Revenue (in Millions)

Revenue and Ridership Highlights

Year-to-date Revenue

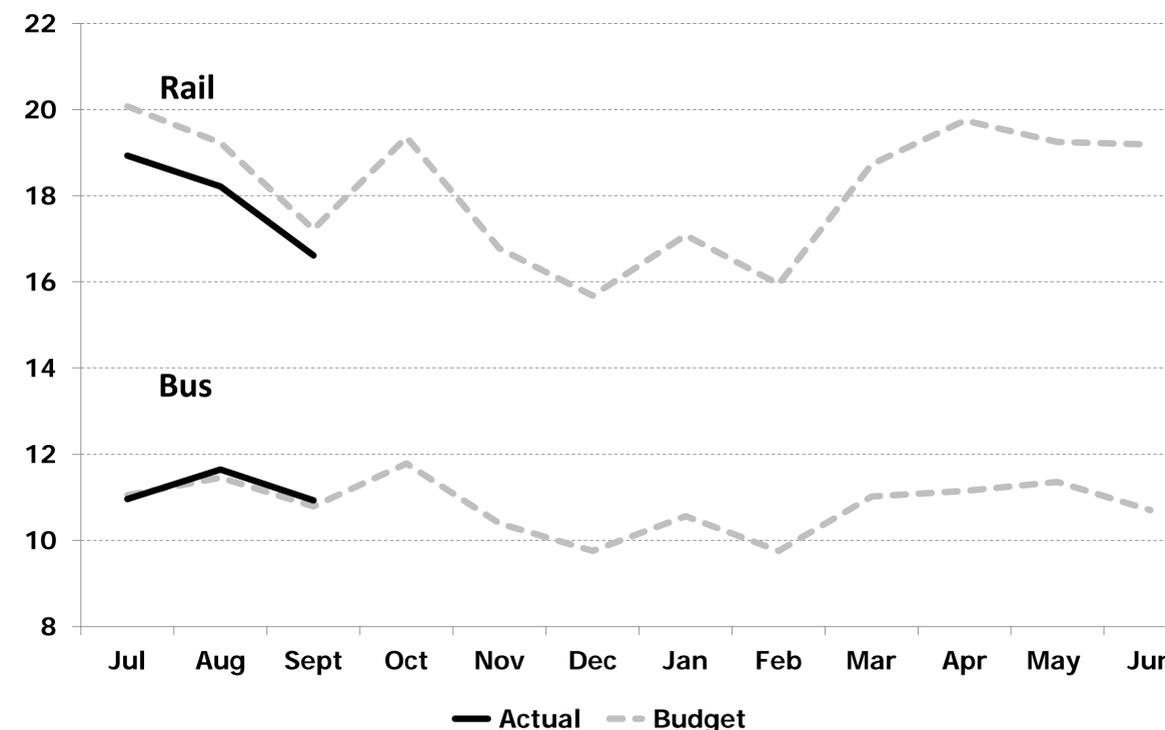

Total operating revenue is (\$5.0M) below budget, or -2.2%. Passenger fares plus parking is (\$4.9M) below budget, while non-transit revenue is (\$0.1M) below budget.

- **Rail passenger revenue** is (\$4.1M) below budget YTD as a result of lower rail ridership; average fare YTD is \$2.90, which reflects the impact of the FY13 fare increase and is above the budgeted average fare of \$2.83.
- **Bus passenger revenue** is (\$0.3M) below budget YTD as a result of a slightly lower average fare; average fare YTD is \$1.06, below the budgeted average fare of \$1.08.
- **MetroAccess revenue** is at budget YTD; although ridership is below budget, actual average fare is higher at \$3.88 versus \$3.50 budget.
- **Parking revenue** is below budget YTD by (\$0.1M) or -1.8%.
- **Other revenue** is (\$0.1M) below budget, with positive variances in advertising revenue slightly outweighed by negative variances in parking and joint development revenues.

Year-to-date Ridership

- **Rail ridership** YTD is (2.8M) below budget YTD, or -4.9%; rail ridership YTD is also down (2.1M) compared to the same period in FY12.
- **Bus ridership** is 0.2M favorable to budget YTD, or +0.7%; bus ridership YTD is also up 0.1M compared to the same period in FY12.
- **MetroAccess ridership** is -10.6% below budget YTD; Access ridership YTD is also down -2.3% compared to the same period in FY12.

