by	
the federal government. Also, your question about service cuts 'Eliminate Metrobus Service on Part of	
Route:' doesn't allow me to indiciate that I take the T14 bus on a regular basis (T14 is not one of the	
available options).	Bus Service
Do not cut D6 service. We use this bus often, as do our neighbors.	Bus Service
Randy has done so much to bring Metro back! I love Metro! Please don?t take away so many good bus	
lines.	Bus Service
The sliding scale fare structire is the most absurd fare situation in the world. Look at other fitst tier	
cities! have flat fares or perhaps a 3-tier fee structure based on perimeters/distance. STOP AND	
PROSECUTE FARE JUMPERS. There is \$30M right there. Get rid of textile seat covering. It is disgusting	
and unsanitary. Get rid of all remaining carpet. Hire more security to ensure adherence to rider rules.	Fare Evasion/Safety/Crime
Keep fares lower for lower-income, kids, and older adults. I would be fine paying more for Metro or	
metrobus, but if you raise fares it will keep other people from riding due to cost. We should not expect fares to fill in hudget gaps -, this service chould be adequately funded by public hudget to it becomes a	
fares to fill in budget gaps this service should be adequately funded by public budget so it becomes a better option. Keep building bus lanes and other mechanisms that make public transit faster and more	
reliable, and people will use it. Build better bike infrastructure protected from cars. Shift away from	
modalities that favor driving downtown.	Operating Budget, Management and Spending
We need to increase public transportation, not decrease it.	Miscellaneous
I believe a better enforcement of gates or changing to a turnstile design may help with some funding. A	
small increase cost may be needed but may also result is less ridership if it cost the same to take a lyft	
or uber vs the metro.	Capital Budget
Please no turn back at silver spring! Please!!!!	Miscellaneous
Many of your questions call for more information, like how efficiently are you operating and, for capital	
expenditures, what is the money going to be spent on? To say Infrastructure doesn't say if that is for	
security cameras or replacing A/C units in the station manager booths. Capital expenditures are not the	
only cost for the Metro service. There are personnel costs as well. How much of your budget goes to operations versus equipment? My choices for commuting into DC are either Metro or Commuter bus.	
The Metro experience is lacking. There is always the question of what will happen this time? I tend to	
avoid the Metro as the service fails to enforce the rules that it has established. Those rules include	
failing to collect fares from all riders. Almost every time I ride the Metro, I see people jumping the	
entry/exit gates and the station manager not addressing it. I've seen station managers open the bypass	
gates to let riders through. My more recent experience has introduced me to one station manager at	
Farragut West, in the early morning, that stands in front of the fare gates. I appreciate the added effort	
that he makes to reduce fare jumpers. How is it that he can do the job and none of the others in my	
experience can? There are monitor cameras at many of these locations. Why are they not being utilized	
to identify jumpers? It is said that you get what you pay for. If these people are allowed to ride for free,	
how much respect do you think they have for the service provided? How likely are they to follow the	
rules of ridership if there is not cost to ride and no enforcement of the rules? During the COVID period,	
although masks were mandated, many riders did not wear them Where was the enforcement? No	
eating or drinking on the train. Unenforced. Panhandling on the train or otherwise bothering other	
passengers, too often. I was on the Metro this morning. There was a Metro worker with an Operations	
vest on. His radio was at such a volume that you could understand the conversation from the other end of the car. Why should he not be required to use a headset, like the passengers are? It detracts from	
passenger comfort and shows preferential treatment. Maybe the Metro should put police officers in the station manager roles. Maybe more police officers should be riding the trains or monitoring the	
access gates and citing violators. Perhaps the financial shortfall is not just from an increase in costs, but	
a lack of efficiency in your staffing. These are not things that keep just me away from the Metro, but	
other riders as well. Maybe you should look at attracting riders instead of cutting services and raising	
rates. Otherwise, eventually you will have so few riders on a system that cannot support itself.	Operating Budget, Management and Spending
Express Bus Service cuts will have significant impact to those working in the Pentagon (as there are	
increasing demand for more in-person work) or commuting through the Pentagon Metro or Bus Station	
and drive increased vehicle traffic or over flowing demand on Metro during peak hours (already bad	
during peak travel times). Recommend not cutting any 17 or 18 Express Bus services.	Bus Service
Please don?t cut service any more. We rely on the metro for work transportation as well as childcare. Traffic on roads has gotten significantly worse over the past year and cutting service is going to make	
Traffic on roads has gotten significantly worse over the past year and cutting service is going to make that worse	Rail Service
I'd like more information about the bike locker plan. Are the lockers highly used under the current	
model? What level of demand is there for bike locker rental? Is the price point set to encourage their	
use or is the demand enough that a higher rate could be charged?	Rail Service
Train frequency is already too low. I would much rather pay more for a fully reliable service than to	
deal with even longer wait times. I?d also consider reducing frequency of duplicative lines and shift	
resources to operating one line at full capacity. Eg the green line service has suffered due to the yellow	
line going all the way to Mt. Vernon. Also, blue/orange/silver has 3 lines with a lot of overlap, is that	Bus Service
There is some people who leave work late after 10pm, and they will need of public service	
transportation to go back home. For example 74, C11, c12. 74 bus is used to commute to my work	
place, and it is used by a lot of employee. We would like the parking fees to not increase because of lack of parking space in our work location, and we utilize metro parking.	Due Carrier
	Bus Service

The green/yellow at l?enfant Bus Service	No comments The proposed service cuts would turn Metrorail from a mostly functioning subway system into a third- rate train system. Please raise fares rather than cut service to avoid to death spiral of low ridership and low revenue. Consolidation of the 16 (Y, M, A, etc) for Columbia Pike was good since there were too many buses, but now the M gets really crowded on some trips. More frequency on the Pike please. To be a viable alternative to private vehicles, public transit needs to be fast, efficient, and affordable. Budgeting on a one-year, multi jurisdiction cycle is unnecessarily complex. Work to change this, even if it means revisiting the congressional compact. Also, please keep the 11Y. Thank you. I would like to keep as many bus routes for PRince George?s county because it would affect my community the most I think it?s possible that people would be more willing to pay for the metro instead of jumping the gate if prices were more affordable at all times. You don?t understand that even 3.50 is too much to some people and families. Irely on the metro to get to work from the redine to green line and i also live paycheck to paycheck so i would prefer not to spend more money on metro than groceries. Please do NOT increase the fare. Please INCREASE the frequency of buses and trains. Please build COVERED BENCHES for ALL bus stops - it is so painful to stand outside for 30-60 minutes waiting for the bus. Parking prices should be more variable based on proximity to the city center (or demand based). Garages along silver line phase 2 are so underutilized, it would benefit to introduce cheaper prices or free after certain hours to incentivize more people to take metro. Bike locker pricing is a good idea, but it should be mixed of the existing annual pass and the proposed pay by day rate Beg, borrow, demand whatever needs to be done to get local authorities to pony up the money actually needed. It is a travesty that they think they can skimp on Metro like this. Public transit is vital for a healthy community and e	Miscellaneous Bus Service Bus Service Operating Budget, Management and Spending Bus Service Rail Service Fares/Fees/Parking Rail Service Description Bus Service Operating Budget, Management and Spending
expect high usage when conditions are so unsafe and compensating for that financial loss can not be on backs of paying customers. Operating Budget, Management and Spending please return the coin operated meters to the parking lots. Fares/Fees/Parking Metro is a valuable service. Keep it going!! Rail Service Ask the government for more money! Miscellaneous I'm a 25-minute walk from Union Station and rely on the D6 to get to work on time every day. It's been a critical part of many of my neighbors' commutes as well. The bus is always packed, filled with elder and school children. Eliminating this line will create a massive barrier in our community. Bus Service Eliminating bus lines and reducing service during an economic boom seems ridiculous. I would much avoiding turn backs in the middle of the lines should be a priority. Cutting service will lead to even lower ridership, leading to a spiral that would be very difficult to pull out of.	Service Levels
Metro is our lifeblood or our region. Do not cut service	Rail Service
The D6 is a lifeline. I cannot walk to the train station from my home and the D6 is the only bus that will	
take me to the train within reasonable walking distance. Removing this line would cause major	
negative impact on my ability to travel to and from work. Once again, WMATA fails. A decades long litany of poor management, decaying infrastructure,	Bus Service
questionable investments (Silver Line?), budget overruns, repeated and avoidable safety failures, and	
budgetary distress. Appalling that the capital of the free world has such a miserable transit system.	
Looks good from the outside, but not so much up close. The overall funding mechanism is deeply	
flawed. We need a regional transit taxing authority, like real metro areas.	Operating Budget, Management and Spending
Please do not cut service on columbia pike bus lines. It's the only mode of transportation for some folks in the area and the frequency at times can already add significant time to trips as well as the	
unpredictable late-night service (sometimes requiring folks to walk for long distances) are not ideal but	
far superior to what would happen under cuts.	Bus Service
Metro needs to start collecting fares for the bus and train services. In my limited experience 90 % bus	
riders do pay and probably 50 % of train riders don't. We should start collecting the fares before fare	Due Camina
increases. Some people (including me) don?t have a lot of money to pay for metro. And we need to get around.	Bus Service
Also, some of the metrobus lines that are proposed to getting cut are critical for everyday use.	
Especially at night.	Bus Service
The system feels underused at its present state due to the network and schedule, reducing or cutting	
on it without thinking of improving the connectivity within the system (less radial and more of a european style) would definitely make more people use public transport and automatically increase	
income by only adapting the system to the users instead of changing the offered services. Also, I think a	
25% increase is too drastic of a measure to take in one step, maybe it should be increased only 10%	
initially and only after another 6 months another 5-10% increase, and if necessary again until	
necessary, but with a gradual increase not to shock certain users out of the system alltogether by doing	
one increase which might be too drastic.	Service Levels
Please do not cut lines the metro is so important and it helps a lot when im lost and stuck just increase prices for that?s it leave the lines alone!!!	Bus Service
We use the D4, D6, D8, 90, 92 all the time to take our kids to different activities. We use it to get to and	
from the metro, and to the grocery store. Losing services on these lines will severely limit our mobility.	Bus Service
I am disabled and old; Metro Access fares seemed to decrease to \$2 or \$4n onw way. I can pay more	
for the service; like the \$8 one way that it used to be. Approximately 20 percent of the d6 buses don't seem to have working card readers. This is probably	MetroAccess
causing a big undercount of riders. Additionally the d6 has huge ridership from 5-12graders traveling to	
and from school downtown near gallery place and these kids won't be able to easily get to school	
without the d6. I love the d6 but the service has become unreliable so I will sometimes walk out of my	
way to stadium armory so that I am not late to work. If the d6 came reliably, I would take it everyday.	Bus Service
Please do not cut the D6 bus route! It is a primary route that many, many residents of Capitol Hill take	
to reach Union station and other parts of the city. It would greatly disadvantage those trying to reach schools and jobs. During rush hour, the bus is packed with standing room only - it is so in demand. We	
so appreciate your consideration of keeping this route in place!	Bus Service
This proposal is horrifying. I am well aware that Metro is not at fault for this catastrophe, and as a	
resident I urge WMATA to do everything in its power to put maximum pressure on the various	
governments to provide appropriate funding. Please don't sugar coat anything. Tell the public that	
these changes would be the fault of their elected officials, and that we as a region cannot even begin to accept this kind of scenario. As a general comment, I would say that if the funding gap isn't met, it's	
probably better to temporarily make up the difference with fare hikes rather than service cuts. This is	
because once more funding is obtained later, it's much easier to quickly drop the fares back down than	
it is to ramp service levels back up. Also, if we have to go down that dreadful road, I would urge	
WMATA to be fully transparent about the higher fares. For example, put a sign on the fare machine	
that says 'Do you think these fares are too high? We do too! Tell your elected representatives to fully fund Metro!'. As long as many residents continue to think that this is somehow WMATA's problem, the	
jurisdictions can keep getting away with skimping on funding for Metro. Thank you for all you do, and	
be bold in fighting for a better future!	Bus Service
Many of these proposals are highly harmful to the local communities that depend upon Metro rail and	
bus services for their daily activities and lives. The brunt of the service cuts and fare increases will be	
placed on the communities most unable to change to other forms of transit, exacerbating inequities in this region. These doomsday scenarios may be used by Metro to lobby for proper funding, but they are	
an recurring source of stress for those of us who are being used as pawns in Metro's budgetary games.	Operating Budget, Management and Spending
D6 is an important and highly used bus route for the Capitol Hill neighborhood.	Bus Service
We need the buses to run.	Bus Service
dont change anything, our community needs it I don?t think the people making decisions have taken the bus or the metro in a while. There is already	Service Levels
I don?t think the people making decisions have taken the bus or the metro in a while. There is already lowered service and when Metro is your only mode of transportation, service cuts, is frightening. The	
buses I take are full so I?m wondering about why some routes are being cut. For example, cutting the	
E2. There is no other bus that is in that NE direction, but you also want to cut the D6. Why are certain	
areas of NE not being serviced? I implore you to ride these routes yourself and not just analyze the	Bus Service
More handicapped parking is needed, especially at Silver Spring Metro station.	Fares/Fees/Parking
Do not follow through with any of those plans because it would make traveling difficult for people who use the system daily.	Miscellaneous
Don?t know	Miscellaneous
I am poor. Metro Access is a lot cheaper than taxis. Many of us are poor. We do not have cars.	MetroAccess
The design of this survey fails to provide context, eg what is the current frequency on metro lines,	
making it hard to respond positively to rail cuts, for example. In general, the budget cuts should be informed by studies of the change in behavior, ie when will service cuts or fare increases create even	
worse results, eg people just give up on using metro because it comes so infrequently?	Operating Budget, Management and Spending
Strongly disagree with increasing fees for elderly and disabled. That population is already vulnerable	
with increases in healthcare, diet, housing cost adjustment?we need more consideration in these areas.	
Baby boomers and their direct descendants are primarily on fixed incomes that do not keep up with	
inflationary impact. We need more physical assistance at least. Bus service is terrible. Even with real time they barely arrive according to the apps or not at all. It?s a	Fares/Fees/Parking
disgrace for the nation?s capitol	Bus Service
I checked the options saying I was not in favor of the 25% fare increase. I could support a smaller fare	
increase, especially if we retain programs such as kids ride free and discounts for low income residents.	Fares/Fees/Parking
For some of us who cannot drive, Metro is our only option - for work, for grocery shopping, for being	
able to travel around the DMV area at all. An increase in fares makes it more difficult to choose to go anywhere because of the cost (which in the long term may not be beneficial to Metro, decreasing its	
ridership further) but a reduction in service means we cannot access that region/area at all.	Fares/Fees/Parking
in a start out a readerior in service means we cannot access that region/area at all.	

