Because of the advanced stage of the building’s construction, the Call to Artists for the Reston Town Center Metrorail Station offers specific information as to the type of, and location for, the artwork at the station. The information offered in the Call and reference to the International Building Code are meant to provide artists with a good understanding of the nature of the project. At this stage, artists can use the image in the PDF version of the Call and look at the Silver Line phase I Wiehle Station that is identical to the future Reston Town Center station. Finalists will be provided with more specific information to refine their proposals.
