

Washington Metropolitan Area Transit Authority

STANDARD TERMS And CONDITIONS

1. AGREEMENT

- a. The work to be performed under this Contract, or materials to be provided, are as described in the Statement of Work (SOW), including any necessary or incidental work, labor, materials, shipping and any authorized expenses. The Contractor agrees to perform in accordance with requirements and terms and conditions set forth in this Contract. In consideration for the Contractor's complete, satisfactory and proper performance of the Contract, WMATA agrees to pay to the Contractor, and the Contractor agrees to accept as full compensation, the sums of money set forth in the Price Schedule at the time and in the manner and upon the terms and conditions set forth in this Contract.

2. ARRANGEMENT OF CONTRACTUAL PROVISIONS

- a. For ease of reference, this Contract is divided into Solicitation Instructions, Special Terms and Conditions and Standard Terms and Conditions (also referred to separately as "clauses") and Federal Terms and Conditions (if applicable), paragraphs and subparagraphs. While the clauses are titled, it is understood that both the use of such titles and the manner and overall arrangement of the Contractual provisions are intended solely for the convenience of the parties and are without independent Contractual or legal significance, other than solely for the order of precedence.

3. ORDER OF PRECEDENCE

- a. Any inconsistency in the Contract shall be resolved by giving precedence to the following order: contract modifications; Federal Terms and Conditions (if any), Special Terms and Conditions; Standard Terms and Conditions; the specifications or SOW; drawings, if any; other documents, exhibits, and attachments generated by WMATA as part of the Contract; the technical proposal, if any, and other Contractor submissions generated as part of the Contract. In the event of a conflict within or between provisions entitled to equal precedence, the more stringent requirement shall apply.
- b. If this Contract is funded, in whole or part, through the Federal Government, all contract terms mandated for inclusion by the Federal Government shall supersede any other conflicting or inconsistent provisions of this Contract.

4. AVAILABILITY OF FUNDS FOR THE NEXT FISCAL YEAR

- a. Funds are not guaranteed for performance under this Contract beyond the current fiscal year that ends on June 30th. WMATA's obligation for performance of this Contract beyond that date is contingent upon the availability of funds from which payment for Contract purposes can be made. WMATA's legal liability for any payment cannot arise for performance under this Contract until funds are made available to the Contracting Officer for performance and until he or she notifies the Contractor of the availability in writing. Any option exercised by WMATA that will

be performed, in whole or in part, in a subsequent fiscal year is subject to availability of funds in that year and will be governed by the terms of this clause.

5. CONTRACTING OFFICER'S TECHNICAL REPRESENTATIVE (COTR)

- a.** The work will be conducted under the Contracting Officer's general directions. Authority will be delegated to the Contracting Officer's Technical Representative (COTR) to take the following actions:
 - i.** Act as the principal point of contact with the Contractor. The COTR will submit a copy of each item of incoming correspondence and a copy of any enclosures to the Contract Administrator;
 - ii.** Approve in writing the Contractor's progress schedule and submittals when required;
 - iii.** Inspect the work for compliance with this Contract;
 - iv.** Review and approve invoices and payment estimates. The COTR will forward invoices and receipts to accounting. The COTR will bring any significant discrepancies in, or disputes concerning, Contractor invoices or payments to the Contracting Officer's attention. The COTR must ensure that the Contractor is not charging for any unauthorized expenses, such as travel or lodging in a firm fixed price contract. In those cases, requiring release of final retained percentages of payment, the COTR will make his or her recommendations to the Contracting Officer in writing;
 - v.** Coordinate correspondence with the Contract Administrator if its importance significantly impacts the Contractual terms and conditions;
 - vi.** Evaluate the Contractor's technical letters, proposals and submissions for the Contracting Officer;
 - vii.** Advise the Contracting Officer of potential problems that may affect Contract performance;
 - viii.** Advise the Small Business Programs Office (SBPO) if Disadvantaged Business Enterprise (DBE), Small Business Enterprise (SBE), or

Minority Business Enterprise (MBE) issue(s) appear that may require investigation.

- ix.** Advise the Contracting Officer whenever the COTR has reason to believe that the Contractual not-to-exceed amount will be exceeded;
- x.** Prepare WMATA's estimate for proposed Contract modifications. Participate in negotiations for modifications;
- xi.** Approve, in writing, the Contractor's progress schedule when required;
- xii.** Receive from the Contractor, monthly, if applicable, DBE status reports and forward them to the SBPO;
- xiii.** Receive from the Contractor certified payroll reports and prepare a log sheet indicating: name of the Contractor and subcontractor; the Contract number; the certified payroll number (number for the payroll for the project starting with Contract number); the timeframe of the payroll period; the statement of compliance date (first page of the report); and the date WMATA received the report;
- xiv.** Maintain a comprehensive file/record of documents and correspondence concerning Contract activities and actions;
- xv.** Provide the Contract Administrator with a written notification after all supplies/services have been received with a statement that the COTR is not aware of any open issues that would preclude closeout of the Contract and that it is ready for closeout. The COTR will return the file, containing all records, correspondence and other documentation to the Contract Administrator;
- xvi.** Execute a standard form containing a detailed performance evaluation of the Contractor. If there are one or more categories in which the Contractor is deemed unsatisfactory, these evaluations must be provided to it for comment;
- xvii.** Provide the Contract Administrator with a written request (and requisition) to exercise any option(s) a minimum of ninety days prior to the time established in this Contract for exercise of the option;
- xviii.** The presence or absence of the COTR or his or her inspectors shall not relieve the Contractor from any requirements of this Contract.
- xix.** The COTR may not re-delegate or sub-delegate his or her authority to act on the Contracting Officer's behalf. If for whatever reason the COTR

is unable or unwilling to fulfill his or her responsibilities under this Contract, only the Contracting Officer can designate a new COTR.

- b. The COTR's name and address will be provided after award.

6. FORCE MAJEURE/EXCUSABLE DELAYS/TIME EXTENSIONS

- a. The term “force majeure” shall mean an unforeseen event or circumstance beyond the control of, and not occasioned by the fault or negligence of the Contractor or the Authority. Neither WMATA nor the Contractor shall be in default because of any failure to perform this contract under its terms, if the failure arises from causes beyond the control and without the fault or negligence of the Contractor or the Authority. Examples of these causes are acts of God; acts of war or insurrection, unusually severe weather, fires, floods, strikes, freight embargoes and other events or circumstance of a like nature. In each instance, the failure to perform must be beyond the control and without the fault or negligence of the party claiming an excusable delay.
- b. Notwithstanding the provisions of the “Liquidated Damages” clause of this Contract (if applicable), if the Contractor is delayed at any time during the performance of this Contract, by the Authority’s negligence or by a force majeure event, then the Contracting Officer shall extend the time for completion and/or the affected delivery date(s) in the following circumstances:
 - i. The cause of the delay arises after Contract award and the Contractor could not have anticipated it by reasonable investigation before Contract award;
 - ii. The Contractor demonstrates to the Contracting Officer that the completion of the work and/or affected deliveries will be actually and necessarily delayed;
 - iii. The delay cannot be avoided or mitigated by the exercise of all reasonable precautions, efforts and measures available to the Contractor, whether before or after the cause of delay; and
 - iv. The Contractor makes a written request and provides other information to the Contracting Officer, as described below.
- c. If the Contractor will be delayed at any time or for any period by two (2) or more of the above-mentioned causes, the Contractor shall not be entitled to a separate extension for each cause but shall be entitled to only one (1) period of extension for the cumulative effects of the delay.
- d. The Contracting Officer may rescind or shorten any extension previously granted, if he or she subsequently determines that any information that the Contractor provided in support of a request for an extension of time was erroneous, if, accurate information would have resulted in a denial of the request for an excusable delay. The Contracting Officer will not rescind or shorten any extension previously granted, if the Contractor acted in reliance upon it and if, in his or her

judgment, such extension was based on information that the Contractor submitted in good faith, even if it is later determined to be erroneous.

