In such instances, the amendment will include an announcement of the new date for the opening of proposals.
- (c) In the event of an amendment, all other terms and conditions of the solicitation shall remain unchanged.

8. ACKNOWLEDGMENT OF AMENDMENTS

A submission in the nature of a Best and Final Offer ("BAFO") received after the time and date specified in the Contracting Officer's request for BAFOs will not be considered unless received before award and, in the judgment of the Contracting Officer; the late delivery was not attributable to an act or omission of the offeror.
- (c) The only acceptable evidence to establish the time of receipt by the Authority is the time/date stamp of that event on the proposal wrapper or other documentary evidence of receipt maintained by the Authority.

- (d) Notwithstanding subparagraphs (a) and (b) above, a proposal received after the time specified for receipt may be considered, if it is the only proposal received for the solicitation. All reasonable efforts will be made to ensure confidentiality of the information contained in the proposals, consistent with applicable provisions of law.
- (b) The Authority may elect to award a Contract on the basis of the initial proposals as received in accordance with the Evaluation Criteria set forth in paragraph 14, without discussions. Accordingly, the initial proposal should contain the offeror's best terms from both a price and technical standpoint.
 - (i) Notwithstanding a determination by the Authority to proceed without conducting substantive negotiations or discussions with offerors, the Authority may elect to engage in communications with one or more offerors relating to clarification(s) of their proposals.
- (c) As an alternative to the procedure described in subparagraph (b) above, the Authority may, in its discretion, determine to engage in oral and/or written discussions with one (1) or more offerors involving information essential or useful to the Authority's understanding of the proposals and/or to address deficiencies in the initial proposals. In determining those offeror(s) with whom it chooses to engage in such discussions, the Authority shall first make a determination as to those initial proposals that it deems to be within the competitive range for award of the Contract. The Authority shall conduct discussions only with the offerors submitting proposals within the competitive range.
- (d) In the event that the Authority conducts substantive discussions with one or more offerors as set forth in subparagraph (c) above, the Contracting Officer may, following such discussions, direct those Offerors whose proposals are deemed within the competitive range to submit Best and Final Offers ("BAFOs"). In such instances, the Authority shall render its determination as to award of the Contract based upon its review of the BAFOs in accordance with the Evaluation Criteria. Nothing contained herein shall be deemed to limit, modify or impair the right of the Authority to engage in any such further or additional oral or written discussions or other communications relating to the solicitation as may, in the judgment of the Contracting Officer, be consistent with the best interests of the Authority.
- (e) The Authority maintains the right to waive informalities and minor irregularities in proposals at any time during the solicitation process.

14. EVALUATION CRITERIA AND BASIS FOR AWARD

BEST VALUE

Proposals will be evaluated based upon application of the following Evaluation Criteria:

The following evaluation criteria are listed in declining order of importance to WMATA:

- a. *Past experience of the offeror's program management and evidence of the ability to manage the delivery of the stated services:*
 - I. *Offeror must state the number of years it has been in business. The minimum requirement is five (5) years.*
 - II. *Offeror must demonstrate at least two (2) contracts of similar nature within the last five (5) years. The Offeror must provide a list of these similar contracts that should include the title of the contract, award date, actual or estimated completion date, contract value, procuring organization, point of contact and contact information.*
- b. *Offeror should explicitly state that the services provided are in compliance/conform to the Technical Statement of Work. Any exception/s to the Technical Statement of Work (SOW) and/or Performance Schedule should be in detail, stating the reason for exception(s).*
- c. *Offeror shall state :*
 - I. *Experience in safe handling and disposing asbestos in accordance with OSHA, EPA and other federal, state and local laws and regulations,*
 - II. *Permits and Certificate/s - Provide proof of training (such as an AHERA certificate), with regard to handling and disposing of asbestos and other hazardous materials in accordance with OSHA, EPA and other federal, state and local government laws and regulations as required by this solicitation (see Technical Statement of Work, Section 3.0, paragraphs h and i).*
 - III. *A proposed plan and procedure to transport railcars from WMATA's property.*
- d. *The Offeror shall provide a Project Management Plan. This plan shall include the following information:*
 - I. *Resumes of key personnel;*
 - II. *A description of the plan for managing an asbestos removal, railcar pick-up, removal and disposal contract of this size and complexity.*

The Authority will award a Contract to the responsible offeror whose proposal conforms to the Solicitation and is judged to be the most advantageous to the Authority based on an overall assessment of technical merit and price in accordance with the Evaluation Criteria. In conducting this assessment:

Price Considerations Most Important:

The Authority is more concerned with making an award at the lowest overall cost than with obtaining superior technical or business management features. However, the Authority will not make an award based on a proposal with significantly less favorable technical or business management features in order to achieve a relatively small savings in cost/price.

Proposers should be aware that both price and overall technical merit are of extreme importance to the Authority in this solicitation. Where its review concludes that two or more proposals are of substantially similar overall value, the Authority will place greater weight upon the cost aspects of the proposals.

15. PRICE PROPOSAL EVALUATION

- (a) With respect to Best Value RFPs, the Authority will evaluate price proposals for reasonableness, completeness, and realism as appropriate. Proposal costs will be evaluated in terms of the following:
 - (1) Submittal of proposed prices for both the base award and the options, if any;
 - (2) Any offer which is materially unbalanced may be rejected. An unbalanced offer is one that is based on prices that are significantly overstated for some items and understated for other items;
 - (3) The Authority will compare the price proposals to the Authority's estimate and otherwise determine reasonableness by performing a price analysis, if adequate competition exists. A cost analysis will be performed if, in the Authority's judgment, adequate price competition does not exist, in order to ascertain whether the proposed price is fair and reasonable;
- (b) The Offeror shall provide certified cost or pricing data, if so requested by the Contracting Officer.

16. TECHNICAL PROPOSAL EVALUATION

The Authority will evaluate the technical proposal in accordance with the Evaluation Criteria set forth in paragraph 14 and render an assessment as to the overall technical merit of the proposal. The failure of a proposal to demonstrate that it meets or surpasses an acceptable level with respect to any such element may result in a determination that the proposal is technically unacceptable and thus ineligible for award.

17. PRE-AWARD INFORMATION/CONTRACTOR RESPONSIBILITY

- (a) In order to be eligible for award of a Contract, a proposer must affirmatively demonstrate to the satisfaction of the Authority that it is responsible for purposes of this solicitation, including a showing that it maintains the requisite integrity, overall technical expertise and experience, including prior performance on other Authority contracts or contracts with other government agencies, and sufficient financial resources to perform the Contract in a timely, satisfactory and appropriate manner.
- (b) The Contracting Officer or other Authority representative(s) may conduct a pre-award survey and/or undertake other actions to obtain information regarding the responsibility of a proposer whose offer is in the competitive range or is otherwise under consideration for award. The proposer shall promptly supply information requested by the Contracting Officer regarding its responsibility in such manner and form as requested by the Authority.
- (c) Without limiting the general obligations of the proposer to demonstrate its responsibility to the satisfaction of the Authority as set forth in subparagraphs (a) and (b) above, a proposer shall furnish the following, when so requested by the Contracting Officer or other Authority Representative:

- (1) A completed and signed Pre-Award Evaluation Data form (copy attached), including all referenced financial statements and information;
- (2) Evidence of good standing in the System for Award Management (SAM) at www.sam.gov.
- (3) Disadvantaged Business Enterprise data as set forth in Appendix B. Note: As described above, the submittal of certain items and request for waiver (if applicable) are required if the proposal is \$100,000 or greater. Failure to submit forms B-12, B-13, and/or request for waiver (if applicable) may cause the proposal to be rejected. A failure on the part of an offeror to supply the information requested in this paragraph or otherwise fully cooperate with the Authority's inquiry may result in a determination that the offeror is not responsible for purposes of this solicitation and thereby, ineligible for award.

18. PRE-AWARD MEETING

The Authority reserves the right to require that a pre-award meeting be held with the apparent successful offeror prior to award of a Contract in order to review the Offeror's understanding of the contract requirements and/or further assist the Authority in determining the offeror's responsibility for purposes of award. The Contractor shall be represented at such meeting by individual(s) fully familiar with the contractual requirements including, where so requested by the Authority, representative(s) of one or more major subcontractor(s).

19. SITE VISIT/INSPECTION OFFEROR'S FACILITIES

The successful offeror must provide and maintain sufficient facilities that will allow it to adequately perform Contract functions as specified herein. WMATA may make site visits prior to Contract award to examine the offeror's facilities. This will include inspection of facilities, and interview with key personnel to verify that necessary equipment, supplies, etc. are readily available.

