

# Touch less. Metro more.

Use mobile payment  
on Metro

That's doing our part.

As weather turns warmer, Metro is ready for you. Whether you're planning a day trip or Metro is a part of your regular commute, here are a few of the precautions we have in place so you can ride confident.

## Face Coverings Optional

You are not required to wear a face covering when you ride Metro, but you're still welcome to do so.

## Hand Sanitizing Stations

You'll now find hand sanitizing stations throughout the system

## Deep Cleaning

Using advanced hospital-grade cleaner, we're scrubbing down trains and buses every night.

## Real-Time Crowding Information

Using their smartphones, riders can access crowdedness estimates of trains and buses from the WMATA website and participating apps.

## Air Filtration

New air filtration systems on buses, trains and in stations circulate fresh air from outside every three minutes.

## Route Restoration

Restoration of certain routes, expansion of late-night service and more frequent buses along selected routes gives riders greater flexibility.
