Circulation Diagrams
Before proceeding with construction, clearances less than 12 inches, whichever is the start of excavation, must be determined. If clearances are less than 12 inches, contact "Miss Utility" at 1-800-257-7777, 48 hours prior to excavation. Existing utilities and utility crossings by digging test pits by hand, well in advance of the start of excavation. If necessary, revisions to this plan may require revisions to this plan.