Comment	Category
If service is cut passengers will have longer wait time, this can mean being late for work and	
appointments, Also very hard to wait in cold/hot temperatures, especially seniors.	Bus Service
Cuts would send use into a death spiral, I fear. I'd rather pay a bit more. But I really wish local and state	
governments would step up and provide more funding.	Capital Budget
My greatest concern is residents' ability to efficiently commute to and from work. Some of these service cuts seem reasonable (Holidays, certain metro stops, bus lines that run along a metro line,	
weekend bus frequency, etc.) but to cut the frequency of all Metro rail service and most Metro bus	
service on weekdays makes this city nearly unlivable. If I need to buy a car to get from NW DC to	
Downtown DC for my job, I would seriously consider moving out of the city and Metro region all	
together. If this has to happen, ideally we'd see a balance of service cuts and rate increases.	Bus Service
I personally think a new image of metro trains - clean and reliable - is long due. The current strategy	
makes metro service a dying sector when it's absolutely an essential component of vibrant DMV life. I	
believe it has the potential to become a DC signature for national and international tourists.	Rail Service
No cuts, no fare increases. Defund the DC PD	Fares/Fees/Parking
Do not decrease rush-hour frequency on rail and bus. That will kill the most important and faithful	
sector of Metro ridership.	Bus Service
Holy	Miscellaneous
I would prefer longer wait times as opposed to an increase in fares.	Fares/Fees/Parking
Please consider fare increases instead of cuts in service.	Fares/Fees/Parking
Cut executive pay, renegotiate union contracts: make everyone- not just ridership- take a bite of this	
s*** sandwich. Increase ad rates- bring in revenue from sources other than government and riders.	
Eliminate bus transfers, go to flat \$1 fare, period.	Bus Service
Increase available advertising revenue spaces; have both reservable bike lockers (by month or 6-month)	
and per hour, and make it more expensive than a nickel an hour/\$1 day (it costs far more for a Union	
Station locker than this \$); the fare increases were fine except the highest - \$7.20 - is too high and	
should be capped lower, even if it means 5 cents more for the lower fares; I also advocate for a \$5 cap	
on MetroAccess. Overall, there's got to be a better solution than higher prices for more sporadic	
service. It's now cheaper to drive into DC and pay \$25 for parking with more than one person and it	
takes a fraction of the time, especially on weekends. I even tell tourists to drive in and pay for parking	
rather than take metro, which is sad because I think public transport has a huge (good) role in	
emissions reduction. Have your studied how New York, Paris, and other cities manage? They have	MatraAccore
closer stations, more frequent trains, for less or equal fares. Metro has a ridership problem many years in the making; the constant changes / churn mean that bus	MetroAccess
riders are unable to count on public transit so they prefer to use other services and lead to more service	
cuts deepening the lack of service. When I lived in PG County, I essentially didn?t have bus service most	
weekdays while Saturdays and Sundays were horrible. Once I moved to DC, I gained bus service yet	
now, Metro appears to want to remove this critical service from this jurisdiction also. Metro?s	
communication of service disruptions/changes are also less than optimal; e.g., during COVID, I rode	
shank?s mare (walked) from Greenbelt Plaza twice because the bus service had ended without my	
knowledge. Can you also see the tone deafness of telling people that they could ride one step	
less/more and walk to their destination? Many of us find the ad hoc outage of elevators/escalators	
sufficient mandatory exercise already.	Bus Service
\$2.50 to \$7.50?! Yikes. Thats a HUGE increase.	Miscellaneous
Get more money from infrastructure funding and wealthy local governments	Capital Budget
Reducing service will decrease ridership. Please try to find other ways to make this work!	Service Levels

 1. Are funds used to expand service, e.g., the purple line, separate from funds used for general operating services? I don't understand why Metro continues to expand, yet is always working in a deficit. 2. How much increase in revenue does Metro expect to recoup, once the taller fare gates are installed in all stations? 3. For one of the questions, you mentioned possible station closures (like we had during the height of the pandemic), but you didn't mention which stations they might be. why are we unable to handle a transit system like a developed country Re funding, Metro management should consider how to prevent gate jumpers on Metro rail and walk ons on buses who both don't pay their fares contributing to the decline in revenue. The new security gates should be installed at all stations and increase Metro police presence at most vulnerable stations. I've been a patron on both rail and buses for many years and this non-paying problem seems to have increased over time. thank you for asking!! I love METRO! The service cuts are unacceptable if metro wishes to remain a functional and useful transportation system for the DMV. The service cuts proposals would make metro more of a suburban commuter service rather than an urban public transit sysy. You guys have wasted all the money you were given and now you want to take services away, its ridiculous. Think about raising fares during peak hours, so both raise revenue and spready our ridership. Keep all lines open even if less frequently. Do not charge for parking a car in Metrorail lots. Do not cut service if you want people to ride. If you must increase fares, then do that, rather than cut service. Right now, it's essential to keep the current system's integrity and ensure the construction projects in the pipeline that maintain Metro's infrastructure keep getting funded. If Metro suffers ANY safety violations or disruption in service due to poor maintenance, it'll never recover. Metro has been my preferred form of transportation for nearly 40 years. If funding is not available to	
continue the current service level, I would prefer to pay more rather than experience service cuts. (I was recently on the Paris Metro. I never waited more than 5 minutes for a train and most trains were	
full, if not packed. Our Metro has a big advantage over Paris, though. We have escalators and	
elevations. Thank you!!)	Bus Service
I oppose any actions that would reduce accessibility for customers with disabilities (closing stations) or	
reduce property values (closing stations). Hours should also not be cut to maintain service for shift	
workers. While not ideal, fair increases are expected and necessary to operate metro safely. Safety and	Ears Evision /Safaty/Crime
accessibility should be prioritized before decisions are made. I rely on some of the lines proposed for reduced service to get to work, and they're already very	Fare Evasion/Safety/Crime
crowded (specifically s2, s9, green line) and often delayed. I fear that reducing service would make	
these problems even worse and reduce the frequency with which would go into the office, which	
would counteract the city's goal of getting more people to return to the office/come downtown on	
weekdays. WMATA is also my only form of transportation (besides walking). While I would prefer current prices of course, increasing fares is preferable over reduced service to me.	Bus Service
We need metro and more metro, and we need to get the local governments to pay for it. That seems	Bus service
real hard; good luck! I'm worried about increased fares as there's a lot of people for whom fares will be	
a hard cost.	Fares/Fees/Parking
I'm a VA resident who depends on buses 22A and 22F to get to work. These are the ONLY two busses	
that serve my neighborhood and if these lines are cut then I have no way to get to metro via public transit, which is unacceptable. I'm hoping that Metro can avoid service cuts and fare raises through	
greater budget support from Maryland and Virginia.	Operating Budget, Management and Spending
It is utterly ridiculous that the city of Washington DC cannot have better bus service and better metro	
Service. There should be increased service not any decrease in service. And even as a senior citizen if we	
have to pay a little bit more we need better service.	Bus Service
please remember that everyone in the area does not have a car. those of us in that category really are	Dell Carrier
Metro dependent. Students across DC depend on Metro and Metrobus to get to school. While students are provided with	Rail Service
Kids Ride Free cards, bus drivers regularly waive students' need to school. While students are provided with	
due to volume of riders at key busy times.) It is highly likely that some of the routes proposed for cuts	
are *undercounting* ridership among the key constituency of children/students. PLEASE get accurate	
counts including students before proposing to cut routes, which permit students to get to school.	
Thank you. The proposed changes would make it harder and/or more expensive for people to get around D.C. They	Bus Service
would, in fact, leave many people stranded with so little access to public transit that they might need	
to resort to some other way to get around. I have been having issues with a sudden lack of bus options	
off-hour - evening L2 service southbound is virtually non-existent. Why not cut the salaries/jobs for	
some of the highest-paid WMATA people, leaving necessary staff - mechanics, drivers and those who	
operate the system - in place? I rely on the buses in the Hill East area several times a week for myself and my family. We live a 25	Bus Service
minute walk from the nearest metro rail station and it?s not practical to walk there with two	
preschoolers and I?m also pregnant. These changes, especially in eliminating the D6 route, would make	
it harder for me to travel to the city and I would have to work from home more and will feel increased	
isolation. My children will learn that the city does not invest in public transport and will mean that we	
will have to rely on a car instead, which for environmental and economic reasons is not an option. We	
would also miss out on the opportunities to interact with other members of our community on the bus and our world would become smaller. I think it?s a travesty that a city divests from public	
transportation exactly when it should be increasing support to make our city more liveable and	Bus Service
While it is understood that Metro itself cannot control legislation in DC, MD, and VA, fare evasion	
needs to be treated and guarded against like the crime it is. Absent a system-wide free (fareless)	
system, which is not currently an option for Metro, it is unfair and untenable for any income-	
dependent business like Metro to expect fare-paying customers to cover the gap created by criminality trivialized by local legislators. Focus better efforts (and thus funding) on the core lines/routes and	
trivialized by local legislators. Focus better efforts (and thus funding) on the core lines/routes and ldays/times where and when a majority of ridership occurs, and jettison the remainder. Safe and clean	
operations during those times and places should be prioritized over off-hours and low ridership areas.	Bus Service
Negotiate a better union agreement for retirement. I keep hearing stories of Metro employees working	
tremendous amounts of overtime their last couple of years to skew their pension higher. Why should I	
pay for a manipulated system when I don't even have a pension plan.	Bus Service
fare prices need to increase commensurate with all other things in DC. But cutting service on metro during weekdays is just unacceptable. We rely on metro to get to/from work. The convenience and	
frequency of metro is critical to keep cars off the roads.	Bus Service
Station closures shouldn't be on the table at all. I literally live adjacent to /5 min walk to Morgan Blvd	
metro and ride the train to work in DC weekdays. The region talks about transit oriented development	
and walkable multi modal emphasis and if Morgan Blvd were to be closed I would literally have to get	
in my car and drive past the station to go to either Largo Or Addison rd which would not only be a significant inconvenience but also create an additional financial burden, put more vehicles on the road	
unnecessarily, and add an additional 20 min or so to my one way commute/40 min round-trip. It's	
totally counter to the direction wmata and the region should be going. As if that were not bad enough	
the proposal to turn the Silver line around at Stadium armory and not service any of the stations east of	
the Anacostia while continuing to run all the way out to Ashburn just reinforces regional imbalances in	
investment. It's creating a death spiral on the prince george's side while further rewarding Fairfax and Loudon counties and incentivizing people, companies, retailers, venues to move there, further	
depressing the opportunities for residents and businesses in Prince George's. Morgan Blvd station	
opened 20 years ago and WMATA has developed zero around it. The stations in VA opened in the last 2-	
3 years and from what I can tell there are lots of projects in the works at those stations. Clearly the	
focus for decades has been on Montgomery County and Fairfax and Loudon counties. In Mont county	
there are 8 stations outside the beltway. On the silver line in VA alone there are 9 outside the beltway. In all of Prince George's there is just 1. Who's looking at things from this perspective? If wmata spent	
more time working to bring development to the east side of the DMV the financial picture and ridership	
metrics would be a lot better. Proposal like the ones being considered simply make the situation worse	
for everyone but even more so for residents of Prince George's. It's unacceptable.	Operating Budget, Management and Spending
I am retired & use Metro to get to dining & entertainment destinations. I think it?s wonderful and am	n de sta
in favor of doing whatever needs to be done to keep it running as is. I believe priority should be to maintain efficient times during the workweek/workday since so many	Rail Service
I believe priority should be to maintain efficient times during the workweek/workday since so many employees use Metro to get to work. If Mayor Bowser wants to demand federal employees be back in	
the office, she should find a way to ensure Metro can continue to support their daily commutes	
without long waits and packed cars.	Bus Service
The new fare gates, escalators and brighter light are great! The expense to remove the escalator to the	
street level at Bethesda was a terrible decision.	Fares/Fees/Parking Fares/Fees/Parking
there should be other ways to cut costs besides reducing ridership	

Comment	Category
I, and thousands of people rely on the metros and bus systems in the DMV. If services were cut, it would drastically impact quality of life for people. I would rather pay slightly more in fares than	
experience bus and metro cuts. I do not have a car and NEED the public transit to be reliable. Public	
transportation is vital for DC and peoples livelihood.	Bus Service
Eliminate rush hour service, are you nuts? :Srsly	Service Levels
The fantastic, reliable, continuous public transit is one of the things that make living in the DMV area so	A final language
lovely. I?d happily pay more taxes to continue to grow the area?s transit infrastructure. Please consider those that work late shifts, those that take the bus to church on Sundays or need to	Miscellaneous
travel on weekends.	Bus Service
We use the Ballston Metro station. Ridership seems to be up dramatically. Thanks for providing more	
security. The jumping of turnstiles is out-of-hand. These young men are clearly saying 'We don't have to	
abide by the rules.' Tuesday I boarded a train about 3:30 or 4 and looked for a seat. Five or six young	
men had draped themselves across seats, challenging new riders to ask them to move. Intimidating. Fare increases may not be able to be avoided, but should be a last resort. If anything, fares should be	Fare Evasion/Safety/Crime
lowered to increase ridership. It will take a big change to increase ridership (lowering fares to free or	
almost nothing) to change people's thinking. Once the mindshift has taken place, fares could be raised	
a little at a time.	Fares/Fees/Parking
please don't eliminate the g12there is no weekend service to some of these areas otherwise. the g14	
doesnt cover all the same neighborhoods. please consider that greenbelt has a high school a large	
elderly population, the bus is routinely packed with both groups! thank you! Please don?t cut that m6 a lot of hard working people take that bus and its service as of lately has	Bus Service
already been terrible but to cut the bus line going to the top of the hill is just absurd	Bus Service
I depend on metro (mostly bus and my bike locker) to get home safely at night. I understand WMATA?s	
efforts to reduce fare evasion considering that fare evasion is rampant on buses and to a lesser extent	
on trains. Affordable access to a bike locker ensures that I have a safe way to get home every night; it is	
an invaluable resource that is critical to my safety. Please continue to force Maryland and Virginia to	
provide the funding necessary to uphold the metro system rather than reducing service and making metro less affordable to DMV residents. Thank you!	Bus Service
I firmly believe that the District of Columbia has the capacity to augment the budget allocated to public	
transportation infrastructure without imposing undue financial burdens on its residents.	Operating Budget, Management and Spending
Youre proposing Fare increases and the quality of service and customer service on metrobus decreases.	
Buses sometimes keep going and don't stop when I'm waiting at a bus stop. That is if they show up at	Bus Service
increase fare across the board. Bus lines are already scattered in DC, cutting makes people difficult to move around, affecting the economy - Cut more Circulator routes, Increase fare Cut free bus ride, like	
the Wharf, free ride to Kennedy Centre P6 and #52 I am a senior, have difficulty even walk to the	
Subway station. Bus stops are closer, and it is a connection by transfer to the NW doctors - Eliminate 52	
instead of P6. 4th St SW is the central street N-S bound from 12 st to South capital street below	
Independent Ave. More residential complex in the vicinity Merge stops at School Street with Madison	
pl, 3 stops between G st.SW and I st Late night service is not necessary for P6 - More passengers on	Bus Service
Please don't get rid of the D6!!!	Bus Service
At times I have ridden METRO on a regular basis for about half of the past 30 years. During the past five years I have found that your service is so unreliable that I no longer even consider it as a transportation	
option. It gives me no pleasure to say this. At night I also believe that several stops are no longer safe,	
even for a grown man. Such a pity. Please focus on reliability and policing.	Fare Evasion/Safety/Crime
The Metrorail systems are already extremely overloaded at rush hours on weekdays at the current	
schedule. Eliminating service and making trains more infrequent would aggressively negatively impact	
the workers of Washington, D.C. in their efforts to do their jobs that this city depends on. I would	
implore Metrorail to look for solutions other than decreasing service along the already overloaded D.C. Metrorail lines.	Rail Service
Please avoid the most drastic measures (closing stations, eliminating bus routes on the weekends,	
eliminating rush hour frequency)	Bus Service
When considering cuts to bus service, Metro should prioritize retaining service along routes that have no rail access (e.g., the Columbia Pike corridor in Arlington).	Pue Convien
frequently when i arrive at EFC metro station i want to take 2A and for some reason there is always	Bus Service
about a 30 minute wait. This is much too long. The system is only useful to me if i can use it to get	
around in a reasonable amount of time. additionally, crime at/on metro is becoming increasingly	
concerning to me. fewer transfers and less time waiting would make me feel better. also, having metro	
staff visible makes me feel safer and more likely to continue to use the system. i do not use metro late	
at night and do not plan to. i would very much like to be able to use metro earlier in the morning on weekends, especially to get to the airport and to get to races.	Fare Evasion/Safety/Crime
Don't close stations.	Rail Service
This is crazy. Our fares are already way higher and our service already way lower than places like nyc	
and now you want to make it worse? This makes the metro look like a total joke honestly and is a poor	
service to those of us who live near and rely on it for affordable reliability given how horrible parking	Face (Face (Partice
and driving in this area can be. Senior user of service with station half block away. Very convenient for local travel in VA, Few trips to	Fares/Fees/Parking
WDC, No trips to MD. Would like access to DCA and IAD with early opening times to permit travel from	
Ballston to both airports. Use airport access five or six times a year, not as much as pre-pandemic when	
traveling twice a month using airports. Presume Senior fare will remain at current rate, half of	
minimum regular fare when changed. For my personal use, service has been very convenient at VASQ	
station. Senior fare consideration appreciated. 7000-series cars are better maintained than 2000 and	
3000 series. Concerned about customer lack of consideration for other passengers by leaving trash in public places including in Metro trains. Security has become an greater concern as seniors increase in	Fare Evasion/Safety/Crime
\$7.50 per fare is absolutely absurd, and would make metro services cost-prohibitive to those who need	
it most. Further, when a \$9 uber is faster and more convenient, there remains no incentive to use	
public transit for its climate benefits.	Fares/Fees/Parking
The metro is a disgrace to our country.	Rail Service
The metro has to be convenient and cost efficient. I live near the Shady Grove Metro and will not have an interest in relying on the metro if it?s not convenient. Shorter wait times, having extended hours on	
the weekends are just two examples of convenience. I am open maybe (big maybe) to waiting longer	
periods when it?s warm out but I will not bother during the winter if times are extended.	Fares/Fees/Parking
These budget cuts should not happen, I want to see the regional funding partners contribute more to	
keep service as frequent and reliable as it is. Vehicular traffic is already terrible, it would be even worse	
if cuts to metro service were to take place. I take metro because its reliable. if the route 89m is cut off i will have literally no way to get to work and i will lose my income.	Operating Budget, Management and Spending Bus Service
Metro could run fewer trains (more time between arrivals) during off peak times. Peak times could do	
10 min. arrival times. Off peak times use 6 car trains instead of 8, if practical.	Rail Service
Route 16y is a gold mine. Full in the morning Standing room only in the evening	Bus Service
If you want to have less cars on the road, Metro and Metro bus service is essential.	Bus Service
Metro is a public good that many people depend on. If you decimate the metro you will contribute to the hollowing out of this great city.	Rail Service