20. CONTRACT AWARD (FIRM FIXED PRICE)

- (a) At the conclusion of the process described in paragraph 14 above, the Authority will award a contract resulting from this solicitation to the responsible offeror whose proposal conforms to the Solicitation and will be the most advantageous to the Authority, based upon its application of the Evaluation Criteria. Such determination shall be based upon the initial proposals received where the Authority determines not to conduct discussions in accordance with subparagraph 13(b) or shall be based upon the BAFOs where the Authority directs their submission in accordance with subparagraphs 13 (c) and (d).
- (b) A written award mailed or otherwise furnished to the successful offeror at any time prior to withdrawal of the proposal by the offeror shall result in a binding contract without further action by either party. Discussions conducted after receipt of an offer do not constitute a rejection or counteroffer by the Authority.
- (c) Notwithstanding the foregoing or anything to the contrary contained herein, the Authority reserves the right to reject any and all proposals received and decline to enter into a Contract pursuant to this solicitation, if it deems such action is in the public interest.

21. PERFORMANCE/PAYMENT BONDS – N/A

"The Authority and the Board shall not be required to pay taxes or assessments upon any of the property acquired by it or under its jurisdiction, control, possession or supervision, or upon its activities in the operation and maintenance of any transit facility or upon any revenues therefrom, and the property and income derived therefrom shall be exempted from all federal, state, District of Columbia, municipal, and local taxation. This exemption shall include without limitation, all motor vehicle license fees, sales taxes and motor fuel taxes."

- (b) It has been the practice of the District of Columbia to apply the Authority's tax exempt status to certain purchases of materials required under Authority construction contracts and acquired by contractors for physical incorporation into the project work. This has not been the practice in either Maryland or Virginia. The Authority does not represent or warrant that the District of Columbia practice applies to this Contract or, if it does, that it will continue in effect during its term. It is the responsibility of the Contractor to determine its liability for any and all taxes applicable to this Contract. Assessment or payment of taxes by the Contractor, including taxes resulting from changes in existing laws or the application thereof or of new or additional taxes, shall not constitute the basis for an increase in the Contract price, except as otherwise allowed under the Article, "FEDERAL, STATE AND LOCAL TAXES," of this Contract.
- (c) The Authority's tax exempt numbers are as follows: District of Columbia – 5611 0082187001; Maryland -- 30072210; Virginia -- 5280-0067
- (d) By submission of its proposal, the offeror certifies that none of the taxes to which the Authority is exempt are included in its cost proposal.

24. RESTRICTION ON DISCLOSURE AND USE OF DATA

The Authority shall provide all reasonable precautions to ensure that proprietary, technical and pricing information remains within the review process. Offerors shall attach to any proprietary data submitted with the proposal the following legend:

- (a) "The data furnished pursuant to this RFP shall not be disclosed outside the Authority, be duplicated, or used, in whole or in part, for any purpose other than to evaluate the offer. If a contract is awarded on the basis of that offer, the Authority shall have the right to duplicate, use, and disclose this data, in any manner and for any purpose whatsoever."
- (b) This information does not limit the Authority's right to use information contained in this data, if it is or has been obtained by the Authority from another independent, legitimate source.

- (c) Except for the foregoing limitation, the Authority may duplicate, use, and disclose in any manner and for any purpose whatsoever all data furnished in response to this solicitation and have others do so on its behalf.

25. ENGLISH LANGUAGE AND UNITED STATES CURRENCY

With respect to both this Solicitation and the resultant contract:

- (b) All pricing shall be in United States dollars.

26. BRAND NAME OR EQUAL – N/A

27. MINIMUM PROPOSAL ACCEPTANCE PERIOD

2. ARRANGEMENT OF CONTRACTUAL PROVISIONS

1. PERIOD OF PERFORMANCE

The period of performance is two (2) years commencing on the date of award. If there are any remaining 1000 or 4000 series railcars to be picked up and disposed of at the end of the two (2) year base period, then the Contract shall be extended up to two (2) additional years at no cost to the Authority at the sole discretion of WMATA's Contracting Officer to allow for completion of the services, subject to all terms and conditions herein.

The Authority may exercise the option(s) by written notice to the Contractor prior to commencement of the option period. The Authority shall give the Contractor a preliminary notice of its intent to extend at least thirty (30) days before the contract expires. The preliminary notice does not commit the Authority to an extension.

2. LIQUIDATED DAMAGES FOR DELAY – N/A

3. EXTENSIONS OF TIME/FORCE MAJEURE

- (a) For purposes of this article, the term "force majeure" shall mean an unforeseen event or circumstance, beyond the control of, and not occasioned by the fault or neglect of, the Contractor (including subcontractors at any tier) or the Authority, which event gives rise to a delay in the progress or completion of the Contract, including, without limitation, acts of God, acts of war or insurrection, unusually severe weather, fires, floods, strikes, freight embargoes or other events or circumstances of like nature.
- (b) If the Contractor is delayed at any time during the progress of the work by the neglect or failure of the Authority or by a force majeure event, then the time for completion and/or affected delivery date(s) shall be extended by the Contracting Officer, under the following circumstances:
 - (1) The cause of the delay arises after the award of the Contract and neither was nor could have been anticipated by the Contractor by reasonable investigation before such award;
 - (2) The Contractor demonstrates to the Contracting Officer that the completion of the work and/or affected delivery/(ies) will be actually and necessarily delayed;
 - (3) The delay cannot be avoided or mitigated by the exercise of all precautions, efforts and measures reasonably available to the Contractor, whether before or after the occurrence of the cause of delay; and
 - (4) The Contractor makes written request and provides other information to the Contracting Officer as described in paragraph (f) below.
- (c) In the event the Contractor will be delayed at any time or for any period by two (2) or more of the above-mentioned causes in this Article, the Contractor shall not be entitled to a separate extension for each one of the causes but only shall be entitled to one period of extension for the cumulative effects of the delay.

- (d) The Contracting Officer may rescind or shorten any extension previously granted, if the Contracting Officer subsequently determines that any information provided by the Contractor in support of a request for an extension of time was erroneous if such accurate information, if known, would have resulted in a denial of the request for an excusable delay. Notwithstanding the foregoing, the Contracting Officer will not rescind or shorten any extension previously granted if the Contractor acted in reliance upon the granting of such extension and if, in the judgment of the Contracting Officer, such extension was based on information that, although later found to have been erroneous, was submitted in good faith by the Contractor.
- (e) The request for an extension of time pursuant to paragraph (a) shall be made within ten (10) days after the Contractor knows or should know any cause for which it may claim an excusable delay and shall provide any actual or potential basis for an extension of time, identifying such cause and describing, as fully as then practicable, the nature and projected duration of the delay and its effect on the completion of that part of the work identified in the request. Within thirty (30) days of its receipt of all such information, the Authority shall advise the Contractor of its decision on such requested extension. Where it is not reasonably practicable for the Authority to render such decision in the thirty (30) day period, it shall, prior to the expiration of such period, advise the Contractor that it will require additional time and state the approximate date upon which it expects to render such decision.
- (f) In no event shall a delay in progress or performance of the work occasioned solely by a force majeure event or the acts or omissions of any party outside the control of the Contractor be the basis for a Termination for Default pursuant to this Contract. In no event shall a subcontractor at any tier be deemed a party outside the control of the Contractor for purposes hereof.

4. AUTHORITY DELAY OF WORK

- (a) If the performance of all or any part of the work is delayed or interrupted in a material manner or extent by an act or omission of the Authority in the administration of this Contract, which act or omission is not expressly or impliedly authorized by this Contract or by applicable provisions of law, an adjustment (excluding profit) shall be made for any increase in the cost of performance of this Contract caused by such delay or interruption and the Contract modified in writing accordingly. Adjustment shall be made also in the delivery or performance dates and any other contractual provision, as to which compliance was materially affected by such delay or interruption. However, no adjustment shall be made under this Article or otherwise under this Contract for any delay or interruption to the extent that performance was or would have been delayed or interrupted by any other cause, including, without limitation: (i) the fault or negligence of the Contractor or any subcontractor; (ii) the fault or negligence of a third party to the Contract; (iii) an act constituting a force majeure event pursuant to this Contract ; or (iv) any other cause for which an adjustment is provided or excluded under any other provision of this Contract or otherwise at law or in equity.

- (b) An adjustment pursuant to paragraph (a) shall not be allowed:
 - (1) for any costs incurred more than twenty (20) days before the Contractor notifies the Contracting Officer in writing of the applicable act or omission claimed; and
 - (2) Unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the delay or interruption, and in no event later than thirty (30) days after such termination. Such claim shall be accompanied by appropriate documentation, specifically identifying and supporting the nature and extent of the claimed impact upon the cost and/or time required for performance. In any instance in which it is not reasonably practical for the Contractor to fully determine or project such impact within such thirty (30) day period, the claim shall be accompanied by such supporting documentation as is then reasonably available to the Contractor as well as a statement of the anticipated time frame in which the Contractor expects to provide the additional materials. The Contracting Officer shall maintain the right throughout the process to request the preparation and/or submission of such additional materials as he or she shall reasonably require in consideration of the claim and shall be under no obligation to conclude his or her consideration of the claim prior to receipt and review of all relevant materials. Any adjustment to the contract price pursuant to this Article must be agreed upon or otherwise determined prior to final payment

5. NOTICE TO THE AUTHORITY OF LABOR DISPUTES

- (a) Whenever the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this Contract, the Contractor shall immediately give notice thereof, including all relevant information with respect thereto, to the Contracting Officer.
- (b) The Contractor agrees to insert the substance of this Article, including this paragraph (b), in any subcontract hereunder if a labor dispute may delay the timely performance of this Contract.

