SOLICITATION INSTRUCTIONS

INVITATION FOR BID
SOLICITATION INSTRUCTIONS

1. INTRODUCTION

- a. The Authority seeks to award a Contract for the purchase of 200 Ruggedized Mobile Tablet Computers with two years of support and maintenance and 20 each Lithium Batteries. The accepted model is the Panasonic FZ-B2B004AAM or an pre - approved equivalent. To that end, the Authority is issuing this Invitation For Bid ("IFB") to solicit bids from qualified firms and individuals who can satisfy the requirements of the accompanying contract documents.
- b. As this is a low bid solicitation, award of a Contract hereunder shall be to the lowest priced, responsible bidder whose bid is responsive to, and meets all requirements of the solicitation.
- c. The Authority contemplates award of a firm fixed price Contract.

2. GOODS TO BE FURNISHED/SERVICES TO BE PERFORMED

Bidders are advised that:

- a. If "services" are to be performed pursuant to this solicitation, they must be provided in all respects as specified in the accompanying Contract documents and include the services to be furnished, together with any labor, material or other work necessary for satisfactory performance.
- b. If "supplies" are to be provided pursuant to this solicitation, they must be in all respects as specified in the Contract documents and include the items to be furnished, together with any labor, service or other work necessary for satisfactory performance.
- c. Unless otherwise specified, all goods and materials furnished to the Authority must be new and unused.

3. COMMUNICATIONS WITH THE AUTHORITY

Prospective bidders are advised that any and all communications with WMATA relating to this solicitation and made by, or on behalf of, a prospective bidder at any time between release of this Invitation for Bids and award of a contract hereunder must be directed to the Contract Administrator as follows:

Sherry A. Caison, Contract Administrator
scaison@wmata.com
202-962-1344

A violation of this provision, deemed willful by the Authority, may result in a determination that a bidder is not responsible, and thus ineligible for award, for purposes of this solicitation.

4. EXPLANATIONS TO BIDDERS

- a. Any explanation or clarification desired by a bidder regarding the meaning or interpretation of this Invitation for bid, general or special conditions, specifications, drawings, and/or other documents relating to this solicitation must be requested in writing and with sufficient time allowed for a reply to reach all bidders before the time set for the opening of bids. Absent extraordinary circumstances, all such inquiries should be transmitted in a time frame such as to ensure their receipt by the Contracting Officer at least ten (10) days prior to the date specified for the opening of bids.
- b. Any information furnished by the Authority to a prospective bidder relating to this solicitation will be provided promptly in writing to all prospective bidders as an amendment to this solicitation pursuant to paragraph six (6) below if, in the judgment of the Authority, the information is necessary to the preparation and/or submittal of bids or lack of such information would be otherwise prejudicial to other prospective bidders.
- c. Oral explanations, representations or instructions of any kind relating to the subject matter of this solicitation given at any time before the award of the Contract by any employee, officer or agent of the Authority will not be binding upon the Authority, nor does the Authority assume responsibility for the accuracy of any such communication.
- d. The failure of a prospective bidder to request an explanation or clarification as provided herein will preclude the bidder from thereafter claiming any ambiguity, inconsistency or error in the solicitation that that should have been discovered by a reasonably prudent bidder.

5. PRE-BID MEETING – N/A

No Pre-Bid meeting will be held for this solicitation.

For the purpose of further clarifying the requirements of this Invitation for Bid, a pre-bid conference will be held to respond to questions by prospective bidders. This pre-bid conference will be held at _____ a.m/p.m. on _____, in the Lobby Level Meeting Room of the WMATA Jackson Graham Building, 600 5th Street, NW, Washington, DC 20001. It is requested that prospective bidders submit their questions in writing whether in advance of, or during, the meeting. Questions from the floor, however, are permissible.

6. AMENDMENTS TO IFB

- a. The Authority reserves the right to revise or amend the terms of this IFB, the proposed Contract's terms and conditions, the scope of work and/or drawings prior to the date set for the opening of bids. Such revisions and amendments, if any, will be announced by amendment(s) to this Invitation for Bid. Written copies of such amendment(s) as may be issued will be made available to all prospective bidders.
- b. If, in the judgment of the Authority, any such amendment(s) would require significant changes in quantities and/or bid price, the date set for the opening of bids may be postponed by such number of days as, in the opinion of the Authority, will enable the submission of revised bids. In such case, the amendment will include an announcement of the new date for the opening of bids.

7. ACKNOWLEDGMENT OF AMENDMENTS

Bidders are required to acknowledge receipt of all amendments to this Invitation for Bids on the amendment acknowledgement form prior to opening of bids. Failure to acknowledge all amendments may cause the bid to be considered not responsive to the solicitation that would require rejection of the bid.

8. PREPARATION OF BIDS

- a. Bids shall be submitted on the price schedule furnished, or copies thereof, and must be manually signed. If erasures or other changes appear on the forms, such erasures or changes must be initialed by the person signing the bid.
- b. Bidders shall furnish all information required by this IFB and, in so doing, are expected to fully examine the IFB and any attachments thereto. Failure to do so will be at the bidder's risk.
- c. Discounts for prompt payment will not be considered in the evaluation of bids. However, any offered discount will be included within the award of the Contract and will be taken by the Authority, if payment is made within the discounted period referenced in the bid.
- d. The Price Schedule may provide for submittal of a price(s) for one (1) or more items that may be unit prices, lump sum bids, alternate prices, or a combination thereof. The Price Schedule expressly requires that the bid include prices for all items. Failure to do so will render the bid nonresponsive.
- e. All bid prices shall be deemed to include the cost of all work, labor and materials required by the Contract documents, including without limitation, delivery charges, insurance, container charges or any other expenses incidental to the work, as well as expenses for compliance with federal, state and local laws or regulatory requirements. All bid prices are deemed to be F.O.B. delivery point.

- f. Unless specifically stated in the price schedule, alternate bids will not be considered.

9. SUBMITTAL OF BIDS

- a. Bids shall be enclosed in sealed envelopes and addressed to the office specified in the solicitation.
- b. The face of the envelope should show the hour and date specified in the solicitation for receipt, the solicitation number, and the name and address of the bidder. A failure to do so may result in a premature opening of, or a failure to open, such bid, for which the Authority shall assume no responsibility.
- c. Facsimile bids will not be considered.
- d. All bids will remain sealed until the date and time specified for the opening of bids.

10. RESPONSIVE BIDS

- a. Bidders are advised that a bid that is at variance or noncompliant with any provision of this solicitation, including a qualified or conditional bid, may be rejected as nonresponsive.
- b. The Authority may reject a bid as nonresponsive if, in the judgment of the Authority, the prices bid are materially unbalanced. A bid is materially unbalanced when it is based on prices that are significantly understated for one (1) or more elements of work and significantly overstated for other element(s) of work.
- c. Notwithstanding anything to the contrary contained herein, the Authority reserves the right to waive minor errors or omissions in a bid and to deem such bid responsive.

