**Silver Line Phase II Update**

# Silver Line Phase 2 Update

Safety & Operations Committee  
July 15, 2021

# Three Critical Milestones

- SC is contractual milestone between Airports Authority and the contractor
- Operational Readiness Testing has no defined duration, all condition based. Airports Authority retains control and custody
- WMATA declares ORD when all testing is successfully completed, and work deemed sufficiently complete to proceed to pre-revenue activities
- Pre-Revenue Activities duration is “no longer than 90 days” per the Cooperative Agreement