CHAPTER III – ACCEPTANCE/INSPECTIONS/DEFICIENCIES

1. INSPECTION OF SERVICES

- (a) The Contractor shall provide and maintain an inspection system acceptable to the Authority covering the services under this Contract. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the Authority during Contract performance and in the manner and in accordance with the time periods set forth in the provisions of the “Audit And Inspection Of Records” article of this Contract.
- (b) The Authority has the right to inspect all services called for by this Contract, at all times and places reasonably practicable during the term of this Contract. The Authority shall perform inspection in a manner that will not unduly delay the work.
- (c) If the Authority performs inspections on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, without cost, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.
- (d) If any of the Services performed do not conform to contract requirements, the Authority may require the Contractor to perform the Services again in conformity with contract requirements, without additional cost. When the defects in performance cannot reasonably be corrected by such further performance, the Authority may:
 - (1) Direct the Contractor to take necessary action to ensure that future performance conforms to contract requirements; and/or
 - (2) Reduce the contract price to reflect the reduced value of the services performed.
- (e) If the Contractor fails to comply with the provisions of paragraph (d), the Authority may:
 - (1) By contract or otherwise, perform the services and charge to the Contractor any cost thereby incurred by the Authority; and/ or
 - (2) In the event that the Contracting Officer deems such failure to comply a material breach, terminate the Contract..
- (f) Nothing contained herein shall be deemed to preclude the Contracting Officer from implementing a price reduction arising from the reduced value to the Authority of Services ultimately corrected in conformity with the contract requirements for the period of their non-conformity.

3. **ACCEPTANCE OF SUPPLIES – N/A**
4. **NEW MATERIAL [SUPPLIES] – N/A**
5. **CORRECTION OF DEFICIENCIES & WARRANTY - N/A**

The Contractor shall be responsible for quality assurance and for assuring that the work conforms to the Contract's requirements. The Contractor shall maintain an effective and economical quality control program planned developed in conjunction with other Contractor functions necessary to satisfy the Contract requirements. The quality control program shall establish and implement procedures to ensure that only acceptable services are tendered to the Authority for acceptance, and shall demonstrate both recognition of the quality requirements of the Contract, and an organized approach to satisfy these requirements. The program shall ensure that quality requirements are determined and satisfied throughout all phases of Contract performance.

CHAPTER IV—CHANGES/ PRICING ADJUSTMENTS

1. CHANGE ORDERS

- (a) The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, direct and implement change orders, within the general scope of this Contract, including but not limited to one or more of the following:
 - (1) Nature and/or extent of services to be performed or supplies to be furnished;
 - (2) Time of performance (i.e., hours of the day, days of the week, etc.); or
 - (3) Place of performance of the services.
- (b) If, in the judgment of the Contracting Officer or as otherwise determined, any such change causes an increase or decrease in the cost of, or the time required for, the performance of any part of the work under this Contract, whether or not directly changed by the order, the Contracting Officer shall make an equitable adjustment in the Contract price, the delivery schedule, or both, and shall modify the Contract accordingly.
- (c) In any instance where the Contractor asserts a right to an adjustment in the Contract price or time required for performance as the result of a change directed pursuant to this Article, it must submit a written claim so advising the Authority within thirty (30) days from the date of receipt of the written order directing the change. The claim shall be accompanied by appropriate documentation, specifically identifying and supporting the nature and extent of the claimed impact upon the Contract price and/or time required for performance; except that, in any instance in which it is not reasonably practical for the Contractor to fully determine or project such impact within such thirty (30) day period, the claim shall be accompanied by such supporting documentation as is then reasonably available to the Contractor, as well as a statement of the anticipated time frame in which the Contractor expects to provide the additional materials. The Contracting Officer shall maintain the right throughout the process to request the preparation and/or submission of such additional materials as he or she shall reasonably require in consideration of the claim and shall be under no obligation to conclude his or her consideration of the claim prior to receipt and review of all relevant materials. Any adjustment to the Contract price pursuant to this article must be agreed upon or otherwise determined prior to final payment.
- (d) If the Contractor's proposed price adjustment includes the cost of property rendered obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of property disposition.
- (e) Failure to agree to the right of either party to any adjustment in price or time for performance as the result of a change implemented pursuant to this article shall be subject to adjudication in accordance with the "Disputes" article of this Contract. However, notwithstanding any such failure to agree and/or the pendency of any such dispute, the Contractor expressly acknowledges that it shall remain fully obligated to perform the Contract as so changed.
- (f) Notwithstanding any other provision of this Contract, the Contractor shall promptly notify the Contracting Officer of matters, whether implemented as a change order in

accordance with this article or otherwise, that the Contractor believes or asserts may reasonably result in either an increase or decrease in the Contract price or the time required for performance of any part of the work and shall take action with respect thereto as directed by the Contracting Officer. The Contractor's failure to provide such notification shall constitute a waiver of its right to seek an adjustment in the Contract price or time required for such performance.

- (g) Except to the extent, if any, otherwise expressly set forth in this Contract, in no event shall the Contractor be entitled to payment for change orders, additional or extra supplies or services or other modifications to any requirement or term of the Contract, unless it is authorized in writing by the Contracting Officer.

2. PRICING OF ADJUSTMENTS

- (a) The parties agree that, notwithstanding any interpretation of contract cost principles to the contrary, the Authority will not be liable for interest, however represented, on or as a part of any claim, request, bid or adjustment, including equitable adjustments, whether said claim, request, bid or adjustment, including equitable adjustments, arises under the Contract or otherwise.
- (b) As part of its proposed modification to this Contract requiring a price adjustment that increases or decreases the Contract price in excess of \$100,000, the Contractor shall submit to the Contracting Officer, either actually or by specific identification in writing, cost or pricing data under the conditions described in this paragraph and certify that, to the best of its knowledge and belief, the cost or pricing data submitted is accurate, complete and current as of the date submitted. The Contractor, at the discretion of the Contracting Officer, may be required to submit cost or pricing data for price adjustments less than \$100,000.
- (c) The Contractor shall ensure that the substantive terms of this article are included in all subcontracts at any tier if the value of the subcontracted work exceeds \$100,000.

3. ACCOUNTING AND RECORD KEEPING FOR ADJUSTMENTS

- (a) Applicability. This article shall apply to any adjustment in the price of this Contract initiated by the Contractor or the Authority
- (b) Forward Price Adjustments. Unless waived in writing in advance, the Contractor shall furnish to the Contracting Officer a proposed price adjustment in advance of performance of any work for which a price adjustment is requested. The Contractor shall generate such records as are necessary to substantiate all elements of the proposed adjustment, which records shall be specifically segregated and identified in the Contractor's accounting system as applying to the pricing adjustment request.
- (c) Post Price Adjustments. This paragraph shall be applicable with respect to price adjustments that either (i) are expected to exceed \$50,000; or (ii) regardless of the value of the adjustment, arise in connection with a Contract whose base sum is in excess of \$1,000,000. In addition to the records required pursuant to paragraph (b) above, in the event pricing of an adjustment under this Contract is not agreed upon between the Contractor and the Contracting Officer prior to the commencement of work for which the pricing adjustment is requested, the Contractor and any subcontractor engaged in work for which the pricing adjustment is requested, shall

maintain accounts and original cost records specifically segregated and identified by job order or other appropriate accounting categories approved by the Contracting Officer for all incurred, segregable costs related to the work for which the pricing adjustment is requested. The Contractor shall maintain accounts and records that segregate and account for the costs of all work associated with that part of the project for which the pricing adjustment is requested. The Contractor shall allocate the costs so accumulated between: (1) work required under the base Contract; (2) work requested to be reimbursed under the pricing adjustment; and (3) work claimed or determined to be related to other actual or proposed adjustments, including but not limited to, changes orders, differing site conditions, and the like. The accounts and records so established shall accumulate such costs under logical cost groups, such as material, labor, equipment, subcontracts, field overhead and the like. The Contractor shall record these costs on a form approved by the Contracting Officer.

- (e) Access to Records. As a condition to the Authority's obligation to consider any claim for a potential price adjustment under any provision of this Contract, the Contractor shall grant the Authority access to review and ascertain the validity of the accounting records being maintained for segregation of costs, including base cost records, and to audit any such costs as are deemed appropriate by the Contracting Officer.

