**Questions and Responses**  
**Waterjet Systems**  
**IFB NO: FQ18203/LP, Amendment Number 001**  
**June 8, 2018**

1. RE: Technical Specifications listed in Part III, Section 6:

Q. Under item "a. Basic System, "there is a requirement for a "tilt system." Please provide additional information on this requirement.

Response: The Tilt System achieve virtually zero taper with most materials. It can position the nozzle at an angle calculated by the software to exactly offset the taper from the abrasive jet. Taper doesn't disappear—it just gets moved to the scrap part of the material, leaving your part with exactly square edges. This is an accessory item and may be purchased together or separately.

Provide pricing for quantity of one each.

2. Q. Item "c. Training" -- is training required for at each location, or is the requirement to train all personnel at one location?

Response: Training is required to be done at both locations.

3. Q. Price Schedule, Line item 16 Training: Training to include five (5) days for Operations and Maintenance training. Do you require 5 days for each system or a total of 5 days for both systems?

3. Response: Five (5) days for each location to include: 3 days for maintenance; 2 days for operations. A total of ten (10) days for both systems

4. Q. Will WMATA be handing the offloading and placement of the systems immediately upon the freight carrier's arrival? Or should we quote rigging services in our offer?

Response: The vendor will be responsible for offloading the machine and setting it in place (see Amendment 001, Revised Price Schedule, Part 1, Line Item No.3)

5. Q. Will WMATA have utilities (electrical, water, air) available within 20 feet of where the machine will be located? Or should we quote this electrical service in our offer?

Response: Yes. Electric, water, and air are available and are within twenty (20) feet. No electrical service bid is required.

**End of Amendment 001**

**REVISED PRICE SCHEDULE SHEET (Amendment 001)**

**DESCRIPTION: Waterjet Systems, Mfr: Omax, P/N 55100** (include: minimum 28 HP pump, variable frequency drive, direct drive pump, minimum 0.65 GPM @ 60,000 PSI, minimum operating efficiency 80%, programmable motorized Z-axis, water level controls for clean submerged cutting, minimum 600 lb. bulk abrasive delivery system, High reliability scissor-style hard plumbing. Minimum 950 hours between maintenance) or equal (Part 1 - Line Item Nos. 1-5).

**Note - Waterjet Systems Accessories [Optional] (Part 2 - Line Item Nos 1-13)**
