## WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY QUARTERLY FINANCIAL REPORT FY2015 – Q4 April – June 2015

# **Operating and Capital Budget Summaries**

### **OPERATING BUDGET SUMMARY**

Metro finished FY2015 with a positive net operating position of \$24.0 million. Total annual operating revenues were \$907.2 million, a negative variance to budget of \$38.9 million. Total operating expenses for the year were \$1,661.2 million, which was \$93.6 million below total adopted operating expenses, and which represents a net positive variance of \$62.9 million after accounting for the planned transfer of \$30.7 million of eligible preventive maintenance (PM) expenses. As committed by management at the beginning of the fiscal year, Metro has sufficient operating surplus to repay the prior year (FY2014) operating deficit of \$17.5 million.<sup>1</sup>

The positive net operating position is a result of cost-saving efforts undertaken by management as well as the transfer of certain eligible expenses to designated projects in the Capital Improvement Program (CIP). As in previous years, the FY2015 operating budget included the planned funding of \$30.7 million of eligible PM activities with Federal Transit Administration (FTA) capital grant funds, and these labor and fringe expenses were transferred from the operating expense budget to CIP0142 and CIP0143 for Metrorail and Metrobus, respectively. In addition, certain other capital-eligible expenses for labor and parts were identified in the operating budget and transferred to appropriate capital projects. The remaining favorability in operating expense was due to savings relative to budget in Salaries/Wages, Services, and Fuel, Propulsion, and Utilities. These savings were largely a result of the implementation of cost containment strategies.

FY2015 revenue was below budget in passenger fares (Metrorail and Metrobus) and parking fees, which tracked with overall below-budget ridership performance. This negative performance was slightly offset by growth in MetroAccess fare revenue and by non-passenger revenues. Total passenger fares and parking fees were \$839.8 million for the year. This represents an increase of \$39.1 million or 4.9 percent over the same period last year, primarily as a result of the fare increase instituted at the beginning of the fiscal year, but it was \$56.5 million below budget as a result of below-forecast rail and bus ridership.

Non-passenger revenues were above budget by \$17.6 million or 35 percent due in part to FY2015 SmarTrip<sup>®</sup> card sales and one-time revenues from insurance settlements and asset sales. These combined revenues in the amount of \$907.2 million constitute a \$38.9 million revenue shortfall when compared with an FY2015 budget of \$946 million.

<sup>&</sup>lt;sup>1</sup> In September 2015, WMATA staff presented unaudited figures to the Finance & Administration Committee showing a preliminary year-end net position of \$20.6 million. Following the completion of the FY2015 External Audit, the final year-end net position was confirmed at \$24.0 million as a result of adjustments to both expenses and revenues.

1) FY2015 expense budget of \$1,724 million includes \$30.7 million credit for eligible preventive maintenance expenses supported by FTA grants in the capital budget.

As noted above, Metro ended FY2014 with an operating deficit of \$17.5 million. At the outset of the fiscal year, management committed that Metro would end FY2015 with an operating surplus sufficient to repay that deficit. Based on the final, audited financial results that are presented in this report, the year-end positive net position of \$24.0 million will be sufficient to repay the prior year deficit, leaving a remaining surplus of \$6.5 million.

| Item                          | Year-End Total |
|-------------------------------|----------------|
| Operating Revenue             | \$907.2        |
| Jurisdictional Billed Subsidy | \$779.3        |
| Application of FY2013 Surplus | \$20.0         |
| Operating Expenses            | (\$1,661.2)    |
| Debt Service                  | (\$21.3)       |
| FY2015 Net Operating Position | \$24.0         |
| Repayment of FY2014 Deficit   | (\$17.5)       |
| Remaining FY2015 Surplus      | \$6.5          |

### **Ridership and Revenue**

Ridership and revenue performance compared to budget for FY2015 is summarized in the table below.