- (f) Limitation on Pricing Adjustments. In the event the Contractor or any subcontractor fails to generate, maintain, or make available any records required under this Contract, in addition to any and all additional rights to which the Authority may be entitled, the Contracting Officer shall determine whether such failure is willful, deliberate or otherwise precipitated by bad faith on the part of the Contractor, in which case the Contractor shall not be entitled to any price adjustment for the work in question. Where the Contracting Officer determines that the failure was not the result of the Contractor's bad faith, the Contractor Officer shall determine the reasonable direct cost of the work for which records are not available, and add a single mark-up for indirect expenses not to exceed ten percent (10%) of the direct costs based on:
 - (1) An audit of any records of the Contractor or subcontractor made available to the Authority; and/or
 - (2) An Authority estimate as adopted or modified by the Contracting Officer.

- (g) In no event shall the Contractor and/or subcontractor be allowed any profit on claimed work for which records are not made available in accordance with its obligations under this article and otherwise in this Contract.

- (h) Flow-down clause. The Contractor shall ensure the inclusion of all the provisions of this article in all subcontracts issued under this Contract, modified as necessary, for proper identification of the contracting parties and the Contracting Officer.

CHAPTER V – INVOICES/PAYMENTS/ DEDUCTIONS

1. BILLING AND PAYMENT

- (a) The Authority shall pay and the Contractor shall accept the amounts set forth in the Price Schedule as full compensation for all costs and expenses of completing the work in accordance with the Contract, including, but not limited to, all labor and material required to be furnished under this Contract; all overhead, expenses, fees and profits including the cost of providing storage yards or facilities; all risks and obligations set forth in the Contract; any applicable fees or taxes; and all expenses due to any unforeseen difficulty encountered in the prosecution of the work.
- (b) Payments will be made following acceptance of the services to be provided under this Contract and after receipt and acceptance of a properly completed invoice. WMATA will accept the submittal of invoices in one of the following methods:

- (1) Email: Invoices may be submitted through email at: apinvoice@wmata.com. Please submit one invoice and supporting documentation per PDF attachment. You may submit more than one PDF attachment per email.

- (3) Regular Mail: Invoices may be submitted via U.S. Postal Service to the following address:

WMATA-Accounts Payable
PO Box 1910
Beltsville, MD 20704-1910

Note: This address is only for vendor invoices. Correspondence should not be sent to this address.

- (c) Invoices shall contain the vendor's name, a unique invoice number for each shipment or service, invoice date, payment terms, total invoice amount, "remit to" address, purchase order number, freight terms, description of each item being invoiced, quantity, unit item cost, extended cost by item, total freight/handling costs, contact name and email address. Final invoices must clearly be marked "FINAL" and cite the amount of the contract, amount previously paid, and the balance due.
- (d) The Authority shall remit payment, generally within thirty (30) days of its receipt of an invoice satisfying the requirements of paragraphs (b) and (c), at the prices stated in the Contract for supplies or services accepted, less any applicable deductions.

2. PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA – MODIFICATIONS

With respect to any modification, change order, or otherwise, to this Contract that involves aggregate increases and/or decreases in costs plus applicable profit in excess of \$100,000, in the event that the Contracting Officer ultimately determines that any price, including profit or fee, previously negotiated in connection with any such modification was based upon the Contractor's cost or pricing data (including any prospective or actual subcontractor at any tier) that was not complete, accurate or current, such that the amount paid to the Contractor for such price adjustment was greater than the amount that the Contractor would have been entitled based upon the submission of accurate and complete data, the Authority shall be entitled to an adjustment in an amount equal to such overpayment. The Authority's rights hereunder shall be in addition to any other or additional rights it may have under this Contract, at law, in equity or otherwise.

3. SUBCONTRACTOR PAYMENTS

- (a) The Contractor shall, under this Contract, establish procedures to ensure timely payment of amounts due pursuant to the terms of its subcontracts. The Contractor shall pay each subcontractor for satisfactory performance of its contract, or any billable portion thereof, no later than ten (10) days from the date of the Contractor's receipt of payment from the Authority for work by that subcontractor. The Contractor shall also release, within ten (10) days of satisfactory completion of all work required by the subcontractor, any retention withheld from the subcontractor.
- (b) The Contractor shall certify on each payment request to the Authority that payment has been or will be made to all subcontractors in accordance with paragraph (a) above for payments by the Authority to the Contractor. The Contractor shall notify the Contracting Officer or other delegated Authority representative with each payment request, of any situation in which scheduled subcontractor payments have not been made.
- (c) In the event of a claim by any subcontractor that the Contractor has failed to comply with the terms of this article, the Contractor agrees to fully cooperate in any Authority investigation, and, if deemed appropriate by the Authority, to implement appropriate remedial measures to ensure future compliance.
- (d) The Contractor agrees that the Authority may provide information that the Contracting Officer deems appropriate in response to inquiries from subcontractors seeking to determine the status of Authority payments to the Contractor.
- (e) Nothing contained in this article or elsewhere in this Contract is intended nor shall be deemed to create a contractual relationship between the Authority and any subcontractor, to make the subcontractor an intended beneficiary of this Contract or to alter or affect traditional concepts of privity of contract.

4. GARNISHMENT OF PAYMENTS

Payment under this Contract shall be subject to any garnishment, attachment orders, and or levies issued pursuant to the laws of the United States, Maryland, Virginia, and the District of Columbia.

CHAPTER VI – CONTRACT TERMINATION/STOP WORK ORDERS/DISPUTES

1. STOP WORK ORDERS

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part of the work for a period of up to ninety (90) days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a Stop Work Order (“SWO”) issued under this article. Upon receipt of the SWO, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the SWO during the period of work stoppage. Within a period of ninety (90) days after an SWO is delivered to the Contractor, or within any extension of that period to which the parties agree, the Contracting Officer shall either:
 - (1) Cancel the SWO; or
 - (2) Terminate the work covered by the SWO as provided in the “Termination For Default” or “Termination For Convenience” articles of this Contract, as appropriate.

- (b) If a SWO is cancelled or its initial period or any extension thereof expires, the Contractor shall resume work. An equitable adjustment shall be made in the delivery schedule or Contract price, or both, and the Contract modified in writing accordingly, if, in the judgment of the Contracting Officer or as otherwise determined:
 - (1) The SWO results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this Contract; and
 - (2) The Contractor submits a written claim for such adjustment within thirty (30) days after the end of the period of work stoppage. At the sole discretion of the Contracting Officer, the Authority may elect to consider any claim submitted at any time before final payment under this Contract.

- (c) If an SWO is not cancelled and the work covered by the Contract is terminated for the convenience of the Authority, the Contracting Officer shall allow reasonable costs, if any, resulting from the SWO in arriving at the termination settlement pursuant to the provisions of the “Termination for Convenience” article of this Contract.

- (d) If an SWO is not cancelled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the SWO. If the Contracting Officer determines that the SWO was precipitated by, or arose from, the Contractor's material breach of any term or condition of this Contract, such costs shall not be allowed and the rights and obligations of the parties shall be subject in all respects to the “Termination for Default” article of this Contract.

2. TERMINATION FOR DEFAULT

- (a) The Contractor shall be in default if it commits a breach of any of its obligations under the Contract deemed material by the Contracting Officer. Without limiting the generality of the foregoing and in addition to those instances specifically referred to in this Contract, the Contractor shall be in default in the following circumstances:
 - (1) It fails to begin, or abandons, the work of the Contract in accordance with the contractual requirements;
 - (2) It fails to deliver the supplies or perform the services within the time specified in the Contract or any extension approved by the Contracting Officer;
 - (3) It fails to progress the work in a manner deemed unreasonable or unnecessary by the Contracting Officer so as to endanger performance of the Contract; or
 - (4) In the view of the Contracting Officer, the Contractor is willfully violating any of the provisions or obligations of the Contract or is not executing such provisions or obligations reasonably and in good faith.

- (b) In the event of a material breach by the Contractor pursuant to paragraph (a), the Contracting Officer is authorized to direct a written notice to the Contractor, specifying the nature of the breach and providing that, if the Contractor fails to cure such failure(s) within ten (10) days (or such additional time as authorized by the Contracting Officer), the Authority shall proceed to terminate the Contract, in whole or designated part, for default in accordance with the provisions hereof (a "Notice to Cure"). Should the Contractor fail to cure the breach to the satisfaction of the Contracting Officer within the ten (10) day period, or such additional period as may be designated in the Notice to Cure, the Authority may thereupon, immediately upon conclusion of such period or at any reasonable time thereafter, terminate the Contract, in whole or part, by written notice to the Contractor.

- (c) Upon receipt of a Notice of Default, the Contractor shall immediately cease performance of the work so terminated. The Authority shall thereupon have the right to take any action necessary to complete the work, including performing the work itself, or contracting with another party to do so. In the event the work is completed directly by the Authority or by a third party, the Contractor shall be liable for the additional costs and expenses necessary to complete the work, including, without limitation, labor, materials, plant, tools, equipment, supplies and property. The costs and expenses so charged may be deducted by the Authority and paid out of any monies otherwise payable to the Contractor. Nothing contained herein shall be deemed to relieve the Contractor of its continuing obligation to perform any portion of the Contract that has not been terminated.