OPERATING BUDGET

Through the end of September, total expense less revenue was \$160 million, which was under budget by \$5.8 million, or three percent. Expenditures year-to-date (YTD) were \$377 million, \$10.7 million below budget; while revenues totaled \$217 million, \$5 million less than anticipated. The bulk of the revenue reduction is due to Metrorail, which is below budget by \$4.1 million YTD.

Total expenditures were \$10.7 million or three percent under budget YTD. Through the end of the first quarter, overtime budgets have a negative variance of \$9.2 million (62 percent) due to vacancy coverage, operating support of major maintenance activities and special events. This overrun is offset by under runs in salaries, wages and associated fringes totaling \$10.5 million. Services, propulsion/diesel, and utilities are favorable year-to-date mainly due to favorable rates and lower Paratransit contract costs.

Table 1

(\$ Millions)	Q1-FY12	Q1-FY2013		Budget	
	Actual	Actual	Budget	Variance	
	Quarterly Budget Variance			Variance	
Revenue	\$206.2	\$217.0	\$222.0	(\$5.0)	-2%

Ridership

Table 2

Year-to-Date Total Ridership (in thousands)

YTD	FY2012	FY2013		Variance	
	Actual	Actual	Budget	Prior Year	Budget
Metrorail	55,901	53,756	56,516	-3.8%	-4.9%
Metrobus	33,387	33,527	33,287	0.4%	0.7%
MetroAccess	516	504	564	-2.3%	-10.6%
System Total	89,804	87,788	90,367	-2.2%	-2.9%

Metrorail

Through September, Metrorail ridership is 4.9 percent lower than forecasted and 3.8 percent lower than the same period last year, with a total of 2.2 million fewer trips. FY2013 Q1 had one more Sunday and one fewer weekday than the same period in FY2012, which accounts for approximately 500,000 of the lost trips. The comparable quarter-to-quarter ridership drop is 1.7 million, or -3.0 percent. Average weekday ridership is down 2.5 percent, while Saturdays are down 6.4 percent and Sundays are down 5.7 percent.

The two primary reasons for the reduction in rail ridership appear to be (a) the January 2012 changes to the federal transit benefit program and (b) the July 2012 fare increase. The changes to the benefit program included a reduction in the monthly transit benefit cap from \$230 to \$125 (while the federal parking benefit cap was increased to \$240), as well as the elimination of "rollover" of unused benefits at month-end for federal employees. Given the Authority's reliance on riders who receive transit benefits (the latest rail passenger survey indicates that two-thirds of rail passengers in the AM peak receive a transit benefit), these changes taken together have had a substantial negative impact on rail ridership. These impacts are described in greater detail below.

The table below presents FY2013 Q1 average weekday ridership compared to the same period in FY2012 across three key dimensions: time period, line, and jurisdiction.

Table 3

AM peak	-2.2 percent
Midday	-4.1 percent
PM peak	-2.0 percent
Evening	-2.0 percent
Late night peak	-8.9 percent
Green Line	-0.5 percent
Red Line	-2.2 percent
Orange Line	-3.3 percent
Yellow Line	-3.3 percent
Blue Line	-4.1 percent
District of Columbia	-1.8 percent
Maryland	-2.6 percent
Virginia	-4.0 percent

Other dimensions were also investigated but did not reveal any substantive variation. For example, average trip lengths in the AM peak and mid-day are essentially unchanged compared to the same quarter last year.

As table 3 indicates, ridership dropped across all dimensions, but the variance across lines and time periods gives an indication of the potential causes. Weather and the overall economy were very similar between the two periods and do not appear to be a cause. Instead, the drop appears to be due to a combination of factors:

- The primary factor, as noted above, is the July 2012 fare increase and the January 2012 changes to the federal transit subsidy. More substantial ridership losses occurred in the midday and weekend periods, and the July fare increase was proportionally greater for these off-peak trips. Off-peak trips are generally more discretionary and show greater sensitivity to fare increases. In addition, the federal transit benefit cap was reduced from \$230 to \$125 in January 2012, and federal employees now cannot “roll over” unused monthly subsidy into subsequent months. Taken together, these changes appear to be causing an overall increase in the sensitivity of rider response to fare increases. Moreover, at the higher benefit level, some riders with shorter commutes may have consistently had additional subsidy available to take non-commute or discretionary trips at no incremental cost. At the lower benefit level, and with higher per-trip costs after the fare increase, the commute trips now consume the entire benefit. Those non-commute trips now must be paid for with non-subsidized funds, and some of these trips are not being taken.
- Major weekend closures for trackwork (as distinct from single-tracking) were higher, which can discourage ridership on the affected line(s) by up to 25 percent compared to normal levels.
- Reduced weekday ridership (greater than the overall system average) at

Washington Metropolitan Area Transit Authority Quarterly Financial Report -- Q1 - FY2013

stations on the Blue Line from the Pentagon south to Franconia-Springfield potentially indicates a small negative impact from the Rush+ service change implemented in June.

