

Rockville Canopy Replacement Project Customer Experience Improvements

In addition to the brand new canopy that will protect customers from the elements at Rockville Station, customer improvements will also be installed to bring a higher level of safety, convenience and communication.

Improved lighting

- Brighter LED lighting
- Lower energy consumption and maintenance costs

New Passenger Information Displays (PIDS)

- 55-inch digital screens on pylons
- Train arrival times will always be visible and service alerts will scroll along the bottom
- Four new screens under the canopy

New PSA speakers

- Higher quality and clearer audio announcements

New CCTV cameras

- Upgraded, modern technology