11. LATE BIDS AND MODIFICATIONS OR WITHDRAWALS PRIOR TO BID OPENING

- a. Any bid received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award and it:
- (1) Was sent by registered or certified U.S. or Canadian mail not later than the fifth (5th) day before the date specified for receipt of bids (e.g., a bid submitted in response to a solicitation requiring receipt of bids by the 20th of the month must have been mailed by the 15th);
- (2) Was sent by first class mail and it is determined by the Authority that the late receipt was due solely to the Authority's mishandling, after its timely delivery on the Authority's premises;
- (3) Was sent by U.S. Postal Service Express Mail Next Day Service not later than 5:00 p.m. at the place of mailing at least two (2) business days prior

to the date specified for receipt of bids. The term "business days" excludes weekends and U.S. federal holidays; or

- (4) Is the only bid received.
- b. Any modification or withdrawal of a bid is subject to the same conditions as set forth in subparagraphs (a)(1), (2), and (3) above.
- c. The only acceptable evidence to establish the time of Authority's receipt is the time/date stamp of that event on the bid wrapper or other documentary evidence of receipt maintained by the Authority.
- d. Notwithstanding sub-paragraph (a) above, a late modification of any otherwise successful bid that makes its terms more favorable to the Authority will be considered at any time it is received and may be accepted.
- e. Bids may be withdrawn by written notice received by the Authority before the opening of bids. Bids may be withdrawn in person by a bidder, or an authorized representative of the bidder if the representative's identity is established to the satisfaction of the Authority and the representative signs a receipt for the return of the bid, before the opening of bids. The attempted withdrawal of a bid, received subsequent to bid opening and during the acceptance period set forth in paragraph 12, will not be honored and will be without effect.

12. BID ACCEPTANCE PERIOD AND BIDDER'S DEFAULT

- a. The acceptance period for this solicitation is ninety (90) calendar days.
- b. By submission of its bid, the bidder agrees that it shall be irrevocable and shall remain available to WMATA for purposes of awarding a contract pursuant to this Solicitation for not less than the acceptance period. The Bidder's failure or refusal to furnish such Contract documents as may be required in the Solicitation or to otherwise execute a Contract from WMATA in accordance with its bid during the acceptance period shall constitute a bidder's default.
- c. In the event of a bidder's default, the bidder shall be liable to WMATA for all associated damages and costs, including, without limitation, WMATA's "cost to cover." The "cost to cover" is the difference between the bidder's price and the price ultimately paid by WMATA for the work encompassed in this solicitation, whether through award of a contract to another bidder pursuant to this solicitation or otherwise.

13. BID GUARANTEE- N/A

Not required for this solicitation

- a. This solicitation requires submission of a bid guarantee to secure compliance with the bidder's obligation to execute and furnish such documents as may be required in the solicitation and to execute a Contract upon acceptance by the Authority of its bid during the acceptance period.

- b. The bid guarantee shall be in the nature of a bid bond in the form annexed hereto as Appendix _____, or in a postal money order, certified check, cashier's check, or irrevocable letter of credit in a form and from an institution acceptable to the Authority. The bid guarantee shall be provided in an amount equal to five percent (5%) of the total bid.
- c. The bid guarantee, other than a bid bond, shall be returned to unsuccessful bidders as soon as practicable upon the opening of bids. The bid guarantee shall be returned to the successful bidder as soon as practicable upon its furnishing of any documents required by the solicitation and its acceptance of the Contract.

14. BID MISTAKE

- a. A bidder who seeks to withdraw its bid subsequent to bid opening due to a claimed mistake or error in preparation shall notify the Authority in writing immediately upon realizing the mistake and in no event later than three (3) business days following bid opening, setting forth the details of, and explanation for, the claimed mistake. The Authority shall evaluate the claimed mistake and determine whether the bidder will be permitted to withdraw its bid.
- b. In the event of an apparent discrepancy between any unit price and its associated extended price, the unit price will be presumed to be correct. The Authority may award a Contract to an otherwise low bidder based upon the unit price, subject to the additional terms of this article.
- c. A bidder claiming a mistake shall, if so requested by the Contracting Officer, appear before one or more designated representative(s) of the Authority to provide testimony and/or documentation that may include the bidder's computation sheets and calculations, to assist in the Authority's determination.
- d. Nothing contained herein shall be deemed to preclude the Authority from allowing a bidder to cure a deficiency in an otherwise responsive bid where the Authority determines that such deficiency is in the nature of a minor informality or irregularity.

15. REPRESENTATIONS, CERTIFICATIONS, AND ACKNOWLEDGMENTS

The bidder shall check or complete all applicable boxes or blocks, and provide all requested information, on the attached "Representations and Certifications" form. Bidders are reminded of the obligation to fully and faithfully complete the accompanying "Representations and Certifications" form that must be submitted with the bid. Failure to do so may result in the bid being rejected as nonresponsive.

16. LAWS AND REGULATIONS

Bidders are responsible for complying with, any and all applicable State of Maryland, Commonwealth of Virginia, District of Columbia, and federal and local laws and regulations governing the supplies or services to be provided under this Contract. Further, the bidder that receives this Contract shall be responsible to obtain, at its own cost and

expense, any and all licenses/permits required to transact business in any political jurisdictions to be serviced.

17. ROYALTY INFORMATION – N/A

Not required for this solicitation

- a. When the response to this solicitation contains costs or charges for royalties totaling more than \$250, the following information shall be furnished with the bid on each separate item of royalty or license fee:
- (1) Name and address of licensor;
 - (2) Date of license agreement;
 - (3) Patent numbers, patent application serial numbers or other basis on which the royalty is payable;
 - (4) A brief description, including any part or model number of each contract line item or component on which the royalty is payable;
 - (5) The percentage or dollar rate of royalty per unit;
 - (6) The unit price or Contract line item price;
 - (7) The number of units; and
 - (8) The total dollar amount of royalties.
- b. In addition, if specifically requested by the Contracting Officer prior to execution of the Contract, a copy of any current license agreements and identification of applicable claims of specific patents shall be furnished.

18. REQUIREMENT FOR COST DATA FOR CONTRACT AWARD

The Authority may require the apparent low bidder to submit cost data in sufficient detail to permit analysis of the cost elements that are contained in the bid prices. In such instances, the apparent low bid may, at the discretion of the Authority, be subject to audit.

19. PRE-AWARD INFORMATION/BIDDER RESPONSIBILITY

- a. In order to be eligible for award, the low bidder will be required to demonstrate its ability to perform the services or furnish the supplies contained in the solicitation, in a timely manner, to the complete satisfaction of the Authority. Failure on the part of the low bidder to demonstrate that it maintains the requisite integrity, overall technical capability and financial resources to perform the Contract in a satisfactory and timely manner may result in a rejection of the low bidder as not responsible.

In such event, the second lowest bidder will be required to demonstrate its responsibility. This process will continue until a bidder successfully demonstrates that it is responsible for purposes of this solicitation.

- b. To assist in the Authority's evaluation of its responsibility for purposes of award of a Contract hereunder, the apparent lowest responsive bidder shall furnish the following when requested by the Contracting Officer:
- (1) A completed and signed pre-award evaluation data form (copy attached), including the required financial statements;
 - (2) The Disadvantaged or Small Business Enterprise data form as set forth in Appendix B.

