Docket B23-03: Proposed FY2024 Operating Budget and Associated Service and Fare Proposals

Overview

WMATA's Proposed FY2024 Operating Budget totals \$2.3 billion, not including operating reimbursables and debt service. The budget is funded by system generated revenues of \$509.2 million, jurisdictional subsidy of \$1.3 billion and \$561.0 million of federal relief. The jurisdictional subsidy consists of \$1.2 billion in contributions adhering to the three percent annual subsidy growth cap and \$24.3 million in legislative exclusions.

The proposed operating budget includes projected ridership at 70% of pre-pandemic levels and would fund continuation of service at or near pre-pandemic levels that became effective in September 2021. The budget funds additional service to be phased in during 2023, Potomac Yard station operations, and equity improvements.

Proposed Metrobus Service Changes

BLADENSBURG ROAD-ANACOSTIA LINE – ROUTE B2

PROPOSED CHANGES TO SERVICE

- Improve service frequency on the B2 Bladensburg Road-Anacostia line to every 12 minutes between 7 am and 9 pm, 7 days a week.

PROPOSED SERVICE FREQUENCIES (minutes)

Weekday Peak	Weekday Off-Peak	Saturday	Sunday	Early Morning-Late Evening (all days)
12	12	12	12	20 to 30

REASON FOR PROPOSED CHANGE

Metrobus Route B2 has consistently performed in the top 15 routes for ridership across the Metrorail system. Much of the existing schedule already meets the Frequent Service Network (FSN) guidelines for 12-minute frequency such that a slight extension of the 12 minute frequency to 9pm on weekdays and an increase in weekend frequencies would allow the route to fully meet those standards. This would bring route B2 into the FSN 12-minute network with other comparable routes based on this ridership level.

PROPOSED CHANGES TO SERVICE

- Restructure Columbia Pike service, with new Route 16M replacing routes 16G and 16H service between Skyline and Pentagon City and be extended to Crystal City. Route 16M would operate every 12 minutes from 7 a.m. to 9 p.m., 7 days a week, and maintaining existing frequencies at all other times. Route 16G service to Arlington Mill would be discontinued.

MT VERNON LINE – ROUTE 11C

PROPOSED CHANGES TO SERVICE

- Restore Route 11Y on the pre-pandemic route alignment between Mt. Vernon and Potomac Park. Buses would operate every 24-30 minutes, northbound in the AM peak period and southbound in the PM peak period. Express fare would be charged on Route 11Y.
- Route 11C between Mt. Vernon and Braddock Road Station would not be restored once the Yellow Line returns to service and Route 11Y would begin service when the free shuttle route, DC3, is discontinued at the end of the Yellow Line Bridge project.

PROPOSED SERVICE FREQUENCIES (minutes)

Weekday Peak	Weekday Off-Peak	Saturday	Sunday	Early Morning-Late Evening (all days)
24-30	n/a	n/a	n/a	n/a

REASON FOR PROPOSED CHANGE

The restructuring of Metrobus Route 11C follows requests from local jurisdictions to continue the connection to Downtown D.C. currently provided during the Yellow Line Bridge Rehabilitation project by the DC3 Shuttle. The DC3 shuttle follows the Metrobus 11Y routing to/from Downtown D.C. Route 11C was suspended during the Yellow Line Bridge project to allocate those buses and operators to the DC3 shuttle.

Proposed Fare Changes

1. Simplify Metrorail fare structure

The FY2024 budget proposes consolidating the Metrorail weekday structures (peak and off-peak) into a single structure with a base fare of \$2 and maximum fare of \$6.50. The mileage charge would be standardized at \$0.40 (incurred after traveling over three miles). The proposal maintains the flat \$2 weekend and late-night (after 9:30 p.m.) fare.

2. Pass Products

Additional monthly unlimited pass options (priced at \$200 and \$208) would be added to reflect the proposed increase in the maximum fare (from \$6.00 to \$6.50). One-, three-, and seven-day unlimited pass prices would not be affected. The seven-day short-trip pass price would not change, but the product would be adjusted to cover trips up to \$4 (from \$3.85).

3. Launch low-income fare discount program

The proposed low-income fare program would provide a 50 percent discount on fares on Metrorail and Metrobus for customers enrolled in the Supplemental Nutrition Assistance Program (SNAP). Customers would have the option to enroll online and have the discount applied virtually to their existing SmarTrip card or receive assistance to enroll in person.

Metro for D.C. Amendment Act of 2021

The Council of the District of Columbia passed the “Metro for D.C. Amendment Act of 2021” on December 20, 2022. Pending Mayoral approval and Congressional review, the Act directs the District to enter into a fare buydown agreement with Metro to provide no-cost Metrobus transportation within the District of Columbia, and daily 24-hour Metrobus service for the 12-minute Frequent Service Network within the District of Columbia.

(1) Fare Buy-Down for District of Columbia Metrobus Services

Implement a fare buy-down agreement with the District of Columbia to offer bus service at no charge to customers within the District of Columbia.

(2) District of Columbia All-Night Bus Service

PROPOSED CHANGES TO SERVICE

- Extend span of service on 13 Metrobus routes in the District of Columbia to extend through the overnight hours and provide a 24/7 network of bus routes in D.C.
- The following routes would have their span of service expanded with 20-minute headways through the overnight hours:
 - 32
 - 33
 - 52
 - 70
 - 90
 - A6
 - A8
 - B2
 - H4
 - S2
 - V2
 - W4
 - X2
- Additionally, the above routes would have their frequencies adjusted to match a minimum of 20-minute headways across the entire 24-hour period.

REASON FOR PROPOSED CHANGE

On December 6th, 2022, the D.C. Council passed the “Metro for D.C.” bill on a vote of 13-0. The bill included two major elements: first, a fare buydown for Metrobus fares for trips originating in DC; second, a measure to fund overnight bus service on a network of routes throughout the District. To meet these measures, WMATA is proposing a network of 13 Metrobus routes that would run 20-minute service in the overnight hours (typically 1 or 2 am until around 5am) and adjust any other headways to ensure a 20-minute minimum headway across the entire 24-hour service day.