Comment	Category
I think fare increases should only be considered while also continuing to address the huge issue of fare	Category
evasion.	Fare Evasion/Safety/Crime
Reduce service in jurisdictions that don?t provide fair funding levels, but leave train headway as they	Capital Budget
Ratepayers and governments have invested billions of dollars to create a valuable public asset. All of us,	
riders, federal, state and local governments have to support the system financially. The draconian	
service cuts would fritter away the billions of dollars already invested in this system and essentially	
destroy its value to all of us. There is no free lunch: if we want great, reliable and safe service we have to pay for it.	Operating Budget, Management and Spending
Transit 4 all please.	Miscellaneous
I don't ride Metro because the headways are ridiculous and farejumping and other antisocial behavior	iniscentreous
(loud music with no headphones, panhandling, etc) are not controlled.	Fares/Fees/Parking
All stations on Metrorail should be in use all the time and intervals between trains should be	
consistent. In all the years I have used Metrorail, the trains have never been evenly spaced. Maybe	
learn how to accomplish this before messing with theoretical schedules.	Rail Service
All metro area buses should have realtime tracking available. Not an issue for Seoul, Tokyo, or other	
major international cities. I?m a unique metro rider: I live near shady grove and don?t commute in for my 9-5 but I do commute	Bus Service
into DC (and other parts of Maryland and Virginia) at night for concerts and events. That means I	
typically ride the system between 6 pm and midnight ? all nights of the week. That also means I pay a	
higher price than most riders because I go a long distance. Under the proposed changes, I would be	
paying more for reduced service. The turn back at Strathmore would give me less options for	
commuting into the city and significantly delay my ability to safely get home at night ? when trains are	
already often delayed or running on a modified schedule. Given that I often spend 40+ minutes on the	
train, decreasing train frequency to every 15 minutes to and from shady grove would add	
immeasurable time to my already lengthy commute (often late at night, when safety is a concern) and for that privilege I would pay more if traveling before 0:20 pm. It descript make some to charge more	
for that privilege, I would pay more if traveling before 9:30 pm. It doesn?t make sense to charge more for reduced service. Either raise prices or reduce service ? don?t do both. Shrinkflation is real when it	
comes to groceries and toiletries (paying more for less of a product) and this proposal does the same to	
the red line. I live near shady grove so I can use the metro regularly. I rely on it to spend time and	
money in other parts of the region. If service is reduced, I will also reduce the events I go to and the	
time I spend riding. I urge metro to reconsider reducing service ? it?s a lifeline to those of who live out	
in the burbs and try not to have to drive in. This will increase cars on the road and ultimately lead to	
reduced revenue for metro. It?s a shame, too, because metro service has been so much better of late. I	
used to love metro growing up, then the 2009 crash ? I rode the system that day ? ruined the system	
for a while. Over the last year or two, I?ve started to love metro again (and even look forward to	
riding!) because service is finally where it should be. I was upset when off-peak fares were eliminated (and spun as a simplification of fares, when ultimately it has just cost me more money) but I	
understood why that change was made. To now punish riders like me by charging us even more for a	
lesser product is a real slap in the face and a step backwards to the Wideman days. I understand the	
budget issues metro faces but don?t penalize the riders in Maryland (a state that has agreed to more	
Metro funding) because Virginia won?t pay their fair share. I implore metro to rethink this proposal. I	
ride fairly packed trains home after 11 pm all the time, so ridership is there. I don?t what I?d do if I	
have to wait for 15 minutes or more as Strathmore trains pass me by.	Operating Budget, Management and Spending
I hope taxpayer money can be directed appropriately to the public transit our region so desperately	
needs I think service cuts would have a more negative effect on ridership than fare increases. How do people	Miscellaneous

I am very strongly opposed to both fare hikes and service cuts as someone who does not have a vehicle and relies on public transit to get to work. I would be very opposed to the metro closing at 10pm, as I	
think it will lead to more drunk driving accidents on the weekends. I would love the metro hours to be	
pushed later in the evening, and I think you would get increased revenue from people going home on	
the evenings	Bus Service Miscellaneous
Try to find a way to obtain a regional tax to support WMATA operations. Please start going after fare evaders. I take Metro every day to work. I see people jumping over fare	Miscellaneous
gates all the time, yet I've never seen anyone penalized for this. Even if this isn't a primary reason for	
the budget shortfall, the optics of cutting service/increasing fares/demanding more public funding,	
while not addressing this problem adequately, are terrible. It also makes Metro feel more unsafe for	
law-abiding riders and keeps them away, hurting revenue even more. Consider overall Impact on a neighborhood, not just ridership	Operating Budget, Management and Spending Miscellaneous
It is understood that more funds are needed. Maybe try stopping the fare evaders and that would make	
up the difference instead of making your loyal customers pay for them! This is not the way.	Fares/Fees/Parking
Please do not cut bus service!	Bus Service
Having a bus that only runs once an hour doesn't help anyone actually get where they need to be reliably. Removing the G2 would fully eliminate transit service to Georgetown University, which is a	
problem for anyone who needs to use it to get to and from campus.	Bus Service
The proposal to eliminate routes 89M & Z7 results in Laurel being reduced to MTA #302 as the sole	
means of bus transportation to Metro. Why not run the Z7 from S. Laurel Park and ride to Burtonsville	
p&r? There passengers can board the Z 6/8 southbound to Silver Spring. This change will be welcome with the expanding Burtonsville commercial district. This could be a Mon-Sat line and expand ridership.	Pur Sonico
cutting the funding towards the nation?s capital?s metro system but continuing to allocate money	bus service
towards genocides in other countries is baffling as hell! do better	Capital Budget
I think you need to keep fare increases relatively low. Service cuts will impact ridership greatly. Service	
fees should be set with an understanding of the cost of other transportation options. You should consider the counties are encouraging housing development at the end of the metro (like	Bus Service
Shady Grove) with the promise of good public transportation. If people decide the service or fares are	
bad, it?s going to increase the traffic and cars that end up in Washington DC. It?s better to reduce the	
service inside WashingtonDC then at the ends of the metro where people have more cars. Worst case,	
someone in DC have bikes, scooters, or can walk. I can?t walk from Shady Grove to DC. Metro is the	
only option. It?s unfair to punish people at the ends of the lines that connect to the rest of the county. Use smaller number of cars to save money. Stop people from jumping over the turnstiles.	Fares/Fees/Parking Miscellaneous
Enforce fare payment	Fares/Fees/Parking
These proposed drastic service cuts to Metrorail would be a disaster for the greater Washington, DC	
region.	Bus Service
I am disabled and cannot drive. T2 is my only transportation option to go from home to work and vice	Bus Service
versa. Without T2 I will not be able to work anymore. Please do not eliminate T2 service. Metro has a lot of administrative fat and managerial bloat in its organization. Start reducing at the top,	Bus service
don?t threaten the public with cuts at the bottom and service	Rail Service
Dont cut redline sevice	Miscellaneous
Stop gate crashers	Miscellaneous
Congestion charging a fee for computers entering DC by car should help fund Metro. Please partner with DC schools and consider critical school routes when cutting bus service lines, taking into	
consideration the fact that ridership by students is likely underestimated because many do not swipe	
their cards. Virginia and Maryland should have a steady predictable contribution to Metro's budget.	Operating Budget, Management and Spending

Comment	Category
I live in Adams Morgan; the 42 and 43 are the lifelines of this community. My daughter rides either the	
42 or 43 to the School Without Walls High School - along with other neighborhood kids - every day. I	
commute to work every day on either of these lines. Shortening the route and stopping it at Farragut	
Square would create a hardship for our entire family. And ELIMINATING weekend service - are you	
crazy??? Again, those lines are central to this community. If you need to fill a budget gap, how about	
you enforce fare payment??? Every day, I dutifully swipe my Smartrip card and I'm in the minority -	
many other passengers blithely board without paying, and without consequences.	Operating Budget, Management and Spending
Reduce rail and bus service before fare increase Cutting the D6 service will eliminate any public transportation options to Georgetown and Sibley	Bus Service
hospitals, and MacArthur high school. It would also eliminate service from the Palisades to Key	
elementary school and Hardy middle school. There would be no way for anyone without a car to get to	
any of these essential places.	Bus Service
I'd rather increase fare prices to keep the buses and trains rolling. Having a transit system that is often	busseivice
enough makes it a viable option. If the service gets too slow and not often enough, people will stop	
thinking of it as an option and will look for other modes of transportation to get them to their	
destination, rather than metrobus or metrorail.	Bus Service
The metro bus and rail systems are a really important form of transport for many of those in the DMV	
area, especially for getting to work and school. Removing/restricting routes from this public transport	
would heavily impact many people's daily lives. More funding should go into the public transit system,	
as it's a very important aspect of travel in this area.	Bus Service
Most businesses make money by offering more of their product or service. The is what Metro should	
aim for. Consider renting retail space in some stationssimilar to Boston or New York.	Bus Service
Do not increase the rates or reduce routes because they would affect the oblation that we use the	
Metro Bus Services	Bus Service
Metro needs to work well to succeed. That includes being reliable, safe, clean, highly available and	
responsive. It?s a public good and a cost center on a balance sheet - and that?s fine if it exhibits all	
those other attributes. But inconsistent performance, long wait times, fires, accidents, unresponsive	
administration and staff, filthy dim stations, and lack of availability make for it?s worth being	
approximately	Fares/Fees/Parking
Service cuts will hurt the public more than a higher fare	Bus Service
How can you totally eliminated the D6 when it is the only public transportation in this part of DC? This	
bus route brings employees to two major hospitals in the city and eliminating the D6 will make it	
impossible to get to work.	Bus Service
Make smart decisions for all the people who have to take the bus/train.	Bus Service
If rush hour frequency is reduced I will not be able to pick up my kids on time via metro. If necessary	
increase rush hour fares instead of reducing rush hour service.	Bus Service
Please do not cut 29G it is my only way to and from work. It is why I chose where to live and I would	
have to move if you eliminated this route.	Bus Service
The people who rely most heavily on public transit are the same ones who can?t afford fare increases	
or reductions in service. Raise the fares and then push the mayors to subsidize fare prices for lower	
income earners. You already do this in many ways, and I think that?s the best way to go. Professionals	
whose fares are paid by their employers are greatly advantaged.	Fares/Fees/Parking
I work at Congressional country club we have a lot of employees that uses the T2 we need that route to	
stay around because we don't have ant buses that come this way but T2 so please keep that route for	
the people who needed it will help out a whole lot. Thank you	Bus Service
Cutting the T2 line will make it difficult for me to get to my job, that is the only bus that will take me to	
my job.	Due Cemies
	Bus Service

In stead of cutting stop cut bad bus drivers with attitude problems that way people would want to pay and use the bus more some drivers made it so i go on different times to stops. Make payment app instead of card because its harder to get. Better accuracy times on transit app if its more user friendly and accurate instead of false times that sometimes shows more people will use it Striking the right balance is key but raising fares forces customers to vote with their wallet and their feet. If you want to cut dc traffic, put more riders on busses, the solution is simple - make it THE affordable option - and look to foreign cities that have this transportation/highway congestion problem solved. I think the budget cuts in general are a terrible idea because people need these services to get to school and work on time. If there is a way to raise money or not cut the budget at all. I think that wuld be the best for all riders If you cut service too much, you are going to keep losing riders and this will be a death spiral. I hope you can get more funding from DC, Maryland, Virginia, the counties/cities you serve, and the federal government. We need Metro, but the service cuts and too steep of far increases will make it less attractive to ride. Please keep all Metrorail stations open. People bought condos and houses based on proximity to rail stations. Closing stations will cause major inconveniences, negatively impact ridership levels, and bring down property values. Please keep Metrorail open until 11 pm (rather than proposed closing at 10 pm) so that we can still get home from sports events (like Nats games). Safety was not mentioned. It is important to increase Metro Police at all stations and on trains, especially after 5 pm. I have experienced disruptive passenger, passengers jumping gates or pushing people through gate so they can get in for free, and people smoking and drinking on trains. I would support rate increase if there was more security. I choose to drive when I don?t feel safe on Metro. I don't think	Bus Service Bus Service Bus Service Rail Service Fare Evasion/Safety/Crime Bus Service Rail Service Rail Service Rail Service

Comment	Category
I live on the Columbia Pike corridor so commuting to downtown on Metro without the 16Y makes the	
commute longer and more stressful. Having the 16Y (and other Virginia to DC buses) available has	
made my life so much easier. Taking the bus means greeting the drivers and feeling connected to other	
riders that you see every day. Learning and connecting to people I may not have met otherwise. The	
16Y is always full when I've taken it. Please keep these routes available to commuters. I may not be	
your best example anymore because at 70 I have gone part-time and moving toward retiring from my iob in downtown.	Bus Service
I think budget shortfalls should be addressed by making passengers pay their fares on Metro trains and	Bus service
buses. Whenever I take either, I see lots of people not paying and getting away with it.	Operating Budget, Management and Spending
I live in MD on the DC border. There is no metro nearby and I rely on the N4 to get into work. It's	
already infrequent and can be an unpredictable route. If anything, it needs to increase it's frequency,	
particularly without metro service available. Thanks for your hard work on this challenging situation. I	Bus Service
Please do not change bus routs to meducal facilities especially D2, D6, N busses or 30s	Bus Service
I support metro, both rail and bus. I would hate to see such significant fare increases especially if they	
were coupled with decreases in service. Adjusting service based on use trends makes sense, but having	
to wait 20 minutes for a train, especially on a weekday, does not make sense to people relying on	Bus Service
I take public transportation because it it?s a cheaper alternative and is more eco friendly due to carbon	
emissions pollution from driving increasing fares will fall back on people driving which will increase the	
carbon pollution	Fares/Fees/Parking
Decreasing service and increasing fares are absolutely going to decrease ridership. You need to amp up services, reduce fair evaders, and increase safety measures	Fare Evasion/Safety/Crime
as an occasional metro rider, I find the constant closures create unreliability. Since I cannot depend on	Fare Evasion/Salety/Crime
Metro or parking, I tend not to use it.	Fares/Fees/Parking
How much revenue is lost by those not paying / jumping the gates? There?s your shortfall right there.	······································
While some of us actually pay.	Miscellaneous
Cutting services means cutting access to jobs in the City and in the DMV area as a whole. Less bus lines	
and longer wait times only hurt those working and building up our local economies	Bus Service
As someone who observes todays climate. I find it hard to believe budget cuts and fair increases have	
fallen upon the everyday citizen. I take public transportation everyday for work and now Metro is	
proposing service cuts and fair increases when the service is mediocre. All I have to say is if you do	
these things. The expectation for drivers need to be held to a higher standard. Also we need places and	
people to complain to and make reports. Once a bud driver didn?t even stop at my stop, drove straight	
pass me. After I walked to the metro I informed the station operator, and I was told there was nothing I	Operating Budget Management and Specific-
can do. Do I want a free ride on the train. If the prices go up the standard does too. Remember that. There are certain routes (like D31) that run very selective times and are critical for school commutes.	Operating Budget, Management and Spending
These bus lines save thousands of cars on the road per year as they are daily rides to schools for	
hundreds of DC Public School students. Whatever the arrangement with DC (kids ride free charges,	
more fees, etc.), these should NOT be cut.	Bus Service
Please do not cut the G8 service on the weekend or end at shaw metro. There is no other route that	
serves this area, and it is heavily utilized by people traveling downtown for service industry jobs. Please	
consider raising fares over cutting service! I suspect most riders would rather pay a little more than lose	
a reliable way and affordable way to get to work.	Bus Service
Please do not cut the D6! It?s a viral metro line to the Capitol Hill and Kingman Park community, of	
which many streets and blocks are not accessible to a metro station. Many people rely on the bus for	
their morning commute and many children rely on the bus to get to school.	Bus Service
Metro should take into consideration individuals who lack the means of travel and truly depend on