- Reduced weekday ridership (equal to approximately 100,000 for the quarter) at the Crystal City station indicates the potential negative impact from the shift of many Department of Defense employees and contractors to the Mark Center that started in September 2011.
- Information on teleworking for the specific months under consideration is not available, and teleworking by private sector firms is difficult to assess. However, the Office of Personal Management (OPM) provides regular analysis on the status of teleworking by federal employees. In calendar year 2009, approximately 5.7% of the Federal workforce teleworked. By September 2011 (the most recent date available), that figure had increased to 7.8%, and increase of 37 percent. While it is difficult to quantify, growth in teleworking is likely to continue and may be contributing to the overall reduction in ridership.

Metrobus

Metrobus ridership in the quarter was 33.5 million trips. Ridership year-to-date is 0.7 percent higher than budget and 0.4 percent above the same period last year. After experiencing significant growth in FY2012, bus ridership growth is moderating and is in line with Metro's forecast. The reasons for the continued growth in bus ridership include:

- Lower fares than on rail
- Service adjustments that are meeting the needs of riders
- An attractive, modernized fleet with new paint scheme and technologies
- Improvements in bus reliability (on-time performance)
- Availability of advance information on bus arrivals (Nextbus)

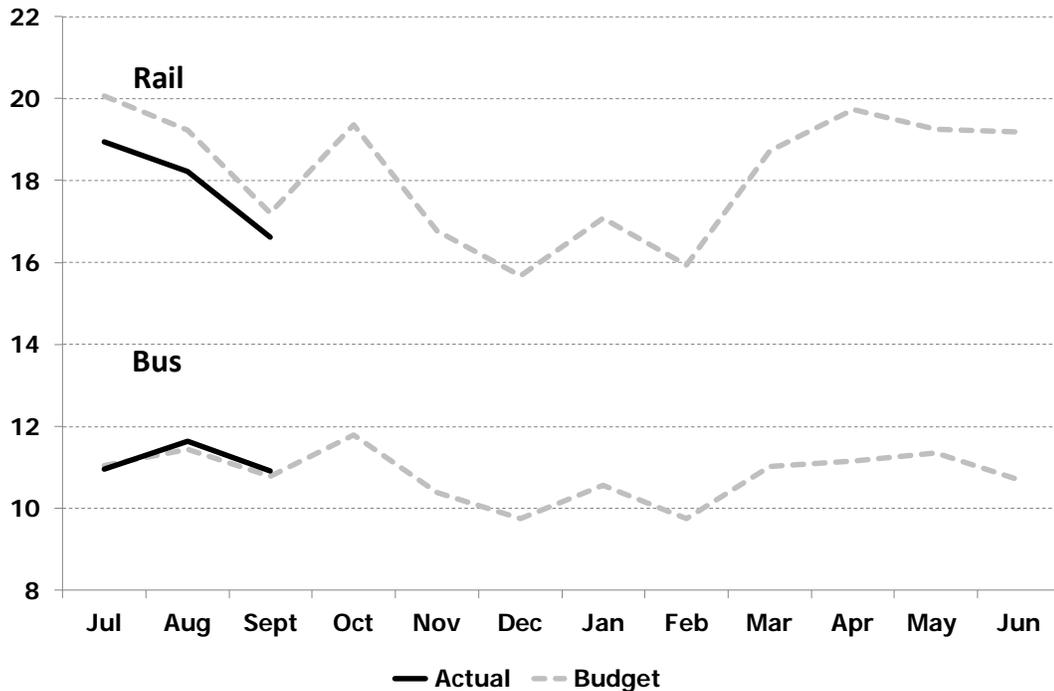

MetroAccess

MetroAccess ridership was 504,000 in the quarter. MetroAccess transported 12,000 fewer passengers year-to-date as compared to the same period in FY2012. This represents a more than two percent reduction from last year and is 10 percent lower than forecasted. The ridership reduction is attributed to successful demand management efforts (eligibility screening and travel training).