- e. The Contractor's request for an extension of time shall be made within ten (10) days after the Contractor knows or should know of any cause for which it may claim an excusable delay. The Contractor's request shall contain any potential basis for an extension of time, describing, as fully as possible, the nature and projected duration of the delay and its effect on the completion of the work identified in the request. Within thirty (30) days after the Contracting Officer's receipt of all such information, he or she shall advise the Contractor of WMATA's decision on the requested extension. Where it is not reasonably practicable for the Contracting Officer to render a decision in the thirty (30) day period, he or she shall, prior to the expiration of such period, advise the Contractor of the approximate date when a decision will be rendered.
- f. In no event shall a delay in performance of the Contract occasioned solely by a force majeure event or the acts or omissions of any party outside of the Contractor's control be the basis for a termination for default pursuant to this Contract. In no event shall a subcontractor at any tier be deemed a party outside of the Contractor's control.

7. WMATA'S DELAY

- a. If the performance of all or any part of this Contract's work is delayed or interrupted in a material manner (1) by the Contracting Officer's act(s) in the administration of this Contract that is not expressly or impliedly authorized or (2) by the Contracting Officer's failure to act within the time specified in this Contract, or within a reasonable time, an adjustment (excluding profit) shall be made for any increase in the cost of contract performance caused by the delay or interruption and the contract shall be modified in writing. Adjustment shall also be made to the delivery or performance dates and any other contractual term or condition affected by the delay or interruption. No adjustment shall be made for any delay or interruption to the extent that performance was or could have been delayed or interrupted by any other cause, including the fault or negligence of the Contractor, an act constituting a force majeure event or for which an adjustment is provided or excluded under any other term or condition of this Contract.
- b. A claim under this clause shall not be allowed (1) for any costs incurred more than 20 days before the Contractor notifies the Contracting Officer in writing of the act or omission involved, and (2) unless the claim, in a sum certain, is asserted in writing as soon as practicable after the termination of the delay or interruption, but not later than the day of final payment under this Contract.
- c. The delay claim shall be accompanied by appropriate documentation, specifically supporting the nature and extent of the claimed impact upon the cost and/or time required for performance. In any instance where it is not possible for the Contractor to fully project such impact within the thirty (30) day period, it shall support the claim with such documentation as is then reasonably available, along with a statement of the anticipated time frame when the Contractor expects to provide the additional materials. The Contracting Officer shall maintain the right throughout the process to request such additional materials as he or she

reasonably requires in consideration of the claim and shall be under no obligation to conclude his or her consideration of the claim prior to review of all relevant materials. Any adjustment to the Contract price pursuant this clause must be determined prior to final payment under this Contract.

8. NOTICE TO WMATA OF LABOR DISPUTES

- a. Whenever the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this Contract, the Contractor shall immediately give notice to the Contracting Officer, including all relevant information with respect thereto.
- b. The Contractor agrees to insert this obligation in any subcontract it issues in relation to this Contract.

9. NOTIFICATION OF BANKRUPTCY OR INSOLVENCY

- a. In the event the Contractor or a major subcontractor enters into proceedings relating to bankruptcy, whether voluntary or involuntary, or becomes insolvent, the Contractor agrees to furnish, by certified mail or electronic commerce method authorized by the Contract, written notification of the bankruptcy or insolvency to the Contracting Officer. This notification shall be furnished within five days of the initiation of the proceedings relating to bankruptcy filing or upon discovery of the insolvency. This notification shall include the date on which the bankruptcy petition was filed, the identity of the court in which the bankruptcy petition was filed, the name and contact information for the Bankruptcy Trustee, a listing of Authority contract numbers and Authority contracting offices for all Authority contracts against which the Contractor asserts final payment has not been made. This obligation remains in effect until final payment under this Contract.

10. INSPECTION OF SERVICES

- a. The Contractor shall maintain an inspection system acceptable to WMATA covering the services under this Contract. The Contractor shall maintain complete records of all inspection work it performs and make them available to WMATA during Contract performance in the manner and in accordance with the time periods set forth in the "Audit and Inspection of Records" clause of this Contract.
- b. WMATA has the right to inspect and test all services provided under this Contract, at all times and places reasonably practicable during the term of this Contract. WMATA shall perform inspections and tests in a manner that will not unduly delay the Contract.
- c. If WMATA performs inspections or tests on the Contractor's or subcontractor's premises, the Contractor shall furnish, and shall require subcontractors to furnish, without cost, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.
- d. If any of the services performed do not conform to the Contract's requirements, WMATA may require the Contractor to perform them again in conformity with the

Contract's requirements, without additional cost. When the defects in performance cannot reasonably be corrected by such further performance, WMATA may:

- i. Direct the Contractor to take necessary action to ensure that future performance conforms to this Contract's requirements; and/or
 - ii. Reduce the Contract price to reflect the reduced value of the services performed.
- e. If the Contractor fails to comply with the provisions of paragraph (d), WMATA may:
 - i. By contract or otherwise, perform the services and charge to the Contractor any cost incurred by WMATA; and/ or
 - ii. In the event that the Contracting Officer deems such failure to comply a material breach, terminate the Contract for default.
- f. Nothing contained herein shall be deemed to preclude the Contracting Officer from reducing the Contract price due to the reduced value of nonconforming services provided to WMATA.

11. INSPECTION OF SUPPLIES

- a. The Contractor shall maintain an inspection system acceptable to WMATA covering supplies under this Contract and shall tender to WMATA for acceptance, only supplies that have been inspected in accordance with this inspection system and that the Contractor finds to be in conformity with this Contract's requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to WMATA during contract performance and thereafter in accordance with the "Audit and Inspection of Records" clause of this Contract. WMATA may perform reviews and evaluations as reasonably necessary to ascertain compliance with this clause. These reviews and evaluations shall be conducted in a manner that will not unduly delay the Contract work. The right of review, whether exercised or not, does not relieve the Contractor of any obligations under this Contract.
- b. WMATA has the right to inspect and test all supplies under this Contract, to the extent practicable, at all places and times, including during the period of manufacturing, and before acceptance. WMATA shall perform inspections and tests in a manner that will not unduly delay the Contract work. WMATA assumes no contractual obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this Contract.
- c. If WMATA performs inspections or tests on the Contractor's or subcontractor's premises, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these tests. Except as otherwise provided in this Contract, WMATA shall bear the expense of Authority inspections or tests made at WMATA's own facilities, provided that the Contractor pays for inspections or tests conducted at its facilities and/or requires subcontractors to pay for

inspections or tests at the subcontractors' facilities. In case of rejection, WMATA shall not be liable for any reduction in the value of inspection or test samples.

- d. When supplies are not ready at the time the Contractor specifies for inspection or testing, the Contracting Officer may charge the Contractor for the additional cost of inspection or testing.
 - i. The Contracting Officer may also charge the Contractor for any additional costs when prior rejection makes reinspection or retesting necessary.
- e. WMATA has the right either to reject or to require correction of nonconforming supplies. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with Contract requirements. WMATA may reject nonconforming supplies with or without disposition instructions.
- f. When inspection occurs on WMATA's premises, the Contractor shall remove supplies rejected or required to be corrected. The Contracting Officer may require or permit correction in place, promptly after notice, by and at the Contractor's expense. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction and shall disclose any prior corrective action taken.
- g. If the Contractor fails to promptly remove, replace, or correct rejected supplies as required by this Contract, WMATA may either (1) by contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor or (2) terminate the contract for default. Unless the Contractor corrects or replaces the supplies within the delivery schedule, the Contracting Officer may require their delivery and make an equitable price reduction. Any disagreement regarding a price reduction shall constitute a dispute, if properly asserted under the Disputes clause.
- h. If this contract provides for the Authority's quality assurance at the source, and if WMATA requests it, the Contractor shall furnish advance notification of the time (i) when the Contractor's inspection or tests will be performed in accordance with the terms and conditions of this Contract and (ii) when the supplies will be ready for the Authority's inspection.
 - i. WMATA's request shall specify the period and method of the advance notification and the WMATA Representative to whom it shall be furnished. Requests shall not require more than 2 workdays of advance notification if WMATA Representative is in residence in the Contractor's plant, nor more than 7 workdays in other instances.