| FY2015 Ridersh      | nip and Revenue       | Through Q4    |               |                     |
|---------------------|-----------------------|---------------|---------------|---------------------|
| Mode                | Measure               | Budget        | Actual        | Variance            |
| Rail                | Ridership             | 223 million   | 206 million   | $\overline{\nabla}$ |
| Raii                | Revenue               | \$672 million | \$627 million | $\mathbf{\nabla}$   |
| Bus                 | -                     | 139 million   | 133 million   | $\mathbf{r}$        |
| Dus                 | Revenue               |               | \$146 million | $\mathbf{Q}$        |
| Access              | Ridership             | 2.12 million  | 2.24 million  | 企                   |
| ALLESS              | Revenue               | \$8.0 million | \$9.0 million | 企                   |
| Parking             | Revenue               | \$48 million  | \$47 million  | $\mathbf{Q}$        |
| Non-<br>Passenger * | Revenue               | \$50 million  | \$67 million  | 企                   |
| * includes advert   | tising, fiber optics, | leases, etc.  |               |                     |

Total transit ridership in FY2015 on all modes was 341.5 million trips, an increase of 0.9 million or 0.3 percent over the previous year. However, this was 22.6 million or 6.2 percent below total budgeted trips.

Metrorail ridership for FY2015 was 206.4 million, an increase of 2.3 million over FY2014, but a negative variance of 16.5 million compared to budget. The general trend of lower average weekday rail ridership has continued, with fewer weekdays reaching a ridership total of 750,000 or more, and more days falling below 700,000. This ridership drop-off is due in part to the reduction in the federal transit benefit, as well as reduced overall employment and economic growth in the region. Lower gasoline prices may also be having an impact at the margin, especially for riders making longer commute trips and those who park-and-ride (a group which overlaps substantially with the riders most impacted by the federal transit subsidy reduction). After ramping up during the first half of FY2015 following the opening of the new

service, ridership at Silver Line stations has plateaued, and ridership at the western end of the Orange Line has fallen as riders have shifted to the Silver Line.

Metrobus ridership was 132.9 million in FY2015, down 1.5 million compared to FY2014, but down 6.2 million compared to budget. Despite continued growth on the K9 and X2 routes, among other major routes, Metrobus ridership struggled to overcome poor weather in the third quarter. MetroAccess ridership of 2.2 million was an increase of 111,000 over last year and 115,000 over budget. Utilization of the TransportDC taxi pilot program continues to ramp up, with trips carried reaching a new monthly high of over 6,000 in June 2015.

Non-passenger revenues finished FY2015 with a positive variance to budget of \$17.6 million. Advertising revenues exceeded forecast by \$2.4 million or 12 percent, while joint development and fiber optic revenues fell short of budget by \$0.8 million and \$0.6 million respectively. Most of the positive variance in non-passenger revenues was due to one-time sources – \$3.8 million for an insurance settlement, \$4.5 million from SmarTrip<sup>®</sup> card sales, and \$4.1 million from the prior year closure of the Southeastern bus garage that was originally booked to deferred revenue and was recognized this year.

### **Operating Expenses**

Total FY2015 operating expenses were favorable to budget by \$93.6 million or 5.3 percent before accounting for the planned transfer of PM expenses. Total annual expenses were \$1,661.2 million, an increase of \$23.9 million or 1.5 percent over the same period last year.

#### Labor

Total FY2015 Personnel expenses (including Salary/Wages, Overtime, and Fringe) of \$1,212.3 million were favorable to budget by \$59.6 million or 4.7 percent, and FY2015 expenses were 1.6 percent higher than FY2014.

Total Salary/Wage expenses of \$736.3 million were below budget by \$50.7 million or 6.4 percent. This was the result of a 5.0 percent vacancy rate that was driven in part by a hiring freeze and by intentional delays in hiring non-essential, non-safety sensitive positions, which were implemented as part of management's cost reduction strategy. An additional positive result was obtained in overtime, where total FY2015 overtime expenses of \$69.1 million were under budget by \$5.6 million or 7.5 percent and were \$9.0 million less than the same period last year. The overtime favorability was driven by active oversight by management, implemented as part of the cost reduction strategy. In addition, an increase in salaries and wages for non-represented employees was granted during the fiscal year, and retroactive payments totaling \$1.5 million were incurred in December 2014, which offset some of the favorability.