20. PRE-AWARD MEETING

"The Authority and the Board shall not be required to pay taxes or assessments upon any of the property acquired by it or under its jurisdiction, control, possession or supervision, or upon its activities in the operation and maintenance of any transit facility or upon any revenues therefrom, and the property and income derived therefrom shall be exempted from all federal, state, District of Columbia, municipal, and local taxation. This exemption shall include without limitation, all motor vehicle license fees, sales taxes and motor fuel taxes."

It has been the practice of the District of Columbia to apply the Authority's tax exempt status to certain purchases of materials required under Authority construction contracts and acquired by contractors for physical incorporation into the project work. This has not been the practice in either Maryland or Virginia. The Authority does not represent or warrant that the District of Columbia's practice applies to this project or, if it does, that it will continue in effect during the term of this project. CHAPTER II – TIME/DELAYS/LIQUIDATED DAMAGES

1. PERIOD OF PERFORMANCE

The period of performance is 365 days commencing on the date of award.

2. LIQUIDATED DAMAGES FOR DELAY – N/A

- (a) Time is of the essence to this Contract. In the event of a delay in delivery of any work under this Contract beyond the period of performance as set forth in the "Period of Performance" article of the Contract or beyond the any extension granted by the Authority, the Contractor shall pay the Authority damages for such delay. Since the amount of such damages and the loss to the Authority will be extremely difficult to ascertain, it is hereby expressly agreed that such damages will be liquidated and paid as follows:
- (b) For each and every day (per day), of unexcused delay, the sum of _____ dollars (\$_____.00) which sum is hereby agreed upon, not as a penalty, but as liquidated damages.
- (c) The Authority shall have the right to deduct such liquidated damage assessments from any monies due or that may thereafter become due to the Contractor under this Contract. In case the amount that may become due hereunder shall be less than the liquidated damages due to the Authority, the Contractor shall pay the difference upon the Authority's demand.

3. EXTENSIONS OF TIME/FORCE MAJEURE

- (a) For purposes of this article, the term "force majeure" shall mean an unforeseen event or circumstance, beyond the control of, and not occasioned by the fault or neglect of the Contractor or the Authority, that gives rise to a delay in the progress of or completion of the work of the Contract, including, without limitation, acts of God, acts of war or insurrection, unusually severe weather, fires, floods, strikes, freight embargoes or other events or circumstances of like nature.
- (b) If the Contractor is delayed at any time during the progress of the work by the neglect or failure of the Authority or by a force majeure event, then the time for completion and/or the affected delivery date(s) shall be extended by the Contracting Officer, in the following circumstances:
 - (1) The cause of the delay arises after the award of the Contract and neither was nor could have been anticipated by the Contractor by reasonable investigation before such award;
 - (2) The Contractor demonstrates to the Contracting Officer that the completion of the work and/or affected delivery(ies) will be actually and necessarily delayed;
 - (3) The delay cannot be avoided or mitigated by the exercise of all precautions, efforts and measures reasonably available to the Contractor, whether before or after the occurrence of the cause for delay; and

- (4) The Contractor makes a written request and provides other information to the Contracting Officer as described in paragraph (f) below.
- (c) In the event the Contractor will be delayed at any time or for any period by two (2) or more of the abovementioned causes in this article, the Contractor shall not be entitled to a separate extension for each one (1) of the causes, but shall be entitled to only one (1) period of extension for the cumulative effects of the delay.
- (d) The Contracting Officer may rescind or shorten any extension previously granted, if he or she subsequently determines that any information provided by the Contractor in support of a request for an extension of time was erroneous; provided that such accurate information, if known, would have resulted in a denial of the request for an excusable delay. Notwithstanding the foregoing, the Contracting Officer will not rescind or shorten any extension previously granted, if the Contractor acted in reliance upon it and if, in the judgment of the Contracting Officer, such extension was based on information that, although later found to have been erroneous, was submitted in good faith by the Contractor.
- (e) The request for an extension of time pursuant to paragraph (a) shall be made within ten (10) days after the Contractor knows or should know of any cause that it may claim as an excusable delay. The Contractor shall identify any actual or potential basis for an extension of time, and describe, as fully as possible the nature and projected duration of the delay and its effect on the completion of the work identified in the request. Within thirty (30) days of its receipt of all such information, the Authority shall advise the Contractor of its decision on such requested extension. Where it is not reasonably practicable for the Authority to render such decision in the thirty (30) day period, it shall, prior to the expiration of such period, advise the Contractor that it will require additional time and state the approximate date that it expects to render such decision.
- (f) In no event shall a delay in progress or performance of the work occasioned solely by a force majeure event or the acts or omissions of any party outside the control of the Contractor be the basis for a Termination for Default pursuant to this Contract. In no event shall a subcontractor at any tier be deemed a party outside the control of the Contractor for purposes hereof.

4. AUTHORITY'S DELAY OF WORK

- (a) If the performance of all or any part of the work is delayed or interrupted in a material manner or extent by an act or omission of the Authority in the administration of this Contract, that is not expressly or impliedly authorized by this Contract or by applicable provisions of law, an adjustment (excluding profit) shall be made for any increase in the cost of performance of this Contract caused by such delay or interruption and the Contract shall be modified in writing accordingly. Adjustment shall also be made to the delivery or performance dates and any other contractual provision, if compliance was materially affected by such delay or interruption. However, no adjustment shall be made under this Contract for any delay or interruption if performance was delayed or interrupted by any other cause, including, without limitation: (i) the fault or negligence of the Contractor or any subcontractor; (ii) the fault or negligence of a third party to the Contract; (iii) an act constituting a force majeure event ; or (iv) any other cause for

which an adjustment is provided or excluded under any other provision of this Contract or otherwise at law or in equity.

- (b) An adjustment pursuant to paragraph (a) shall not be allowed:
 - (1) for any costs incurred more than twenty (20) days before the Contractor notifies the Contracting Officer, in writing, of the act or omission claimed; and
 - (2) Unless the claim, in a sum certain, is asserted in writing as soon as practicable after the termination of the delay or interruption. In no event, shall a claim be asserted later than thirty (30) days after such termination. Such claim shall be accompanied by appropriate documentation, specifically identifying and supporting the nature and extent of the claimed impact upon the cost and/or time required for performance. In any instance where it is not reasonably practical for the Contractor to fully determine such impact within the thirty (30) day period, the Contractor shall support the claim with documentation as reasonably available and submit it to the Contracting Officer with a statement of the anticipated time frame in which it will provide the additional materials. The Contracting Officer shall maintain the right throughout the process to request the preparation and/or submission of such additional materials as he or she shall reasonably require in consideration of the claim and shall be under no obligation to conclude his or her consideration of the claim prior to receipt and review of all relevant materials. Any adjustment to the Contract price pursuant to this Article must be agreed upon or otherwise determined prior to final payment.

5. NOTICE TO THE AUTHORITY OF LABOR DISPUTES

- (a) Whenever the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this Contract, the Contractor shall immediately give notice thereof, including all relevant information with respect thereto, to the Contracting Officer.
- (b) The Contractor agrees to insert the substance of this Article, including this paragraph (b), in any subcontract hereunder if a labor dispute may delay the timely performance of this Contract.