Table 4

Monthly Ridership for Rail and Bus (millions)

Operating Revenue and Average Fares

Year-to-date operating revenues of \$217 million were 2.2 percent or \$5.0 million below budget. The decline in ridership is being partially offset by higher than budgeted average fares. For the quarter, Metrorail revenues are \$4.1 million lower than forecast; Metrobus revenues are \$0.3 million lower than forecast; and MetroAccess revenues are at forecast. Parking revenues are also \$0.5 million lower than forecast. All other revenue sources are \$0.1 million below budget, with a positive variance for advertising revenue being slightly outweighed by a negative variance in joint development.

The FY2013 budget (as summarized in Table 3.4 of the budget book) assumed that the fare increase would cause a loss of 2.2 million annual rail riders (compared to FY2012), but would result in a net gain of \$47 million in rail fare revenue. The budget also assumed additional “organic” rail ridership growth of 2.2 million riders that would counterbalance the rail ridership loss from the fare increase and bring in an additional \$10 million in fare revenue. Thus the total rail fare revenue increase over FY2012 was projected at \$57 million, or approximately \$14 million per quarter. So far, through the first quarter, the reduction in ridership has resulted in a revenue increase over FY2012 of only \$10 million.

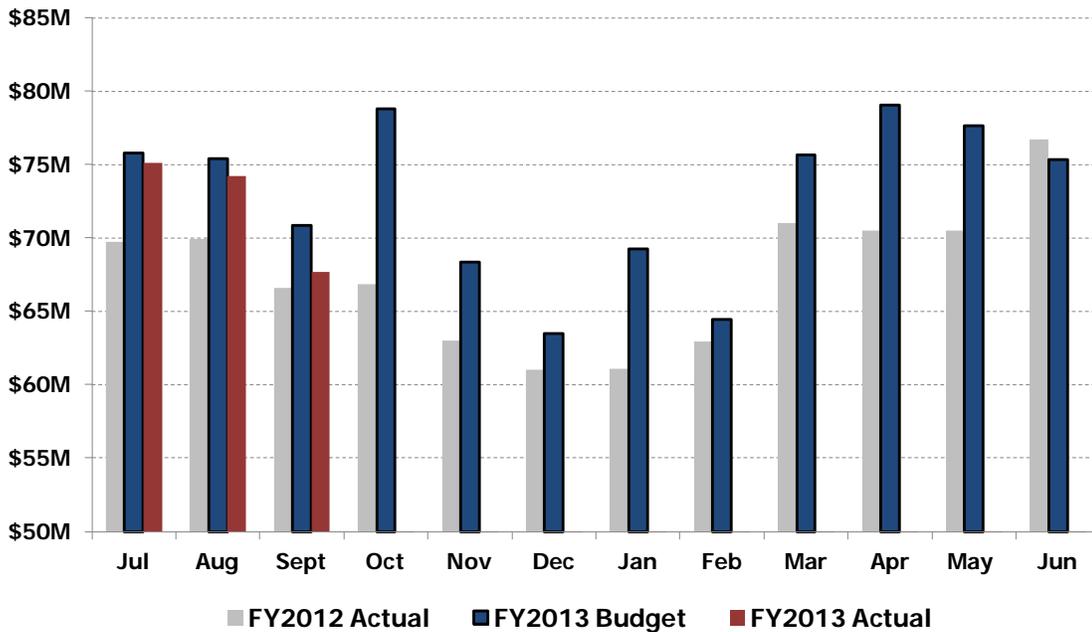

**Washington Metropolitan Area Transit Authority
Quarterly Financial Report -- Q1 - FY2013**

Average fares by mode have varied from their budgeted projections as follows:

- Metrorail YTD average fare is \$2.90, an increase of \$0.03 (+1.0 percent) over the FY2013 budget annual value of \$2.87.
- Metrobus YTD average fare is \$1.06, a reduction of \$0.01 (-1.0 percent) compared to the FY2013 budget annual value of \$1.07.
- Metro Access YTD average fare is \$3.88, an increase of \$0.38 (+10.8 percent) over the FY2013 annual budget value of \$3.50. Metro Access fares, which are indexed to the fixed-route fares, have increased as a result of the FY2013 fare increase. However, the Access group was conservative in representing the impact of this fare increase in their FY2013 budgeting. It should also be noted that MetroAccess provides free rides, as of a result of operating policy, to some of its passengers, and those passengers bring down the overall average fare. For those passengers who do pay a fare, MetroAccess estimates that the average fare paid is \$5.01.