The FY2015 annual fringe benefit expenses were \$3.3 million under budget primarily due to vacancies, the movement of preventive maintenance labor and fringe from operating to capital, and the Board's decision to table the establishment of the OPEB Trust. These budget-favorable changes were partially offset by unfavorable pension expense resulting from an increase in WMATA's required Local 689 pension contribution (per the independent actuary's determination) as well as unfavorable healthcare expenses which resulted from a 689 healthcare credit that was recognized in FY2014, but budgeted in FY2015. The \$4.0 million OPEB Trust contribution was accrued during the year in anticipation of the expense, but was reversed at year-end when creation and funding of the Trust was not approved, and therefore the associated contribution expense was not incurred.

#### Non-Labor

FY2015 total non-personnel expenses of \$448.9 million were under budget by \$34.0 million. Fuel, Power and Utilities were under budget by \$20.2 million for the year mainly due to hedging practices, and lower-than-projected rates, and volume consumption.

Commodity hedging instruments are utilized to give WMATA increased budget stability for consumed commodities (such as diesel fuel) that represent a significant portion of the Authority's operating expenses. WMATA does not enter into these agreements for speculative purposes. The FY2015 favorability was mainly due to savings from lowerthan-budgeted rates for diesel, propulsion and utilities which resulted from favorable hedges and fixed price contracts; to lower-than-budgeted consumption of propulsion, electricity and natural gas; a CNG tax credit; and savings on lubricants and other items. The diesel hedge rate was \$2.87 per gallon in comparison to the actual diesel rate of approximately \$2.44 per gallon. The FY2016 Budget for Fuel and Power has been reduced versus the FY2015 budget commensurate with actual consumption.

Services were \$20.5 million favorable to budget for FY2015. Operations experienced service delays in escalator step fabrication, hand rail repair work, and TRST rail grinding. Metro implemented steps to contain costs by leveraging internal resources, utilized only the base portion of the Close Call contract in FY2015, and reduced utilization of professional services such as safety and environmental consulting. Favorability is also attributable to reduced SmarTrip® card purchase expenses and the outcome of Regional Software Maintenance Agreement (RSMA) contract negotiations. Some of the favorability was offset, however, by increased expenses associated with growing paratransit ridership. Paratransit-related Services expenses were \$4.0 million (4.4 percent) over budget in FY2015.

FY2015 Materials & Supplies expenses of \$96.6 million exceeded budget by \$7.7 million due mainly to parts utilized in the repair and maintenance projects, specifically for parts to support railcar overhaul.

#### CAPITAL PROGRAM

#### Sources of Funds

Metro's FY2015 Capital Program was supported by Federal funds, state and local contributions, and other sources, which include real estate and insurance proceeds. Federal funds include Passenger Rail Investment and Improvement Act of 2008 (PRIIA), 5307/5340 Urbanized Area Formula Program, 5337 State of Good Repair Formula Program, and 5339 Bus and Bus Facilities Formula Program.

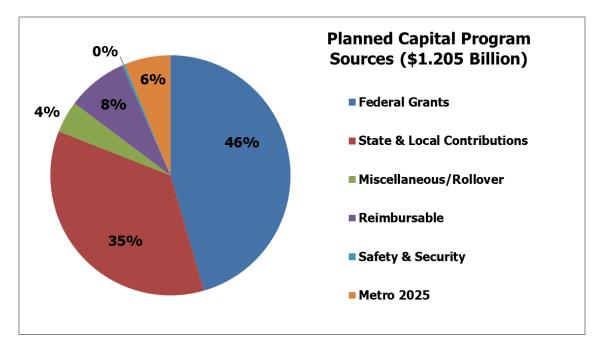

For FY2015, the total planned sources of funds were \$1.205 billion, which included \$1.102 billion for the Capital Improvement Program (CIP), \$4.2 million for the Security program and \$98.5 million for the Reimbursable program. Through the end of the fourth quarter, Metro received \$369 million from Federal reimbursements<sup>2</sup> and \$428 million from State and Local contributions, which includes \$75 million of contributions for Metro 2025 investments.