Confusing suprey - bottom line: do NOT aliminate the T2 bus line	Category Miscellaneous
Confusing survey - bottom line: do NOT eliminate the T2 bus line If station must be closed, prioritize those in Virginia	Rail Service
I believe the metro should be affordable and accessible for as many people as possible, and ideally not	
raise fares.	Fares/Fees/Parking
Metro should prioritize fare increases for those who can afford it over ANY cuts. It will be better for the	
environment, the city, and the economy for metro to run at maximum service levels.	Fares/Fees/Parking
Fix the arrival accuracy of buses. I don't trust it so use buses less than if they were accurate. Will	
increase business that way.	Bus Service
Please do not eliminate T2!	Bus Service
Keep T-2 please	Miscellaneous
The T2 Metrobus route is a vital route for many individuals, businesses and families to access Potomac	
and Bethesda. The T2 Metrobus is the only reliable public transportation to this part of the County,	
which is critical for the County?s economy. This bus service is a crucial support for our area. Please	
consider all efforts to protect full T2 Metrobus for the many riders who require this service to get to	
work, school, and other activities. Thank you for your time and consideration. PLEASE DO NOT CUT THE T2 ROUTE!	Bus Service
The T2 is the only way I can get to work. I would have to quit my job (which is a good job) if this	Bus Service Bus Service
Fair increase is a better way to solve the problem, rather than reduced services. During and after	Bus service
COVID, a lot of people have moves to the suburbs and, to go to work in DC, are driving up to the last	
station, parking there for the day, and using metro to finish their commute. Reducing the service	
(especially at the tail end of the red and silver lines) will push them to just drive all the way to DC. Also	
many community developments by counties in the DMV have been promoted using the fact that they	
are close to metro stations, and have attracted a lot of interest (e.g., ongoing development projects not	
far from Shady Grove metro, etc.). Making it hard to commute is bad news for the viability of these	
development projects. This argument could be used to get more funding from states.	Capital Budget
l use T2 - please dont cut it. Many of us use it.	Bus Service
?Before adding fare increases to those barely able to afford to pay current fares on metro, intensify	
ways to successfully stop the disgusting gate jumpers. Why should we pay more to give them free	
rides? They should be arrested and prosecuted. ?The increasing crime in the metrio system must be	
addressed. Safety has become unreliable which has resulted in lost riders. I am one.	Fare Evasion/Safety/Crime
I would to express how important the T2 Metrobus route is to our community. This is an important	
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2 Matrobus for the many rider, who require this capite to get to work, school, and other activities	
Metrobus for the many riders who require this service to get to work, school, and other activities.	Rue Carrier
Thank you for your time and consideration.	Bus Service
T2 is an important bus stop for my community. Please don?t cut it. Happy to pay more for adequate servxe	Bus Service Miscellaneous
The T2 line is the only bus in our area of the county and is used by students and workers on a daily	Miscellaneous
basis. Eliminating it would have a detrimental effect on people?s livelihoods! From an equity	
standpoint this is not something that should be considered.	Bus Service
Please do not delete T2 service. It is very much needed by students workers and people trying to get in	
and out of town.	Bus Service
T2 is the only option we have in Carderock Springs, cancelling this would leave the neighborhood	
isolated	Bus Service
Service cuts will cause a downward spiral of ridership as more people structure their lives around not	
using public transportation. Please leave the option available for transit to be a viable especially for late	
night riders. Fare hikes during night hours 11pm-2am could be a viable option. Most people using	
rideshare services are paying lots of money for those services and metro has the opportunity to	
position itself as a budget conscious, safe, alternative to ride-sharing in late night situations.	Operating Budget, Management and Spending
I am completely appalled and horrified by the cuts to the Metro system proposed by WMATA. Cuts to	
public transit are environmentally and financially sustainable and fundamentally inequitable; for these	
reasons, I firmly oppose these cuts. Almost 40% of DC, Arlington, and Alexandria residents rely on	
public transit, and these cuts will harm more marginalized DC residents without other options, such as	
low-income communities and people with disabilities. With the uncertainty of WMATA?s funding, these residents are not able to rely on the Metro system to get them to essential economic	
opportunities and services. The cuts are also financially and environmentally unsound on a macro scale.	
These cuts are being proposed because low ridership caused by the pandemic has created a revenue	
shortfall. However, further service cuts will only result in a declining spiral of ridership and revenue that	
will leave Metro in an even more difficult position. Increased wait times for workers, residents, and	
students needing to commute will push those who are able to, to seek other methods of transportation	
away. Cuts will encourage the use of personal or for-hire vehicles. And thus WMATA will bring in even	
less revenue. For a Metro system that relies so heavily on passenger fares to fund its operation budget,	
cutting service is a death sentence. And for a city that has pretty lofty climate goals, avowing itself to	
cut emissions by HALF by 2032, decimating its Metro system does not make any sense. A robust public	
transportation system is critical to any equitable climate plan, and I know for a fact that it is a critical	
part of DC?s Clean Energy Amendment Act of 2018. Cutting service will only decrease future ridership,	
it will disproportionately impact marginalized communities, and it will leave DC in a precarious position	
in regards to its climate commitments. Thank you for your time.	Operating Budget, Management and Spending
I am a home health aide and cannot afford to buy a car. I cannot afford Uber. I take care of a	
homebound 91-year old man. I use the T2 Metrobus to get to his house every day. Without the T2 bus,	
I will not have my job and my client will not have a caregiver. His life and my livelihood depend on T2	
Metrobus service. Maryland must protect the interests of its homebound senior citizens. Maryland	Rus Sanvica
must protect the ability of its residents to get to work. Maryland must fund Metrobus to save the T2 The T2 Metrobus route is vital. It's the only reliable public transportation to this part of the County.	Bus Service
Absolutely necessary for families and the economy, both those based in this part of the county and	
those based elsewhere.	Bus Service
The Metro is a public service transport in any city and must ensure the well -being of its users, it must	
not work in deficits but must look for a point of balance in spending and not affect the vulnerable	
population that are the senior and the disabled, the disabled ones, thank you	Operating Budget, Management and Spending
Many Of employees at Congressional Country Club use the T2 Bus. it is very important for their ability	
to get to/from Work.	Bus Service
Is there a way for the public to get more involved in funding for Metro? Bakesales? Go Fund Me?	
Benefit concerts?	Capital Budget
You need a combination of both fare increases and reduction of service. However eliminating the vital	
metro bus lime T2 is totally unacceptable. This is the only metro bus serving a large community and	
eliminating it will have a huge negative impact because there won?t be any metro bus servicing that	
whole river road stretch. Unacceptable. I will never ever use any Metroservice if you do this.	Bus Service
Metro Bus is a necessity in the Capital region. We are the Capitol of the world. Get rid of the unions.	Bus Service
Thank you for the opportunity to comment.	Miscellaneous

I take the T2 bus everyday to work. If that gets eliminated I have no way of getting to my job and I	
would be fired and I would lose my income.	Bus Service
Increasing late night service to 2 am on the weekends would be useful, as I don?t have to rely on an	
Uber to get from DC back to Alexandria late at night	Bus Service
Bus service mainly for elder, please don'r cut the benefit for elder.	Bus Service
If metro rail does not get the funding they need through Virginia, why doesn?t Virginia take the brunt	
of the station closures? I believe this is an amazing way to show the politicians in Richmond how	
important it is to keep metro funded for NoVa and truthfully would be quite ironic for them! They	
caused the issue so why hurt DC or Maryland even though they provided the funding they were Please do not discontinue the T2 bus line through the Bethesda area. This is a vital line used by many of	Capital Budget
us to travel from home to work and shopping. Ending this service would put more cars on the road	
leading to greater traffic congestion and pollution. Raise the fares but don't cut the service.	Bus Service
Please keep the T2 metrobus route	Bus Service
Obviously, getting additional funds should be the number one priority. Secondary to that, consolidation	
of bus stops and the combination of some redundant service (such as the 42 and 43) should be	
pursued. The last resort should be the elimination of unique service. It is incredibly foolhardy to reduce	
service on the S2/S9 and 52/54, two of the most trafficked bus corridors in the city.	Bus Service
Cutting the T2 would make it impossible for lower income people to get their jobs along the entire	
route putting them out of work or having much higher travel expenses.	Bus Service
Why would you reduce service to the working class people of the METRO area who need to use the bus	
to get to their jobs????? RIDICULOUS. NOT FAIR and you are penalizing the poorest of people who	
need to work!!!!	Bus Service
T2 is the only public transportation access the we have in our neighborhood (Carderock Springs).	
Eliminating it would increase the use of car transportation and traffic jams in River Rd, something that	
is already happening. Also, we can't access Bethesda Metro Station (our closest Metro Station) by	
bicycle, since there's not a safe route (crossing the bridge over the Beltway on River Rd is way too	
dangerous for bikes and/or pedestrians). We're always talking about decreasing the use of the car and	
increase more massive or environmentally friendly ways of transportation, but these proposed actions	
go against it. Thanks, The 76-78 are burge that Herpital Staff use and need. Also for our patience. Notic good idea to decrease	Bus Service
The Z6 Z8 are buses that Hospital Staff use and need. Also for our patienceNot s good idea to decrease times . Also if buses run on time or even just show up. Your customers will return to riding.	Rus Sonico
Don't cut any service. You will harm more people than help them. I'd rather have you increase price	Bus Service
instead.	Service Levels
Please don?t remove the J1- I would strongly consider which lines to remove as it would cause	
significant bus crowding may increase drastically. Very much so. I understand the need for a change in	
budgeting for transport, but if so done, it needs to be done meticulously well.	Operating Budget, Management and Spending
Don?t cut the 96! It?s so hard to across NW without it!	Miscellaneous
Please don?t cut the 96. It is a very popular and useful bus that serves many neighborhoods. We also	
need more 31/33 service	Bus Service
Fare increases could be a viable option as long as there is adequate access to fare assistance programs	
for people in need.	Fares/Fees/Parking

Commont	Calendaria
Comment None of these routes should be cancel people need them.	Category Bus Service
I am against and reduced access to T2 because it would negatively effect many people who depend on	
T2 for their work	Bus Service
I've been 100% reliant on the D6 while I've been pregnant. The proposed complete cut of D6 route is	
very disappointing. When combined with other proposed cuts of the 96 and X8 means that there will	
be no east-west bus routes on Capital Hill at all. The proposed elimination will lead to a lot less use of public transportation overall in the area - the main viable alternative would be a car, not Metrorail.	Bus Service
Why don?t you collect lost fares from turnstile jumpers? Metro should be cheaper so more people will	
use it	Fares/Fees/Parking
You should NOT be shuttering services or increasing prices! Federal government is forcing workers back	
into the office, meaning more ridership. Why would you then shoot everyone in the foot by shuttering	
services and extending wait times? People would be late everyday! You need to extend the yellow line to ft totten because the stop at mt vernon has been nothing but a headache! Green line stays woth	
long wait times as a result! And onto shutting down the R1? are you crazy?! Have you seen the rush	
hour queue for those bus routes outside of ft totten? the R1/R2 lines are two of the most popular bus	
routes and serves low wage workers? don?t be classist. Why would you cut the line and NOT increase	
the frequency of R2? It should be coming every 10 minutes already, it?s infrequent as it is. Stop	
punishing those who rely on metro services the most. PLEASE do not touch the L2. You've already eliminated the ability to bus downtown via your 42/3	Bus Service
changes. I am a loyal bus rider who is devastated about these proposed changes. I need the L2 and am	
also opposed to the changes on S2, Ns, 30s, and 96. Thanks.	Bus Service
If fares increase, will there be a student metro card (broader than U-PASS) deal to keep prices low for	
young people with limited funds? Further, closing the trains at 10 pm will likely lead to increased	
driving under the influence (drunk driving) from people trying to leave the city that could otherwise metro home.	Fares/Fees/Parking
It is totally unacceptable as we face the challenges of climate change to abandon, reduce, and make	n arcan coan arcing
less equitable our transit system. We should be doing the opposite.	Miscellaneous
Myself and my neighbors count on the P6 and G8 for traveling to work, church, and for leisure on both	
weekdays and weekends. These routes need to continue.	Bus Service
Metro service has been great in 2023 - both in frequency of service and reductions in fare prices. I hate to see that both of those things would be reversed. The proposed service cuts and fare increases would	
be passed directly onto riders. With regional rush hour traffic the way it is and incredibly high parking	
prices at your destination, many of us have no other feasible or cost-effective options to get to work or	
school every day. We will be forced to absorb the service cuts and increased fares with little recourse.	Bus Service
We finally got the Mitu 7000 series back, and it would be a shame to reduce frequency. But we need	
more 8-car trains during rush hour on Blue and Silver lines (the 6-car trains are jammed). Could you trade frequency with car length?	Bus Service
Important to keep public transportation system working in this area	Miscellaneous
Reducing the M buses would negatively impact the students at Jackson Reed HS. Eliminating the N2,N4	
and N6 buses on weekends would shut off access from the far NW neighborhoods to downtown which	
would be a hardship.	Bus Service
So you will eliminate routes north of 212 powder mill road. Is MTA going to add additional coverage? Please do NOT close any metro rail stations in Prince George?s County. So many residents myself	Bus Service
included rely upon them. I would endure a price hike before closing any stations that are greatly	Rail Service
I think that it is ridiculous that Metro is facing this budget shortfall and the proposals here are	
antithetical to the entire 'Better Bus' project. If a road is underutilized, you don't just shut it down with	
no alternatives! DC is a growing metropolitan area and that NEEDS good transit, even better than what	
we have today. We need more funding, not less. 15-20 minute frequencies on the metro are unacceptable in ANY city, especially one as dense as DC (compared to other American cities) and buses	
are the capillaries to your arteries. It is insane to me that all this is happening.	Operating Budget, Management and Spending
This is unfathomable. Eliminating the T2 route would have a devastating impact on many workers I?m	
associated with. There has to be a better way to manage your operations than being forced to choose	
between rate hikes and eliminating service. Please don?t be timid about hiking rates if that is the only	
option. Hopefully employers will hike wages commensurate with employees? cost increases for things like this so that they won?t get squeezed any further. I know we will. Preventing people from getting to	
their jobs because you eliminate routes is not the solution. Being a direct cause of people being out of	
work is not the answer. Raising rates every time we have a little inflation is not the answer. But I?d	
rather have a job and be poorer than have no job at all. Focus on your long term strategy and what you	
can control, be really smart and make good choices. Maybe then you'll find that you are better	
managed and can keep price hikes in check. I know it?s not easy, it?s not supposed to be - you?re management and that?s a privilege, not an entitlement. No get to it and keep the T2 route please!	Operating Budget, Management and Spending
I am writing to you today to express how vital the T2 Metrobus route is to our community. This is a vital	Operating budget, management and operating
route for many individuals, businesses and families to access Potomac and Bethesda. The T2 Metrobus	
is the only reliable public transportation to this part of the County, which is critical for the County?s	
economy. This bus service is a crucial support for our area. Please consider all efforts to protect full T2	
Metrobus for the many riders who require this service to get to work, school, and other activities. Thank you for your time and consideration. Additionally, I would most like to see fares ENFORCED.	
Every time I take the metro, people are hopping the turnstiles. It's frustrating to be charged more when	
so many are avoiding fares while WMATA staff look on and do nothing.	Bus Service
Taking the T2 is my only transportation for doctors appointments and was my only life line to be able	
to visit my husband at rehab or hospital. I could not go if called on jury duty to Rockville either. Would	
be so severely impacted I have no idea how I could make it. Please do not make service cuts.	Bus Service Bus Service
Hi We have several members and staff that use T2 metro bus service to reach Congressional Country	
Club in Bethesda, MD. If you eliminate T2 bus, this will impact livelihood of several staff members. I	
would request you to keep this service in operation. If there is budgetary shortfall, please consider	
increasing fare by short amount but keep the bus running. Thank you.	Operating Budget, Management and Spending Miscellaneous
Rates are already too high as up again Need to get more public funding! Less war, more transportation	Capital Budget
T2 is a route that provides service to a lot of people that work on Potomac Village Center and nearby	
neighborhoods	Bus Service
Please keep T2 Maryland running. It is our lifeline	Bus Service
T2 is important	Bus Service Operating Rudget Management and Spending
No matter the budget it must be spent responsibility. Every decision should have a cost benefit factor. Many passengers are not paying by jumping fare gates when exiting metro. This seems to have	Operating Budget, Management and Spending
increased post pandemic. Payment needs to be better enforced at all stations	Fares/Fees/Parking
We are relying on T2 everyday! Please do not remove it.	Bus Service
There must be tougher enforcement of metro rail And metro bus fare evasion. The DC area has a crisis	
with gridlock?metrobus and metro rail must be promoted. Too many people simply choose not to ride.	Ruc Service
Service cuts are not the way to fix this problem. Safety is also important No matter the budget it must be spent responsibility. Every decision should have a cost benefit factor	Bus Service Operating Budget, Management and Spending