- (d) The Authority may, in its sole discretion, waive a default by the Contractor, but such waiver and/or failure by the Authority to take action with respect to any default shall not be deemed a waiver of any subsequent default.

- (e) Upon any termination for default, the Authority may require the Contractor to transfer title and deliver to the Authority, as directed by the Contracting Officer of (1) any

completed or partially completed supplies, and (2) components (including data and intellectual property) and contract rights that the Contractor has specifically produced or acquired for the terminated portion of this Contract. Upon direction of the Contracting Officer, the Contractor shall also protect and preserve property in its possession in which the Authority has an interest.

- (f) Upon any termination for default, the Authority shall pay for completed supplies delivered and accepted in accordance with the terms of this Contract, as well as actions reasonably taken by the Contractor at the direction of the Contracting Officer for the protection and preservation of property. The Authority may withhold from these amounts any sum that the Contracting Officer determines to be necessary to protect the Authority against loss because of outstanding or claimed liens, or other pending or anticipated claims under the Contract.
- (g) If, at any time following the Authority's issuance of a termination for default hereunder, it is determined that the Contractor was not in default or that the default was excusable, the termination shall thereupon be deemed a termination for convenience and the rights and obligations of the parties shall be determined in accordance with the provisions of the "Termination For Convenience" article of this Contract.
- (h) Any dispute or failure of the parties to agree with respect to any issue arising under this article shall be subject to review and adjudication in accordance with the provisions of the "Disputes" article of this Contract. In no event shall the Authority's issuance of a Notice to Cure pursuant to paragraph (b) be the basis of a Dispute pursuant to the "Disputes" article or be otherwise subject to further review under this Contract or otherwise. Nor shall the pendency of any Dispute constitute a basis for the delay or suspension of, or otherwise affect, the right of the Authority to proceed in accordance with this article, including without limitation, its right to complete the work as above described, or the obligation of the Contractor to complete any portion of the work that has not been terminated.
- (i) The rights and remedies of the Authority in this article are in addition to any other rights and remedies provided by law, in equity or under this Contract.

3. TERMINATION FOR CONVENIENCE

- (a) The Authority may terminate performance of work under this Contract in whole, or in part, if the Contracting Officer determines that a termination is in the Authority's interest. The Contracting Officer shall terminate by delivering to the Contractor, a Notice of Termination specifying the extent of termination and the effective date.
- (b) Upon receipt of a Notice of Termination, except as otherwise directed by the Contracting Officer, the Contractor shall immediately proceed as follows:
 - (1) Stop work as specified in the Notice of Termination;
 - (2) Complete performance of the work not terminated;
 - (3) Place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete the remaining portion of the Contract;

- (4) Terminate all subcontracts to the extent that they relate to the work terminated;
 - (5) Assign to the Authority, as directed by the Contracting Officer, all of the Contractor's right(s), title, and interest(s) under the subcontracts terminated. In such event, the Authority shall have the right to settle or pay any termination costs arising out of the subcontracts and shall have no further liability to the Contractor in connection with the work that was the subject of such subcontracts;
 - (6) With approval of the Contracting Officer, settle all outstanding liabilities and settlement costs arising from the termination of subcontracts;
 - (7) As directed by the Contracting Officer, transfer title and deliver to the Authority:
 - (1) Parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated; and
 - (2) The completed or partially completed plans, drawings, information and other property that, if the Contract had been completed, would be required to be furnished to the Authority.
 - (8) Take any action that may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this Contract that is in the possession of the Contractor and in which the Authority has or may acquire an interest;
 - (9) Use its best efforts to sell, as directed or authorized by the Contracting Officer, any property of the types referred to in paragraph (b)(7). The Contractor (a) is not required to extend credit to any purchaser and (b) may acquire the property under the conditions prescribed by, and at prices approved by, the Contracting Officer. The proceeds of any transfer or disposition will be applied to reduce payments to be made by the Authority under this Contract, credited to the price or cost of the Work, or paid in any other manner directed by the Contracting Officer.
- (c) The Contractor shall submit complete termination inventory schedules not later than one hundred twenty (120) days from the effective date of termination, unless such time is extended in writing by the Contracting Officer.
- (d) As soon as reasonably practicable, and in any event not later than twenty (20) business days following the Authority's issuance of a Notice of Termination pursuant to paragraph (a), the Contractor shall submit a proposal to the Contracting Officer in the form he or she prescribes detailing the costs to which it asserts entitlement pursuant to this Article. If the Contractor fails to submit the proposal within the time prescribed, the Contracting Officer may determine, on the basis of information available, the amount, if any, due the Contractor as a result of the termination and shall pay the amount so determined.

- (e) Following submission of the Contractor's proposal pursuant to paragraph (d), the parties shall seek to agree upon the whole or any part of the amount to be paid or remaining to be paid as a result of the termination. The amount may include a reasonable allowance for profit on work completed. However, in no event shall the total amount to be paid the Contractor pursuant to this article exceed the total Contract price as reduced by (1) payments previously made and (2) the Contract price of the remaining work not terminated.

- (f) If the parties fail to agree on the whole amount to be paid because of the termination, the Contracting Officer shall determine the amounts and pay the Contractor as follows, but without duplication of any amounts agreed upon under paragraph (e):
 - (1) The contract price for completed supplies or services accepted by the Authority (or sold or acquired under paragraph (b)(9)) not previously paid for, adjusted for any saving of freight and other charges.

 - (2) The total of:
 - (i) The costs incurred prior to termination in the performance of the work terminated, including initial costs and preparatory expenses allocable thereto, but excluding any costs attributable to items compensated or to be paid for under subparagraph (f)(1);

 - (ii) The cost of settling and paying termination costs under terminated subcontracts that are properly chargeable to the terminated portion of the contract, if not excluded in subparagraph (f)(2)(i); and

 - (iii) A sum, representing profit on the items described in subparagraph (f)(2)(i) determined by the Contracting Officer to be fair and reasonable pursuant to Section 49.202 of the Federal Acquisition Regulation (FAR), in effect on the date of this Contract. However, if it appears that the Contractor would have sustained a loss on the entire Contract had it been completed, the Contracting Officer shall allow no profit under this subparagraph and shall reduce the settlement to reflect the projected rate of loss.

 - (3) The reasonable indirect costs of settlement of the work terminated, including:
 - (i) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposal(s);

 - (ii) The termination and settlement of subcontracts (excluding the amounts of such settlements); and

 - (iii) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory.

- (g) Except for normal spoilage, and except to the extent that the Authority expressly assumed the risk of loss, the Contracting Officer shall exclude from the amounts payable to the Contractor under paragraph (f), the fair value, as determined by the

Contracting Officer, of property that is unavailable or damaged so as to become undeliverable to the Authority or to a third party.

- (h) The cost principles and procedures of Part 31 of the FAR, in effect on the date of this Contract, shall govern all costs claimed, agreed to, or determined under this article.
- (i) The Contractor shall have the right of appeal, under the "Disputes" article, from any determination made by the Contracting Officer under paragraphs (d) or (f), except that a failure on the part of the Contractor to submit the termination settlement proposal within the time provided in paragraph (d), or to timely request an extension thereof, shall constitute a waiver of its right to appeal the Contracting Officer's determination pursuant to the "Disputes" article or any otherwise applicable contractual, legal or equitable remedy.
- (j) In determining any sum due to the Contractor under this article, there shall be deducted:
 - (1) All unliquidated advances or other payments to the Contractor under the terminated portion of the Contract;
 - (2) The value, as determined or reasonably projected by the Contracting Officer, of any claim that the Authority has against the Contractor under this Contract, including any third party claim, if the Contracting Officer is not satisfied that sufficient insurance coverage is in place; and
 - (3) The agreed price for, or the proceeds of sale of, materials, supplies, or other items procured by the Contractor or sold under the provisions of this article and not recovered by or credited to the Authority.
- (k) If the termination is partial and the Contractor asserts that the partial termination has rendered enforcement of the remainder of the Contract at the remaining Contract price inequitable, the Contractor may file a proposal with the Contracting Officer for an adjustment of the price(s) of the continued portion of the Contract within ninety (90) days from the effective date of termination, unless extended in writing by the Contracting Officer. Such proposal shall be accompanied by appropriate supporting documentation of the claimed inequity.
- (l) The Contractor's responsibilities and obligations under this article shall apply and remain in full force and effect notwithstanding the pendency of any dispute or other delay relating to determination of the appropriate price adjustment or any other issue arising from the termination for convenience.
- (m) Unless otherwise provided in this Contract or by statute, the Contractor and all subcontractors whose work is encompassed in the termination settlement shall maintain all records and documents relating to the terminated portion of this Contract for three (3) years after final settlement. This includes all books and other evidence bearing on the costs and expenses of the Contractor under this Contract. The Contractor shall make these records and documents available to the Authority, its governing jurisdictions and any other federal, state, or local entities providing funding for this Contract, and to the Comptroller General of the United States, or the agents or representatives of any of them, at the Contractor's office, at all reasonable times, without any direct charge.