CHAPTER III – ACCEPTANCE/INSPECTIONS/DEFICIENCIES

1. INSPECTION OF SERVICES – N/A

- (a) The Contractor shall provide and maintain an inspection system acceptable to the Authority covering the services to be provided under this Contract. The Contractor shall maintain complete records of all inspection work and provide them to the Authority during Contract performance in the manner and in accordance with the time periods set forth in the "Audit and Inspection of Records" article of this Contract.
- (b) The Authority has the right to inspect and test all services provided under this Contract, at all times and places reasonably practicable during the term of this Contract. The Authority shall perform inspection and tests in a manner that will not unduly delay the work.
- (c) If the Authority performs inspections or tests on the Contractor's or subcontractor's premises, the Contractor shall furnish, and I require subcontractors to furnish, without cost, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.
- (d) If any of the services performed do not conform to Contract requirements, the Authority may require the Contractor to perform the services again in conformity with Contract requirements, without additional cost. When the defects in performance cannot reasonably be corrected by such further performance, the Authority may:
 - (1) Direct the Contractor to take necessary action to ensure that future performance conforms to Contract requirements; and/or
 - (2) Reduce the Contract price to reflect the reduced value of the services performed.
- (e) If the Contractor fails to comply with the provisions of paragraph (d), the Authority may:
 - (1) By contract or otherwise, perform the services and charge the Contractor for any cost incurred by the Authority; and/ or
 - (2) In the event that the Contracting Officer deems such failure to comply to be a material breach, terminate the Contract for default.
- (f) Nothing contained herein shall be deemed to preclude the Contracting Officer from implementing a price reduction arising from the reduced value to the Authority of Services ultimately corrected in conformity with the contract requirements for the period of their nonconformity.

2. INSPECTION OF SUPPLIES

- (a) The Contractor shall provide and maintain an inspection system, acceptable to the Authority, covering supplies provided under this Contract. The Contractor shall tender to the Authority for acceptance only supplies that have been inspected in accordance with the inspection system and found by the Contractor to be in conformity with Contract requirements. As part of the system, the Contractor shall prepare records evidencing the nature and result of all inspections. These records shall be made available to the Authority during the term of the Contract and thereafter in accordance with the provisions of the "Audit and Inspection of Records" article of this Contract. The Authority may perform reviews and evaluations as reasonably necessary to ascertain compliance with this article. These reviews and evaluations shall be conducted in a manner that will not unduly delay the Contract work. The right of review, whether exercised or not, does not relieve the Contractor of its obligations under this Contract.
- (b) The Authority has the right to inspect and test all supplies called for by the Contract, to the extent practicable, at all places and times, including during the manufacturing period, and before acceptance. The Authority shall perform inspections and tests in a manner that will not unduly delay the work. The Authority assumes no contractual obligation to perform any inspection and/or test nor shall the Authority's failure to perform any inspection or test relieve the Contractor of any obligation under this Contract.
- (c) If the Authority performs inspection(s) or test(s) on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, without additional cost, all reasonable facilities and assistance for the safe and convenient performance of these duties.
- (d) When Supplies are not ready at the time specified by the Contractor for inspection or testing, the Contracting Officer may charge to the Contractor, any additional associated costs. The Contracting Officer may also charge the Contractor for any additional costs of inspection or testing when prior rejection makes re-inspection or retest necessary.

3. ACCEPTANCE OF SUPPLIES

- (a) The Authority shall accept or reject tendered supplies as promptly as practicable after delivery, unless otherwise provided in this Contract. In no event shall a failure of the Authority to inspect and/or accept or reject the supplies relieve the Contractor from responsibility, nor impose liability upon the Authority, for nonconforming supplies.
- (b) Acceptance by the Authority shall be deemed conclusive, except for latent defects, fraud, and willful misconduct or gross mistakes amounting to fraud or as otherwise provided in the Contract. In such instances, the Authority, in addition to any other rights and remedies provided by law, or under other provisions of this Contract, shall have the right:
 - (1) To direct the Contractor, at no increase in contract price, to correct or replace the defective or nonconforming supplies at the original point of delivery or, if so determined by the Contracting Officer, at the Contractor's facility, in

accordance with a reasonable delivery schedule as agreed upon between the parties. The Contracting Officer may effectuate an adjustment reducing the contract price, if the Contractor fails to meet such delivery schedule; or

- (2) Within a reasonable time after receipt by the Contractor of notice of the defects or nonconformance, effectuate an appropriate price adjustment, reducing the contract price, as equitable under the circumstances, if the Contracting Officer elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the associated costs of transportation.

4. NEW MATERIAL [SUPPLIES]

Unless this Contract specifies otherwise, the Contractor represents that any supplies and components to be provided under this Contract are new (not used or reconditioned, and not of such age or so deteriorated as to impair their usefulness or safety). If at any time during the performance of this Contract, the Contractor believes that furnishing supplies or components that are not new is in the Authority's best interests, the Contractor shall notify the Contracting Officer immediately in writing. The Contractor's notice shall include the reasons for the request, along with the proposed price reduction, if any, in the event the Contracting Officer agrees to authorize the use of such supplies or components. The Contracting Officer's determination with respect to whether to so authorize the use of such supplies or components shall be final and binding and not subject to further review pursuant to the provisions of the "Disputes" article of this Contract or otherwise.

5. CORRECTION OF DEFICIENCIES & WARRANTY

- (a) Notwithstanding anything to the contrary otherwise set forth in this Contract, all workmanship, parts and materials furnished for all the work shall be unconditionally warranted against failures or defects for a period of one (1) year after the item supplied is accepted, or placed in service, by the Authority, whichever is earlier. The Contractor shall accept the Authority's records regarding the date the item was placed in service.
- (b) In the event that any work covered by the warranty provisions fails during the warranty period, the Contractor shall repair or replace the work within three (3) days, without cost or expense to the Authority.
- (c) The warranty will not apply to the extent that such failure is caused by user abuse.
- (d) Should the Contractor shall fail to repair or replace any part or do any work in accordance with the terms of the warranty, or if immediate replacement is necessary to maintain operation of the item supplied, the Authority shall have the right to cause such replacement to be made, utilizing its own forces and/or those of third parties as the Authority shall reasonably deem appropriate, at the expense of the Contractor.
- (e) Each piece of equipment, component or part thereof that is replaced, repaired, adjusted or serviced in any manner under the terms of warranty by the Contractor shall be reported to the Contracting Officer on forms supplied by the Authority. Each report shall indicate in detail all repairs, adjustments and servicing to each and every component, unit or parts thereof.

- (f) Any warranty or retrofit work shall be accomplished with minimum disruption to the Authority's operations and its maintenance and service facilities. The Authority shall at its sole discretion, determine the availability of facilities for warranty or retrofit work.
- (g) The Contractor shall make available adequate service facilities, including spare parts, for all the items supplied. Trained technical service personnel shall be available to the Authority sufficient to meet the Contractor's warranty obligations.
 - (1) The Contractor shall provide field service representatives who are competent and fully qualified in the maintenance and operation of the supplied items. These field service representatives shall assist the Authority in overcoming any difficulties in the operation or maintenance of the items supplied. They shall further serve as on-site representatives of the Contractor for any component failure claims or warranty claims against the Contract.
 - (2) During the warranty period, a field service representative shall be available within twenty four (24) hours.
- (h) The rights of the Authority set forth in this article shall be in addition to those set forth elsewhere in this Contract or otherwise at law or in equity.