12. ACCEPTANCE OF SUPPLIES

- a. The Contractor is not permitted to ship materials or supplies without first receiving an authorized purchase order. If WMATA receives any supplies without first sending

the Contractor an authorized purchase order, the supplies will be refused without payment and the Contractor shall pay for the return shipping costs.

- b. The Authority shall accept or reject tendered supplies as promptly as practicable after delivery, unless otherwise provided in this Contract. The Authority's failure to inspect and/or accept or reject the supplies shall not relieve the Contractor from responsibility, nor impose liability upon the Authority, for nonconforming supplies.
- c. The Authority's acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in this Contract. In such instances, the Authority, in addition to any other rights and remedies it has under this Contract, at law or in equity, shall have the right:
 - i. To direct the Contractor to correct or replace the defective or nonconforming supplies at the original point of delivery or, if the Contracting Officer determines, at the Contractor's facility, with no increase in Contract price in accordance with a reasonable delivery schedule as the parties may agree. The Contracting Officer may reduce the Contract price, if the Contractor fails to meet such delivery schedule; or
 - ii. Within a reasonable time after the Contractor's receipt of a Notice of Defects or Nonconformance, the Contracting Officer may reduce the Contract price, as is equitable under the circumstances, if he or she elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the costs of transportation.

13. MATERIAL & WORKMANSHIP

- a. Unless this Contract specifies otherwise, all supplies, equipment, material, and articles incorporated into the work covered by this Contract shall be new and of the most suitable grade for the purpose intended. The Contractor represents that any supplies to be provided under this Contract are new (not used or reconditioned, and not of such age or so deteriorated as to impair their usefulness or safety).
- b. If at any time during this Contract's performance, the Contractor believes that furnishing supplies that are not new is in WMATA's best interests, the Contractor shall notify the Contracting Officer immediately, in writing. The Contractor's notice shall include the reasons for the request, along with any proposed price reduction, that WMATA may take, if the Contracting Officer agrees to authorize such supplies. The Contracting Officer's authorization to use such supplies shall be final and binding and not subject to further review pursuant to the "Disputes" clause of this Contract or otherwise.
- c. References in the specifications to equipment, material, articles, or patented processes by trade name, make, or catalog number, shall be regarded as

establishing a standard of quality and shall not be construed as limiting competition. The Contractor may, at its option, propose to use equipment, material, articles, or processes that, in the Contracting Officer's judgment, are equal to that identified in the specifications, unless otherwise expressed in this Contract.

14. CORRECTION OF DEFICIENCIES

- a.** The Contractor must replace materials or correct workmanship not conforming to this Contract's requirements at no additional cost to WMATA. In addition, the Contractor is subject to any liquidated damages specified in this Contract or actual damages that WMATA incurs. If the Contractor fails to correct deficiencies, the Contracting Officer, may take specific action as follows:
 - i.** Replace or correct the item or work at the Contractor's expense. This may be accomplished by award of a new contract or by use of WMATA's own resources.
 - ii.** Accept the items with a reduction in price by formal modification to this Contract. The reduced price will be based upon the item's reasonable value considering the possible cost of correcting it.
 - iii.** Terminate this Contract for default. If the item or work must be re-procured, the Contractor is normally liable for excess costs that WMATA incurs in accordance with the "Termination for Default" clause.

15. FIRST ARTICLE INSPECTION

- a.** The Contractor shall make available or deliver one or more units as specified in the Contract's specifications to WMATA for first article (pre-production) tests at the Contractor's expense. The documentation provided with the unit shall contain this Contract number and the lot/item identification number. The characteristics for the first article inspection and its testing requirements are stated in the Contract's Technical Specifications or Statement of Work.
- b.** Within ten (10) days after WMATA receives or is given access to the first article, or such other time as the parties may agree, the Contracting Officer shall notify the Contractor, in writing of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of this Contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite the reasons for the disapproval.
- c.** If the first article is disapproved, the Contractor, at the COTR's request, shall submit or make available an additional first article for testing. After each request, the Contractor shall make any necessary modifications, or repairs to the first article or select another first article for testing. The Contractor shall pay for all costs related to these tests. The Contractor shall furnish any additional first article under this Contract within the time that the COTR specifies. The Contracting Officer may

make an equitable adjustment to the Contract for any schedule extension related to these tests, at no cost to WMATA.

- d. Notwithstanding (c) above, if the Contractor fails to deliver or make available any first article on time, or if the Contracting Officer disapproves of any first article, the Contractor may be deemed to have failed to make delivery within the meaning of the Default clause of this Contract.
- e. Unless otherwise provided in the Contract, the Contractor:
 - i. May deliver the approved first article as a part of the Contract quantity, if it meets all of the Contract's requirements for acceptance and was not damaged or impaired in testing; and
 - ii. Shall remove and dispose of any first article from WMATA's test facility at the Contractor's expense.
- f. The Contractor is responsible for providing operating and maintenance instructions, spare parts support, and repairs to the first article during any first article test.
- g. WMATA will inspect the first article in accordance with the Contract's requirements. A written report will be forwarded to the Contractor in accordance with (b) above.

16. F.O.B. DESTINATION

- a. Unless otherwise specified, the Contractor shall furnish all supplies to be delivered under this Contract ""F.O.B. Destination."" As used herein, "F.O.B. Destination" means:
 - i. Free of expense to WMATA on board the carrier's conveyance, at a specified delivery point where WMATA's facility (plant, warehouse, store, lot, or other location to which shipment can be made) is located; and
 - ii. Supplies shall be delivered to WMATA's warehouse unloading platform, or receiving dock, at the Contractor's expense. WMATA shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery of the supplies to the destination, unless such charges are caused by WMATA's acts or omissions, acting in its Contractual capacity. If the Contractor uses a rail carrier or freight forwarder for less than full carload shipments, the

Contractor shall assure that the carrier will furnish tailgate delivery, if transfer to truck is required to complete delivery to WMATA.

- b. The Contractor shall:
- i. Pack and mark the shipment to comply with this Contract's specifications;
 - ii. In the absence of specifications, prepare the shipment in conformance with the carrier's requirements;
 - iii. Prepare and distribute commercial bills of lading;
 - iv. Deliver the shipment in good order and condition to the delivery point specified in this Contract;
 - v. Be responsible for any loss of and/or damage to the goods occurring before WMATA's receipt of the shipment at the delivery point specified in this Contract;
 - vi. Furnish a delivery schedule and designate the mode of delivering carrier; and
 - vii. Pay and bear all charges to the specified point of delivery.

17. QUALITY ASSURANCE/QUALITY CONTROL

The Contractor shall be responsible for quality assurance and for assuring that the work conforms to the requirements of this Contract and any policies of WMATA's Office of Quality Assurance, Internal Compliance and Oversight (QICO), if referenced in specifications. The Contractor shall maintain an effective and economical quality control program planned and developed in conjunction with other Contractor functions necessary to satisfy this Contract's requirements. The quality control program shall establish and implement procedures to ensure that only acceptable supplies or services are tendered to WMATA for acceptance and shall demonstrate both recognition of the Contract's quality requirements and an organized approach to satisfying them. The program shall ensure that quality requirements are satisfied throughout all phases of Contract performance, including, as applicable, design development, purchasing, fabrication, processing, assembly, inspection, testing, packaging, delivery, and storage and shall provide for the early detection of actual or potential deficiencies, trends, or conditions that could result in unsatisfactory quality.

