In Case You Missed It: Better Bus Updates to the Board

Next Up in November: The 2025 Network

### **October 2024 Better Bus Updates**

On October 10, we provided an update to the Metro Board of Directors Safety & Operations Committee on the Better Bus Network Redesign. The presentation included a summary of this past spring's public and stakeholder engagement on the proposed 2025 Better Bus Network, how feedback from the public and stakeholders is leading to revisions to the 2025 Better Bus Network, and next steps for the project.

## **Next Up in November: Your New Network!**

We've been hard at work reviewing the thousands of comments we received online and at Discovery Days, pop-up events, and Public Hearings this past spring and summer—and we're almost done!

Next month, we will share the revised 2025 Network with the Board for final approval and adoption, which incorporates some adjustments based on your feedback. You'll be able to see how and why we updated the 2025 Network and learn about next steps for rolling out the new network.

Once approved, Metro will begin implementing the network in summer 2025.

***Stay tuned! Look out for more exciting updates on the 2025 Network right here in the Better Bus Dispatch.***