6. FIRST ARTICLE INSPECTION

- (a) The Contractor shall deliver one (1) unit to the Authority for first article (pre-production sample) tests. The shipping documentation shall contain this Contract number and the lot/item identification. The characteristics that the first article must meet and the testing requirements are specified in the technical specifications.
- (b) Within ten (10) days after the Authority receives the first article, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this Contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite the reasons for the disapproval.
- (c) If the first article is disapproved, the Contractor, upon the Authority's request, shall submit an additional first article for testing. After each request, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor. The Contractor shall furnish any additional first article to the Authority under the terms and conditions and within the time specified by the Authority. The Authority reserves the right to require an equitable adjustment to the Contract price for any extension of the delivery schedule or for any additional costs to the Authority related to these tests.
- (d) Unless otherwise provided in the Contract, the Contractor:
 - (1) May deliver the approved first article as a part of the Contract quantity, provided it meets all Contract requirements for acceptance and was not damaged or impaired in testing; and

- (2) Shall remove and dispose of any first article from the Authority's testing facility at the Contractor's expense.
- (e) The Contractor is responsible for providing operating and maintenance instructions, spare parts support, and repair of the first article, during any first article test.
- (f) The Authority will inspect the first article (pre-production sample) in accordance with the Contract's requirements. A written report will be forwarded to the Contractor in accordance with (b) above.

7. F.O.B. DESTINATION

- (a) Unless otherwise specified, the Contractor shall furnish all supplies to be delivered under this Contract "F.O.B. destination". As used herein, "F.O.B. destination" means:

WMATA shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or "constructive placement" as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of WMATA, acting in its contractual capacity. If the Contractor uses a rail carrier or freight forwarder for less than carload shipments, the Contractor shall assure that the carrier will furnish tailgate delivery, if transfer to truck is required to complete delivery to the consignee.
- (b) The Contractor shall:

CHAPTER IV—CHANGES/ PRICING ADJUSTMENTS

1. CHANGE ORDERS

- (a) The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, direct and implement change orders, within the general scope of this Contract, including but not limited to one or more of the following:
 - (1) Nature and/or extent of services to be performed or supplies to be furnished;
 - (2) Time of performance (i.e., hours of the day, days of the week, etc.); or
 - (3) Place of performance of the services.
- (b) If, in the judgment of the Contracting Officer or as otherwise determined, any such change causes an increase or decrease in the cost of, or the time required for, the performance of any part of the work under this Contract, whether or not directly changed by the order, the Contracting Officer shall make an equitable adjustment in the Contract price, the delivery schedule, or both, and shall modify the Contract, accordingly.
- (c) In any instance where the Contractor asserts a right to an adjustment in the Contract price or time required for performance as the result of a change directed pursuant to this article, it must submit a written claim so advising the Authority within thirty (30) days from the date of receipt of the written order directing the change. The claim shall be accompanied by appropriate documentation, specifically identifying and supporting the nature and extent of the claimed impact upon the Contract price and/or time required for performance. In any instance in which it is not reasonably practical for the Contractor to fully determine or project such impact within such thirty (30) day period, the claim shall be accompanied by such supporting documentation as is then reasonably available to the Contractor, as well as a statement of the anticipated time frame when the Contractor expects to provide the additional materials. The Contracting Officer shall maintain the right throughout the process to request the preparation and/or submission of such additional materials as he or she shall reasonably require in consideration of the claim and shall be under no obligation to conclude its consideration of the claim prior to receipt and review of all relevant materials. Any adjustment to the Contract price pursuant to this article must be agreed upon or otherwise determined prior to final payment.
- (d) If the Contractor's proposed price adjustment includes the cost of property rendered obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of property disposition.
- (e) Failure to agree to any adjustment in price or time for performance as the result of a change implemented pursuant to this article shall be subject to adjudication in accordance with the "Disputes" article of this Contract. Notwithstanding the pendency of any such dispute, the Contractor expressly acknowledges that it shall remain fully obligated to perform the work of the Contract as so changed.
- (f) Notwithstanding any other provision of this Contract, the Contractor shall promptly notify the Contracting Officer of matters, whether implemented as a change order in accordance with this article or otherwise, that the Contractor believes may reasonably

result in either an increase or decrease to the Contract price or the time required for performance and shall take action as directed by the Contracting Officer. The Contractor's failure to provide such notification shall constitute a waiver of its right to seek an adjustment in the Contract price or time required for such performance.

- (g) Except to the extent, if any, otherwise expressly set forth in this Contract, in no event shall the Contractor be entitled to payment for change orders, additional or extra supplies or services or other modifications to any requirement or term of this Contract unless such has been authorized, in writing, by the Contracting Officer.

2. PRICING OF ADJUSTMENTS

- (a) The parties agree that, notwithstanding any interpretation of contract cost principles to the contrary, the Authority will not be liable for interest, however represented, on or as a part of any claim, request, bid or adjustment, including equitable adjustments, whether said claim, request, bid or adjustment, including equitable adjustments, arises under the Contract or otherwise.
- (b) As part of its proposal for any modification to this Contract requiring a price adjustment in excess of \$100,000, the Contractor shall submit to the Contracting Officer, either actually or by specific identification, in writing, cost or pricing data under the conditions described in this paragraph and certify that, to the best of its knowledge and belief, the cost or pricing data submitted is accurate, complete and current as of the date submitted. The Contractor, at the discretion of the Contracting Officer, may be required to submit cost or pricing data for price adjustments less than \$100,000.
- (c) The Contractor shall ensure that the substantive terms of this article are included in all subcontracts at any tier if the value of the subcontracted work exceeds \$100,000.

3. ACCOUNTING AND RECORD KEEPING FOR ADJUSTMENTS

- (a) Applicability. This Article shall apply to any adjustment in the price of this Contract initiated by the Contractor or the Authority.
- (b) Forward Price Adjustments. Unless waived in writing by the Contracting Officer, the Contractor shall furnish to the Contracting Officer a proposed price adjustment in advance of performance of any Work for which a price adjustment is requested. The Contractor shall generate such records as are necessary to substantiate all elements of the proposed adjustment. The records shall be specifically segregated and identified in the Contractor's accounting system as being applicable to the pricing adjustment request.
- (c) Post Price Adjustments. This paragraph shall be applicable with respect to price adjustments that either (i) are expected to exceed \$50,000; or (ii) regardless of the value of the adjustment, arise in connection with a Contract that has a base sum in excess of \$1,000,000. In addition to the records required pursuant to paragraph (b) above, in the event pricing of an adjustment under this Contract is not agreed upon prior to the commencement of work for which the pricing adjustment is requested, the Contractor and any subcontractor engaged in work, shall maintain accounts and original cost records specifically segregated and identified by job order or other appropriate

accounting categories approved by the Contracting Officer for all incurred, segregable costs related to the work for which the pricing adjustment is requested. The Contractor shall maintain accounts and records that segregate and account for the costs of all work associated with that part of the project for which the pricing adjustment is requested. The Contractor shall allocate the costs so accumulated between: (1) work required under the base Contract; (2) work requested to be reimbursed under the pricing adjustment; and (3) work claimed or determined to be related to other actual or proposed adjustments, including but not limited to, changes orders, differing site conditions, and the like. The accounts and records so established shall accumulate such costs under logical costs groups, such as material, labor, equipment, subcontracts, field overhead and the like. The Contractor shall record these costs on a form approved by the Contracting Officer.