18. CHANGE ORDERS

- a. The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, implement change orders, within the general scope of this Contract, including but not limited to one or more of the following:
 - i. Nature and/or extent of services to be performed or supplies to be furnished;
 - ii. Time of performance (i.e., hours of the day, days of the week, etc.); or
 - iii. Place of performance of the services or delivery of the supplies.
- b. If, in the Contracting Officer's judgment, any change causes an increase or decrease in the cost of, or the time required for, the performance of any part of this Contract, whether or not directly changed by the order, he or she shall make an equitable adjustment to the Contract price, the delivery schedule, or both, and shall modify the Contract, in writing, accordingly.
- c. In any instance where the Contractor asserts a right to an adjustment in the Contract price or time required for performance as the result of a change, it must submit a written claim advising WMATA within thirty (30) days from the date of receipt of the written order directing the change. The claim shall be accompanied by appropriate documentation, supporting the nature and extent of the claimed impact upon the Contract price and/or time required for performance. In any instance where it is not reasonably practicable fully project such impact within the thirty (30) day period, the Contractor shall accompany its claim with such supporting documentation that is reasonably available along with a statement of the anticipated time when the Contractor expects to provide the additional materials. The Contracting Officer shall maintain the right throughout the process to request such additional materials as he or she shall reasonably require in consideration of the claim and shall be under no obligation to conclude his or her consideration prior to review of all relevant materials. Any adjustment to this Contract's price pursuant to this clause must be agreed upon or determined prior to final payment.
- d. If the Contractor's proposed price adjustment includes the cost of property rendered obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of property disposition.
- e. Disagreement regarding either party's right to any adjustment in price or time for performance as the result of a change implemented pursuant to this clause shall be subject to adjudication in accordance with the "Disputes" clause of this Contract. Notwithstanding the pendency of any such dispute, the Contractor expressly acknowledges that it shall remain fully obligated to perform the Contract as changed.
- f. The Contractor shall promptly notify the Contracting Officer of matters, whether implemented as change orders or otherwise, that the Contractor believes may reasonably result in either an increase or decrease in the Contract price or the time required for performance of any part of this Contract and shall take action as the

Contracting Officer directs. The Contractor's failure to provide such notification shall constitute a waiver of its right to seek an adjustment to the Contract price or time required for such performance.

- g. In no event shall the Contractor be entitled to payment for change orders, additional or extra supplies or services or other modifications to this Contract, unless the Contracting Officer authorizes it, in writing.

19. PRICING OF ADJUSTMENTS

- a. The parties agree that, notwithstanding any interpretation of contract cost principles to the contrary, WMATA will not be liable for interest, however represented, on or as a part of any claim, request, proposal, or adjustment, including equitable adjustments, whether it arises under the Contract or otherwise.
- b. As part of its proposal for any Contract modification requiring a price adjustment in excess of \$250,000, the Contractor shall submit to the Contracting Officer, cost or pricing data under the conditions described in this paragraph and certify that, to the best of its knowledge and belief, the cost or pricing data submitted is accurate, complete, and current as of the date submitted. At the Contracting Officer's discretion, the Contractor, may be required to submit cost or pricing data for price adjustments less than \$250,000.
- c. The Contractor shall ensure that this clause is included in all subcontracts at any tier, if the value of the subcontracted work exceeds \$250,000.

20. ACCOUNTING AND RECORD KEEPING FOR ADJUSTMENTS

- a. Applicability. This clause applies to any adjustment in the Contract price that the Contractor or WMATA initiates.
- b. Forward Price Adjustments. Unless waived in writing, the Contractor shall furnish to the Contracting Officer, a proposed price adjustment in advance of performance of any work for which the price adjustment is requested. The Contractor shall generate such records as are necessary to substantiate all elements of the proposed adjustment, which records shall be specifically segregated and identified in the Contractor's accounting system as being applicable to the pricing adjustment request.
- c. Post Price Adjustments. This paragraph shall be applicable to price adjustments that either (i) are expected to exceed \$50,000; or (ii) arise in connection with a Contract with a base sum in excess of \$1,000,000. In addition to the records required pursuant to paragraph (b) above, if pricing of an adjustment under this Contract is not agreed upon between the parties prior to the commencement of work related to the pricing adjustment, the Contractor and any subcontractor engaged in such work shall maintain accounts and original cost records specifically segregated and identified by job order or other appropriate accounting categories that the Contracting Officer approves for all incurred, segregable costs related to the work for which the pricing adjustment is requested. The Contractor

shall maintain accounts and records that segregate and account for the costs of all work associated with that part of the Contract for which the pricing adjustment is requested. The Contractor shall allocate the costs so accumulated between: (1) work required under the base Contract; (2) work requested to be reimbursed under the pricing adjustment; and (3) work claimed or determined to be related to other actual or proposed adjustments, including but not limited to, change orders, differing site conditions, and the like. The accounts and records so established shall accumulate such costs under logical costs groups, such as material, labor, equipment, subcontracts, field overhead and the like. The Contractor shall record these costs on a form that the Contracting Officer approves.

- d. Access to Records. As a condition to WMATA's obligation to consider any claim for a potential price adjustment under any provision of this Contract, the Contractor shall grant WMATA access to review and ascertain the validity of the accounting records being maintained for segregation of costs, including base cost records, and to audit any such costs as the Contracting Officer deems appropriate.
- e. Limitation on Price Adjustments. If the Contractor or any subcontractor fails to generate, maintain, or make available any records required under this Contract, in addition to any rights to which WMATA may be entitled, the Contracting Officer shall determine whether such failure is willful, deliberate or otherwise precipitated by the Contractor's bad faith, in which case the Contractor shall not be entitled to any price adjustment for the work in question. Where the Contracting Officer determines that the failure was not the result of the Contractor's bad faith, he or she shall determine the reasonable direct costs of the work for which records are not available, and add a single mark-up for indirect expenses not to exceed ten percent (10%) of the direct costs based on:
 - i. An audit of the Contractor's or subcontractor's records made available to WMATA; and/or
 - ii. WMATA's estimate as the Contracting Officer adopts or modifies.
- f. In no event shall the Contractor and/or subcontractor be allowed any profit on claimed work for which records are not made available in accordance with its obligations under this Contract.
- g. Flow-down clause. The Contractor shall ensure the inclusion of this clause in all subcontracts issued under this Contract, modified as necessary, for proper identification of the contracting parties and the Contracting Officer.

21. BILLING AND PAYMENT

- a. WMATA shall pay and the Contractor shall accept the amounts set forth in the Price Schedule as full compensation for all costs and expenses of completing this Contract, including, but not limited to, all labor and material required to be furnished under this Contract, all overhead, expenses, including any travel expenses authorized in the SOW, fees and profits including the cost of providing storage yards or facilities; all risks and obligations set forth in this Contract; any applicable

fees or taxes; and all expenses due to any unforeseen difficulties encountered in the prosecution of the work.

- b.** Within 30 days of Contract award, the Contractor shall submit a current IRS Form W-9, Request for Taxpayer Identification Number and Certification, through WMATA's Supplier Portal. WMATA will not process payments for Contractor invoices without a valid W-9 form on file.
- c.** Payments will be made following receipt of Form W-9, acceptance of the services or goods to be provided under this Contract, and after receipt and acceptance of a properly completed invoice. Contractors shall email invoices and any supporting documents to apinvoice@wmata.com. Acceptable file formats for invoice and supporting documentation include Adobe PDF, Microsoft Word, and Microsoft Excel. All documents must include the invoice number and the file name.
- d.** Invoices must contain all of the following information to be eligible for payment:

 - i.** The word "Invoice"
 - ii.** Contractor's name;
 - iii.** Unique invoice number;
 - iv.** Invoice date;
 - v.** Payment terms;
 - vi.** Remittance address;
 - vii.** WMATA purchase order number;
 - viii.** For services provided, a description of each service being invoiced;
 - ix.** For all goods provided, a description of each item being invoiced, including item quantity, cost per item and total item cost;
 - x.** Performance period specifying date(s) during which goods or services were rendered;
 - xi.** Total amount invoiced, net of credits and discounts; and
 - xii.** Contact information, including email address and phone number.
- e.** Revised invoices must have a new date, be clearly marked as "Revised," and refer to the invoice it is replacing.
- f.** Credit invoices must clearly be marked as "Credit" and reference the original invoice number. Final invoices shall be marked as "Final."
- g.** At any time, WMATA may specify additional invoice requirements, including prescribed formats or WMATA templates that must accompany the Contractor's documentation.

22. PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA – MODIFICATIONS

If the Contracting Officer determines that any price, including profit or fee, previously negotiated in connection with any modification to this Contract involving changes in cost plus applicable profit in excess of \$250,000 was based upon the Contractor's or subcontractor's cost or pricing data that was not complete, accurate or current, such that the amount WMATA paid to the Contractor for such price adjustment was greater than the amount to which Contractor would have been entitled based upon accurate and complete data, WMATA shall be entitled to an adjustment in an amount equal to such overpayment. WMATA's rights hereunder shall be in addition to any other rights it may have under this Contract, at law or in equity.

23. SUBCONTRACTOR PAYMENTS

- a. The Contractor shall, under this Contract, establish procedures to ensure timely payment of amounts due pursuant to the terms of its subcontracts. The Contractor shall pay each subcontractor for satisfactory performance of its contract, or any billable portion thereof, no later than ten (10) days from the date of the Contractor's receipt of payment from WMATA for work by that subcontractor. The Contractor shall also release, any retention withheld from the subcontractor within ten (10) days of satisfactory completion of all work required by that subcontractor.
- b. The Contractor shall certify on each payment request to WMATA that payment has been or will be made to all subcontractors in accordance with paragraph (a) above. The Contractor shall notify the Contracting Officer with each payment request, of any situation where scheduled subcontractor payments have not been made.
- c. In the event of a claim by any subcontractor that the Contractor has failed to comply with the terms of this clause, the Contractor agrees to fully cooperate in any Authority investigation, and, if deemed appropriate by WMATA, to implement appropriate remedial measures to ensure future compliance.
- d. The Contractor agrees that the Contracting Officer may provide information that he or she deems appropriate in response to inquiries from subcontractors seeking to determine the status of WMATA's payments to the Contractor.
- e. Nothing contained in this clause or elsewhere in this Contract shall create a Contractual relationship between WMATA and any subcontractor, shall make the

subcontractor an intended beneficiary of this Contract or shall alter or affect traditional concepts of privity of contract.

24. GARNISHMENT OF PAYMENTS

Payments under this Contract shall be subject to any garnishment, attachment orders, and/or levies issued pursuant to the laws of the United States, Maryland, Virginia, and the District of Columbia.

25. STOP WORK ORDERS

- a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part of the work for a period of up to ninety (90) days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a "Stop Work Order" ("SWO") issued under this clause. Upon receipt of the SWO, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the SWO during the period of work stoppage. Within a period of ninety (90) days after a SWO is delivered to the Contractor, or within any extension of that period to which the parties agree, the Contracting Officer shall either:
 - i. Cancel the SWO; or
 - ii. Terminate the work covered by the SWO as provided in this Contract, as appropriate.
- b. If a SWO is cancelled or expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment to the delivery schedule or Contract price, or both, and shall modify the Contract in writing if, in his or her judgment:
 - i. The SWO results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this Contract; and
 - ii. The Contractor submits a written claim for such adjustment within thirty (30) days after the end of the period of work stoppage. At the Contracting Officer's discretion, WMATA may act upon any claim submitted at any time before final payment under this Contract.
- c. If a SWO is not cancelled and the work covered by the Contract is terminated for the convenience of WMATA, the Contracting Officer shall allow reasonable costs, if any, resulting from the SWO in arriving at the termination settlement pursuant this Contract.

26. TERMINATION FOR DEFAULT

- a. The Contractor shall be in default if it commits a breach of any of its obligations under this Contract deemed material by the Contracting Officer. In addition to

those instances specifically referred to in this Contract, the Contractor shall be in default in the following circumstances:

- i. It fails to begin, or abandons, the Contract work in accordance with the contractual requirements;
 - ii. It fails to deliver the supplies or perform the services within the time specified in this Contract or any extension that the Contracting Officer approves;
 - iii. It fails to make progress in a manner that the Contracting Officer deems unreasonable that endangers performance of this Contract; or
 - iv. In the Contracting Officer's view, the Contractor is willfully violating this Contract or is not executing it reasonably and in good faith.
- b. In the event of the Contractor's material breach pursuant to paragraph (a), the Contracting Officer is authorized to direct a written notice (a "Notice to Cure") to the Contractor, specifying the nature of the breach and stating that the Contractor has ten (10) days to cure the breach or such additional time as the Contracting Officer authorizes. If the Contractor fails to cure the breach in the time specified in the Notice to Cure, the Contracting Officer may terminate this Contract, in whole or designated part, for default after providing written notice to the Contractor.
- c. Upon receipt of a "Notice of Termination for Default," the Contractor shall immediately cease performance of the work so terminated. WMATA shall have the right to take any action necessary to complete the work, including performing the work itself, or contracting with another party to do so. In the event that WMATA completes the work directly or has a third party complete it, the Contractor shall be liable for the additional costs and expenses necessary to complete it including, without limitation, labor, material costs, plant costs, tooling expenses, and equipment and property costs. WMATA may deduct the costs and expenses so charged and pay them out of any monies otherwise payable to the Contractor. Nothing contained herein shall be deemed to relieve the Contractor of its continuing obligation to perform any portion of this Contract that was not terminated.
- d. The Contracting Officer may, in his or her sole discretion, waive a default by the Contractor, but such waiver shall not be deemed a waiver of any subsequent default.
- e. Upon any termination for default, the Contracting Officer may require the Contractor to transfer title and deliver to WMATA, any completed or partially completed supplies, components (including data and intellectual property) and Contract rights that the Contractor has specifically produced or acquired for the terminated portion of this Contract. At the Contracting Officer's direction, the Contractor shall also protect and preserve property in its possession in which WMATA may have an interest.
- f. Upon any termination for default, WMATA shall pay for supplies delivered and accepted and/or services rendered and accepted in accordance with the terms of

this Contract. WMATA may also compensate the Contractor for actions that it reasonably takes at the Contracting Officer's direction for the protection and preservation of property. WMATA may withhold from these payments any sum that the Contracting Officer determines to be necessary to protect WMATA against loss because of outstanding or claimed liens or pending or anticipated claims under the Contract.

- g.** If, at any time following the Contracting Officer's issuance of a termination for default hereunder, it is determined that the Contractor was not in default or that the default was excusable, the termination shall be converted to a termination for convenience and the rights and obligations of the parties shall be determined in accordance with the "Termination for Convenience" clause of this Contract.
- h.** Any disagreement regarding any issue arising under this clause shall be subject to adjudication in accordance with the "Disputes" clause of this Contract. In no event shall WMATA's issuance of a "Notice to Cure" pursuant to paragraph (b) be the basis of a dispute pursuant to the "Disputes" clause or otherwise be subject to further review under this Contract or otherwise. The pendency of any dispute shall not constitute a basis for the delay or suspension of, or otherwise affect WMATA's right to proceed in accordance with this clause, including without limitation, its right to complete the work or its right to insist that the Contractor complete any portion of the Contract that was not terminated.
- i.** WMATA's rights and remedies in this clause are in addition to any other rights and remedies provided under this Contract, at law or in equity.