4. ASSIGNMENT

- (a) Except as otherwise provided in this article, the Contractor shall not transfer any of its rights and obligations under this Contract to third parties without the prior consent of the Authority. The Authority may recognize a third party as successor in interest to the Contract in the event of a transfer of all or substantially all of the assets of the Contractor, a division of the Contractor involved in the performance of the Contract, or a parent company providing a performance guarantee under this Contract, (i.e., sales of assets, transfer of assets pursuant to merger or consolidation, or incorporation of a proprietorship or partnership). Such recognition of the transfer shall be within the discretion of the Contracting Officer after review of the facts and circumstances surrounding each request. At the discretion of the Contracting Officer, he or she may conduct an evaluation of the successor party's capability to perform the Contract in the same manner and to the same extent that he or she was empowered to conduct a responsibility determination as part of the original solicitation for this Contract. Should the Contracting Officer, for any reason, not recognize such a successor in interest, it may terminate this Contract.
- (b) The Contractor's attempt to transfer by assignment not authorized by the Contracting Officer shall constitute a material breach of this Contract and the Authority may terminate the Contract in accordance with the "Termination For Default" article set forth in this Contract.
- (c) Nothing contained herein shall be deemed to preclude the Contractor's assignment of claims for monies due or to be become due to the Contractor under this Contract to a bank, trust company or other financing institution, including any federal lending agency, upon written notice of such assignment to the Authority.

5. DISPUTES

- (a) Except as otherwise provided in this Contract, any dispute concerning a question of fact arising under or related to this Contract that is not disposed of by agreement, shall be decided by the Contracting Officer, who shall reduce his/her decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within thirty (30) calendar days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer, a written notice of appeal addressed to the Authority's Board of Directors. Such notice must indicate that an appeal is intended, must reference contract number and the Contracting Officer's final decision. The decision of the Board of Directors or its duly authorized representative for the determination of such appeals shall be final and conclusive, unless in proceedings initiated by either party for review of such decision in a court of competent jurisdiction, the court determines the decision to have been fraudulent, capricious, arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this article, the Contractor, or the Authority, as the case may be, shall be afforded an opportunity to be heard and offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of this Contract and in accordance with the Contracting Officer's decision. The Armed Services Board of Contract Appeals is the authorized representative of the Board of Directors for final decisions on an appeal.

- (b) This "Disputes" article does not preclude consideration of questions of law in connection with decisions provided for in paragraph (a), above. Nothing in the Contract, however, shall be construed as making final the decisions of the Board of Directors or its representative(s) on a question of law.

CHAPTER VII – INDEMNIFICATION/INSURANCE/RISK OF LOSS

1. INDEMNIFICATION

- (a) The Contractor shall indemnify, defend and hold harmless the Authority, its directors, officers, employees and agents, from all liabilities, obligations, damages, penalties, claims, costs, charges and expenses (including reasonable attorney's fees), of whatsoever kind and nature for injury, including personal injury or death of any person or persons, and for loss or damage to any property, including the property of the Contractor and the Authority, occurring in connection with, or in any way arising out of the use, occupancy and performance of the work and/or any acts, known or unknown, in connection with activities to be performed under this Contract, *unless* the loss or damage is due to the sole negligence of the Authority. Nothing in the preceding sentence shall be deemed to relieve the Contractor from ultimate liability for any obligation under this Contract.
- (b) The Contractor shall indemnify, defend and hold harmless the Authority, its directors, officers, employees and agents against any and all claims, liabilities, losses, demands, damages, penalties, costs, charges, remedial costs, environmental claims, fees or other expenses, including attorneys' fees, related to, arising from or attributable to any effluent or other hazardous waste, residue, contaminated soil or other similar material discharged from, removed from, or introduced on, about or under the job site, unless the loss or damage is due to the sole negligence of the Authority.
- (c) If any action or proceeding relating to indemnification required is brought against the Authority, then upon written notice from the Authority to the Contractor, it shall, at its own expense, resist or defend such action or proceeding by counsel approved by the Authority in writing. No approval of counsel shall be required where the cause of action is resisted or defended by counsel of any insurance carrier obligated to resist or defend the same. The Authority reserves the right to use its own counsel, at the Authority's sole cost and expense without waiving or impairing the Contractor's right to indemnification hereunder.
- (d) The Contractor understands and agrees that it is Contractor's responsibility to provide indemnification to the Authority pursuant to this article. The provision of insurance, while anticipated to provide a funding source for this indemnification, is independent of this indemnification obligation. The failure of Contractor's insurance to fully fund any indemnification shall not relieve the Contractor of any obligation assumed under this indemnification.

The Contracting Officer will review the circumstances and the proposed mitigation plan and notify the Contractor accordingly, determining that: (1) no mitigation is required; (2) the conflict cannot be mitigated; or (3) the conflict can be mitigated and he or she accepts the proposed measures, or recommends other and/or additional measures.

 - (1) The Contractor, in performing this Contract, shall avoid any conduct that might result in or give the appearance of creating for directors, officers, or employees of the Authority in their relationship with the Contractor, any conflicts of interest or favoritism and/or the appearance thereof and shall avoid any conduct that might result in a director, officer, or employee failing to adhere to the Standards of Conduct adopted by the Authority's Board of Directors.

- (b) In the event that it is **finally determined** by a court of competent jurisdiction that any statement, claim, submission, or certification made by or on behalf of the Contractor pursuant to a material element of the Contract was knowingly false, fictitious or

fraudulent, the Authority shall be entitled to recover from the Contractor an amount equal to not more than three times the monetary value of the benefit derived or sought to be derived by the Contractor through its false statement, claim or submission. For purposes hereof, an element of the Contract shall be deemed material if it impacted or could reasonably have been intended to impact the disposition of any claim, dispute, proposed or implemented Change Order, proposed pricing or schedule adjustment of any nature, or other substantive issue directly affecting the rights of the parties under the Contract. ***NOTICE OF REQUIREMENTS
FOR
SMALL BUSINESS & LOCAL PREFERENCE PROGRAM (SBLPP)***

May 2015

~Applies only to contracts involving jurisdictional (operating) funds only.

SMALL BUSINESS LOCAL PREFERENCE PROGRAM (SBLPP)

SMALL BUSINESS LOCAL PREFERENCE PROGRAM (SBLPP)

Applicable in contracts involving jurisdictional (operating) funds only.

SMALL BUSINESS AND LOCAL PREFERENCE POLICY

It is the policy of the Authority to provide maximum practicable competition opportunities in its non-federal simplified acquisitions to Small Local Businesses and to encourage participation of such businesses on all other contract actions. The Authority's Contracting Officer or its designated representative shall identify in the solicitation whether the preference is for a "Small Local Business".

DEFINITIONS

To participate in SBLPP a business must be a small business and a local business.

- (a) *"Local Business"* means a firm that self-certifies its principle business office is located in the District of Columbia, State of Maryland, or Commonwealth of Virginia.
- (b) *"Small Business"* means a firm that is a Local Business and self-certifies that it is a small business, as defined by the U.S. Small Business Administration.
- (c) *"Simplified Acquisitions"* Applies to non-federal procurements up to the simplified acquisition threshold of \$150,000.00. The Authority will obtain quotes from a minimum of three Small Local Businesses registered in the Authority's SBLPP Directory and matched with the solicitation requirements. If fewer than three quotes from Small Local Businesses are obtained, the Authority will obtain quotes from Local Businesses in the Authority's vendor database.
- (d) *"Contracts Above the Simplified Acquisition Threshold"* Applies to non-federal procurements above the simplified acquisition threshold, participation by Small Local Businesses is encouraged. The procedures used to encourage participation for simplified acquisitions are also applied to these higher value contracts when practicable.

If the Authority's contracting personnel are unable to identify a minimum of three Small Local Businesses or Local Businesses, then the solicitation may be opened to other sources.

CERTIFICATION

- (a) The firm must be certified as a SBLPP before the solicitation process. The firm will send its affidavit to the Small Business Coordinator of the WMATA DBE Program Office.
- (b) The firm must be certified in Material Category Code (MCC) located on the wmata.com website or the North American Industry Classification System (NAICS) Code(s) located at the www.census.gov website, that is/are the primary activities of the business and ensuring the MCC or NAICS Code(s) have been approved by WMATA Small Business Coordinator.
- (c) Certification may be extended due to business necessity, as determined by the Authority, if certification is lost during the period of performance of the contract.