Comment	Category
If the 16Y is eliminated, I don't know how I will get to work. Any other option is much slower and more expensive.	Miscellaneous
I live in NE in the North Michigan Park neighborhood. My 2 children attend two different DCPS high	
schools on the far side of NW (School Without Walls & Duke Ellington). I am also an elementary school	
teacher and I often take the red line to and from work. We are not able to drive them to or from	
school. They are involved in weekend and evening activities. Therefore there are 3 riders that often use the Red Line and the G8 or the R4 six or seven days a week (into the evening hours). The Red Line has	
service shut downs (or emergency shutdowns) quite frequently. We also live near South Dakota Ave,	
right next to the E2 bus stop. We use this to take us back and forth to the Green line at Fort Totten.	
(My husband is a charter school teacher in Petworth and he also uses this route to and from work). The	
proposed changes to the red line, green line, orange/blue/silver lines AND possibly shutting down or	
changing schedules for the D2, D4, 31, 33, E2, G8, and R4 bus schedules would GREATLY affect how ALL members of our 4 person family get to and from school/work on a daily basis!!! I can't even imagine	
how our 1 car family would manage without these services.	Bus Service
Enforce the fare charge. Stop, all of the people hopping the gate. This might not add up to \$750 mil.	bus service
but it will help.	Fares/Fees/Parking
I rely on the T2 Merto bus to get to work every day by canceling the route you?re not supporting the	
communities that rely heavily on it to make a living. Like me, it?s my only way of getting to work I can?t	
afford a car and Uber is too expensive for me. The last option is to walk to work but I work late evening and walking home from work in the dark is not safe for me given the fact that some of the streets	
don?t have sidewalks	Bus Service
It is important that the service continue like this or improve so that people get to use the system. We	
want more people to use the system and experience has to be good for ESO.	Service Levels
I ride the bus or metrorail every day. I cannot afford a fare increase, nor can I afford to be late to work	
trying to figure out how to get downtown on the bus, which is the more affordable option for me. How	
could you possibly consider eliminating the L2 bus service between Woodley Park and Dupont Circle/Farragut North when most of the people using that bus get on or off at stops between those two	
destinations. Have any of you ever ridden the bus between those points on a weekday to witness this?	
This is craziness! Please get better in touch with your ridership patterns before proposing such	
ridiculous changes!	Bus Service
Although I haven't used these services, especially Metrobus in the past 30 days, I am a senior who relies	
on their availability, especially in future when I can no longer drive. You are proposing eliminating the	
R12 service which is the bus I take most often. Even now wait times on bus routes have caused me to rethink taking Metro and you are proposing making that even worse. I also rely on Metrorail to get into	
the District.	Bus Service
That they are stricter to collect the bond to put another collection method when boarding the bus	Bus Service
N service between Dupont and Friendship Heights are the only bus service available to elderly, kids and	
people with disabilities in the Wesley Heights Neighborhood. To eliminate N service along with D2	
service leaves only 30+ bus service which requires a 15 minute hike up a steep hill. I use N service	
regularly during the week and on weekends to commute downtown and to Friendship Heights for business and shopping.	Bus Service
That are stricter with the collection of the bus or you put another method of collection of the bus ok	Bus Service
DC Mayor should take money out of MPD and cover metro budget. People going to and from work,	
school and activities keeps people occupied and able to meet their needs.	Operating Budget, Management and Spending
The MD T2 bus is the ONLY public transportation option for Carderock Springs! In light of the Counties	
efforts for reducing car traffic and encourage people to take the bus this is our lifeline and should not be eliminated. It is used by commuters, teens, household helpers and people who can not drive, for	
medical reasons or because they do nit have access to a car. The only other option then is taxies and	
Ubers, which is cost prohibitive for some households.	Bus Service
The T2 gets so many people to work. It?s the only bus that goes that way.	Bus Service
There is no other option but Uber if you take metro bus away. That is way more expensive than a fare	
hike. My do who take T2 all the time since he doesn?t drive. It?s a lifeline for him. The T2 is the only service to the Metro from my area. It is used extensively by employees working on	Bus Service
our area. It is critical to be kept even though I have to walk almost a mile to get to it.	Bus Service
DO NOT ELIMINATE T2!	Bus Service
I witness folks waiting for the T2 bus everyday and eliminating that route would cause significant	
disruption of their lives. There are no other public transit options up River Rd to Potomac. Please keep	
T2! T3 Pouto is your percent as it provides consists to workers and placeure travelers in Petherda	Bus Service
T2 Route is very necessary as it provides service to workers and pleasure travelers in Bethesda, Potomac and Rockville. There is no alternative public transit in that area.	Bus Service
T2; it s a lifeline for Potomac residents to DC Without it, many many more people would need to drive.	
Many people who take T2 can't afford their own means of transportation	Bus Service
Please do not limit access to the Metro! I think that'd lead to a potentially irrecoverable spiral of lost	
ridership and it'd be a shame to lose such an important system of transportation in this city. I use the	
Metro everyday, it's my main source of transportation and one of the more significant reasons I moved to DC. Public transportation is so important for access and the environment!	Rail Service
I work full time for a 24/7/365 Country Club in Potomac Maryland (10 minutes via T2 from Friendship	
Heights) that I will leave unnamed. Over 400 people are employed here and 1,000s if you include the	
other Platinum Clubs within a few mile vicinity. At least 25% of my fellow team members count on the	
T2 Bus Route (as well as several other listed) as their primary means of transport to work. I'm talking	
about people supporting their families paycheck to paycheck, who may not have the credit or savings	
to afford a car. I know for a fact this motion to terminate these routes would not only jeopardize the livelihoods of MY coworkers; but that of many, many others in the surrounding regions. These are	
honest, hard working, tax paying members of society. They should NOT be obligated to pay half of their	
net daily income in order to get to and from work. On behalf of my Team Mates, and everyone I know;	
this is an egregious example of how daily life gets more and more expensive the lower you go on the	
socioeconomic ladder. Please DO NOT cut these services. They are necessities for the many who use	
them, they truly deserve better. Thank you for your time.	Bus Service
You do not increase revenue by making your service crappier. That's not going to solve your budget problem. If you want more revenue, make metro better more reliable. Everyone you close stations for	
long periods of time you kill demand. If i can not rely on wmata then i must find alt transportation	
same with price. Increasing price does not increase revenue if it lowers demand. This is Econ 101.	Operating Budget, Management and Spending
T2 route is very important for the neighborhood as it is the main connection between carderock springs	
and the metro, which is used by many residents.	Bus Service
I am opposed to eliminating the T2. It is a longstanding and vital necessity for many people who are	Bus Service
employed along its corridor. They would not be able to have an affordable means to get to work. Please don't cut the T2 bus to DC in Potomac. Important to people who work in MD.	Bus Service Bus Service
Seriously do not like the proposals	Miscellaneous
That the meters work at how they are still doing it still in the holidays	Miscellaneous

Comment	Category
There is no reason that fares would need to increase OR for us to have service cuts. Add more to the	
budget. You are choking out a service that is necessary for so many working taxpayers in the DMV. This	
is shameful.	Operating Budget, Management and Spending
Hello Metro team, I live in Van Ness and work near Gallery Place and take metro-rail most days in order	
to commute to and from work. Occasionally I will commute by car but it takes much longer than the metro due to the traffic downtown. Decreasing the frequency of service, especially during rush hour	
will further exacerbate this problem. For me, having reliable service on the red line is imperative to me	
getting around the DMV. I also support increasing the late-night train service. I like to take the L2 bus	
home from a night out in Dupont/AdMo back to Van Ness rather than have to pay and wait for ride-	
share, but I prefer the train. As the ride home can often be the majority of the cost of a night out,	
having this late night service would make it easier to support these businesses in different	
neighborhoods. But I will concede that the trains and busses tend to be less busy at that time than	
during rush-hour, which seems like more of a priority.	Bus Service
We are trying to reduce carbon emissions. Public transportation is key. We are an ageing population	
and public transportation keeps older drivers off the road. Plus, it keeps seniors walking and being with	
all ages of people on a bus. All good.	Bus Service
Please do not cut the bus service going from River rd to Potomac.	Bus Service
Closing metros in largo or decreasing lines that service this community will be detrimental to our ability	
to get to and from work/school and other locations	Bus Service
The T2 metrobus is the only bus line that serves my neighborhood (Carderock springs) and many other	
apartment towers along River road and neighborhoods. I rely on it and it has allowed me to avoid	
buying a second family car to get to my job near capitol hill in DC. It is busy during commuting hours	
with a diverse clientele. I often tell friends and family that it is one of the municipal services I am most	
proud of (in addition to the metro). It would be truly life changing were the route to be eliminated and	
would lead to more cars on the road, less sense of community, and would disadvantage those with the	
least among us.	Bus Service
Several adults with disabilities in our area use this transportation as critical to their independence.	Miscellaneous
Cuts to service frequency and station closures are only going to make Metros budget woes worse.	Operating Budget, Management and Spending
These proposals are very inequitable and would adversely impact those that cannot afford to own	
private vehicles or are unable to drive themselves and must rely on public transport.	Miscellaneous
The money is there. We just need decision makers in public service to live in public and value public	
transportation.	Service Levels
We need metro rail and metro bus to be frequent, reliable, and consistent so that people can	
confidently live car free in the District and surrounding areas. It is more important to maintain regular	
and reliable service even if that requires increased fares. It will still be a lot cheaper than	
uber/taxi/personal car as long as the public transit service is frequent and reliable. Focus on better and	
more frequent service as a higher priority than lower fares.	Bus Service
Raise weekend fare first. Keep it open later. But it is \$50-60 USD to get an uber from U Street to	
Huntington. Often times I have to wait over an hour for an Uber to even accept. You can raise weekend	
late night fare considerably more (keep it same as day rate), I don't see that it actually impacts people's	
decisions.	Fares/Fees/Parking
Please start fining or arresting people who do not pay the ride the metro by jumping the gates. It?s not	
fair to others who are paying full price	Fare Evasion/Safety/Crime
We rely on the T2 bus along River Road to get us to the metro from our neighborhood, which is far	
from the metro station. Our teen uses it to get to downtown Bethesda. And my husband uses it to	
commute to work in DC. Without the T2, we would no longer have reasonable access to the metro	
system or to any public transportation.	Bus Service
Increase in fares is far far preferable to decreasing service. Less frequent trains will be a disaster for	
commuters. For our family, we would buy another car for commuting rather than wait 15-20 minutes for the next train. For those who make connections with a second line to travel to work, this would	
	Earos/Eaos/Parking
make using metro impossible due to possibly adding 30+ minutes each way if trains are just missed. T2 changes would affect me and my entire neighborhood and all the service people who use the bus to	Fares/Fees/Parking
get to the neighborhood. I am opposed to eliminating T2	Bus Service
The D31 bus serves Alice Deal Middle School and Jackson-Reed High School students who live east of	
Rock Creek Park. This is the only direct bus route available to get these students to and from school.	
The M4 line is a back-up option that gets students from these schools close to Oregon Ave NW at Wise	
Rd NW, where they can be picked up by those of us living east of the Park. Elimination of either of	
these lines - especially D31 - is devastating and will have huge negative ramifications.	Bus Service
T2 on River Road is essential to Carderock Springs neighborhood. Metro is much more environmentally	
friendly than single driver vehicles and needs to somehow be encouraged and socialized versus	Rail Service
Metro services are absolutely essential to this area. I believe Metro and the DMV governments should	
be doing everything they can to increase utilization of these services as traffic and DUI driving is an	
extreme problem that Metro can easily address. I am very concerned the proposed changes will	
decrease metro usage and have negative side effects for many, not just those who use the services	
directly. The counties are also rezoning and building lots of communities at metro stops, but then are	
not supporting the access of metro services for these residents which is completely wrong. Also, metro	
police needs adequate funding as security is a serious issue that needs addressed.	Fare Evasion/Safety/Crime
Your survey leaves out questions about the T2 route!	Miscellaneous
You can?t cut buses that 6th graders take to school. They are too young to take the bus or bus rail	
combos that would be required to replace them. Just silly.	Bus Service
I would not choose Metro if you are increasing the fare WHILE cutting down on service, for example,	
with making folks wait 20 minutes on the Blue line on weekends. At that rate I?d just get an ebike and	
bike around or even drive. You would lose so many customers on the blue line this way?	Fares/Fees/Parking
I'm just outside the Beltway and my concern is with the T2 bus which services communities with service	
workers required to be at assisted living facilities as well as on bus routes to churches, schools, etc.	Pur Carrier
There is no metro rail service here.	Bus Service
Many people rely on public transportation to travel to/from work or to see a loved one. My preference would be to preserve reliable and efficient service for commuting (rush hour), with less	Miscellaneous
frequent service or route elimination for other purposes.	Bus Service
There are several media articles dating back to 2022 stating DC Metro bus fares are free to follow suit	
regarding other major cities in America. Yet here we are in 2024 and bus fares are Not free. This is very	
upsetting. I depend on the DC metro for my transportation and I am poverty stricken as are 75% + of	
DC residents. My suggestion is to give qualifying residents free bus fare who fall under the guidelines of	
EBT, Medicare & Medicaid	Bus Service
Cutting the D31 school bus routes denies public transportation to all the students in Shepherd Park and	
Colonial Village. This is unacceptable and discriminatory to the families that can't drive their children to	
school every morning.	Bus Service
By cutting proposed routes, you are impacting people?s accessibility to work, food, and social	
connections. I would hope that there is another solution, such as rate hikes. This is about a huge	
	Bus Service
impact on people?s quality of life.	bus service