- (e) Access to Records. As a condition to the Authority's obligation to consider any claim for a potential price adjustment under any provision of this Contract, the Contractor shall grant the Authority access to review and ascertain the validity of the accounting records being maintained for segregation of costs, including base cost records, and to audit any such costs as deemed appropriate by the Contracting Officer.
- (f) Limitation on Pricing Adjustment. In the event the Contractor or any subcontractor fails to generate, maintain, or make available any records required under the Contract, in addition to any and all rights that the Authority may be entitled to, the Contracting Officer shall determine whether such failure is willful, deliberate or otherwise precipitated by bad faith on the part of the Contractor, in which case, the Contractor shall not be entitled to any price adjustment for the work in question. Where the Contracting Officer determines that the failure was not the result of the Contractor's bad faith, the Contractor Officer shall determine the reasonable direct cost of the work for which records are not available, and add a single mark-up for indirect expenses not to exceed ten percent (10%) of the direct costs based on:
 - (1) An audit of any records of the Contractor or subcontractor made available to the Authority; and/or
 - (2) An Authority estimate as adopted or modified by the Contracting Officer.
- (g) In no event shall the Contractor and/or subcontractor be allowed any profit on claimed work if records are not made available in accordance with its obligations under this article and otherwise in the Contract.
- (h) Flow-down clause. The Contractor shall ensure the inclusion of this article in all subcontracts issued under this Contract, modified as necessary, for proper identification of the contracting parties and the Contracting Officer.

2. PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA – MODIFICATIONS

If any modification, change order, or otherwise, to this Contract involves aggregate increases and/or decreases in costs plus applicable profit in excess of \$100,000, and the Contracting Officer ultimately determines that any price, including profit or fee, previously negotiated in connection with any such modification was based upon the Contractor's cost or pricing data (including any prospective or actual subcontractor at any tier) that was not complete, accurate

or current, such that the amount paid to the Contractor f was greater than the amount that the Contractor would have been entitled based upon accurate and complete data, the Authority shall be entitled to an adjustment in an amount equal to such overpayment. The right granted to the Authority hereunder shall be in addition to any other rights it may have under this Contract, at law or in equity..

3. SUBCONTRACTOR PAYMENTS

- (a) The Contractor shall, under this Contract, establish procedures to ensure timely payment of amounts due pursuant to the terms of its subcontracts. The Contractor shall pay each subcontractor for satisfactory performance of its contract, or any billable portion thereof, no later than ten (10) days from the date of the Contractor's receipt of payment from the Authority for work by that subcontractor. The Contractor shall also release, any retention withheld from the subcontractor within ten (10) days of satisfactory completion of all work required by the subcontractor.
- (b) The Contractor shall certify on each payment request to the Authority that payment has been or will be made to all subcontractors in accordance with paragraph (a) above. The Contractor shall notify the Contracting Officer or other delegated Authority representative with each payment request, of any scheduled subcontractor payments that have not been made.
- (c) In the event of a claim by any subcontractor that the Contractor has failed to comply with the terms of this article, the Contractor agrees to fully cooperate in any Authority investigation, and, if deemed appropriate by the Authority, to implement appropriate remedial measures to ensure future compliance.
- (d) The Contractor agrees that the Authority may provide information that the Contracting Officer deems appropriate in response to inquiries from subcontractors seeking to determine the status of Authority payments to the Contractor.
- (e) Nothing contained in this article or elsewhere in this Contract is intended nor shall be deemed to create a contractual relationship between the Authority and any subcontractor, to make the subcontractor an intended beneficiary of this Contract or to alter or affect traditional concepts of privity of contract.

4. GARNISHMENT OF PAYMENTS

Payment under this Contract shall be subject to any garnishment, attachment orders, and/ or levies issued pursuant to the laws of the United States, Maryland, Virginia, and the District of Columbia.

CHAPTER VI – CONTRACT TERMINATION/STOP WORK ORDERS/DISPUTES

1. STOP WORK ORDERS

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part of the work for a period of up to ninety (90) days after the order is delivered to the Contractor, and for any further period to which the parties agree. The order shall be specifically identified as a "Stop Work Order" ("SWO") issued under this article. Upon receipt of the SWO, the Contractor shall immediately comply with its terms and shall take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the SWO, during the period of work stoppage. Within a period of ninety (90) days after an SWO is delivered to the Contractor, or within any extension of that period to which the parties agree, the Contracting Officer shall either:
 - (1) Cancel the SWO; or
 - (2) Terminate the work covered by the SWO as provided in this Contract, as appropriate.
- (b) If a SWO is cancelled or its initial period or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or to Contract price, or both, and he or she shall modify the Contract in writing accordingly, if, in his or her judgment :
 - (1) The SWO results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this Contract; and
 - (2) The Contractor submits a written claim for such adjustment within thirty (30) days after the end of the period of work stoppage. At the sole discretion of the Contracting Officer, the Authority may act upon any such claim submitted at any time before final payment under this Contract.
- (c) If an SWO is not cancelled and the work covered by the Contract is terminated for the convenience of the Authority, the Contracting Officer shall allow reasonable costs, if any, resulting from the SWO in arriving at a termination settlement pursuant to the this Contract.
- (d) If an SWO is not cancelled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the SWO. If the Contracting Officer determines that the SWO was precipitated by, or arose from, the Contractor's material breach of any term or condition of this Contract, such costs shall not be allowed and the rights and obligations of the parties shall be subject in all respects to the "Termination for Default" article of this Contract.