Metro received \$369 million in FTA grant reimbursements during FY2015 through FTA's restricted drawdown process. Metro submitted applications for all of its Federal formula and PRIIA grants at the end of the second quarter. These grants, with a total Federal value of \$749 million, have all been awarded. Metro continues to work with the FTA to obtain reimbursements of the federal share of capital expenses incurred to date.

The Board closed WMATA's Transit Infrastructure Improvement Fund (TIIF) program effective February 28, 2015. Net fourth quarter TIIF receipts totaled \$175,000 and expenses for the quarter were \$161,900. Total life-to-date funding as of June 30, 2015, was \$139.6 million. Per Board direction, all future joint development funds that would have previously gone to the TIIF will be available to support projects in the Capital Improvement Program.

<sup>&</sup>lt;sup>2</sup> FY2015 FTA grants reimbursements total includes reimbursements for both current and prior year expenses.

### Uses of Funds

For FY2015, the total budgeted capital investment was \$1.205 billion, including \$1.102 billion for the CIP, \$4.2 million for the Security program and \$98.5 million for the Reimbursable program. Through the end of the fiscal year, Metro expended \$714 million in the CIP.<sup>3</sup> The appendices to this report include budget, expenditure, and obligation data for each capital project.

| Capital Program Spending         | FY 2015 Year-to-Date  |          |            |  |  |  |  |  |

| Total \$                         | 1,205                 | \$ 780   | \$ 422     |  |  |  |  |  |

(1) The Security program capital budget of \$4.2 million was funded by unexpended grant funds from FY2014. Of this amount, \$1.0 million was spent in FY2015 and no further expenditures are anticipated. The Safety and Security grants have expired, the remaining \$3.2 million has been de-obligated, and these grants have been closed. The budget in these projects will be reduced to equal the final expenditure totals.

In FY2015, Metro invested \$714 million of capital funds to advance important safety related initiatives and rebuild and maintain the system in a state of good repair, which represents 65 percent of the \$1.1 billion capital total budget authority for FY2015. Metro's capital program performance was negatively impacted by a series of key projects that did not advance on schedule relative to forecast, including Cinder Bed Road Bus Facility (\$13.1 million under budget), Andrews Federal Campus Bus Facility (\$8.8 million), Bus Replacement (\$53.0 million), Railcar Replacement (\$44.2 million) and the New Electronic Payments Program (\$11.2 million). The revised delivery schedules for these projects and the resulting impact on forecasted expenditures are reflected in the FY2016 budget that was approved by the Board in May 2015. Total

<sup>&</sup>lt;sup>3</sup> In September 2015, WMATA staff presented unaudited figures to the Finance & Administration Committee showing preliminary year-end CIP expenditures of \$717 million. Following the completion of the FY2015 External Audit, final year-end CIP expenditures were confirmed at \$714 million as a result of adjustments to reported spending.

investment was also reduced due a management decision to slow spending on targeted projects. This slowdown was in response to grant reimbursement concerns associated with the manual drawdown restriction resulting from the FTA's Financial Management Oversight (FMO) report and findings.

### **Capital Project Highlights**

### Vehicles

Metro operates and maintains a fleet of approximately 1,500 buses, each with a 15year useful life. In order to insure a modern fleet operating within its useful life, Metro combines an effective rehabilitation program with an aggressive replacement program replacing approximately 100 buses each year. The baseline FY2015 bus replacement plan called for the replacement of 154 buses, including 74 vehicles that were originally contracted for in FY2014 but not received. However, due to the acquisition of Metro's bus supplier by another company, and resulting FTA documentation requirements, the bus acquisition project was delayed in FY2015. The delay negatively impacted planned expenditures on the project. This issue has since been resolved, and the replacement buses are back on schedule for delivery in FY2016. Metro is planning to take delivery of 168 buses in FY2016 which will get the bus replacement program back on cycle.