Table 5

Monthly Operating Revenues (millions)

Operating Expenses

Metro was \$10.7 million, or 3.0 percent, below budget in expenditure through the end of the first quarter, as shown in table 1.

Labor

Total personnel expenses were under budget by \$1.3 million through the end of the first quarter. Overtime was over budget by \$9.2 million mainly in the departments of Transit Infrastructure and Engineering Services (TIES), Rail Transportation (Rail) and Bus Services (BUS). The primary contributor to overtime has been the large number of vacancies which has resulted in the need for rail operator and TIES employee overtime to complete necessary overhaul maintenance and repairs on the 2K to 5K series cars. Salary and wage expenses were under budget by \$8.4 million primarily due to vacancies in Rail, DGMO, MTPD, and IT. Fringe benefits were \$2.1 million under budget year-to-date due to lower than projected pension costs of \$3.4M, mostly on the Transit Employees Retirement Plan, which were partially offset by higher than projected health care costs for salaried employees under the Cigna Health Plan of (\$1.2M).

Non-Labor

Year-to-date non-personnel expenses were under budget by \$9.5 million. Services were under budget by \$10.6 million mainly due to lower than projected utilization of paratransit services and delays in initiating service contracts. The MetroAccess service contract was \$3.0 million favorable to budget through the first quarter. Fuel & Propulsion and Utilities were under budget by \$2.6 million mainly due to lower than budgeted propulsion and utility rates. Part of this favorable performance was offset by Materials and Supplies, which was over budget by \$2.9 million due to utilization of CMNT parts for on-going rehabilitation and maintenance projects (\$1.6M) and a lag in Bus parts capitalization (\$0.8M).

