

NO.	QUESTIONS	RESPONSES
1	<p>Price Schedule</p> <p>The line item “Cable”, can we include other consumables/material in this line or can you please add another line item?</p>	<p>An additional line item will not be added.</p>
2	<p>Price Schedule</p> <p>Since the SSD is optional, can you please move this item to the section/group titled “Separately Priced Options.”</p>	<p>The Price Schedule is clearly stated.</p>
3	<p>SOW, Page SOW-133 GPS: It is the responsibility of the Contractor to coordinate this work with Clever Devices, acquire any licenses associated with this interface, and provide written assurances (to be included in the Contractor’s proposal response) that this interface will not affect any current warranty/maintenance agreements in place between WMATA and Clever Devices.</p> <p>Is the Contractor supposed to get a letter from Clever stating that its Warranty/Maintenance Agreement with WMATA will not be impacted to be included with the proposal?</p>	<p>WMATA requires no letter from Clever Devices to be included in proposal. WMATA do expect the proposer to understand that they are required to interface/integrate their system with the existing Clever Devices System, and we expect to have the proposer to include some language in their proposal of this understanding.</p>
4	<p>Because the fluctuation in materials/components costs used in manufacturing, is it acceptable to submit FFP pricing for equipment at today’s pricing for the base period and all option years with the caveat to allow for an economic price adjustment in accordance with PPI WPU 1413 (Producer Price Index, and 1413) which corresponds to the “truck and bus bodies” product group for Option Years 1 – 4 with a maximum/not-to-exceed of XX% increase per year?</p>	<p>All information is clearly stated in the RFP on page 95.</p>