The MetroAccess fleet, which included 600 vehicles through FY2014, was expanded to 650 vehicles at the beginning of FY2015 in order to meet customer demand. In FY2015, WMATA anticipated purchasing up to 150 MetroAccess vehicles. Through June, WMATA has received and placed into service 120 MetroAccess vehicles. The 30 vehicles that were not delivered are part of separate procurement to pilot a new type of vehicle for MetroAccess, and these vehicles are now planned to be delivered in FY2016.

The delivery of the 7000 series railcars slated to replace the 1000 series cars was scheduled to begin in the fourth quarter of FY2015, but was delayed. Due to the supplier's manufacturing issues, and inefficiencies in the commissioning process, the delivery and acceptance of the vehicles was several months behind schedule. As a result, none of the 1000 series replacement railcars had been delivered as of June 2015, and FY2015 expenditures were therefore significantly below budget.

#### Maintenance Facilities

Metro is replacing its existing 90-year-old bus garage at Southern Avenue with a new Leadership in Energy and Environmental Design (LEED) Silver facility at Andrews Federal Center. The new facility will hold 175 buses and will include a heavy repair and overhaul facility. The FY2015 plan for this project included permitting, completion of design, mobilization, site prep and the start of construction. Due to delays in the permitting process this project underspent in FY2015 relative to budget. However, as

of Q1 FY2016, all permitting matters had been settled and the contractor had commenced construction activities.

Metro is also replacing another bus garage that has been in service beyond its useful life (the Royal Street garage in Old Town Alexandria) with a new garage at Cinder Bed Road. This garage will also be a LEED Silver facility and will hold 160 buses. Like the Andrews Federal Center project, Cinder Bed Road also faced issues in the permitting process that resulted in a reduced delivery for FY2015. These issues have been resolved, and the project is in the early stages of construction.

#### **Passenger Facilities**

Metro currently has 315 elevators and 613 escalators in its system, each with a 25-30 year useful life. Metro has an aggressive rehabilitation, modernization, and replacement program that includes code and safety upgrades and energy saving devices. For FY2015, the plan includes the rehabilitation of 29 escalators and the replacement of twelve escalators. As of the end of the fourth quarter, 28 escalators have been rehabilitated, modernized, and returned to service, and one remained in progress. All twelve planned escalator replacements have been completed and returned to service; one additional escalator added to the plan remains in progress. All 15 of the planned elevators have been rehabilitated, modernized, and returned to service; one additional elevator added to the plan remains in progress.

| Project                                  | Planned | Completed | In Progress |
|--|---------|-----------|-------------|
| CIP0072 – Elevator<br>Rehabilitation     | 15      | 15        | 1           |
| CIP0073 –<br>Escalator<br>Rehabilitation | 29      | 28        | 1           |
| CIP0185 –<br>Escalator<br>Replacement    | 12      | 12        | 1           |

Metro currently has 91 stations in Virginia, Maryland, and the District of Columbia. The Station Rehabilitation Program rehabilitates 24 stations (12 full rehabs and 12 mini rehabs) each year. Under this program, each station receives a full rehabilitation every seven years and a minor rehabilitation every third or fourth year after a major rehab; restoring the appearance to its original character, preserving the asset, and helping to extend its useful life.

The FY2015 plan includes twelve full station and twelve mini station rehabilitations. As of the end of June, all twelve of the full station rehabilitations, and all twelve of the mini station rehabilitations, have been completed.

#### Track and Structures Maintenance

The following is a list of Track and Structures maintenance projects performed through the fourth quarter, by Rail line.