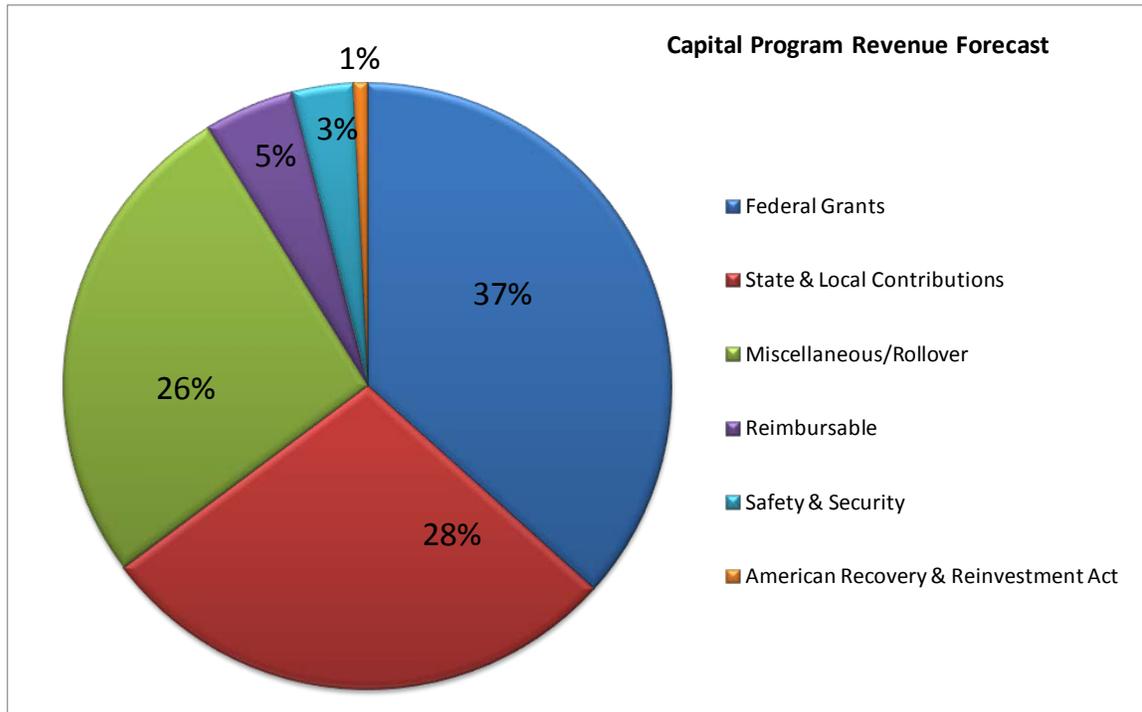

CAPITAL PROGRAM

Sources of Funds

Budgeted sources of funds total for FY2013 is \$1,177 million. As of September 30, 2012, the amount awarded to Metro, including federal grants, totals \$398 million. Revenue received year-to-date is \$290 million, and represents available cash on hand. Total miscellaneous revenue consists of \$311 million from Metro Matters and Capital Improvement Program rollover, land sales, West Falls Church insurance settlement, and other Jurisdictional proceeds.

Capital Revenues (dollars in millions)	FY2013 Year to Date

Capital Project Highlights

Vehicle/Vehicle Parts

Metro currently has a fleet of approximately 1,500 buses, each with a targeted 15-year useful life. In order to insure a modern operating fleet that operates within its useful life, Metro combines an aggressive and effective maintenance program and a bus replacement program that seeks to replace approximately 100 buses each year. As of September 30, 2012, the remaining 20 thirty-foot Bus Rapid Transit (BRT) buses from the 51 planned for FY2012 are now in service. Additionally, 16 of the 96 forty-foot Hybrid/Electric buses programmed in FY2013 have been received.

MetroAccess currently has a fleet of approximately 600 paratransit vehicles. Metro strives to maintain an average MetroAccess fleet age of four years, which requires the replacement of approximately 150 vehicles per year. The procurement of 138 vehicles is scheduled for this fiscal year; Ford E-350 based Braun Para Transit Vans. As of September 30, 2012, all specifications have been written and a contract has been awarded.

Washington Metropolitan Area Transit Authority
Quarterly Financial Report -- Q1 - FY2013

Vehicles	Planned	Received	In Service	Comments
FY2012 30-foot BRT Buses	51	51	51	Remaining 20 buses from FY2012 Plan are now in service
FY2013 40-foot BRT Buses	96	16	0	16 buses have been received
FY2013 MetroAccess Procurement	138	0	0	Initial deliveries expected in February 2013
Total Vehicle Procurement	285	67	51	

Passenger Facilities

Metro currently has 277 elevators and 589 escalators in its system, each with a 25-30 year useful lifespan. In order to rehabilitate the oldest and poorest performing elevators and escalators, Metro has an aggressive maintenance program that includes the rehabilitation and modernization of 25 elevators and 51 escalators as well as the replacement of three escalators for FY2013. This will include code and safety upgrades and energy saving devices. As of September 30, 2012, four of the planned 25 elevators rehabilitations are in progress. Of the planned 54 escalators rehabs, 11 are in progress and 11 have been rehabilitated, modernized, and returned to service with the exception of L'Enfant Plaza. This escalator will return to service after the Department of Consumer and Regulatory Affairs' barricade ruling.

Project	Planned	In Progress	Completed	Comments
CIP0072 – Elevator Rehabilitation	25	4	0	
CIP0073 – Escalator Rehabilitation	54	11	11	10 of 11 completed are returned to service... L'Enfant Plaza return to service pending ruling

Metro currently has 86 stations in Virginia, Maryland, and the District of Columbia. Contract Maintenance Station Rehabilitation has an aggressive rehabilitation program that rehabilitates 24 stations each year on a rotating schedule performing 12 minor (mini) rehabilitations and 12 major (full) rehabilitations each year. The present enhancement cycle is 3.75 years per a station which restores the appearance to its original character.

Mini enhancements include cleaning masonry surfaces of station entrances, canopies, passageways, parapet walls, granite edges, track beds, ceiling tile, third rail cover boards and station tiles, spot repair of paver tiles, tile beds, flexible expansion joint and escalator landing plates, repairing metal components (station doors, hand railing and drainage grates), painting of interior surfaces of entrance gates, wind screens, kiosks, fare gates, phone booths, sign and map cases, platform

Quarterly Financial Report -- Q1 - FY2013**

shelters, ceiling tile, doors, parking lot light poles, bus shelters, sign post, bollards, and curbing, spot refinishing of bronze surfaces to include hand railings, elevator housings, and escalators, and station graphics to doors, pylons, kiosks, track beds, parking lots, and elevator /escalator signs. This work preserves the station infrastructure and contributes to the extension of asset life.