EVALUATION REQUIREMENTS

- (a) When a Small Local Business is competing, contracting personnel shall add a factor of five percent to the quotes or bids received from any firms that are not Small Local Businesses. The five percent factor shall only be added to the quote or bid for evaluation purposes. It shall not be added to the actual price reflected on any purchase order or contract.
- (b) The evaluation of quotes or bids may occur on a line item basis, groups of line items, or for the total value of the procurement, as appropriate by procurement. If individual line items are not easily separable without compromising the integrity of the total requirement or the cost effectiveness of the solicitation, then evaluation should occur for the total value of the procurement.
- (c) If a tie occurs between bids from a Small Local Business and a firm that is not a Small Local Business, the award should be made to the Small Local Business. If a tie occurs between bids from a Local Business and a firm that is not a Local Business, the award should be made to the Local Business.
- (d) Determinations of price fairness and reasonableness will be made inclusive of the five percent factor, if applicable. A procurement action shall not be awarded if the cost to the Authority exceeds the fair market price, and the price cannot be determined to be fair and reasonable.

APPENDIX C

SMALL BUSINESS & LOCAL PREFERENCE PROGRAM (SBLPP)

1. SMALL BUSINESS & LOCAL PREFERENCE PROGRAM (SBLPP) REQUIREMENT:

The requirements of the Authority's SBLPP policy and procedures shall apply to this contract. Accordingly, the Contractor shall carry out the requirements of the Authority's Procurement Procedures Manual and this Appendix in the performance of this non-federally funded contract.

2. POLICY:

The Washington Metropolitan Area Transit (WMATA) Board of Directors approved and adopted Resolution #2005-45 in May 2003 for the implementation of the Small Business and Local Preference Program (SBLPP) and its amended requirements on April 23, 2011. The Board mandated that the program provide small businesses located in the District of Columbia, the State of Maryland, and the Commonwealth of Virginia be given an opportunity to compete for non-federally funded procurement actions. WMATA is committed to ensuring that prime contractors utilize WMATA self-certified businesses in the implementation of procurement opportunities below and above the simplified acquisition threshold. In project activities to be conducted by a prime contractor and subcontractor(s), the Contractor hereby agrees to carry out this policy in the award and administration of subcontracts to the fullest extent possible consistent with efficient Contract performance.

3. CONTRACT GOAL:

- A. If the proposer is not an SBLPP, the proposer agrees that the SBLPP goal for this Contract shall be met by SBLPP subcontractors or by joint ventures with SBLPPs. The goal set forth for this Contract is _____% of the final Contract price, including amendment and modification. The amount of SBLPP participation will be determined by the dollar value of the work performed and/or supplies furnished by SBLPP firms as compared to the total value of all work performed and/or supplies furnished under this Contract. The Contractor shall have met this goal if the Contractor's SBLPP participation meets or exceeds this goal.
- B. In cases where work is added to the Contract by modification such that additional SBLPP participation is necessary to meet this goal, the Contractor shall increase the participation of one or more firms listed on the "Schedule of SBLPP Participation" (Attachment 1) or submit additional SBLPP certified firms to meet the goal. In cases where work is deleted from the Contract, the goal shall be applicable to the new Contract amount. The Contractor shall be permitted to meet the goal by revising its SBLPP participation, provided, however, that the revision shall not result in SBLPP participation that is less than the original goal.

4. DEFINITIONS:

- A. **Appendix C.** The Notice of Requirements for Small Business and Local Preference Program (SBLPP), which when attached to a solicitation, implements the requirements of the Authority's SBLPP policies and procedures in the award and administration of operating funded Authority contracts.
- B. **Certified SBLPP.** Is a for-profit small business concern, whose eligibility is evidenced by a current SBLPP certification letter issued by WMATA's Disadvantaged Business Enterprise Office.

- C. **Contractor.** One who participates, through a contract or subcontract (at any tier), in a jurisdictional (operating) funded requirement.
- D. **Commercially Useful Function (CUF).** An SBLPP performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a commercially useful function, the SBLPP must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an SBLPP is performing a commercially useful function, the Authority will consider the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing.

- (1) An SBLPP does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of SBLPP participation.
- (2) If an SBLPP does not perform or exercise responsibility for at least 51 percent of the total cost of its contract with its own work force, or if the SBLPP subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work, the Authority will presume that the SBLPP is not performing a commercially useful function.

The following factors will be used by the Authority in determining whether an SBLPP trucking company is performing a commercial useful function:

- (1) The SBLPP must be responsible for the management and supervision of the entire trucking operation for which it is responsible for on a particular contract.
 - (2) The SBLPP must itself own and operate at least one fully licensed, insured and operational truck used on the contract.
 - (3) The SBLPP may lease trucks from another SBLPP firm, including an owner-operator who is certified as an SBLPP.
 - (4) The SBLPP may also lease trucks from a non-SBLPP firm, including an owner-operator. The SBLPP who leases trucks from a non-SBLPP is entitled to credit only for the fee or commission it receives as a result of the lease arrangement.
 - (5) The lease must indicate that the SBLPP has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the terms of the lease with the consent of the SBLPP, so long as the lease gives the SBLPP absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the SBLPP.
- E. **Good Faith Efforts.** Efforts to achieve an SBLPP goal or other requirements of the Authority's SBLPP Program which by their scope, intensity, and appropriateness to the objective, can reasonably be expected to fulfill the goal program requirement.
- F. **Joint Venture.** An association of an SBLPP firm and one or more other firms to carry out a single, for-profit business enterprise, for which the parties combine their property, capital,

efforts, skills and knowledge, and in which the SBLPP is responsible for a distinct, clearly defined portion of the work of the contract and shares in the capital contribution, control, management, risks, and profits of the joint venture commensurate with its ownership interest.

- G. **Small Business Concern.** With respect to firms seeking to participate as SBLPP's, a small business concern as defined pursuant to Section 3 of the Small Business Act and Small Business Administration implementing regulations (13 CFR Part 121).
- H. **WMATA.** Washington Metropolitan Area Transit Authority, the transit system (rail and bus) serving the metropolitan Washington area, including parts of Virginia and Maryland.

5. HOW SBLPP PARTICIPATION IS COUNTED TOWARDS THE CONTRACT GOAL:

SBLPP participation shall be counted towards meeting the SBLPP goal in accordance with the following:

- A. When an SBLPP participates in a contract, only the value of the work actually performed by the SBLPP is counted towards the SBLPP goal.
 - (1) This amount includes the entire amount of that portion of a construction contract that is performed by the SBLPP's own forces. This amount includes the cost of supplies and materials obtained by the SBLPP for the work of the contract, including supplies purchased or equipment leased by the SBLPP (except supplies and equipment the SBLPP subcontractor purchases or leases from the prime contractor or its affiliate).
 - (2) This amount includes the entire amount of fees or commissions charged by an SBLPP firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of the contract, towards the SBLPP goal, provided the fee is reasonable and not excessive as compared with fees customarily allowed for similar services.
 - (3) When an SBLPP subcontracts part of its work under the contract to another firm, the value of the subcontract work may be counted towards the SBLPP goal only if the SBLPP's subcontractor is itself an SBLPP. Work that an SBLPP subcontracts to a non-SBLPP firm does not count towards the SBLPP goal.
- B. When an SBLPP performs as a participant in a joint venture, the portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that an SBLPP performs with its own forces towards the SBLPP goal may be counted.
- C. Expenditures to an SBLPP contractor towards the SBLPP goal may be counted only if the SBLPP is performing a commercially useful function on that contract.
 - (1) An SBLPP performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a commercially useful function, the SBLPP must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an SBLPP is performing a commercially useful function, the Authority will consider the amount of work

- subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the SBLPP credit claimed for its performance of the work, and other relevant factors.
- (2) An SBLPP does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of SBLPP participation.
 - (3) If a SBLPP does not perform or exercise responsibility for at least 30 percent of the total cost of its contract with its own work force, or if the SBLPP subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work, the Authority will presume that the SBLPP is not performing a commercially useful function.

The following factors will be used to count expenditures with SBLPPs for materials or supplies:

- (1) If the materials or supplies are obtained from a SBE manufacturer, 100 percent of the cost of the materials or supplies will be counted towards the SBE. A manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract and of the general character described by the contract.
- (2) If the materials or supplies are purchased from an SBE regular dealer, 60 percent of the cost of the materials or supplies will be counted towards the SBE. A regular dealer is a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described and required under the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. To be a regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question. A person may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone or asphalt without owning, operating, or maintaining a place of business as provided in this paragraph if this person both owns and operates distribution equipment for the products. Any supplementing of regular dealers' own distribution equipment shall be by long-term lease agreement and not on an ad hoc or contract-by-contract basis. Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not regular dealers within the meaning of this paragraph.
- (3) With respect to materials or supplies purchased from a non-SBLPP, the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials and supplies required on a job site, may be counted towards the SBLPP, provided the fees are reasonable and are not excessive as compared with fees customarily allowed for similar services. The cost of the materials and supplies themselves may not be counted towards the SBLPP.

