

Platform Improvement Project Summer 2020

PROJECT OVERVIEW

Metro's Platform Improvement Project is dedicated to making platforms safer and more accessible for all customers. As part of this multiyear project, Metro is rebuilding deteriorating platforms at 20 outdoor Metrorail stations and upgrading stations with new customer experience improvements. Phase I of the project was completed in 2019, with six stations successfully reconstructed on the Blue and Yellow lines in Virginia.

STATION CLOSURES

Beginning Sunday, August 16:

- Silver Line stations west of Ballston-MU will reopen for rail service.
- West Falls Church will reopen for rail service.
- Vienna, Dunn Loring and East Falls Church will remain closed through Monday, Sept. 7.

RAIL SERVICE INFORMATION

Beginning Sunday, August 16:

- Silver Line service will resume.
- All Orange Line trains will begin/end at West Falls Church.
- Orange and Silver Line trains will pass through East Falls Church, which is closed to customers.

between impacted stations

METRO'S CAPITAL PROGRAM

Metro is investing in system safety, reliability and the region's economy through its 10-year, \$15 billion capital program. For the first time in Metro's history, the capital program is bolstered by dedicated funding from Maryland, Virginia and the District of Columbia to improve the customer experience and keep the region's infrastructure in a state

of good repair. The Platform Improvement Project is one of many initiatives funded by the capital program, along with efforts that invest in railcars, buses, stations, tracks, tunnels, bridges, signals, communications, facilities and passenger information systems.
