Using your input, we've developed the proposed 2025 Better Bus Network that represents Metro's commitment to improving service and connections using the resources we have today.

What Could Change

The proposed 2025 Network includes:

- A network of bus routes that better connect the region
- Improved service, especially during evenings and on weekends
- New route names
- More efficient bus stop spacing

Developing the Network

In spring 2023, Metro asked you to share your thoughts on a draft Visionary Network and how it might affect you and our entire region. Thousands of you—our customers, community members, advocates, bus operators, employees, and elected officials—told us what you thought online and at more than 60 events. We used that input to develop the proposed 2025 Network that we're sharing today.

Visit wmata.com/betterbus to learn more and discover your new route.

PROPOSED 2025 BETTER BUS NETWORK AT A GLANCE

30-minute or better service during rush hours on most routes

Prioritizes service in Equity Focus Communities

Service and route names that are easier to understand

Direct, frequent routes

Connects customers to key destinations and transit hubs

More service during evenings and weekends

Public feedback will be used to revise the 2025 Better Bus Network and will be provided to Metro's Board of Directors in fall 2024 as part of the final decision-making process. Once approved, Metro will begin implementing the network in summer 2025.

Public participation is solicited without regard to race, color, national origin, age, gender, religion, disability, or family status. To request special accommodations under the Americans with Disabilities Act, American Sign Language (ASL), or other language interpretation services (free of charge), contact the Office of the Board Secretary at (202) 962-2511 (TTY: (202) 962-2033) or send a message to speak@wmata.com as soon as possible, so Metro can make the necessary arrangements before the Public Hearing date.