Full enhancements include all of the mini enhancements listed plus the addition of pressure washing the station coffered ceilings/liner and painting interior surfaces of ancillary rooms throughout the station to preserve and maintain these assets.

The FY2013 station rehabilitation plan includes 12 mini stations and 12 full stations. As of September 30, 2012, three full stations were completed and four mini stations and two full stations are in progress.

Track and Structures Maintenance

Red Line

- Installation of new fiber optic cable for wireless communications, track maintenance, and third rail upgrades between Dupont Circle and NoMa-Gallaudet U
- Rail and fastener maintenance between Van Ness and Friendship Heights
- Rail renewal, fastener replacement, grout pad rehabilitation, and leak mitigation between Grosvenor and Friendship Heights
- Platform rehabilitation/reconstruction, tie and fastener renewal, structural repairs, and bridge work between NoMa-Gallaudet U and Fort Totten

Blue and Orange Lines

- Platform reconstruction work between Stadium-Armory and Cheverly (Orange)
- Repairs to floating concrete slabs beneath the rails between Stadium-Armory and Morgan Boulevard (Blue)
- Testing associated with Silver Line Extension between Vienna and East Falls Church and between East Falls Church and West Falls Church (Orange)
- Insulator renewal and track maintenance between Vienna and West Falls Church (Orange)
- Tie and insulator renewal between East Falls Church and Ballston (Orange)

Green and Yellow Lines

- Structural repairs, grout pad rehabilitation, and drain cleaning between Huntington and Braddock Road (Yellow)
- Tie replacements and track improvements at Greenbelt (Green)

Washington Metropolitan Area Transit Authority
Quarterly Financial Report -- Q1 - FY2013

- Fiber optic cable installation for cell communication between Southern Avenue and Branch Avenue (Green)

Project	FY2013 Plan	Completed
CIP0018 – Track Welding Program	1,000 open weld joints	Welded 187 open weld joints
CIP0019 – Track Floating Slab Rehabilitation	500 In ft of floating slabs	Retrofitted 65 In ft of floating slabs and prepped 23
CIP0020 – Rail Track Signage Replacement	1,500 "High Voltage" roadway safety signs	Replaced 26 "High Voltage" roadway safety signs
CIP0021 – Track Pad/Shock Absorber Rehabilitation	8,000 In ft of grout pads	Rehabilitated 4,802 In ft of grout pads
CIP0024 –Track Rehabilitation	40 miles of track 15,000 cross ties 20,000 fasteners 7,000 insulators 12.5 miles of running rail 14 Mainline turnouts	Tamped 8.92 miles of track Replaced 5,651 cross ties Replaced 9,191 fasteners Replaced 2,796 insulators Replaced 2.53 miles of running rail Replaced 0 turnouts
CIP0026 – Station Tunnel Leak Mitigation	2,150 leaks	Repaired 387 leaks
CIP0089 – Track Fasteners	7,000 direct fixation fasteners	Replaced 1,021 direct fixation fasteners
CIP0146 – Switch Replacement	32 yard switches	Replaced 4 yard switches

OUTSTANDING DEBT

Metro's outstanding debt as of September 30, 2012 is \$305.4 million, as shown in the table below.

The Series 2003 bonds were issued to fund the Rail Construction program and are being repaid by semi-annual debt service payments from the jurisdictions. This annual debt service expense is reported as part of the operating budget and is always included on subsidy allocation tables.

The Series 2009A and 2009B bonds were issued to (i) pay off a portion of the \$314.5 million in outstanding principal and interest due for Commercial Paper, and (ii) finance the capital cost components of the Metro Matters Program. The annual debt service expense will be paid by the jurisdictions that opted into the bond issuance. The \$21.2 million annual debt service expense is reported as part of the capital budget and will be included on the subsidy allocation tables.

The Commercial Paper Program was retired during June 2009 with proceeds of the Series 2009A bond issuance and a portion of the jurisdiction opt-out receipts. There are three lines of credit available to fund operating and capital cash flow needs. As of July 2012 availability on the lines of credit was reduced from \$200 million to \$150 million. Wachovia's and Bank of America's lines of credit were each reduced from \$85 million to \$63.75 million and U.S. Bank was reduced from \$30 million to \$22.5 million.

