Information Items

A. Maintenance Strategy & Long-Range Planning (T. Impastato)

Metro staff provided an overview of Authority's maintenance strategy and long-range planning approach for service adjustments that support critical maintenance activities and capital improvements across the Metro Rail system. The presentation outlined how Metro plans and coordinates maintenance and capital investment work to ensure the continued safety, reliability, and resilience of the rail network. Ms. Impastato also discussed the key factors that inform service adjustment decisions, including customer impacts, community and large-scale events, operational requirements, and opportunities to maximize productivity and project delivery (i.e., winter- and summer-shutdowns).

The meeting was adjourned at 12:12 p.m.