2. TERMINATION FOR DEFAULT

- (a) The Contractor shall be in default, if it commits a breach of any of its obligations under this Contract deemed material by the Contracting Officer. In addition to those instances specifically referred to in this Contract, the Contractor shall be in default in the following circumstances:
 - (i) It fails to begin, or abandons, the work of the Contract in accordance with the contractual requirements;
 - (ii) It fails to deliver the supplies or perform the services within the time specified in the Contract or any extension approved by the Contracting Officer;
 - (iii) It fails to make progress in a manner deemed unreasonable or unnecessary by the Contracting Officer so as to endanger performance of the Contract; or
 - (iv) In the view of the Contracting Officer, the Contractor is willfully violating any of the provisions or obligations of this Contract or is not executing such provisions or obligations reasonably and in good faith.
- (b) In the event of a material breach by the Contractor, pursuant to paragraph (a), the Contracting Officer is authorized to direct a written notice to the Contractor, stating the nature of the breach and stating that, if the Contractor fails to cure such failure(s) within ten (10) days (or such additional time as the Contracting Officer authorizes), the Authority shall terminate the Contract, in whole or designated part, for default in accordance with the provisions thereof (a "Notice to Cure"). Should the Contractor fail to cure the breach to the satisfaction of the Contracting Officer within the ten (10) day period, or such additional period as may be designated in the Notice to Cure, the Authority may, immediately upon conclusion of such period or at any reasonable time thereafter, terminate the Contract, in whole or part, by written notice to the Contractor.
- (c) Upon receipt of a Notice of Default, the Contractor shall immediately cease performance of the work so terminated. The Authority shall thereupon have the right to take any action necessary to complete the work, including performing the work itself, or contracting with another party to do so. In the event the work is completed directly by the Authority or by a third party, the Contractor shall be liable for the additional costs and expenses necessary to complete the work, including, without limitation, labor, materials, plant expenses, tooling costs, equipment, and property costs. The costs and expenses so charged may be deducted by the Authority and paid out of any monies otherwise payable to the Contractor. Nothing contained herein shall be deemed to relieve the Contractor of its continuing obligation to perform any portion of the Contract that has not been terminated.
- (d) The Authority may, in its sole discretion, waive a default by the Contractor, but such waiver and/or failure by the Authority to take action regarding any default shall not be deemed a waiver of any subsequent default.
- (e) Upon any termination for default, the Authority may require the Contractor to transfer title and deliver to the Authority, as directed by the Contracting Officer any completed or partially completed supplies, components (including data and intellectual property)

and Contract rights that the Contractor has specifically produced or acquired for the terminated portion of this Contract. Upon direction of the Contracting Officer, the Contractor shall also protect and preserve property in its possession in which the Authority has an interest.

- (f) Upon any termination for default, the Authority shall pay for completed supplies delivered and accepted in accordance with the terms of the Contract, as well as actions reasonably taken by the Contractor at the direction of the Contracting Officer for the protection and preservation of property. The Authority may withhold from these amounts, any sum that the Contracting Officer determines to be necessary to protect the Authority against loss because of outstanding or claimed liens, or other pending or anticipated claims under the Contract.
- (g) If, at any time following the Authority's issuance of a termination for default hereunder, it is determined that the Contractor was not in default or that the default was excusable, the termination shall thereupon be deemed a termination for convenience and the rights and obligations of the parties shall be determined in accordance with the provisions of the "Termination for Convenience" article of this Contract.
- (h) Any dispute or failure of the parties to agree with respect to any issue arising under this Article shall be subject to review and adjudication in accordance with the provisions of the "Disputes" article of this Contract. In no event shall the Authority's issuance of a Notice to Cure pursuant to paragraph (b) be the basis of a Dispute or otherwise be subject to further review under this Contract. Nor shall the pendency of any Dispute constitute a basis for the delay or suspension of, or otherwise affect, the the Authority's right to proceed under this article, including its right to complete the work., or its right to demand that the Contractor complete any portion of the Work that was not terminated.
- (i) The rights and remedies of the Authority in this article are in addition to any other rights and remedies provided r under this Contract, at law or in equity.

3. TERMINATION FOR CONVENIENCE

- (a) The Authority may terminate performance of work under this Contract in whole, or, in part, if the Contracting Officer determines that a termination is in the Authority's interest. The Contracting Officer shall terminate by delivering a "Notice of Termination" to the Contractor specifying the extent of the termination and its effective date.
- (b) Upon receipt of a "Notice of Termination", except as otherwise directed by the Contracting Officer, the Contractor shall immediately proceed as follows:
 - (1) Stop work as specified in the "Notice of Termination";
 - (2) Complete performance of the work, not terminated;
 - (3) Place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete the remaining portion of the Contract;
 - (4) Terminate all subcontracts to the extent that they relate to the work terminated;

- (5) Assign to the Authority, as directed by the Contracting Officer, all of the Contractor's right(s), title, and interests under the subcontracts terminated. In such event, the Authority shall have the right to settle or pay any termination costs relating to the subcontracts and shall have no further liability to the Contractor in connection with the work that was the subject of such subcontracts;
- (6) With approval of the Contracting Officer, settle all outstanding liabilities and settlement costs arising from the termination of subcontracts;
- (7) As directed by the Contracting Officer, transfer title and deliver to the Authority:
 - (i) Parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated; and
 - (ii) The completed or partially completed plans, drawings, information and other property that, would have been required to be furnished to the Authority, if the Contract was completed.
- (8) Take any action that may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this Contract that is in the Contractor's possession and in which the Authority has or may acquire an interest;
- (9) Use its best efforts to sell, as directed or authorized by the Contracting Officer, any property of the types referred to in paragraph (b)(7). The Contractor (a) is not required to extend credit to any purchaser and (b) may acquire the property under the conditions prescribed by, and at prices approved by, the Contracting Officer. The proceeds of any transfer or disposition will be applied to reduce payments to be made by the Authority under this Contract, credited to the price or cost of the work, or paid in any other manner directed by the Contracting Officer.
- (c) The Contractor shall submit complete termination inventory schedules not later than one hundred twenty (120) days from the effective date of termination, unless such time is extended in writing by the Contracting Officer.
- (d) As soon as reasonably practicable, and in any event not later than twenty (20) business days following the Authority's issuance of a Notice of Termination pursuant to paragraph (a), the Contractor shall submit a proposal to the Contracting Officer in the form he or she prescribes detailing the costs to which it asserts entitlement pursuant to this Article. If the Contractor fails to submit the proposal within the time prescribed, the Contracting Officer may determine, on the basis of information available, the amount, if any, due the Contractor as a result of the termination and shall pay the amount so determined.
- (e) Following submission of the Contractor's proposal pursuant to paragraph (d), the parties shall agree upon the whole or any part of the amount to be paid or remaining to be paid as a result of the termination. The amount may include a reasonable allowance for profit on work completed. However, in no event shall the total amount to be paid the Contractor pursuant to this article exceed the total Contract price as

reduced by (1) payments previously made and (2) the Contract price of the remaining work not terminated.

- (f) If the parties fail to agree on the whole amount to be paid because of the termination, the Contracting Officer shall pay the Contractor, the amounts he or she determines as follows, but without duplication of any amounts agreed upon under paragraph (e):
- (1) The Contract price for completed supplies or services accepted by the Authority [or sold or acquired under paragraph (b)(9)] not previously paid for, adjusted for any saving of freight and other charges.
 - (2) The total of:
 - (i) The costs incurred prior to termination in the performance of the work terminated, including initial costs and preparatory expenses allocable thereto, but excluding any costs attributable to items compensated or to be paid for under subparagraph (f)(1);
 - (ii) The cost of settling and paying termination costs under terminated subcontracts that are properly chargeable to the terminated portion of the Contract, if not excluded in subparagraph (f)(2)(i); and
 - (iii) A sum, representing profit on the items described in subparagraph (f)(2)(i) determined by the Contracting Officer pursuant to Section 49.202 of the Federal Acquisition Regulation (FAR), in effect on the date of this Contract, to be fair and reasonable. If it appears that the Contractor would have sustained a loss on the entire Contract had it been completed, the Contracting Officer shall allow no profit under this subparagraph and shall reduce the settlement to reflect the projected rate of loss.
 - (3) The reasonable indirect costs for the work terminated, including:
 - (i) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals;
 - (ii) The termination and settlement of subcontracts (excluding the amounts of such settlements); and
 - (iii) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory.
- (g) Except for normal spoilage, and except to the extent that the Authority expressly assumed the risk of loss, the Contracting Officer shall exclude from the amounts payable to the Contractor under paragraph (f), the fair value, as he or she determines of property that is unavailable or damaged so as to become undeliverable to the Authority or to a third party.
- (h) The cost principles and procedures of Part 31 of the FAR in effect on the date of this Contract, shall govern all costs claimed, agreed to, or determined under this article, except for the payment of interest.