#### 💿 <u>Red Line</u>

- Rail tie and insulator renewal between Shady Grove and Twinbrook
- Fence and light pole replacement between Judiciary Square and Rhode Island Avenue
- Communication cable and light pole replacement between NoMa-Gallaudet and Fort Totten
- Rail tie, fastener and insulator renewal between Silver Spring and Forest Glen
- Rail tie and insulator renewal, joint elimination and communication cable replacement between Fort Totten and Forest Glen
- Rail fastener renewal between Takoma and Forest Glen
- Railcar testing and acceptance of our new fleet of 7000-series railcars between Twinbrook and Shady Grove
- Grout pad, rail tie and insulator renewal, joint elimination and communication cable replacement between Friendship Heights and Grosvenor
- Light pole installation and track joint elimination between NoMa-Gallaudet and Rhode Island Ave
- Rail tie renewal between Rhode Island Ave and Fort Totten
- Cable replacement and rail tie renewal between Rhode Island Avenue and Silver Spring stations
- Track, rail tie, insulator renewal & joint elimination between Medical Center & Grosvenor and Takoma & Forest Glen
- Floating slab renewal between Van Ness & Friendship Heights, lighting upgrades and fence replacement between NoMa-Gallaudet & Rhode Island Ave
- Joint elimination, rail, tie and insulator renewal between Friendship Heights & Medical Center, between Dupont Circle & Rhode Island Avenue, and between Fort Totten & Wheaton stations
- Rail tie renewal between Grosvenor & Twinbrook
- Electrical upgrades in preparation for 8-car trains included the completion of a tie breaker at Dupont Circle; in progress were a second tie breaker at Metro Center and a substation upgrade at Glenmont
- Rehabilitation of floating concrete slabs and joint elimination for a safer, smoother ride between Friendship Heights & Van Ness
- Delivery and installation of new entrance escalator at Bethesda
- Switch Replacement, joint elimination, track fastener and insulator renewal between Medical Center & Grosvenor and Silver Spring & Forrest Glen
- Ballast, track fastener and insulator renewal and joint elimination between Twinbrook & Shady Grove and between Judiciary Square & Rhode Island Avenue.

• Grout pad rehabilitation, ballast, track fastener and insulator renewal between Medical Center & Grosvenor and between Rhode Island Avenue & Takoma.

#### Blue and Orange Lines

- Rail fastener renewal between Foggy Bottom and Clarendon
- Rail fastener renewal between Foggy Bottom and Arlington Cemetery, switch replacement preparation between Addison Road and Morgan Boulevard
- Platform rehabilitation, joint elimination, grout pad replacement, track fastener, rail tie and insulator renewal, and communications upgrades between Stadium-Armory and Cheverly
- Rail joint elimination and fence replacement between Braddock Road and Van Dorn Street; switch replacement preparation, tunnel inspection and repair between Benning Road and Capitol Heights
- Tunnel inspection and repair between Stadium-Armory and Addison Road
- Rail fastener, insulator and grout pad renewal between Pentagon City and Ronald Reagan Washington National Airport
- Rail tie, fastener and insulator renewal between East Falls Church and Vienna
- Platform rehabilitation, rail tie, fastener, insulator and grout pad renewal, joint elimination and communications upgrades between Stadium-Armory and New Carrollton
- Fence installation, lighting upgrades and rail renewal between Braddock Road and Van Dorn Street
- Rail tie, fastener, and joint elimination between Cheverly and New Carrollton
- Rail tie, fastener, insulator and grout pad renewal between Braddock Road & Van Dorn Street
- Rail tie, fastener, insulator, grout pad renewal between Cheverly and New Carrollton
- Platform rehabilitation, rail tie, fastener, insulator, grout pad renewal, communications upgrades and emergency call box installation between Stadium-Armory and Cheverly
- NTSB recommended track circuit replacement, joint elimination, rail, tie and cover board renewal between West Falls Church and Vienna.
- Rail, tie and insulator renewal between Franconia-Springfield and Van Dorn Street
- Platform rehabilitation and emergency call box installation for a safer ride between Stadium-Armory and Cheverly and between Smithsonian & Federal Center SW
- Emergency call box and cable rehabilitation for a safer ride between Foggy Bottom & Clarendon and Foggy Bottom & Arlington Cemetery
- Rail fastener renewal and joint elimination for a safer, smoother ride between Clarendon & Ballston
- NTSB-recommended track circuit module replacement