27. TERMINATION FOR CONVENIENCE

- a.** The Contracting Officer may terminate this Contract in whole, or in part, if he or she determines that a termination is in WMATA's interest. The Contracting Officer shall terminate by delivering a "Notice of Termination" to the Contractor specifying the extent of termination and its effective date.
- b.** Upon receipt of a Notice of Termination, except as the Contracting Officer otherwise directs, the Contractor shall immediately:

 - i.** Stop work as specified in the Notice of Termination.
 - ii.** Complete performance of the work not terminated.
 - iii.** Place no further subcontracts or orders for materials, supplies, services, or facilities, except as necessary to complete the remaining portion of the Contract.
 - iv.** Terminate all subcontracts to the extent that they relate to the work terminated.
 - v.** Assign to WMATA, as the Contracting Officer directs, all of the Contractor's right(s), title, and interest(s) under the subcontracts terminated. WMATA shall have the right to settle or pay any termination

costs arising out of the subcontracts and have no further liability to the Contractor for the work that was the subject of such subcontracts.

- vi.** With the Contracting Officer's approval, settle all outstanding liabilities and settlement costs arising from the termination of subcontracts.
- vii.** As the Contracting Officer directs, transfer title and deliver to WMATA:

 - 1) Parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated; and
 - 2) The completed or partially completed plans, drawings, information, and other property that would have been required to be furnished to WMATA, if the Contract had been completed.
- viii.** Take any action that may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this Contract that is in the Contractor's possession and in which WMATA has or may acquire an interest.
- ix.** Use its best efforts to sell, as the Contracting Officer authorizes, any property of the types referred to in paragraph (b)(vii). The Contractor is not required to extend credit to any purchaser and may acquire the property under the conditions that the Contracting Officer prescribes. The proceeds of any transfer or disposition will be applied to reduce payments to be made by WMATA under this Contract, credited to the price or cost of the work, or paid in any other manner that the Contracting Officer directs.
- c.** The Contractor shall submit complete termination inventory schedules not later than one hundred twenty (120) days from the effective date of termination, unless the Contracting Officer extends the time in writing.
- d.** As soon as reasonably practicable and not later than twenty (20) business days following WMATA's issuance of a "Notice of Termination" pursuant to paragraph (a), the Contractor shall submit a termination settlement proposal (TSP) to the Contracting Officer in the form that he or she prescribes, detailing the costs to which it asserts entitlement pursuant to this clause. If the Contractor fails to submit the TSP within the time prescribed, the Contracting Officer may determine, on the basis of information available, the amount, if any, due to the Contractor as a result of the termination and shall pay the amount so determined.
- e.** Following submission of the Contractor's TSP pursuant to paragraph (d), the parties shall agree upon the whole, or any part, of the amount to be paid or remaining to be paid as a result of the termination. The amount may include a reasonable allowance for profit on work completed. In no event shall the total amount to be paid to the Contractor pursuant to this clause exceed the total

Contract price as reduced by (1) payments previously made and (2) the Contract price of the remaining work, not terminated.

- f. If the parties disagree on the whole amount to be paid because of the termination, the Contracting Officer shall pay the Contractor the amounts that he or she determines as follows, but without duplication of any amounts agreed upon under paragraph (e):
- i. The Contract price for completed supplies or services that WMATA accepted [or sold or acquired under paragraph (b)(ix)] not previously paid for, adjusted for any savings in freight and other charges.
 - ii. The total of:
 - 1) The costs incurred prior to termination, in the performance of the work terminated, including initial costs and preparatory expenses allocable thereto, but excluding any costs attributable to items compensated or to be paid for as described above.
 - 2) Termination costs under terminated subcontracts that are properly chargeable to the terminated portion of this Contract, if not excluded as described above.
 - 3) A sum, representing profit on the items described in subparagraph (f)(i) that the Contracting Officer determines to be fair and reasonable pursuant to section 49.202 of the Federal Acquisition Regulation (FAR), in effect on the date of this Contract. If it appears that the Contractor would have sustained a loss on the entire Contract had it been completed, the Contracting Officer shall allow no profit under this subparagraph and shall reduce the settlement to reflect the projected rate of loss.
 - iii. The reasonable indirect costs of settlement of the work terminated, including:
 - 1) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of TSPs and supporting data;
 - 2) The termination and settlement of subcontracts (excluding the amount of such settlements); and
 - 3) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory.
 - 4) Except for normal spoilage, and except to the extent that WMATA expressly assumed the risk of loss, the Contracting Officer shall exclude from the amounts

payable to the Contractor under paragraph (f), the fair value, as he or she determines of property that is unavailable or damaged and undeliverable to WMATA or to a third party.

- g.** The cost principles and procedures of FAR Part 31 in effect on the date of this Contract, shall govern all costs claimed, agreed to, or determined under this clause, except that WMATA shall not be obligated to pay interest, however represented, on any claimed costs.

 - i.** The Contractor shall have the right to appeal, under the "Disputes" clause, from the Contracting Officer's determination under paragraphs (d) or (f). The Contractor's failure to submit the TSP within the time provided in paragraph (d), or to timely request an extension thereof, shall constitute a waiver of its right to appeal the Contracting Officer's determination pursuant to the "Disputes" clause or any otherwise applicable Contractual, legal, or equitable remedy.
- h.** In determining any sum due to the Contractor under this clause, there shall be deducted:

 - i.** All unliquidated advances or other payments to the Contractor under the terminated portion of this Contract.
 - ii.** The value, as the Contracting Officer reasonably determines, of any claim that WMATA has against the Contractor under this Contract, including any third-party claim, if the Contracting Officer is not satisfied that sufficient insurance coverage is in place; and
 - iii.** The agreed price for, or the proceeds of sale of, materials, supplies, or other items that the Contractor procured or sold under this clause, not recovered by or credited to WMATA.
- i.** If the Contractor asserts that any partial termination has rendered enforcement of the remainder of this Contract at the remaining Contract price inequitable, the Contractor may file a proposal with the Contracting Officer for an adjustment to the price(s) for the continued portion of this Contract. Such proposal shall be submitted within ninety (90) days from the effective date of termination, unless the Contracting Officer extends it in writing, and shall be accompanied by appropriate supporting documentation.
- j.** The Contractor's responsibilities and obligations under this clause shall remain in full force and effect notwithstanding the pendency of any dispute or other delay relating to determination of the appropriate price adjustment or any other issue arising from the termination for convenience.
- k.** Unless otherwise provided in this Contract, or WMATA's Best Practices Manual (BPM) the Contractor and all subcontractors whose work is encompassed in the termination settlement shall maintain all records and documents relating to the terminated portion of this Contract for three (3) years after final settlement. This includes all books and other evidence bearing on the Contractor's costs and

expenses under this Contract. The Contractor shall make these records and documents available to WMATA, its governing jurisdictions and any other Federal, state, or local entities providing funding for this Contract, and to the U.S. Comptroller General or the agents or representatives of any of them, at the Contractor's office, at all reasonable times, without any direct charge.

28. ASSIGNMENT

- a.** Except as otherwise provided in this clause, the Contractor shall not transfer any of its rights and obligations under this Contract to third parties without the Contracting Officer's prior, written consent. The Contracting Officer may recognize a third party as successor in interest to this Contract in the event of a transfer of all or substantially all of the Contractor's assets, a change in a division of the Contractor involved in the performance of this Contract, or if a parent company provides performance guarantee(s) under this Contract, (i.e., sales of assets, transfer of assets pursuant to merger or consolidation, or incorporation of a proprietorship or partnership). Such recognition shall be in the Contracting Officer's discretion after review of the facts and circumstances surrounding each request. The Contracting Officer, in his or her discretion, may conduct an evaluation of the successor party's capability to perform this Contract in the same manner and to the same extent that he or she conducted a responsibility determination as part of the original solicitation for this Contract. Should the Contracting Officer, for any reason, not recognize a successor in interest, he or she may terminate this Contract.
- b.** Any attempt to transfer by assignment that the Contracting Officer does not first authorize shall constitute a material breach of this Contract and the Contracting Officer may terminate this Contract in accordance with the "Termination for Default" clause set forth in this Contract.
- c.** Nothing contained herein shall be deemed to preclude the Contractor's assignment of claims for monies due or to be become due to it under this Contract to a bank, trust company or other financing institution, including any Federal lending agency, upon written notice of such assignment to the Contracting Officer.