Comment Accessibility for low income and disabled people is already horrendous on the Metro system, despite	Category
Accessibility for low income and disabled people is already horrendous on the Metro system, despite what it advertises nationally. These service cuts would make what is already a system so disastrous I	
would not use it except that I literally have no other option, exponentially worse. Please, please find	
the money, or disabled people will not be able to exist independently in this city anymore.	Bus Service
D31 and M4 are relied upon by students in the Shepherd Park neighborhood to get to Deal and Jackson-	
Reed, please keep these routes at least during prime before and after school hours. Thank you! Tap into tolls and parking fees in the DMV to increase revenue. Toll all road during rush hours into	Bus Service
business centers, use the revenue to fund WMATA	Bus Service
Metro should prioritize any bus route reductions or eliminations in higher income areas where people,	
like me, can afford to drive and park at the rail stations. I also think that Metro should prioritize raising	
fares over service cuts because the more service is cut the less likely people are to ride metro, and then	
it becomes a never ending cycle of lost revenue and further service cuts. I also would note that	
regarding bus routes I WOULD take a bus if it ran more frequently and was a closer walk. For me, taking the T2 entails crossing a busy street without a light or stop sign (Seven Locks) and then waiting at a long	
light to cross River Road. Given that the bus also does not run frequently, that is too difficult for me.	
But I wish it was more feasible to take a bus to the metro and not use my car!	Bus Service
I am appalled at the amount of routes that are proposed for cuts. This mostly affects the lower-income	
population, who have to rely on several buses and metro combinations to get to and from work and take kids to doctor's appointments, schools, etc. People who work hard and cannot afford to own a car	
or call an Uber. Our housekeeper, for example, comes all the way from Seven Corners, VA to Carderock	
Springs, MD, by a combination of bus-metro-bus that is already inefficient and takes her more than an	
hour. She takes the T2 bus in Maryland, which still forces her to walk almost a mile to get to our home.	
She won't be able to come any longer if the T2 is discontinued. The MD T@ is the only option for	
residents of Carderock Springs to use public transportation, even after a long walk. The metro-bus	
connections in the suburbs of Maryland, for example, are already quite poor when compared with services in all other developed countries, including many developing countries as well. We need an	
	Bus Service
Please do not discontinue the T2 service. It's a lifeline for so many people to get to work, to grocery	
stores, to enable independence. Consider the elderly portion of our community that can not safely	
drive, or the disabled which are incapable of driving, even the people that are unable to afford the	
expenses of car insurance, maintenance, gas and all the associated costs that come with car ownership. The lower montgomery county area is already unserved, please keep this route.	Bus Service
The D31 is used daily by my neighbors to get to school and should not be cut at all.	Bus Service Bus Service
for people who rely on the metro regularly, the service cuts and fare increase are going to be a huge	
quality of life decrease. for people who would only use the metro infrequently, both of these things	
also lean them away from using the metro and if they have other alternatives and will result in a spiral	
of less funding for the metro system. regular service and reasonably priced metro fares are crucial for	
encouraging people to use more public transportation. if metro fares are the same (or more expensive)	
than parking and also ends at 10pm, people cannot rely on the system as a safe alternative for getting around.	Bus Service
I take the T2 and L8 to/from work almost everyday including the weekends. There?s a lot of people	bus service
along River Road (T2) that rely on these services because the businesses or residential they work for are	
along River Road. Cutting these routes will make people have to quit their jobs to find another one	
more closer but most likely it?ll be a lower paying job. Metro already reduced the hour of operation for	
the T2 during COVID and now Metro wants to eliminate the route? Metro?s big shots and the	
government need to put themselves into our shoes. There would be no need for a fare increase if you could stop fare jumpers. 500 people a day at the	Bus Service
metro station I use most? Seems like I am already paying for them with my use of the Metro. Why	
should I have to pay for their free rides? They may be forced to pay their share. I heard parents use	
their child's Metro fare cards, which leave the children no choice but to evade fares. Clamp down on	
that happening. Make Metro free for DC residents. We are not a state that can fund ridership with	
state taxes. Do more to stop smoking of all kinds, including vapes, and loud music. Do more to promote	
civility and courtesy. Thank you. This is a false dichotomy. The metrorail is a public service that needs to be treated as such. I want to	Fares/Fees/Parking
ride it more, but the price and schedule have made it both unreliable and expensive. This is making it	
worse and more expensive. I?m more than happy to pay more in local taxes to fund this knowing that

There is a lot of people that benefits from route T2, please do not take away You cannot cut your way to solvency. Cutting your product means people use it less or don't find it	Bus Service
reliable anymore, which leads to less ridership, which leads to less revenue, which leads to more cuts.	
It's a death spiral. Keep pressure on lawmakers, and use this survey results to show how important this	
is to people. If the DMV doesn't have decent transit anymore, the DMV will suffer in more ways than	
one. Figure it out, guys!	Miscellaneous
get the va governor to pay for his portion of the budget	Operating Budget, Management and Spending
YOU CANNOT CUT OFF SERVICE FOR CHILDREN TO GET FROM SHEPHERD PARK TO DEAL AND JACKSON-	
REED!! THAT WILL RESULT IN LAWSUITS!!	Service Levels
Washington DC provides no bus service for children. Instead, they have to use the metro. If you	
eliminate the ways that our kids to get to school and provide no alternatives it is unfair and	
unreasonable. You need to use tax money to provide services for our kids instead of funding D31 is a necessary route as this is used by students who live on the side of this route. Removing this	Bus Service
route would create hardships for many families.	Bus Service
Eliminating the D31, 32, 33, and 34 buses would be catastrophic for families whose children attend	
Deal Middle School and Jackson Reed High School, particularly those families who live east of Rock	
Creek Park. Hundreds and hundreds of students rely on these buses each day to get to school. This	
proposal will lead to incredible strain on families and increased car traffic. Further, reducing service and	
eliminating service on the 62 and 63 bus lines disadvantages the Brightwood and Manor Park	
neighborhoods which rely on those buses to get to school and work.	Bus Service
The T2 line is what I use to take to work - I don't mind paying a bit more for bus rides, since it's the	
easiest way to get to work for me. There's limited parking at Grovesnor-Strathmore (the closest station to me), and although I could drive to Grovesnor and park there, it's inconvenient for others who need	
to use the car. the T2 line is the most convenient for me to use to get to various places.	Bus Service
Cut low ridership bus routes entirely before reducing frequency. Increase fare enforcement on buses.	
Keep 24 hour DC bus service.	Bus Service
As a resident of Greenbelt, eliminating the G12 route from the Greenbelt metro would make it harder	
to use the metro, especially because the bike parking infrastructure is inadequate (no bike share, little	
protected bike parking).	Bus Service
Virginia and Maryland drivers and governments should be contributing more to the WMATA budget.	Operating Budget, Management and Spending
The T2 is a lifeline for those living in and travelling to the western suburbs of Bethesda and Potomac. It	
connects 8 miles of River Road to the Friendship Heights metro. Not everyone out in this part of	
Macgomery county has their own car, believe it or not. Also commuters who would prefer not to	Rus Son iso
increase air pollution by driving into the city need to have the option of taking public transportation. People like myself who do not have cars rely on metro to get around. I don?t live need a metro station	Bus Service
and you?re proposed to eliminate both bus lines near me!(d6, m4). Please take a pay cut for metro	
execs and help riders.	Bus Service
Reducing Metrorail service is short-sighted; it will put Metorail into a death spiral. The equivalent of	
burning the furniture to keep the house warm. Workers are returning to the office and most fares are	
covered through transit benefits. Raise the fares before you cut service and what will most bring people	
back is if you made it safer - more police present at all stations and station managers who actually pay	
attention / walk the platform instead of sitting in their booths chit-chatting with other employees.	Fares/Fees/Parking
Do not get rid of d30 buses it?s mandatory for the children	Bus Service
Far increases over service cuts.	Bus Service
Don't cut service. How are we supposed to get around if you cut them off. I can't do my grocery	
shopping if you do this. Your gonna make it harder for people to get to work. Metrobus is their only option. Just increase the price.	Bus Service
Many kids in Shepherd Park use the bus system to get to Deal and Jackson Reed for school. We need	
this to continue to be available to them	Bus Service
Figure out how to tax our employers for the Metro services. Employers are externalizing costs of	
employment by relying on the metro to bring their employers to work.	Fares/Fees/Parking
We should increase offerings of public transportation, not cut it.	Miscellaneous
I use T2 to get rapid service to Rockville rather than bus to Metro. Less walking and less time. KEEP T2	
RUNNING.	Bus Service
I take the T2 BUS - I put my bike on the bus and ride part way to work - please do not take away the T2	
bus Disco de esta esta esta esta esta esta esta est	Bus Service
Please do not cut rail and bus service!! It?s already very painful to have to wait 20 min for a bus or a train on many lines. I have resorted to Ubers in many such cases. I know I previously answered ?no? to	
increasing fares but if that?s the only solution, I?m reluctantly in favor (though I would gladly pay more	
in taxes instead)	Bus Service
If you're going to increase Metrobus fares, there should be a corresponding improvement in service. For	
example, more than once I have waited for a bus in the middle of the day to get to a dr appointment	
and it just never showed. Or, for routes that are routinely standing room only, if you're charging more	
there should be seats available, which would mean more frequent buses. This is Metro's problem: the	
service has been so bad that it's hard to charge more and have people continue to tolerate it.	Bus Service
Defund the police and move those funds to actually important public services like public transit	Fare Evasion/Safety/Crime
Metro refuses to make a commitment to the 74 bus route despite its serving almost exclusively disabled Black senior citizens and right now construction workers at Buzzard Point. The Circuit	
transportation option is a terrible joke. Thousands of new residents are expected to be attracted to the	
new apartment buildings and condos. Metro eliminating mass transit access to Buzzards Point will	
increase the danger on the public streets of Southwest DC. The Metro lack of commitment to the 74	
bus route jerks around the eldely, Black residents of Southwest. Also, during the school year, the 74 bus	
route provides hundreds of school children transportation to school. If service must be reduced on the	
74 bus route for Metro to survive, ALL cuts to all routes should only be made on weekends and after	
midnight. The vast majority of your riders need weekday transportation up until midnight. Later than	
midnight most riders are recreational and hospitality workers, not school children, not elderly. Every	
day in the USA 10,000+ turn school age and 7500 adults retired. DC has its share of these. Fare evasion	
is CONSTANTLY present in the entire Metro system. Even the Metro Access drivers report they pay	
client fares out of their own wallets! Fare evasion is where your budgetary losses are! The majority of the fare evaders are young Black men who want to do things they cannot afford. Getting free	
transportation is something they consider an equity issue because they have employment issues and	Operating Budget, Management and Spending
If the metro cuts service or raises fares by a lot I will probably leave DC. I work from home and if it	1-1-1-1-0
becomes necessary to have a car it will be difficult to stay here. The constant delays due to fixing the	
metro has already significantly reduced my spending at local stores and has already caused me to leave	
the city for weeks due to station and line shut downs. Public transportation needs to be affordable and	
convenient. It would also help if people in DC were not allowed to evade fares. It is frustrating to pay	
the fare from MD and get to DC and see half the people not paying?especially when you propose	
the fare from MD and get to DC and see half the people not paying?especially when you propose cutting our service.	Operating Budget, Management and Spending
the fare from MD and get to DC and see half the people not paying?especially when you propose	Operating Budget, Management and Spending Fares/Fees/Parking

Commont	Colorester.
Comment I can?t believe that the fare increase or the cut back on the service is the only way to solve the short fal	Category
of metro?s budget. This is where the tax money can go.	Operating Budget, Management and Spending
T2 in Maryland is critical, since it is only service from DC up River Rd to Potomac. It should NOT be cut.	Bus Service
I prefer fare increases to service cuts. Many people depend on Metro for transportation to work. They	
may be able to get employers to help cover fare increases. But owning and maintaining a car in the DC	
area is beyond the financial reach of many.	Operating Budget, Management and Spending
ReT2 . I have only on occasion used this bus but when I have , to get from my home /Rockville or home	
/ Chevy Chase, I have always noted the young adults and household workers using it. There are several	
survival needs adults in my neighborhood and all use this bike s on their own to attend classes,	
workshops, get togethers. We have a very very poor walkable rating which is why this bus is vital . This	
is one way household and nearby golf club workers can get to and from jobs. However, we ARE in an	
affluent neighborhood and WEcan afford other services such as UBER. My concern in general would be eliminating routes which are the sole means for working class and underserved communities and	
residents to access work, schools, shopping and such. I am more concerned about THOSE routes and	
ThOSE folks who cannot afford a car or taxis.	Bus Service
If there is a decrease in services, then there should not be a rush hour extra cost fare. If the rail line	
service is inconsistent, I will not ride Metro.	Fares/Fees/Parking
T2 is critical to business and employment. This proposal is absurd and government at its worst.	Bus Service
There are certainly some.opportunities for more efficient consolidation in certain areas, but overall we	
need service expansion, not cuts, especially in the suburbs	Service Levels
Eliminating bus service like the T2 would cripple transportation in the region. Don?t do it.	Bus Service
Keep fares low. Do not eliminate the DC 74 Bus to Buzzard Point. It services the Stadiums Fort McNair	
and the whole Buzzard Point area which is growing	Bus Service
Do not discontinue T2 service. It is the Only public transportation for us to leave/retyrn to our	
neighbithood. Many people who live on the route or work on that route depend on it.	Bus Service
You need to figure out ways to be more efficient with spending. Stop looking at things so myopic and plan for an extended future 20, 30, 40 years out. In the future less people will own cars and public	
transportation will be more important. Instead of cutting service to the trains and the buses, You	
should look to decrease the size of the train and better ways to load people. That way you can still	
maintain a service relatively quickly. Potentially smaller buses which don't require advance driver's	
license, which comes quicker, and add express bus/rail service. During the busier parts of the	
day/routes you can have larger trains and larger buses, The non main routes you can service with	
smaller train cars and short buses.	Bus Service
Metro cannot cut the bus lines that take children to school. The d31 and m4 busses are essential.	Bus Service
The D31 bus takes my child to and from school. To eliminate it would cause great hardship to our	
family, and many of our neighbors.	Bus Service
Asking the public to weigh in on how the capital budget should be spent is insane	Operating Budget, Management and Spending
Send a strong message to the Regional governments that their citizenry needs and expects them to	
increase their funding to Metro. It should not be optional! We should pass laws that require the	
Regional governments to fully fund Metro. Oversight of how metro spends that money is certainly advisable and also a requirement; but the need to keep Metro operating with good service hours and	
reasonable fares is critical to keep citizens out of cars, taxis, Lift/Uber, etc. And, by the way, there are	
many tourists that praise the Metro system as a big factor in choosing to visit here rather than other	Capital Budget
T2 is a necessary means of transportation in Potomac	Bus Service
Please do not increase the bus line fares. Low income riders depend heavily on the bus and its unfair to	
put more of the cost on them.	Bus Service
Please don?t cut 16y, it should be dramatically expanded and hours lengthened not cut but it needs	
bus lines on US-50 in Arlington, DC and 18/19 to be efficient.	Bus Service
D31 and related are critical for getting kids to and from school. If buses that primarily serve children are	
cut DC should cut support of Metro and increase school bus service Important to keep 52 DC bus in SW	Bus Service Bus Service
Eliminating the T2 service will cause a number of people the inability to get to work. Or increase the	Bus Service
cost of getting to work. They will have to rely on Uber or others in order to stay employed. Please	
reconsider this decision. Thank you	Fares/Fees/Parking
D31 and M4 cuts would significantly hurt students who attend Deal and Jackson-Reed. These cuts	
would make it harder than it already is for students to get to school. Please, please do not cut service	
for our children!	Bus Service
Buzzard point is an island by itself. Cutting 74 would impact our community as it?s far from everything	Miscellaneous
Ultimately I hope that we can minimize any chance of metro closing earlier or poor weekend service.	
1?d be willing to trade off some rush hour service and some logical bus cuts to make that happen. No	
one likes paying more for the same service but I would strongly prefer higher fares over worse service. I	
buy a pass and I feel I get tremendous value out of it, I?d be happy to pay more.	Bus Service
Regardless of what happens, I appreciate that it will be a hard and unpopular decision for Metro to make, so I appreciate everyone involved! - I have taken the Silver Line at the highest fare of \$6 from	
Ballston to Wiehle Reston East every day for quite some time now, and know many people who do the	
same. I think a change from the current top fare to anything \$7 or above would make it very hard for	
myself and others I know who like the Metro to justify continuing to take it (some people also have	
cars). However, when the Silver Line was previously at 20-minute headways even at peak, people still	
used it as much as now (from what I can tell). I think the idea of eliminating rush service throughout	
the day is less likely to change ridership choices than fare increases in reality, even if widely criticized.	
As long as the longer headways and arrivals times are truly reliable (and arrivals generally are) I think it	
would be okay! - I really would not like to see the metro closing any earlier than it already does. I have	
had several times I want to take it after a night out and it already being closed?10 PM would be wildly	
early, not to mention people who work that late and use it to commute (I would imagine this to be a	
decent sized group) I doubt 6am weekend service is critical.	Fares/Fees/Parking
I really need the T2 bus to get to work. If you take that route out I can?t get to work. Please don?t take it out	Rus Sanica
it out. The service I use is fabulous. I use the 38B daily. I do not know the routes in trouble, but I would hate	Bus Service
to see people inconvenienced by eliminating routes.	Bus Service
Increase the fares is better than to cut these lines.	Fares/Fees/Parking
When I ride metro bus I often see people not paying their fares. If fares were enforced perhaps we	, елему с мениу с молотов
wouldn?t have to deal with service cuts or fare increases. I understand some people can?t afford fares	
but unless we enforce fare payments it doesn?t encourage people to pay their fares. They just get on	
the bus.	Bus Service

