

Solicitation Notice - IFB No.: FQ18166 Heat inductor System Q&A Round 1
5/2/18

1. How often to you plan on running this equipment?
 - a. The Machine will be used almost every day. It will only be used in time slots when It is needed to remove a ground rings from an axle so it will be used on average about 4 different time a day.

2. Do you plan on using the induction system for melting or heating?
 - a. The unit will be used only for Heating up a stainless steel Ground ring in order for it to expand and hence make it easy to remove from a Railcar Axle.