29. DISPUTES

- a.** Any dispute or claim arising out of or relating to this Contract shall be decided by the Contracting Officer, who shall reduce his or her decision to writing and furnish a copy to the Contractor. A final decision by the Contracting Officer shall be conclusive and binding on WMATA.
- b.** The filing of a claim, lawsuit, arbitration or other legal proceeding, does not relieve the parties of their continuing obligations to proceed diligently with the performance of the Contract and in accordance with the Contracting Officer's Final Decision.
- c.** After exhausting all administrative remedies, each party agrees that any suit, action or other legal proceeding arising out of or relating to this Contract shall be brought only in the United States District Court for the District of Columbia, the

United States District Court for the Eastern District of Virginia, Alexandria Division, or in the United States District Court for the District of Maryland, Greenbelt Division.

- d. The parties may mutually agree and consent to final and binding Alternate Dispute Resolution (ADR), including in the Armed Services Board of Contract Appeals, in lieu of judicial review in the United States District Courts as set forth in subsection (c) above.

30. EQUAL EMPLOYMENT OPPORTUNITY REQUIREMENTS FOR CONSTRUCTION CONTRACTS

- a. When undertaking "construction" as recognized by the U.S. Department of Labor (U.S. DOL), the Contractor agrees to comply with U.S. DOL regulations "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," 41 C.F.R. Part 60, and Executive Order 11246 "Equal Employment Opportunity," as amended by Executive Order 11375, "Amending Executive Order 11246, Relating to Equal Employment Opportunity," 42 U.S.C. § 2000 (e) note.

31. INDEMNIFICATION

- a. Contractor shall indemnify, defend and hold harmless WMATA, its Board members, officers, directors, employees and agents, from all liabilities, obligations, damages, penalties, claims, costs, charges and expenses (including reasonable attorneys' fees), of whatsoever kind and nature for injury, including personal injury or death of any person(s) and for loss or damage to any property, including the property of the Contractor and WMATA, occurring in connection with, or in any way arising out of the use, occupancy and performance of the work and/or any acts in connection with activities to be performed under this Contract, unless the loss or damage is due to the sole negligence of WMATA. Nothing in the preceding sentence shall be deemed to relieve Contractor from ultimate liability for any of its obligations under this Contract.
- b. Contractor shall indemnify, defend and hold harmless WMATA, its Board members, officers, directors, employees and agents, against any and all claims, liabilities, losses, demands, damages, penalties, costs, charges, remedial costs, environmental claims, fees or other expenses including attorneys' fees, related to, arising from or attributable to any effluent or other hazardous waste, residue, contaminated soil or other similar material discharged from, removed from, or introduced on, about or under the job site. The foregoing indemnity does not apply to loss or damage due to preexisting conditions, whether known or unknown.
- c. If any action or proceeding relating to this indemnification is brought against WMATA, then upon written notice from WMATA to the Contractor, the Contractor shall, at its own expense, resist or defend such action or proceeding by counsel approved by WMATA in writing. No approval of counsel shall be required where the cause of action is resisted or defended by counsel of any insurance carrier

obligated to resist or defend the same. WMATA reserves the right to use its own counsel under this indemnity at Contractor's sole cost and expense.

- d. Contractor understands and agrees to its responsibility to provide indemnification to WMATA pursuant to this clause. The provision of insurance, while anticipated to provide a funding source for this indemnification, is in addition to any indemnification requirements. The failure of Contractor's insurance to fully fund any indemnification shall not relieve the Contractor of any obligation hereunder.

32. TITLE AND RISK OF LOSS

This clause is only applicable where WMATA acquires title to property through contract performance.

- a. Unless this Contract specifically provides for earlier passage of title to deliverables (including documents, reports, and data) or other items resulting from this Contract, title shall pass to WMATA upon acceptance, regardless of when or where WMATA takes physical possession. Risk of loss, theft, destruction of, or damage to, such deliverables or other items remains with the Contractor, until the transfer of title or at the time when WMATA takes physical possession, whichever is later.
- b. In the event of loss or damage to any deliverable or other item of work, prior to the time when WMATA takes physical possession, the Contractor agrees to repair or replace it as soon as reasonably possible to restore the item to the same condition that pre-existed the loss or damage, in accordance with all requirements of this Contract, without cost to WMATA. Nothing contained herein shall be deemed to require the Contractor's repair or replacement of any loss or damage caused solely by WMATA's acts or omissions.
- c. The following clause applies, if and when the Contractor performs work on its own property or WMATA otherwise furnishes property to the Contractor to perform the work or any part thereof.
 - i. WMATA retains title to all WMATA-furnished property. WMATA furnished property shall not become a fixture or lose its identity as personal property by being attached to any real property. The Contractor shall use WMATA's property, furnished under this Contract, only for performing this Contract, unless the Contracting Officer approves otherwise. Modifications or alterations of WMATA property are prohibited, unless they are (i) reasonable and necessary due to the technical specifications for this Contract; (ii) required for normal maintenance; or (iii) the Contracting Officer authorizes it, in writing. Risk of loss is on the Contractor for WMATA-furnished property, i.e., the Contractor is liable for loss, theft, damage or destruction to WMATA's property while it is in the Contractor's possession or control. The Contractor shall take all reasonable actions necessary to protect WMATA's property from loss, theft, damage or destruction. The Contractor shall do nothing to prejudice WMATA's rights to recover

against third parties for any loss, theft, damage or destruction to WMATA's property.

33. INAPPLICABILITY OF CLAUSES REQUIRING UNAUTHORIZED OBLIGATIONS

- a. Except where the Chief Procurement Officer specifically agrees in writing, when any supply or service acquired under this Contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), Master Agreement, Terms and Conditions or similar legal instrument or agreement, that includes any clause requiring WMATA to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability or that would create an unauthorized obligation, the following shall govern:
 - i. Any such clause is unenforceable against WMATA.
 - ii. Neither WMATA nor any authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind WMATA or any WMATA authorized end user to such clause.
 - iii. Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.
- b. When any supply or service acquired under this Contract is subject to any End Use License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, any clause requiring WMATA to pay pre-judgment interest, taxes to which it is exempt, or automatic fines or penalties is void and without effect.

34. PATENT INDEMNITY

- a. The Contractor shall indemnify WMATA and its Board members, officers, directors, agents and employees against liability, including costs, for infringement of any United States patent (except a patent issued upon an application that is now or may hereafter be withheld from issue pursuant to a Secrecy Order under 35 U.S.C. § 181) arising out of the manufacture or delivery of supplies, the performance of services, or the construction, alteration, modification, or repair of real property under this Contract. If the Contractor is not the original equipment manufacturer (OEM) for a manufactured product purchased under this Contract, it will ensure that the patent holder provides indemnity to WMATA under this clause. This indemnity shall not apply unless the Contractor is informed as soon as practicable by WMATA of the suit or action alleging such infringement and is given such opportunity as is afforded by applicable laws, rules, or regulations to participate in the defense thereof. Such indemnity shall not apply to:
 - i. An infringement resulting from compliance with the Contracting Officer's specific written instructions directing a change in the supplies to be delivered or in the materials or equipment to be used, or directing a

manner or performance of the Contract not normally used by the Contractor;

- ii. An infringement resulting from addition to, or change in, such supplies or components furnished, or construction work performed that was made subsequent to the Contractor's delivery or performance. or
- iii. A claimed infringement that is unreasonably settled without the Contractor's consent, unless required by final decree of a court of competent jurisdiction.