September 30, 2012			
Debt Type (dollars in millions)	Outstanding Principal	Annual Debt Service	Maturity Date

***NOTE: Included in these expenditures are those that were originally scheduled to occur in FY2012 but were not executed by the end of the fiscal year. The total budget authority for FY2013, defined as the \$801.6 million Board approved budget and the \$271.7 million unexpended at the end of FY2012 is \$1.073 billion.**

Definitions

Budget: The current fiscal year's total planned cash payout.

Obligated: The portion of the current fiscal year's budget for payment against awarded contracts, plus the respective labor cost.

Expended: The actual cash payout that has occurred to date in the current fiscal year.

Unexpended: The difference between the planned cash payout and the actual cash payout that has occurred to date in the current fiscal year.

Washington Metropolitan Area Transit Authority (Metro)
CFO - OMBS - Grants Management

Grant Activity for the Quarter Ending September 30, 2012

<u>Grant Program</u>		<u>Activity</u>
ARRA	FTA Formula Grants for Capital Transit Assistance and Fixed Guideway Infrastructure Improvement	<p>\$201.8 million awarded, which includes \$11.1 million for Preventive Maintenance (PM). Twenty-one projects have been completed with a total value of \$121.3 million.</p> <p>To meet heightened reporting requirements:</p> <ul style="list-style-type: none"> Submitted required 1512 reporting of jobs and project progress that is viewable by the public at www.recovery.gov.
	Department of Homeland Security Transit Security Grant	Anti-Terrorism Teams conducted targeted train and bus inspections, critical infrastructure inspections, area saturation patrols, and security inspection points.
FTA	Annual Formula Grants for Sections 5309 and 5307	<p>Metro FY2012</p> <ul style="list-style-type: none"> FFY2011 Section 5307 grant for \$128.6 million was awarded; FTA has disbursed \$98.0 million in reimbursements to Metro. FFY2011 Section 5309 grant for \$93.2 million was awarded; FTA has disbursed \$58.6 million in reimbursements to Metro. <p>Metro FY2013</p> <ul style="list-style-type: none"> FFY2012 Section 5307 grant application for \$140.7 million is awaiting FTA's review for submission. FFY2012 Section 5309 grant application for \$97.3 million is awaiting FTA's review for submission.
	Passenger Rail Investment and Improvement Act (PRIIA)	<ul style="list-style-type: none"> FTA awarded the FFY2011 PRIIA grant for the full appropriated amount of \$149.7 million, from which \$72.7 million was drawn to reimburse Metro for CIP expenses. FFY2012 PRIIA grant application for the full appropriated amount of \$150.0 million is awaiting FTA's review for submission.
	Congestion Mitigation & Air Quality (CMAQ)	<ul style="list-style-type: none"> \$4.9 million in CMAQ Funding was allocated by the Virginia Department of Rail and Public Transportation for the purchase of replacement buses.
	Federal Earmarks	<ul style="list-style-type: none"> FFY2010 Largo Extension Appropriation - The grant is expected to close in 2013 when right of way claims have been resolved. 96 percent of the project activities have been completed.
	Competitive Programs	<ul style="list-style-type: none"> FFY2012 Section 5309 Bus Livability - Metro won \$1.5 of \$12.8 million sought for bus stop accessibility improvements. FFY2012 Section 5309 State of Good Repair - Metro was not selected for \$12.4 million as sought for improvements to bus garages. FFY2012 Section 5309 Clean Fuels - Metro was not selected for \$8.1 million as sought for rehabilitating CNG fueling equipment at the Bladensburg Bus Facility. FFY2012 Section 5322 Innovative Transit Workforce Development Program - Metro was not selected for \$0.9 million as sought for partnerships to expand transit-focused training for non-traditional students, military veterans, and under-represented adults in the labor pool.
Safety & Security	Transit Security Grant Program (TSGP)	<ul style="list-style-type: none"> FFY2007 – Closeout was completed within the allowable period of performance. FFY2008 – Full draft of risk assessment was completed and edits are being made. Proposals for CCTV on railcars have been reviewed and vendor selected. Cameras on buses is being completed. FFY2009 – K9 teams are in service. FFY2010 – Physical security 100% design was completed. FFY2011 – K9 vehicles were ordered and are awaiting delivery, procurement of additional equipment began. Special Event overtime began. FFY2012 – \$7.8 million Board Approval was sought to allow projects to begin.