Comment	Category
Please do not eliminate the bus routes used by Deal and Jackson-Reed students to get to and from	
school. Elimination of these routes would create an incredible - and completely avoidable - hardship for students east of the park who need to travel to their public schools west of the park. In addition to an	
undue burden to students and their families, elimination of these routes seems targeted to displace	
certain students who rely on public transportation to get to and from school form their parts of the	
city. DCPS does not provide bus service on the basis that public school students can use public	
transportation to get to and from school. Eliminating a critical and highly used route cuts off this access	
for 100s of students who otherwise have no DCPS-provided option to get to school. Eliminating this	
essential route would harm students. These proposed Metrobus cuts really do a disservice to Adams Morgan. The eastern side of Adams	Bus Service
Morgan is a long walk from the Woodley Park metro station and the bus turnaround on Calvert, and we	
rely on the S line and buses that cross 18th and Columbia. This proposal would completely cut off	
Adams Morgan from Dupont/Farragut Square on weekends while simultaneously making it more	
difficult to get downtown on the S2. Eliminating the 96, the L2 below the Calvert turnaround, and the	
42/43 on weekends would eliminate 4 of the 5 bus options that cross 18th and Columbia. That is an	
insane thing to do to a neighborhood without easy nearby Metrorail access. Taking the Circulator to	
Woodley Park is not an acceptable alternative to going downtown, and takes so much longer than getting on a southbound bus in my own neighborhood. And DDOT has already proposed putting the	
Circulator that passes through Adams Morgan on the chopping block.	Bus Service
Metro should bring back the bus that connects Greenbelt Metro station to BWI airport.	Bus Service
Take a hard look at those bus services that affect children getting to and from school. Those lines	
should not be touched.	Bus Service
D31 provides transportation for dozens of children in my shepherd park neighborhood!! Without D31	Bur Convico
these children will have no way to get to school in the mornings, it would be catastrophic!! Elimination of D31 and M4 will negatively impact children who live east of rock creek Park and their	Bus Service
ability to get to school west of the park, where Deal and Jackson-Reed are their assigned in-bound	
schools.	Bus Service
I believe increasing fares over decreasing lines is the more appropriate solution. It would have a great	
impact on the individuals who use these services on a consistent basis if their typical travel routes were	
removed. They'd like have to pay more to travel to work/school/going out and therefor an increase in	Rus Service
rates would be the more preferred solution. Please don?t reduce service	Bus Service Service Levels
Thank you guys for running a great system! I hope you get a dedicated operating budget soon!	Operating Budget, Management and Spending
It is an absolute shame that the capital of the world?s most powerful nation can?t fund transit. The	
cost of living is already way too high and eliminating transit will just make it harder for poorer people.	Fares/Fees/Parking
The buses already run at reduced frequency for it to reduce further	Bus Service
The new GM come in with big ideas or ideas used where they came from, public transportation is a	
service to the public that?s not always profitable but needed. Do what you need to do to give the public confidence in the system! None of this survey spoke to safety on the system which is one of the	
reasons that people don?t ride the system late night! Stick to the problem and stop inventing proposed	
issues! Your employees don?t use the system either.	Service Levels
I live in Woodridge and rely heavily on G8 to get around town. In fact, G8 is the only public transit	
option accessible from my neighborhood (there is not even a bike station within a reasonable walking	
distance). Reduction to G8 service will severely affect me and my neighbors who already have experienced limited access to affordable public transportation options.	Rail Service
Fix the turnstiles so people can't jump over them and crack down on offenders. Give bus drivers and	
station attendants training in courtesy and tell them to work, not stand around and chatter to each	
other and ignore customers in need of assistance.	Bus Service
The T2 route is significant to my community and it would be a shame if it were to be discontinued. It?s	
important for many of my friends for it to stay in service.	Bus Service Rail Service
Many people rely on the metro rail system after 10PM. Please do not reduce hours of operation.

I strongly believe that that metro short fall of riders is base on several factors, (a) before the pandemic,	Bus Service Bus Service Rail Service Bus Service
school, Deal and high school. Eliminating these buses causes issues for over 200 families here. T2 bus line is essential for federal government workers and should be the number one priority bus line kept student bus passes should extend to metrorails Poor service, infrequent trains, and mediocre facilities and trains - please do better The Yellow line ending at Mt Vernon Sq is a horrible inconvenience that 17m sure deters many riders. It is ridiculous that this line does not go to at least U St or Columbia Heights. I take this line every day and this change has led to incredible crowded Green line trains (especially during rush hour). I watch the same crowds of people every day get off at Mt Vernon and wait to squeeze onto a Green line train just to go two more stops. Ridiculous. Where I live, T2 is the only practical alternative for me to get to work using public transportation The fees should be increased for Virginia & Maryland riders in DC. Service reliability and throughout are what keeps return customers, but cleanliness, ride quality, service frequency, and ease of access (proximity) to destinations/POIs is what attracts new riders. I think we should also consider getting DC, MD, and VA to permanently fund the metro. Also, more advertising on metro or maybe even put some businesses in metro stations The elimination of the D31, D32, D33, D34 bus routes affect Deal Middle School Students in my neighborhood who use these buses to get to and from school. Comment	Category
I am 100% opposed to cuts in the metro's budget. This system is essential to our region our economy,	
our community, our resilience in the face of climate change. Where there are ways to invest in cheaper	Connection Durdent Merconnect and Crondian
options (buses) that is better than more expensive options (rail).	Operating Budget, Management and Spending
Dimulates the prillities to use the subway with high rates Metro needs to stop taking out its lack of funding on riders and do better with allocating the budget.	Bus Service
You can?t afford to provide full service to riders but have been working on opening a new purple line	
for years. Get your priorities straight.	Operating Budget, Management and Spending
Please don't cut bus service to the Glover Park neighborhood. I use it extensively to get around and we	
don't have easy access to rail. Thank you!	Bus Service
Get your house in order, metro. it?s already cheaper to park downtown twice a week than take metro	
every day. i almost exclusively take the bus now	Bus Service
The cuts proposed (ending d2, d6) would leave me with no public transport options in my	
neighborhood and I would no longer be a WMATA customer because there would be no service	
accessible. I live well within the borders of the district, not a remote location. This is unacceptable.	Service Levels
My neighborhood, Glover Park, relies on the D2 for access to metro. Please do not eliminate this bus	
line!	Bus Service
it?s really disappointing that an area of the city with already limited options on public transport	
because there are no metro stops within a reasonable walking distance, that routes continue to be cut	
and reduced. i am a huge supporter of the bus system and take it every opportunity i get but the	
decrease in service and often late or missing busses is really disheartening. you?re cutting off a portion	
of the city from accessible transportation and alienating a region that WANTS to use the system. if you	
want to gain and maintain ridership, cutting off people who want to use the busses is not going to help	Rur Sonico
your cause Eliminating D2 will leave us without reasonable bus service	Bus Service Bus Service
Eliminating D2 will leave us without reasonable bus service Reducing service will reduce Metro use and worsen financil problems. Metro wasted money in new fare	
card gates that I see being jumped every time I ride Metro. Focus on safety and service	Fare Evasion/Safety/Crime
I do not agree to eliminate. Route Z7. It is very. Use. For those who work in. Laurel. And we use. The. It	
is coats of. Burtonville	Bus Service
our kids use the D6 to get back and forth from school regularly and my wife would have no way to get	
to work without the D2. cutting those two routes and the 31/33 would leave our glover park	
neighborhood and neighbors with almost no mass transit options. it?s a terrible idea.	Bus Service
I am a disabled passenger that often uses the metro (top 7% of riders in 2023! by the way, that was a	
great idea I loved looking at my year summary stats). I regularly use the metro to travel across the DMV	
for appointments and to explore the city. I also semi-regularly use the bus routes. I don't have a car and	
depend on the metro for timely and safe travel. The proposed budgets would be an inconvenience to	
accessible travel if service is reduced or more costly. I do support improvements to the infrastructure	
and sustainability.	Operating Budget, Management and Spending
The Metrobus N- and D-series always find their way to the chopping block, but I rely on those routes to	
get me to/from work (K & 19th St.) and Metrorail (Farragut West for the Blue/Silver lines and Dupont	
for the Red line). I don't have a car and my residence at the intersection of Cathedral Ave/New Mexico	
Ave NW is a 40min walk to Tenleytown Metro. My quality of life would severely decrease without Metrobus service.	Bus Service
My son will start middle school at Deal next year. His brother will follow him there in 3 years. We also	Bus service
plan for both of them to attend Jackson Reed. They will both rely on the M4 to get to and from school.	
The M4 is an incredibly route for our community because it is used by hundreds of students to get to	
Deal and Jackson Reed. Additionally, it is the only bus line remaining in our neighborhood and.	
Deal and Jackson Reed. Additionally, it is the only bus line remaining in our neighborhood and, therefore, also functions to take people, including seniors, to and from the metro station. Service on	
Deal and Jackson Reed. Additionally, it is the only bus line remaining in our neighborhood and, therefore, also functions to take people, including seniors, to and from the metro station. Service on this line should not be cut entirely as the bus line serves an important function.	Bus Service

Eliminating this line entirely would be incredibly inconvenient for the community it serves. Gutting service will negatively impact existing ridership. I enjoy metro because it?s frequent and reliable. I have seen rampant turnstile jumping every day at Silver Spring; and other metro stations, i imagine. I take the S9 a little out of the way to connect to metro rail, which provides a much better/faster experience than the more direct S2/S9 routes. Finding ways to get people to rail faster could boost ridership. Lastly, if the D31 and sister routes to Deal MS and Jackson Reed HS are eliminated, that will create a serious access and equity problem for students east of rock creek park. Please don?t cut the D6. Kids take it to school and often don?t swipe since their routes are free. But that could affect your figures about how many people ride Public transit is a necessary public service in urban areas, the government needs to support this. I am dependent on the D2 to get to work and downtown. Please don ot eliminate it. I have no other mode of transportation available. There is no metro access nearby. The riders in this neighborhood pay their fares and are dependent and regular riders. Eliminating this b	Bus Service Bus Service Bus Service Bus Service Service Service
therefore, also functions to take people, including seniors, to and from the metro station. Service on this line should not be cut entirely as the bus line serves an important function. Keep Metro openl People work late hours, we need meteo to get to work during rush hour. My son will begin middle school at Deal next year. His brother will follow him there in 3 years. We also currently plan to send both boys to Jackson Reed. The M4 bus stops behind our house, and our plan is that both boys would use it to get to and from school. The M4 bus store to rule vare such as Hawthorne and Barnaby Woods, it also serves as a lifeline to many seniors. And, it helps transport many individuals to and from the metro for work. Eliminating this line entirely would be incredibly inconvenient for the community it serves. Gutting service will negatively impact existing ridership. I enjoy metro because it?s frequent and reliable. I have seen rampant turnstile jumping every day at Silver Spring; and other metro stations, i imagine. I take the S9 a little out of the way to connect to metro rail, which provides a much better/faster experience than the more direct 52/SP routes. Finding ways to get people to rail faster could boost ridership. Lastly, if the D31 and sister routes to Deal MS and Jackson Reed HS are eliminated, that will create a serious access and equity problem for students east of rock creek park. Please don?t cut the D6. Comment	Category
There are a lot of public school students using buses but they are not accounted for (for example Hardy	
Middle School kids in Glover park). Cutting busses in the area will severely affect these kids' attendance	
(50 percent are out of bounds kids who rely on public transportation to get to school).	Bus Service
Our children take the bus to school as do teachers. My husband and I both take the bus and metro to	
work. The D2, D6, 33, 31, redline, n2, n6 and others will directly impact us for work and the education of our children	Rus Sanisa
I live in Glover Park. Every year since I?ve moved here it seems we?re addressing proposed cuts. My	Bus Service
neighborhood had. I metro rail access. We depend on buses to get us to Friendship Heights,	
Tenleytown or DuPont. Please do. It eliminate our bus service! Many residents (students employees,	
and the elderly) depend on public service for safe, dependable travel throughout the district. Do. Or	
make Glover Park a transportation no-man?s land.	Bus Service
Public transportation in the nation?s capital is essential. Cutting lines and hours of service is a	
disservice to the residents and taxpayers.	Bus Service
cut free rides routes, or collect fare. Less service is better than no service at all. A very high proportion	
of passengers don't pay fare, this has to change !! Get federal money. Too much money has been	
supporting other countries for free, now we have to cut our services	Bus Service
Service is everything. People will pay more if they can go somewhere quickly and reliably without	
overcrowding. If you opt to raise fares, charge people who make shorter rides more rather than across	
the board increases. People often commute far because they can?t afford to live closer. So now you?re	
essentially asking the most from those who can afford it the least. I honestly think if you drop the fares	
for distance riders, you?ll recoup the money through greater ridership. New York City charges everyone	
in their system the same fare.	Fares/Fees/Parking
I'm only just starting to be able to take Metro again to my job that ends after midnight, and it's been	Dell Consistent
such a gift. I'd hate to lose transit access again and have to go back to taking expensive rideshares. 1. Eliminating the D31 service would significantly impact children?s ability to attend Deal middle school	Rail Service
	Rue Canada
and Jackson Reed high school. 2. Get Maryland and Virginia to fully fund metro. It?s ridiculous. The plan to close stations is a death sentence for the system, and for the neighborhoods it serves.	Bus Service
Cleveland Park, for example, has been terrorized for several years now by the department of	
transportation while it made ?improvements? to infrastructure, the roadway (Connecticut Avenue),	
and the pedestrian environment. The results render the neighborhood less viable. Closure of the	
Cleveland Park station would fundamentally kill off a historic neighborhood. The idea of decreasing	
service while making it easier for suburban nights to drive into. The city is fundamentally an assault on	
sustainability. Make this thing work financially, will you? It?s your job.	Operating Budget, Management and Spending
The D6 is the only bus providing service to the Georgetown and Sibley hospitals and there is no other	
bus to the Palisades, which is without any metro service. Stopping the d6 would be a catastrophe for	
that neighbourhood and people there who don?t drive and need to get to work to or from there.	Bus Service
While I haven't studied this in depth, it appears that the Maryland routes could be potentially subject	
to more cuts than the Virginia routes. Why is this the case? Are there more routes in Maryland? Is	
Virginia providing more money to support Metro than Maryland? I was undertake impression that Va	
was stalling on providing funds for Metro.	Bus Service
We used T2 a lot working around Bethesda area	Bus Service
Cutting services and increasing prices only makes people more likely to drive.	Miscellaneous
Eliminating Bus routes would severely impact access to the metrorail system and would certainly	
Eliminating Bus routes would severely impact access to the metrorail system and would certainly decrease ridership.	Bus Service