- Emergency call box rehabilitation, joint elimination, and rail & fastener renewal between Eastern Market and Stadium-Armory
- Rail renewal between Reagan National Airport and Pentagon stations
- NTSB-recommended track circuit module replacement between King Street-Old Town and Van Dorn Street
- Joint elimination, rail, tie and insulator renewal between Stadium-Armory and Addison Road stations
- Switch replacement, joint elimination, track fastener and insulator renewal between Medical Center & Grosvenor and between Silver Spring & Forest Glen.
- Rail replacement, joint elimination, tie, track fastener, and insulator renewal between Braddock Road and Reagan National Airport
- Platform rehabilitation, joint elimination, grout pad replacement, track fastener and insulator renewal between Stadium-Armory and Cheverly
- Emergency call box installation, rail tie and insulator renewal between Foggy Bottom and Clarendon
- Emergency call box installation, fastener, rail tie and insulator renewal between Cheverly and New Carrollton
- Fastener, rail, tie and insulator renewal between Stadium-Armory and Cheverly
- Joint elimination, floating slab and third rail renewal between Clarendon & Foggy Bottom

### Green and <u>9 Yellow Lines</u>

- Construction of a new test track between Prince George's Plaza and Greenbelt to accept the new fleet of 7000-series railcars
- Rail tie, fastener and insulator renewal and joint elimination between Prince George's Plaza and Greenbelt
- Joint elimination, rail tie, fastener, insulator and grout pad renewal between Braddock Road & Huntington
- Annual inspection of the Yellow Line bridge over the Potomac River
- NTSB-recommended track circuit replacement, rail renewal and joint elimination between Southern Ave and Branch Ave stations
- Rail joint elimination between L'Enfant Plaza and Navy Yard for a smoother ride
- NTSB-recommended track circuit replacement between King Street-Old Town and Huntington stations
- Rail renewal between Reagan National Airport and Pentagon stations
- Joint elimination, track fastener and insulator renewal between L'Enfant Plaza & Navy Yard stations and between Anacostia & Southern Avenue stations
- Joint elimination, leak mitigation, track fastener and insulator renewal for a safer ride between L'Enfant Plaza & Pentagon City and L'Enfant Plaza & Navy Yard-Ballpark
- Joint elimination between Georgia Ave-Petworth and U Street stations

- Rail replacement, joint elimination, track fastener, tie and insulator renewal between Braddock Road and Reagan National Airport
- Landscape work will cause Yellow Line trains to share one track at Huntington station
- Rail tie and insulator replacement between Naylor Road & Branch Avenue stations
- Ballast work, fastener, rail tie & insulator renewal between Prince George's Plaza & Greenbelt and between Naylor Road & Branch Avenue

Detail of specific Track and Structures deliverables:

#### **OUTSTANDING DEBT AND CASH MANAGEMENT**

Metro's outstanding debt as of June 30, 2015 was \$566.2 million, as shown in the table below. This includes amounts borrowed through lines of credit in accordance with the mechanisms put in place to provide Metro flexibility in managing its short-term operating and capital cash flows.

During FY2014, the availability on the lines of credit was increased from \$150.0 million to \$302.5 million. As of September 30, 2014, the lines of credit were fully drawn to support the cash flow needs of the capital program. During June 2015, balances on the Wells Fargo (1) and U.S. Bank lines of credit were reduced by \$63.75 million and \$20 million, respectively.

A one year Grant Anticipation Note (GAN) in the amount of \$200 million was issued in October 2014 to meet the near-term cash flow needs of the capital program as a result of delays related to Federal Transit Administration (FTA) grant reimbursements. WMATA began making prepayments on the GAN in May 2015 under the optional principal prepayment feature which became effective in April. As of October 31, the outstanding balance on the GAN was paid in full.

|                               | June 30, 2015                             |                        |               |

1) Negative Expended amount is due to credits posted in FY2015 to correct expenses in prior years.

2) Budget adjustment pending.

Definitions Budget: The current fiscal year's total planned expenses. Obligated: The portion of the current fiscal year's budget committed for payment against awarded contracts, plus any unspent budgeted labor cost. Expended: The actual expenses paid or accrued to date in the current fiscal year. Unexpended: The difference between Budgeted and Expended amounts to date in the current fiscal year.