6. BIDDER/PROPOSAL REQUIREMENTS (WITH THE BID/PROPOSAL):

The bidder/proposer shall submit the following with its bid/proposal. Any bidder/proposer who fails to complete and return this information with its bid/proposal shall be deemed to be not responsive and may be ineligible for contract award. Bidders/Proposers that fail to meet the SBLPP goal above and fail to demonstrate "good faith efforts" to justify waiver of the SBLPP goal (see

paragraph 6.C. below) shall be deemed to be not responsible and will be ineligible for Contract award.

- A. Completed "Schedule of SBLPP Participation" (Attachment 1) sufficient to meet the above goal. If the bidder/proposer is an SBLPP firm and intends to satisfy the appropriate SBLPP requirement with its own firm, it must indicate in the Schedule the area of work and percentage it will perform to satisfy the goal. All bidders/proposers must attach current WMATA SBLPP certification letters for each SBLPP listed on the Schedule.
- B. Executed "Letters of Intent to Perform as a Subcontractor/Joint Venture" (Attachment 2). If the proposer is not an SBLPP or intends to satisfy the requirements through other SBLPP firms, then it must attach these letters from each certified SBLPP listed on the Schedule.
- C. Justification for grant of relief (Appendix C waiver of SBLPP goal). If in the submittal of its bid/proposal, the bidder/proposer fails to meet the SBLPP goal above, the bidder/proposer has the burden of furnishing sufficient documentation with its bid/proposal of its "good faith efforts" to justify a grant of relief (waiver) from the goal or portion of the goal. Such justification shall be in the form of a detailed report. The following is a list of actions which shall be considered as part of the bidder's/proposer's good faith efforts to obtain SBLPP participation. This list is neither a mandatory checklist nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases:
 - (1) Soliciting through all reasonable and available means (e.g. attendance at pre-proposal meetings, advertising and/or written notices) the interest of all certified SBLPPs who have the capability to perform the work of the contract. The bidder/proposer must solicit this interest within sufficient time to allow the SBLPPs to respond to the solicitation. The proposer must determine with certainty if the SBLPPs are interested by taking appropriate steps to follow up initial solicitations.
 - (2) Selecting portions of the work to be performed by SBLPPs in order to increase the likelihood that the SBLPP goal will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate SBLPP participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.
 - (3) Providing interested SBLPPs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
 - (4) Negotiating in good faith with interested SBLPPs. It is the bidder's/proposer's responsibility to make a portion of the work available to SBLPP subcontractors and suppliers and to select those portions of the work or material needs consistent with the available SBLPP subcontractors and suppliers, so as to facilitate SBLPP participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of SBLPPs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for SBLPPs to perform the work. "SBLPP Unavailability Certifications" (Attachment 3) shall be completed as appropriate.

A bidder/proposer using good business judgment would consider a number of factors in negotiating with subcontractors, including SBLPP subcontractors, and would take a firm's price and capabilities as well as the contract goal into

consideration. However, the fact that there may be some additional costs involved in finding and using SBLPPs is not in itself sufficient reason for a proposer's failure to meet the contract SBLPP goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the proposer of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from SBLPPs if the price difference is excessive or unreasonable.

- (5) Not rejecting SBLPPs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of proposals in the contractor's efforts to meet the project goal.
- (6) Making efforts to assist interested SBLPPs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.
- (7) Making efforts to assist interested SBLPPs in obtaining necessary equipment, supplies, materials, or related assistance or services.
- (8) Effectively using the services of available state, and Federal small business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of SBLPPs.

7. PROPOSAL REQUIREMENTS (APPARENT SUCCESSFUL BIDDER/PROPOSER):

The proposer shall submit the following items within ten (10) calendar days after notification that they are the apparent successful proposer:

- A. A copy of a current SBLPP certification letter shall be attached to evidence SBLPP pre-certification. All SBLPP firms must be pre-certified. Participation by a firm that is not currently certified as an SBLPP by the Authority at the time of the due date for offers on a contract, does not count.
- B. SBLPP Manufacturer's Affidavit (Attachment 4), if applicable, must be submitted in order to receive 100 percent of the allowable credit for expenditures to SBLPP manufacturers/suppliers.
- C. SBLPP Information for Determining Joint Venture Eligibility (Attachment 5), if applicable, shall be signed by all parties, dated and notarized.
- D. Copy of Joint Venture Agreement, if applicable. Submittal shall be signed by all parties, dated and notarized.
- E. Certification letter of the SBLPP regular dealer/supplier, if applicable. If the proposer wants to receive the maximum allowable credit of its expenditures for material(s) or supplies required under this Contract, from SBLPP regular dealers/suppliers, the SBLPP must submit a signed and notarized statement on their letterhead, that they are a regular dealer of the material(s) or supplies.
- F. For Design-Build contracts, the proposer shall submit with its initial Price Proposal a list of

SBLPP-certified firms that it intends to enter into subcontract agreements with for this Contract. If no goal is specified, the proposer may still utilize SBLPPs in the performance of this Contract, the proposer shall submit with its initial Price Proposal a list of those SBLPP-certified firms. The documentation requirements of the solicitation shall be completed and submitted at the time set forth for the submittal of Best and Final Offer (BAFO) to the Authority for any Contract in which an SBLPP goal is applicable or for any Contract in which there was no goal established, but the proposer identified SBLPP-certified firms that it intends to enter into subcontract agreements with in its initial Price Proposal. Any proposer who fails to complete and return the following information, if applicable, with their BAFO Price Proposal may be deemed to be not responsible and may be ineligible for contract award. Proposers that fail to meet the SBLPP goal, if any, and fail to demonstrate a good faith effort and to justify waiver of the SBLPP goal may be deemed to be not responsible and may be ineligible for contract award.

8. CONTRACT ADMINISTRATION REQUIREMENTS:

The following requirements apply after contract award:

- A. The Contractor shall include the following provision in the General Provisions of each subcontract it awards:
“The contractor shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The contractor shall carry out applicable requirements of WMATA’s Small Business & Local Preference Program in the award and administration of operating funded contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in termination of this contract or such other remedy as the Buyer deems appropriate.”
- B. The Contractor shall report on SBLPP performance on the attached (Attachment 6) which shall be submitted monthly with each payment request. Failure to submit these report(s) may result in suspension of contract payments. The contractor shall certify with each payment request that payment has been or will be made to all subcontractors due payment, within ten (10) days after receipt of payment from the Authority for work by that subcontractor. The Contractor shall inform the COR or COTR, with their payment request, of any situation in which scheduled subcontractor payments have not been made and the reason therefore.
The Contractor shall require each subcontractor to complete and forward to the Small Business Coordinator on a monthly basis a “Prompt Payment Report – Subcontractor’s Report (Attachment 7). The subcontractor shall certify that payment has been received.
- C. The Contractor must have the prior written approval of the contracting officer and the DBE office before substitution for an SBLPP subcontractor, regardless of the reason for substitution. Failure to obtain Authority approval could result in the Authority declaring the Contractor ineligible to receive further Authority contracts for three years from the date of the finding.
- D. The contractor shall forward copies of all subcontracts to the SBLPP office at the time of their execution.
- E. If the contracting officer or other delegated authority’s representative determines that the Contractor has failed to comply with this Appendix C, he/she will notify the Contractor of such non-compliance and the action to be taken. The Contractor shall, after receipt of such notice, take corrective action. If the Contractor fails or refuses to comply promptly, the contracting officer or other delegated authority’s representative may issue a “stop work

order” stopping all or part of the work until satisfactory corrective action has been taken. No part of the time lost due to any such stop work order shall be made the subject of claim for extension of time or for excess costs or damages by the Contractor. When the Authority proceeds with such formal actions, it has the burden of proving that the Contractor has not met the requirements of this Appendix, but the Contractor’s failure to meet its Appendix C goal shall shift to it the requirement to come forward with evidence to show that it has met the good faith requirements of this Appendix.

- F. The Contractor agrees to cooperate in any studies or surveys as may be conducted by the Authority which are necessary to determine the extent of the Contractor’s compliance with this Appendix.
- G. The Contractor shall keep records and documents for two years following performance of this Contract to indicate compliance with this Appendix. These records and documents, or copies thereof, shall be made available at reasonable times and places for inspection by any authorized representative of the Authority and will be submitted upon request together with any other compliance information which such representative may require.
- H. If the Authority, has reason to believe that any person or firm has willfully and knowingly provided incorrect information or made false statements regarding the SBLPP Program, the matter shall be referred to WMATA’s DBE office.
- I. Failure by the Contractor to carry out the requirements of this Appendix is a material breach of this Contract, which may result in the termination of this Contract under the Default provision of this Contract or such other remedy as the Authority deems appropriate.