- (i) The Contractor shall have the right of appeal, under the "Disputes" article, from any determination made by the Contracting Officer under paragraphs (d) or (f), except that the Contractor's failure to submit the termination settlement proposal within the time provided in paragraph (d), or to timely request an extension thereof, shall constitute a waiver of its right to appeal the Contracting Officer's determination pursuant to the "Disputes" article or any otherwise applicable contractual, legal or equitable remedy.
- (j) In determining any sum due to the Contractor under this article, there shall be deducted:
 - (1) All unliquidated advances or other payments to the Contractor under the terminated portion of the Contract;
 - (2) The value, as determined or reasonably projected by the Contracting Officer, of any claim that the Authority has against the Contractor under this Contract, including any third party claims if the Contracting Officer is not satisfied that sufficient insurance coverage is in place; and
 - (3) The agreed price for, or the proceeds of sale of, materials, supplies, or other items procured by the Contractor or sold under the provisions of this article and not recovered by or credited to the Authority.
- (k) If the termination is partial and the Contractor asserts that the partial termination has rendered enforcement of the remainder of the Contract at the remaining Contract price inequitable, the Contractor may file a proposal with the Contracting Officer for an adjustment of the price(s) of the continued portion of the Contract. Such proposal shall be submitted within ninety (90) days from the effective date of termination, unless extended in writing by the Contracting Officer, and shall be accompanied by appropriate supporting documentation of the claimed inequity.
- (l) The Contractor's responsibilities and obligations under this article shall apply and remain in full force and effect notwithstanding the pendency of any dispute or other delay relating to determination of the appropriate price adjustment or any other issue arising from the termination for convenience.
- (m) Unless otherwise provided in this Contract or by statute, the Contractor and all subcontractors whose work is encompassed in the termination settlement shall maintain all records and documents relating to the terminated portion of this Contract for three (3) years after final settlement. This includes all books and other evidence bearing on the costs and expenses of the Contractor under this Contract. The Contractor shall make these records and documents available to the Authority, its governing jurisdictions and any other federal, state, or local entities providing funding for this Contract, and to the Comptroller General of the United States, or the agents or representatives of any of them, at the Contractor's office, at all reasonable times, without any direct charge.

4. ASSIGNMENT

- (a) Except as otherwise provided in this article, the Contractor shall not transfer any of its rights and obligations under this Contract to third parties without the prior written consent of the Authority. The Authority may recognize a third party as successor in interest to the Contract in the event of a transfer of all or substantially all of the assets of the Contractor, the division of the Contractor involved in the performance of the Contract, or a parent company providing a performance guarantee under this Contract, (i.e., sales of assets, transfer of assets pursuant to merger or consolidation, or incorporation of a proprietorship or partnership). Such recognition of the transfer shall be within the discretion of the Contracting Officer after review of the facts and circumstances surrounding each request. At the discretion of the Contracting Officer, he or she may conduct an evaluation of the successor party's capability to perform the Contract in the same manner and to the same extent that he or she was empowered to conduct a responsibility determination as part of the original solicitation for this Contract. Should the Contracting Officer, for any reason, not recognize such a successor in interest, he or she may terminate this Contract.
- (b) Any attempt to transfer by assignment not authorized by the Contracting Officer hereunder shall constitute a material breach of the Contract on the part of the Contractor and the Authority may thereupon terminate the Contract in accordance with the "Termination for Default" article set forth in the Contract.
- (c) Nothing contained herein shall be deemed to preclude the Contractor's assignment of claims for monies due or to be become due to the Contractor under this Contract to a bank, trust company or other financing institution, including any federal lending agency, upon written notice of such assignment to the Authority.

5. DISPUTES

- (a) Except as otherwise provided in this Contract, any dispute concerning a question of fact arising under or related to this Contract that is not disposed of by agreement, shall be decided by the Contracting Officer, who shall reduce his/her decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within thirty (30) calendar days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer, a written notice of appeal addressed to the Authority's Board of Directors. Such notice should indicate that an appeal is intended and should reference the decision and the Contract number. The decision of the Board of Directors or its duly authorized representative for the determination of such appeals shall be final and conclusive, unless in proceedings initiated by either party for review of such decision in a court or Board of competent jurisdiction, it determines the decision to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this article, the Contractor, or the Authority, as the case may be, shall be afforded an opportunity to be heard and offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the Contract and in accordance with the Contracting Officer's decision. The Armed Services Board of Contract Appeals is the authorized representative of the Board of Directors for final decisions on an appeal.

- (c) If any action or proceeding relating to the indemnification required is brought against the Authority, then upon written notice from the Authority to the Contractor, the Contractor shall, at its own expense, resist or defend such action or proceeding by counsel approved by the Authority in writing. No approval of counsel shall be required where the cause of action is resisted or defended by counsel of any insurance carrier obligated to resist or defend the same. The Authority reserves the right to use its own counsel, at the Authority's sole cost and expense without waiving or impairing the Contractor's right to indemnification hereunder.
- (d) The Contractor understands and agrees that it is Contractor's responsibility to provide indemnification to the Authority pursuant to this article. The provision of insurance, while anticipated to provide a funding source for this indemnification, is independent of this indemnification obligation and the failure of Contractor's insurance to fully fund any indemnification shall not relieve the Contractor of any obligation assumed under this indemnification.

SCOPE OF REQUIREMENT:

1.0 Introduction

The purpose of this Statement of Work ("SOW") is to define the requirements and applicability of the Mobile Software for the asset management and condition assessment solution implementation. The software will be used for performing asset management activities to include barcode scanning, condition assessments, work order management, reading and measurements entry, image and defect capture, asset nameplate and specification data capture. An evaluation of several software packages was performed as part of a proof of concept. The Interloc Informer software application was chosen based on the project defined requirements. The solution was designed and developed over a 6 month period to support several asset groups including ELES, CMNT, BMNT, SMNT and PLNT. Once the software was configured and developed according to each group's requirements, a two month pilot of the software usage was performed in the field. The software performed satisfactorily both functionally and technically. An initial 40 licenses were purchased as part of the proof of concept. It is the requirement of the Asset Management Program (AMP) to roll this solution out to a Production environment for ELES, ATCS (part of SMNT) and BMNT. This roll out will require another 200 Licenses of the Interloc Informer product to support the three (3) mentioned departments.