35. SET-OFF

- a. WMATA has common law and equitable rights to set-off. These rights shall include, but are not limited to, WMATA's right to set-off any monies due to the Contractor under this Contract, by any amounts due and owing to WMATA regarding any Contract with WMATA, plus any amounts due and owing to WMATA for any other reason including, without limitation, tax delinquencies, fee delinquencies or monetary penalties relative thereto. WMATA shall exercise its set-off rights in accordance with applicable laws and practices including, in cases of set-off pursuant to an audit, the finalization of such audit by WMATA, its representatives, or the Federal Government.

36. RIGHTS IN TECHNICAL DATA

WMATA does not waive any rights to technical data originating from or developed in the course of performance of this contract.

- a. **"Technical Data"** as the term is used in this Contract includes, but is not limited to all technical writings, computer software, sound recordings, pictorial reproductions, drawings or other graphic representations and works of a technical nature, whether or not copyrighted, that are required pursuant this Contract. The term does not include financial reports, cost analyses, and other information incidental to Contract administration, unless specifically required pursuant to services required by the SOW. "Computer software" as used in this clause means commercial off-the-shelf (COTS) software. specially developed computer software, computer programs, computer data bases, data and documentation thereof.
- b. WMATA and its authorized representatives and agents shall have the right to use, duplicate or disclose technical data in whole or in part in any manner and for any purpose whatsoever, and to permit others to do so, including but not limited to:
 - i. Any manuals, documents, or instructional materials prepared for installation, operation, maintenance or for training purposes;
 - ii. Technical data related to end items, components or processes including those identifying sources, sizes, configurations, mating and attachment characteristics and performance requirements ("form, fit or function" data such as specification control drawings, catalog sheets, and outline drawings). Except for the computer software, it means data identifying

- sources, functional characteristics, and performance requirements, but specifically excludes the source code, algorithms, processes, formulae, and flow charts of the software;
- iii. All other technical data that the Contractor or any Subcontractor has furnished without reservation;
 - iv. Any other specifically described information that the parties have agreed will be furnished without reservation;
 - v. All computer software, whether deemed technical data pursuant to this clause or not, including source code, algorithms, processes, formula and flow charts that the Contractor develops or materially modifies for WMATA or which the Authority is required by Federal law to provide a royalty free, irrevocable and non-exclusive license to the Federal Government.
- c. WMATA shall have the right to use, duplicate, or disclose technical data other than as defined in paragraph (a), in whole or in part. Such technical data shall not, without the written permission of the party furnishing such technical data, be:
- i. Released or disclosed, in whole or in part, outside of WMATA,
 - ii. Used, in whole or in part, by WMATA for manufacturing, or
 - iii. Used by a party other than WMATA except for: (1) emergency repair or overhaul, (2) where the item or process concerned is not otherwise reasonably available to WMATA to enable timely performance of this Contract, or (3) administration of this Contract or the inspection of any products produced under it, where the third party has a written contract with WMATA to perform these efforts. In all cases described in this clause, the release or disclosure outside of WMATA shall be subject to a nondisclosure agreement.
- d. Technical data provided in accordance with this clause shall be identified with a legend that suitably recites any limitation. This clause shall not impair WMATA's right to use similar or identical data acquired from other sources.
- e. Where any item is purchased as a separate line item in this Contract, that purchase includes all integral parts of that item, including any computer software, source code(s), algorithms, processes, formulae, and flow charts. WMATA has full rights to use, duplicate or disclose any or all parts of the item, including computer software, in whole or in part, in any manner and for any purpose whatsoever, and to permit others to do so. Should disclosure of the computer software be required only under this paragraph, then the Contracting Officer may waive the provisions of this paragraph if he or she certifies in writing that the item is commercially

available from multiple sources and will be fully compatible with existing Authority property.

f. Material covered by copyright

- i. The Contractor grants to WMATA, and to its Board members, agents and employees acting within the scope of their official duties, a royalty-free, nonexclusive and irrevocable license for WMATA's purposes to publish, translate, reproduce, deliver, perform, dispose of, all technical data and computer software covered by section (b)(v) whether now or hereafter covered by copyright.
- ii. No such copyrighted matter shall be included in (1) technical data or (2) computer software covered by section (b) (v) without the written permission of the copyright owner.
- iii. The Contractor shall report to WMATA promptly and in reasonable written detail each notice or claim of copyright infringement it receives regarding any technical data or computer software covered by subsection (b)(v) provided to WMATA.

g. Relation to patents: Nothing contained in this clause shall imply a license to the Authority under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Authority under any patent.

- i. Any dispute under this clause shall be subject to the "Disputes" clause of this Contract.

An unequal access to information OCI may exist if in performing a Contract, a Contractor obtains access to non-public information that provides it with a competitive advantage in a later competition. A biased ground rules OCI may exist if the Contractor has a role in setting rules for a source selection in which it will compete. An impaired objectivity OCI may exist if, in performing a Contract, a Contractor is called upon to evaluate an offer from or performance by, itself or an affiliated entity.
- b. In the event that the Contractor believes that it or any of its potential subcontractors may have an OCI, it shall notify the Contracting Officer, in writing, within five (5) working days after it becomes aware of the potential or actual OCI. If the Contracting Officer does not grant a request for an exception, and this Contract is not terminated, the Contractor shall be notified in writing and be given ten (10) days from the date of the written notification to take all necessary actions to comply with this clause.
- f. If the proposed measures are determined to be acceptable to the Contracting Officer, he or she may grant a specific exception to this restriction, when in the Contracting Officer's judgment, the exception will not create a conflict between the Contractor's duties and obligations under this Contract and the duties and

obligations imposed on the Contractor under another contractual or other relationship.

- g. If the Contractor fails to comply with the terms of this clause, and there is no evidence of fraud the Contracting Officer, may withhold payments due under this Contract until such time as the Contractor is in compliance or, should the noncompliance remain uncorrected at the expiration of ten (10) days from the Contracting Officer's written notice as provided in paragraph (b), terminate the contract for default pursuant to this Contract.

Such a prohibited relationship would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm being considered for award. A "financial interest" is the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer(s) or similar interests that might be affected by the particular procurement.
- b. An "apparent" conflict of interest may exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would

A WMATA employee may accept a gift that is less than \$25.00 in value for a particular occasion or \$75.00 in value for a year provided that it is reported to WMATA's Ethics Officer. Personnel involved in the procurement process, however, may not accept anything of value from a Contractor or subcontractor, unless it consists of modest food and refreshments during a working meeting.
- d. Upon the Contractor's request and full disclosure, and for good cause shown, the Contracting Officer with the advice and consent of the Authority's Ethics Officer may, in his or her discretion grant an exception to paragraph (a) above, when the exception will not create a conflict between the Contractor's duties and obligations under this Contract and the duties and obligations imposed on the Contractor under the contractual or other relationship for which the exception is requested.
- e. Unless the Contracting Officer determines otherwise, such excess shall be credited as a reduction in unliquidated performance- based payment balances. The Contracting Officer shall make determinations to retain and the specific amount to be withheld on a case-by-case basis. Such decisions will be based on the Contracting Officer's assessment of past performance and the likelihood that such performance will continue. The amount of retainage withheld

shall not exceed ten percent (10%) of the approved, estimated amount in accordance with the terms of this Contract and may be adjusted as the Contract approaches completion to recognize better than expected performance, the ability to rely on alternative safeguards, and other factors. Upon completion of all Contract requirements, retained amounts shall be promptly returned.

At the end of each calendar quarter, the Contractor shall certify to the Contracting Officer's Technical Representative on a form provided, its compliance with this criminal background screening requirement and confirm that all persons required to be screened passed the contractor's criminal background screening before working on this Contract. For the sole purpose of monitoring the Contractor's compliance, WMATA reserves the right to request additional documents or perform its own criminal background screening of Contractor's

personnel. The Contracting Officer will inform the Contractor, in writing, of any proposed action within a reasonable time before such action is taken.