Eliminating Bus routes would severely impact access to the metrorail system and would certainly decrease ridership. Bus route, frequency, and hour cuts all make the metro much harder to take advantage of for getting around the city and would likely have me stop using it almost entirely. service cuts and price increase would be detrimental Fare increases may be necessary, but more of the burden should fall on tourists rather than taxpayers who are already paying. The flat weekend fare should be eliminated. Please maintain the current MetroAccess service area and times of service. Please maintain a flat fare for all MetroAccess customers that is fair and affordable. Currently Routes 32 and 36 offer Ward 7 residents a one seat ride downtown. Forcing them to transfer to metrorail would incur additional expenses for some of the lowest income parts of the city. Maybe as an example all members of the board should decrease their paychecks At times when global warming is threatening us, the use of public transportation should be encouraged. Increasing fares or reducing service will definitely not serve this purpose as people will go for more polluting alternatives (Uber, personal car) People rely on the Metro and are consistently disappointed in it. How can you talk of cutting service or raising fares when you can't run it efficiently as it is? There are constant breakdowns/service interruptions, no dialogue to passengers when there are issues that interrupt service and no contingency plans ready when there are sudden breakdowns. I see fare jumping daily and nothing is done, yet the rest of us who use the system correctly are faces with fare increases. People are leaving Metro use because they cannot count on the service working correctly and getting them where they need to go efficiently and smoothly. The riders are consistently let down. Now they have to face the possibility of high er fares and less service with no discussion of making the rides bettar. Do not cut the bus routes. Specifically bus 96 do not cut and bu	Bus Service Bus Service Bus Service Fares/Fees/Parking Miscellaneous Fares/Fees/Parking Fares/Fees/Parking Bus Service Fares/Fees/Parking Fare Evasion/Safety/Crime Fare Evasion/Safety/Crime

segregation that WMATA should have no part of. Bus Service	
My children and I rely on Metrobus every single day, weekend, and night. We use it to go to school, go	
to extracurricular activities, go to work (me), pick my kids up from school, to events at the Kennedy	
Center, to go swimming in the summer, to explore libraries in as many neighborhoods as we can (a fun adventure we ve had many weekends and days off from school). The bus is essential to us. Particularly	
adventure we ve had many weekends and days on nom school). The bus is essential to us, Particularly the 42, 43, H lines, S lines, 52, 54, L2, 96. Bus Service	
Une 42, 43, finites, 3 mes, 32, 34, L2, 50. Dus Service Dus Servic	
Center and back M-F has been invaluable. The bus is always in high demand- it doesn't seem like	
cetta da da da mana da de la godi dea. Bus Service	
Don't eliminate the 96 bus route! Bus Service	
Attempting to sign up to testify Feb. 27 hearing Miscellaneous	
These changes would cut off entire neighborhoods from any metro services (Glover Park and the	
Palisades, to name but two). This is unconscionable. It also means that so many people up and down	
Wisconsin Avenue will have no way to get anywhere, short of driving and parking, which people can't	
afford, and the roads can't handle. Why pretend to be a major city if we can't even get people to work	
and home again, or out to dinner or events that support the city's economy and home again? It's	
shocking and entirely short sighted. Fares/Fees/Parking	
You need dedicated source of funding from all the regional governments - THAT is your real issue (well,	
among all your own mismanagement and safety issues - keep working to get better there!) and instead	
of dealing with the political issues on getting that dedicated source of funding, which every other major	
transit system in the country has but the US capital city does not, you are trying to burden your	
customers with negative service and higher fares. DO BETTER. This is a political funding issues - go make	
the case and succeed in getting the dedicated funding source that is not beholden to whimsical politicians and get the same revenue footing that every other major transit system in the country has. Fare Evasion/Safety/Crime	
pointcans and get, the same revenue tooling that every other major transit system in the country has. The number one priority when assessing potential solutions to this budget shortfall must be increasing	
The number one priority when assessing potential solutions to this budget shortant must be increasing ridership, rather than decreasing service. Although options to increase ridership may be limited and less	
nuersimp, ratter than uccreasing service. Autologic options to increase neersing may be inniced and less certain, cuts to service and increases in fares only compound the deficit by further decreasing ridership. Operating Budget, Management and Spending	
Leasing cuts to serve and increases interesting compound the denet by intere decreasing notesting. Operating douget, wanagement and spending Ideally public transportation would receive the funding it so dependent to the dependent	
on fares for its continued survival. I understand that Metro is being put in a very difficult position; my	
worry is that fare increases and/or service changes will only compound the problem for both WMATA	
and its customers. The proposed changes could make public transportation difficult or impossible to	
access for many of the people that depend on it, leading to lower ridership and therefore fewer fares to	
continue supporting the system. To put it more bluntly, few people will be motivated to continue using	
a system that is charging more while providing less. A robust public transportation system ultimately	
benefits everyone but it requires investment to make it a viable or even preferable alternative to cars. Bus Service	
I prefer that Metro review the salaries of those in management and above instead of increasing the	
consumer's costs or decreasing service. I would like to know why the salaries of execs remain high when	
there are staggering issues with Metro. Operating Budget, Management and Spending	
Many government employees rely on the 42/43 every day to get to the Department of State. Cutting	
off the route at Farragut North would greatly impact these employees. Bus Service	
Do not eliminate the D31 bus (and other D buses). These routes are the only option for many students	
to attend Deal Mildle and Jackson Reed High Schools. If anything, these services should be improved.	
Current service on these routes can be infrequent and unreliable causing students to miss/be late for school. Bus Service	
person. Bits service	

Commont	
Comment	Category
The potential cuts in funding for the Washington Metropolitan Area Transit Authority (WMATA) could	
have significant negative impacts on both individuals with disabilities and regular commuters who rely	
on the system. Here are some reasons why: Accessibility for Individuals with Disabilities: WMATA	
provides essential services for people with disabilities, including accessible buses, elevators, and ramps	
at stations. Reduced funding could lead to maintenance delays, malfunctioning equipment, or even	
closures of accessible facilities. Without proper funding, WMATA might struggle to maintain and	
improve accessibility features, making it harder for people with disabilities to travel independently.	
Frequency and Reliability: Commuters depend on WMATA for their daily travel needs. Service cuts due	
to funding reductions would mean: Longer wait times: Reduced frequency of trains and buses would	
inconvenience regular commuters. Overcrowding: Fewer trains or buses could lead to overcrowding	
during peak hours, affecting everyone, including those with disabilities. Unreliable service: Delays and	
disruptions due to insufficient maintenance or staffing would impact all riders. Safety and Security:	
Adequate funding is crucial for maintaining safety and security measures within the system. Metro	
Transit Police presence: Reduced funding might lead to fewer officers patrolling stations, potentially	
affecting safety for all passengers. Emergency response times: Longer response times due to budget	
constraints could jeopardize passenger safety during emergencies. Infrastructure Maintenance:	
WMATA?s infrastructure, including tracks, escalators, and stations, requires ongoing maintenance.	
Escalators and elevators: Inadequate funding could result in more out-of-service escalators and	
elevators, impacting accessibility. Train and bus maintenance: Insufficient funds might lead to	
breakdowns, delays, and inconvenience for all riders. Fare Increases: To compensate for budget	
shortfalls, WMATA might raise fares. Higher fares disproportionately affect low-income individuals,	
including people with disabilities who rely on public transit. Regular commuters would also face	
increased costs, impacting on their daily budgets. In summary, cutting WMATA funding would not only	
affect regular commuters but also disproportionately impact individuals with disabilities who rely on	
accessible public transportation. It?s essential to recognize the critical role WMATA plays in our	
community and prioritize its funding to maintain a reliable, safe, and accessible transit system and as a	
college student this issue would make it more difficult for me to use transportation and to get to the	
places I need to go to and with out these services this would inconvenience me and many others.	Operating Budget, Management and Spending
Please don?t cut the metro, Follow other countries lead with cutting down roads and beefing up the	
metro with more trains, higher quality trains, more areas to travel by train to	Rail Service
M4 is the only bus serving students at Deal/jackson Reed who live in Chevy Chase/Barnaby Woods area	
That area is already underserved with the loss of the E6.	Bus Service
Can?t afford service cuts	Bus Service
The cancellation of the S1 bus has added 20 - 30 minutes to my commute (and I live only four miles	
from work). Additional cuts would make my commute even worse. With all the pressure for workers to	
return to the office, cutting bus service even more is counter productive.	Bus Service
Please don?t close early or shut down lines. I will not be able to get to work or any of my activities. I am	
a customer with disabilities who is power ability and doesn?t drive. I would prefer over closing stations	
or reducing hours.	Rail Service
Eliminating the M4 would significantly impact the communities that rely on that route for getting their	
children to & from school. As it is, children are able to get to & from school independently. Eliminating	
this transportation option would burden working families and force them to drive their children,	
thereby increasing road traffic and decreasing road safety. The M4 is reliable, environmentally-friendly,	
safe, and community-building form of transportation for thousands of families along the route. Please	
don?t cut it!	Bus Service
For long commute we need to cut down station stops if they are closely located. For example, Ashburn	
to DC metro can skip 1/2 stations, McLean and Tyson?s are close so during rush hours run express train	
that skip closely located metro station.	Rail Service
Train service is still quite unreliable, I would advise any changes be for increasing the consistency of the	
trains	Rail Service
Government needs to cover the shortfall amd not rely on the people to pay the price. Also fare evasion	
needs to stop. New gates have people on my pushing through. Hate hate hate it	Fare Evasion/Safety/Crime
Negative Quality of life impact caused by amount of financial savings should be major consideration.	
Effects of cuts to bus and rail on MetroAccess routes and hours have negative qol effects for health	
care, food and work as well as volunteer activities which may yield minimal fiscal savings for wmata.	
Please minimize negative impacts on QOL through MetroAccess cuts to gain some fiscal savings.	
riease minimize negative impacts on QOL through MetroAccess cuts to gain some riscal savings.	Operating Budget, Management and Spending

The cost of living is already astronomical, and we depend on these bus routes on a day to day basis to get to work and to get around the city. I take the 42/34 during the week to get to my job at the State Department, and I as well as many other State Department employees would be severely affected if the bus were to have a curtailed route. With this proposed plan, there seem to be very few buses terminating at Foggy Bottom/ Potomac Park. Thousands of federal employees work in this area and the walk from the proposed Farragut is 20 min. As a U street resident, it takes me longer to take Metro bus than to walk to work most days because of previous bus route reductions. Would hate to see more without new routes ending in Foggy Bottom. The station lighting is too dim and makes it difficult for patrons to stay visible of potential harmful activity Keep fairs low, and metro open till 5:00 am. The metro rail system and metro buses are part of my everyday life. When I returned to work after the pandemic, I had to wait 12+ minutes for the red line, now almost two years later it?s much better and	Operating Budget, Management and Spending Bus Service Bus Service Bus Service Rail Service Rail Service
Service cuts should first occur in the DC suburbs with Virginia bearing the heaviest burden due to poor investment in the budget shortfall. First, the Potomac Yards station should be closed. Second, Close all new Silver Line Extension stops except for Dulles' stop. Cuts to inner city/DC proper stations should be last resort. Kids in Chevy Chase DC NEED the M4 (which is packed!) to get to deal middle and jackson reed high school. Thank you for the opportunity to comment on the proposed cuts. I am strongly against the current plar of cutting back on services that so many of us depend on to make DC a livable city. Let?s please not try to reduce service and extend wait times in order to meet budget. This is not the	
solution. In this scenario, riders would just use alternative methods of transportation rather than wait	
for the metro/have delayed service. What needs to happen is a new marketing/awareness campaign	
and extend accessibility so people are more incentivized to take the metro.	Operating Budget, Management and Spending
I do not drive and rely on Metrorail to get almost everywhere. My children rely on Metro for	
transportation to and from school. Service cuts will affect us badly. Service is still not where it was prior	
to the issues with the 7000 series trains and having out commutes increase again is not sitting well. An even less functional/useful transit system would make the DC area a far less appealing place to live and	
work. I hope local governments rise to the occasion because these cuts really affect the people who	
rely on public transportation.	Bus Service
Increasing service time to earlier in the morning on weekends and later at night at weekends would	
measurably and remarkably improve my life and ability to live in DC.	Service Levels
If the proposed changes occur, I will have to move and get a new job. It is unreasonable to change the	
metro system when so many people rely on it to get around. One of the stations that would be closed	
is the station I use to get to work. My main mode of transportation is the current metro system. I	
cannot live and work in DC if these proposed changes occur.	Rail Service
Please don?t cut service after 10 PM on metro as it would hugely affect the arts and entertainment	
industry, which is the main reason I use metro. Almost all shows start around 7:30-8 and get out after	
10.	Rail Service
Increasing fares while reducing service isn?t the way to go. So many in the city rely on public transit to	
get to work. The side effect will increase car traffic, which is already too high for a city of this design	
and size. Make park and rides safer, clean the metro stations, fix the bus stops (they are usually covered	
in garbage) and give a monthly pass discount. Police should be stopping actual crimes at metro stations	
and bus stops. Fare jumping shouldn?t be a focus. They aren?t going to pay anyway. It?s a waste of	
resources. Focus on increasing paid ridership instead of wasting money on those who don't pay. Stop	
buying those gates. That money could pay for stations to be cleaned more often, fixing elevators for	
accessibility, and general maintenance.	Bus Service
Given that there are 3 separate state-level entities that are funding WMATA, service cuts should effect the jurisdictions that contribute the least to the budget. If DC funds it's share entirely, it shouldn't face	
the jurisdictions that contribute the least to the budget. If DC funds it's share entirely, it shouldn't face any service cuts.	Operating Budget, Management and Spending
Please do not cut service of buses throughout the DMV. Many people rely on these to get to and from	ioperating budget, Management and openung
work, appointments, childcare, family, etc. and cutting these lines will only drastically make things	
more difficult.	Bus Service
Frequency of service is imperative, and budget issues should be resolved by enforcing existing fares,	
disciplining evaders, and raising fares if necessary.	Operating Budget, Management and Spending
I know customers appreciate the timeliness and frequency that the metro rail and busses run, but it is	
crucial that the fares remain the same.	Bus Service
Why would we pay more for worse service? The worst idea by far would be cutting rush hour service to	
trains every 15 mins. Would be faster to walk	Rail Service
Please take into consideration how students get to schools in DC. There already seem to not be enough	
buses for kids to commute to/from school at dismissal. Perhaps just run more buses on those lines	
during school dismissal times, and then not run those routes during other parts of the day? Thanks!	Bus Service
The last question assumes those are the only two options. Do neither of those things and manage your	
better	Miscellaneous
Please do not cut service times on metro rail. having a car is not economically feasible for me or my	
immediate friends. Parking is too expensive in the city, and having a car makes no financial sense. I rely	
on Metro rail as my exclusive form of transportation. I could not get to work at a reasonable hour, if	
the red line or green line or yellow line service is not prompt. I repeat, please do not make any changes	
to metro rail service. I would much prefer to pay a slightly higher fare than weight 15 to 20 minutes for	
the next train.	Operating Budget, Management and Spending

Don?t cut service!!!!! Eliminate austerity thinking in your budgeting and retain current levels of service or increase service levels by increasing taxes on the wealthiest DMV residents and/or trimming the fat at the top of your organization Please don't cut services, both Metro Rail & Metro Bus. I don't have a car. Ride-sharing is expensive. I prefer Metro. Please increase Metro Transit Police pay to have improved safety and security through out the WMATA System. Thanks! Keep the frequency and number of routes and increase fares before cutting frequency. DC, MD, and VA need to provide more funding to metro. Please do something about the frequent signal problems & stalled trains that hold up train service. Fund it through taxes instead of fares. Fares are just a tax on the mostly poor who use public transit Please keep service and open later on the weekends. It's worth it to increase fares a little! Any cut to service will severely impact metro rail people can not rely on a train that comes less than every 8 minutes or a bus 15 Not telling you anything you don't already know, but it's such an impossible budgetary challenge! Taxpayers from throughout the DMV should be contributing more to WMATA operations. Fares going higher, or service cuts for that matter, do nothing but incentivize driving. Unless we want the entire area to continue its ascent on the list of worst traffic cities in the US, there is more support needed from VA, MD and DC taxpayers. It wouldn't take much in the way of fare increases to get me back in the car. Thanks for soliciting comments from the public. extensive, efficient, and low cost public transport is extremely critical including for virginia, whether the know it or not. The metro is an essential public service for all DMV citizens. It is the	Rail Service Operating Budget, Management and Spending Bus Service Bus Service Rail Service Fares/Fees/Parking Bus Service Operating Budget, Management and Spending Fares/Fees/Parking Bus Service Operating Budget, Management and Spending Fares/Fees/Parking Bus Service Operating Budget, Management and Spending Fares/Fees/Parking
their residents use. Overall 1 like the metro system. My main concern is the accessibility for people who do not drive or use wheelchairs. often times, elevators are closed off completely meaning those in wheel chairs can't get down to the tracks.
