

Design Challenge

**Create a logical, predictable
order for displaying Metrorail
service**

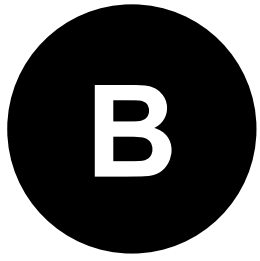

In the order of line opening

● Red	1976
● Blue	1977
● Orange	1978
● Yellow	1983
● Green	1991
● Silver	2014

Color discs are ordered by the year they opened opening.

Matching the built world

Upper Level

● **Red**

Middle Level

● **Yellow**

● **Green**

Lowest Level

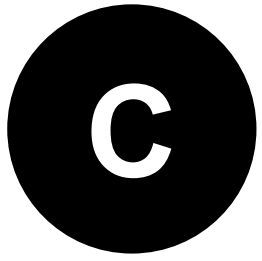

● **Orange**

● **Silver**

● **Blue**

Different lines are dug at specific and consistent depths. For example: Red line is always closest to the surface.

Parody-proof letter order

- Red
- Orange
- Silver
- Blue
- Yellow
- Green

With the introduction of single letter discs,
parody orders are possible, for example:
SOB or **BS**.

Thank you!
